

Who is CareATC?

We are pleased to welcome CareATC as the HealthyMe clinic administrator beginning July 1, 2026. This transition reflects the County's ongoing commitment to providing high-quality, convenient, and accessible healthcare services for employees and their families.

General Information

CareATC began as a TPA pilot program to help employers reduce high claim costs in 1998. CareATC was officially founded in 2000 and began offering customizable on-site primary care clinics. CareATC opened its first shared-site clinic on August 1, 2010 in Tulsa, Oklahoma, and in 2015 became the first on-site clinic provider to receive AAAHC Network Accreditation.

CareATC has maintained a strong presence in this region since 2010. They currently manage 17 health centers in the Greater Salt Lake Valley area.

CareATC's Stated Mission

“Our mission is to create healthier, happier lives by engaging members early and consistently in their health behaviors and outcomes. We focus on supporting individuals across every phase of their health journey through preventive care, early identification and diagnosis of acute and chronic conditions, and expanded support and resources for patients managing complex health needs”.
