Footnote:

Note for tax rates: Tax rates shown are based on 2025 taxable values and are only placeholders. Actual tax rates will be set in June of 2026.

Note for Funds 412 and 485: Salt Lake County Municipal Building Authority (MBA) is a blended component unit, and is, in substance, part of the primary government's operations, even though it is a legally separate entity. MBA is a blended component unit because the governing board is the same as the County and County management has operational responsibility for this component unit.

Note for Fund 350: Salt Lake County Redevelopment Agency (RDA) is a blended component unit, and is, in substance, part of the primary government's operations, even though it is a legally separate entity. RDA is a blended component unit because the governing board is the same as the County and County management has operational responsibility for this component unit.

Footnote:

Note for Fund 726: The County is a 25% partner and Salt Lake City/Redevelopment Agency of Salt Lake City is a 75% partner in the Utah Performing Arts Center Agency (UPACA), a joint venture. The purpose of this joint venture is to provide for the acquisition, construction, ownership, operation, maintenance, and improvement of the Eccles Theater in downtown Salt Lake City. The County provides operational, accounting, and other services for UPACA.

Note for Fund 730: The County is an equal partner with Salt Lake City in the Salt Lake Valley Solid Waste Management Facility (the City/County Landfill), a joint venture. The purpose of this joint venture is to provide solid waste management and disposal services. The County provides operational, accounting, and other services for the City/County Landfill.

Revenue Budget
2026 Mayor Proposed Budget

Footnote:

In an effort to improve clarity and comparability the revenue figures in this report exclude prior year fund balances that are considered available sources of revenue because they can be found in other sections of this budget document. This report also excludes Other Financing Sources, Transfers In, and recategorizing fund balances from restricted/committed/assigned to unassigned. Within this budget document, please see the Fund Summary report for prior year fund balances, fund unrestrictions, and the Other Financing Sources and Transfers reports for additional information. Please note that prior budget documents included beginning fund balances and unrestrictions in the budget columns of the revenue report.

TOTAL FOR ALL SALT LAKE COUNTY BONDS							\$ 360,593,000	\$ 37,885,000	\$ 14,175,516	\$ 52,060,516	\$ 322,708,000

⁽¹⁾ A portion of the 2020 Sales Tax Revenue bonds were reduced due to a cash defeasance of Shelter the Homeless projects on August 1, 2022.

⁽²⁾ Final 2025 revenue and capacity figures are not yet available, so 2024 figures were used to estimate remaining capacity

⁽³⁾ In February 2022, the County entered into forward purchase agreements to issue the following bonds:

1. Sales Tax Revenue Bonds, Series 2024A, with aggregate principal of \$19,655,000 for the purpose of refunding the 2014 Sales Tax Revenue Bonds.
2. GO Refunding Bonds Series 2025A, with aggregate principal of \$13,908,000 for the purpose of refunding the General Obligation Bonds, Series 2015B.

⁽⁴⁾ New issue on September 11, 2025 for the purpose of retrofit, renovation, and remodel projects for a new County Government Center, and various other capital improvement program projects.

2025 TOTAL REWARDS ANNUAL REPORT

Prepared by:

Sharon Roux, MPA

Julene Elgueta

Elaine Schurter-Sullivan

Director, Human Resources

Manager, Compensation

Manager, Employee Benefits

Table of Contents

Section 1:	Introduction
Section 2:	Healthcare Cost Drivers
Section 3:	Strategy and 5-Year Goals
Section 4:	2026 Renewals and Funding Recommendations
Section 5:	Compensation Philosophy and Guiding Principles
Section 6:	Attracting, Motivating, and Retaining Employees
Section 7:	Market Compensation Data
Section 8:	Conclusion

Section 1: Introduction

Total Rewards Philosophy

The Human Resources Division strives to provide employees with compensation and benefits programs that reflect both competitive market practices and fiscal responsibility. Our Total Rewards philosophy is designed to attract, motivate, and retain quality employees who can support our various agencies in serving the residents of Salt Lake County. We recognize that our benefits package not only assists in this effort but conveys the County's commitment to the health and stability of employees and their families – today and for the future.

Section 2: Healthcare Cost Drivers

As we examine the cost of offering healthcare, we must consider several factors, including:

- Industry trends
- Medical and prescription drug costs

Industry Trends and Service Costs

The Kaiser Family Foundation prepared a brief on how medical inflation compares to the rest of the economy. Their reporting showed that the growing cost of medical care outpaced the overall inflation rate in the past year with these increases primarily attributed to utilization of high-priced drugs as well as general market factors, such as increasing labor costs and inflation. Their analysis of the ACA Marketplace providers showed an average 18% increase in rates for next year, an 11-point increase over last year.

PwC provided similar reporting in their evaluation of cost trends for 2026¹, showing that costs across group healthcare are expected to be higher. Like Kaiser they also attribute overall inflation and prescription drug spending key reasons for rising costs.

¹ [PwC – Medical Cost Trend: Behind the Numbers 2025](#)

Data provided by GBS Benefits, the County's benefits consultant, predicts a 9.5% increase across their book of business for the same period.

Salt Lake County Utilization

Of greatest impact to the County's health plan costs is its actual utilization. Overall, our costs were down in some significant areas.

- Fewer large claimants with an increase in reimbursements from our reinsurer
- Types of care which cost the most (Cancer, GI, Pregnancy, Trauma/accidents)

While these claims have an impact on our total expenses, it is worth noting that a group of the County's size will predictably have several large claimants each year, and as a self-funded plan, carries a reinsurance policy which reimburses the expenses paid on individual claims of over \$350,000.

Section 3: Strategy and 5-Year Goals

Strategy Tenets and Overarching Goals

We created a strategy and goals to carry us through 2027. We considered the Mayor's 4 Pillars of Inclusive Growth, Smart Government, Safe & Healthy People, and Improve the Standard of Living for Those Left Behind. We also looked to Human Resources' mission statement and vision:

HR MISSION

We provide a foundation to continuously improve the experience of those whose service enhances life in our communities.

HR VISION

Building a high-performing workforce committed to sustaining our thriving community

From this, we established three tenets upon which we would build our strategy and goals:

01

Utilize data-driven resources and tools to reduce the costs of healthcare and other benefits.

02

Attract and retain talent by offering a robust, relevant, and accessible benefits package

03

Develop programs that support employees' physical, emotional, and financial health

With these tenets in place, we thoughtfully selected the following overarching 5-Year Goals:

01 REDUCE COSTS

- Reduce overall Rx drug costs by 20%
- Maintain YOY increases of <10%
- Eliminate County risk through enhanced compliance processes.

02 ATTRACT & RETAIN

- Attract and retain talent by offering a robust, relevant, and accessible benefits package

03 DRIVE ENGAGEMENT

- Develop programs that support employees' physical, emotional, and financial health

Annual Goals and Objectives

The benefits team has identified several projects and tasks necessary to successfully achieving our overarching 5-year goals. The following list and considerations may change or adapt as we see success or incorporate new County initiatives but provides us with guidelines moving forward.

Annual Goals & Objectives	2023	2024	2025	2026	2027
Review self-funded plan documents & SPD language					
Unify language for compliance & consistency across all plans					
Review processes for funding and reserves (w/ Mayor's Finance)					
Execute Canadian Home Delivery program for all members					
Execute Specialty Pharmacy Carve-out (SelectHealth only)					
Adopt Patient Rx Assistance services (SelectHealth)					
Develop PBM requirements & Rx carve-out plan design					
Pharmacy Benefit Manager RFP & Selection					
PBM implementation and ongoing management					
Conduct 2024-26 Rx cost savings analysis and ROI					
Evaluate all areas of Benefits spending, identify/eliminate excess					
Review <i>HealthyMe</i> clinic access and billing processes					
Conduct <i>HealthyMe</i> ROI and need analysis ahead of 2026 RFP					
Incorporate regular health plan dependent audits					
Direct external benefits benchmark study					
Perform regular employee benefits satisfaction surveys					
Participate in regular surveys in exchange for results (i.e., WTW)					
Recommend annual changes to align with market findings					
Collaborate with Talent Acquisition team in County-marketing					

Conduct Onsite Daycare ROI and need analysis										
Develop inclusive caregiver resources (child- to eldercare needs)										
Create health plan data repository (Deerwalk)										
Utilize data findings to determine disease management focus										
Collaborate with Healthy Lifestyles on data-based EE education										
Evaluate external resources to support target populations										

Cost Saving Considerations

Many of our goals target cost savings. We have taken steps toward these goals by adding two prescription drug savings tools in 2024. Implementing these savings programs has proven effective throughout 2024 and 2025 to control the cost of our pharmacy spend for specialty drugs and brand-name medications. **Specialty drugs** are high-cost prescriptions medications used to treat complex, chronic conditions like cancer, rheumatoid arthritis, plaque psoriasis and multiple sclerosis. **Brand-name only** medications are drugs that do not have a generic equivalent available in pharmacies. There is no cost to members to participate as normal copayments are waived.

2025 Savings Successes

Savings from GBS Rx drug programs are **\$1.86M through July 31*** compared to \$1.88M over all of 2024

2025 Target: \$3M saved through December 31

2023 Benefits Strategy included a goal to reduce County Rx costs by 20%

2024 over 2023 decreased 14%

2025 costs through July are down 24% over 2023

Audit efforts identified several dependents ineligible for medical and prompted review of claims

New programming will allow for validation of new hires as well as QLEs, starting in November

Projected Benefits Strategy Activities – 2026

- HealthyMe clinic RFP – Armed with analysis performed in 2025, we will conduct an RFP process to review the market for an onsite clinic provider to continue existing medical and mental health services.
- Identify County-specific health trends through claims data as well as gaps in preventive care activities. Collaborate with Employee Wellness on employee education.
- Continue to explore solutions for employee childcare needs. The County's purchase of the New Campus provided the ability to assume the contract of the childcare provider, La Petite Academy, to continue providing childcare in the New Campus location. This location, as well as other La Petite Academy locations along the Wasatch Front, is now available to County employees at a 10% discount. An RFP for a childcare provider will be conducted in 2026 to ensure we continue to provide the best service at the best cost.

Section 4: 2025 Renewals and Funding Recommendations

Rate calculations were prepared with assistance from GBS Benefits, the consulting firm contracted to assist the Benefits team. Combining projected claims costs with fixed administrative fees, anticipated rebates, assumed trend, and accumulated reserves from lower claims in 2025, we recommend a funding increase of only 3.5%, which is significantly less than national trends.

In an effort to continue providing benefits that attract and retain employees, the County is adding In Vitro Fertilization (IVF) to the medical plan and will pilot the program in 2026. Multiple employees have inquired about adding this benefit and adding this will be a differentiator in our package compared to most other employers in our market. In fact, Mercer reports that less than half of large employers provide IVF services.² The County will mirror the State of Utah's pilot plan to add this benefit, initially capping the benefit at \$4000 which is the same as the current adoption benefit. Additionally, the benefit is limited to a single embryo implant, reducing complication costs. The projected cost to the County in 2026 is \$26,301. The County will monitor utilization throughout 2026 and use that data to determine continuation of the program.

The following tables summarize our recommendations of which plans to renew or enhance for 2026.

Benefit	Recommendations	YOY Increase
Medical	- Increase annual funding - Increase applied across County, Active & retiree costs. *NEW BENEFIT* - In Vitro Fertilization	3.5%
Onsite Clinic	- No change to plan design or funding.	0%
Health Savings	- No change to \$600 Employee/\$1200 Family funding.	0%
Dental	- No change to rates, design, or funding.	0%
EAP	- No change to offered benefit.	6%
Basic Life (plus, AD&D and Line of Duty)	- No change to offered benefit or rate for 2026	\$0
Long Term Disability	- No change to offered benefit or rate for 2026.	0%

Benefit	Recommendations
Vision	No change to employee-paid benefit
Flexible Spending Accounts	No change to employee-paid benefit
Voluntary Life and AD&D	Continue to offer employee-paid benefit.
Short Term Disability	Continue to offer employee-paid benefit.
Voluntary Insurance	New Vendors providing comparable or better coverage at comparable or better costs: - Auto & Home - Accident - Critical Illness - Hospital Indemnity - Identity Theft - Legal - Pet Insurance - Student Loan Assistance
Retirement	No change to offered benefit
Employee Discount at County Facilities*	No change to offered benefit
UTA Discounts*	No change to offered benefit
Employee Wellness*	No change to offered benefit

Tuition Reimbursement**	No change to offered benefit

**Benefit administered outside of HR/Benefits Department; **Benefit administered within HR/Learning & Development*

Section 5: Compensation Philosophy and Guiding Principles

Salt Lake County Compensation Philosophy

Salt Lake County's Total Compensation Philosophy is to attract, motivate and retain quality employees who support the County mission of providing high quality, cost-effective public services. The County believes in a transparent approach to compensation where the goal is to compete in comparable markets for high-performing employees who recognize that public service has rewards beyond base salary. Salt Lake County strives to provide employees with competitive compensation and benefits that reflect current market practices and are fiscally responsible. Employees enjoy a superior work culture, career development and growth opportunities along with the satisfaction of serving the public.

Guiding Principles

1. Salt Lake County competes with a mix of public and private sector organizations and recognizes that geographic wage differentials and areas of expertise may impact the market for talent.
2. Salt Lake County aims to provide a compensation program that incorporates civil service protections as defined by state statutes.
3. A transparent approach to compensation will help achieve a culture of excellence.
4. Rewarding employee achievements, developing employee talent, and fostering career progression reinforces a productive work climate and the County's core values.

Section 6: Attracting, Motivating, and Retaining Employees

Labor Market

Unemployment in Utah remains lower than the national average, at 3.3% vs. 4.3% as of August 2025. Holding steady, last year at the same time, the rate was 3.3%. The number of qualified applicants for County positions continued to increase for the second year, netting 20% more applicants in 2025. This has helped reduce the time it takes to fill positions by 2 days. Additionally, several agencies are fully or very nearly fully staffed such as Fleet, IT and the District Attorney's office.

Mercer reports that the national average voluntary turnover rate declined from 15% to 13% in 2025.³ Salt Lake County voluntary turnover is holding steady, projected to end the year at 9.4%, the same as in 2024.

Section 7: Market Compensation Data

To determine the relationship of Salt Lake County, pay rates compared to the external market, multiple types of market data were utilized.

³ [Mercer 2025 US Turnover Survey](#)

Based on structure midpoint comparison, a designator of above, at, or below market was assigned to each job classification. These designators were then assigned to corresponding merit positions at Salt Lake County.

The overall comparison of market alignment for the County in relation to market data was calculated utilizing the individual market midpoints for each classification reviewed. The market midpoints were compared to each position of the corresponding County classification, providing a result of market alignment.

In 2024, the market pricing project established a strong foundation to support continued progress in 2025 and beyond. The annual objective is to review approximately one-third (33%) of all merit classifications each year, in collaboration with agencies, to confirm that job descriptions are accurate and comprehensive. Following this review, market analyses are conducted, and recommendations for adjustments are made as part of the annual budget process. In 2025, 29% of classifications were completed, and efforts are underway to ensure the remaining 4% are finalized in 2026, in addition to the regularly scheduled 33% review cycle.

Market Comparison

Utilizing an in-house tool, the Salt Lake County Compensation team has either priced or aged data for 100% of merit jobs. The market midpoint for each classification is determined by collecting data from multiple sources representing both private and public sectors. Job Classifications that are unique to the public sector may use only government entities, while classifications that are found in both public and private sectors may utilize private sector data more heavily. Job descriptions are closely reviewed and only jobs that are sufficiently aligned in essential functions are utilized. Adjustments may be made to individual data points to ensure alignment of minimum qualifications, education requirements, and geographic differentials if needed. This thorough analysis allows for an accurate market rate comparison and can be refreshed when new data is available. The following sources are utilized in determining market midpoints in-house:

Published Surveys

Pay Increases for largest Cities
Effective July 1, 2025

Sworn Personnel Market Analysis

Specific analysis was also conducted in collaboration with the Sheriff's office based on the following legislative intent added on November 26, 2024.

It is the intent of the Salt Lake County Council that Human Resources and other relevant county staff identify pay options for sworn officers that account for differences in training and certification requirements and the county's ability to attract and retain. The options shall include creating separate pay plans as well as evaluating changes in the 2.75% grade-and-step differentials used in the current sworn officers' pay plan. The process and steps needed to affect these changes shall be included as an essential portion of this initiative.

The results of the market analysis and review of internal agency structure, job functions and certification requirements informed the recommendations.

Pay Recommendations

In order to maintain our competitive market position and retain our existing employees, the following recommendations were created.

Base Pay

2026

Recommendations

- Moves entire structure to keep pace with external market
- Moves employees through the grade to manage compression

Merit, Time Limited, Appointed

- 1.25% Structure Adjustment
- 2.0% Grade Progression Increase
 - 1% lump sum for those at grade max
- Grade increase for 9 classifications below market

Sworn

- 1.25% Structure Adjustment
- 2.75% Step
 - 1% lump sum for those at grade max
- Grade increase for 2 classifications below market

5

For both sworn and non-sworn jobs found significantly below market, a grade increase was proposed to bring those specific jobs and employees within those jobs to meet the market rate.

Classification Code	Job Title	Current Grade	Proposed New Grade	# Positions
358	Printer	TRD010	TRD011	1

Total Number of Positions				27

Job Title	Current Grade	Proposed Grade
PSB Deputy	14	16
Jail Deputy	18	19

Section 8: Conclusion

Our Total Rewards strategy continues to balance fiscal responsibility with our commitment to offering competitive and sustainable benefits. As healthcare costs remain one of the most significant cost drivers, we continue to monitor utilization trends, vendor performance, and market shifts to identify opportunities for cost containment without compromising quality and to add benefits that enhance our employee's well-being.

Looking ahead, our focus is on maintaining affordability, enhancing employee well-being, and aligning benefits with our organizational values and talent goals. The benefit cost increase of 3.5% and the 3.25% (non-sworn) and 4% (sworn) pay increases reflect our ongoing efforts to provide meaningful, market-aligned rewards that attract, engage, and retain a high-performing workforce.

Through thoughtful planning, proactive management of cost trends, and a continued focus on total employee value, we are positioning our organization for long-term stability and success in a competitive labor market.

Definitions for Budget Packet Documents

The following provides explanations for some of the terms and abbreviations used in sections 2 - 21 of the Proposed Budget document.

Organization Exec Summary sheet, Budget Summary section

- **County Funding:** Operating Expenditures less Operating Revenues from the organization's requested budget. This amount ties to the County Funding amount on the Total line of the "Org Priorities" sheet as well as the "Account Detail" sheet. Since this is the requested budget, it does not include any subsequent changes to the organization's budget proposed by the Mayor, such as county-wide health insurance or merit increases.
- **Revenue:** Operating Revenues from the organization's requested budget. This amount excludes accounts such as tax revenues, investment earnings, proceeds from bond issuance, and other financing sources.
- **Expenditures:** Operating Expenses from the organization's requested budget. This amount excludes accounts such as balance sheet acquisitions, bond refundings, and other financing uses.
- **Base:** The Adjusted Base Budget (ABB) from the 2025 June Adjusted Budget, plus ongoing adjustments and annualizations (from prior Council-approved budget adjustments), less 2025 one-time appropriations.

Org Priorities sheet, New Requests & Stress Test Reductions section

- **County Funding Request \$:** This is the amount of County Funding requested by the organization. County Funding represents Operating Expense less Operating Revenue for a given request. Numbers are NOT rounded to the nearest thousand as they are in the summary table above. If a request includes both expense and revenue, the breakdown usually appears in the Request Description field.
- **Mayor Proposed:** This is the amount of County Funding for a particular request that the Mayor is including in the proposed budget, and represents decisions made in the Mayor's stage of the budget process. For requests involving FTE, the Mayor Proposed amount may differ from the requested amount as a result of salary structure changes or other compensation changes made in the Mayor's budget stage that would potentially impact that position. This column will further indicate if the Mayor proposed a particular request with a "Yes" or "No". It will also show the number of FTE proposed by the Mayor, if applicable.
- **H/(L):** Abbreviations for Higher/(Lower). This is the variance in the requested budget versus the Adjusted Base Budget. A positive number in this column indicates the requested budget is higher than the Adjusted Base Budget, and a negative number indicates the opposite.
- **Request/Stress Test:** Identifies if the item is a requested budget change by the organization (or Mayor) or if it is a potential reduction identified by the organization to meet its 5% stress test.
- **Base Budget Adjustment:** A change to the adjusted base budget that the organization highlighted because it might be significant to policy makers, such as a program or appropriation unit shift.
- **Future Years Adjustments:** This is noted in the Request Description field when applicable, and provides policymakers with the full ongoing annual impact of a particular request item. Used to adjust the next budget (2027) for items that are one-time in 2026 or only budgeted for a partial year in 2026 and that will have an additional impact in the following year when a full year of expense or revenue is anticipated. The amount listed in Future Year Adjustments should be added to the amount listed in the "Mayor Proposed" column to determine the amount anticipated for 2026.

0	390	[33-37965] NEW REQUEST	Property Tax Increase for Countywide Funds	-	-	(583,099)
		Clark Planetarium				(Yes)
		Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate.				
		The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center.				
		The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	110	[31-37140] POLICY SIGNIFICANT BASE ADJUSTMENT PAR Parks and Recreation Budget Consolidation Parks & Recreation [Exp: 44,810,189; Rev: 34,433,307] Parks and Recreation requests to consolidate the Parks (363000) and Recreation (364000) orgs into a new Parks and Recreation (367000) org. This change will better align our budget and financial reporting with current operational structures, which have evolved significantly since the current coding was established in the 1990s. This consolidation will lead to more transparent program reporting, eliminate artificial separation of administrative costs, and simplify revenue and expenditure analysis. The new budget will feature three main areas: Administration, Parks, and Recreation. Administration: All administrative functions, including Planning and Development (previously in Parks), will be centralized here building on the groundwork when some administrative positions were moved in the 2025 request. Administration now encompasses Division Administration, Community Engagement, Planning and Development, and Administrative Operations; with technology and travel/training budgets consolidated here. Parks: The structure of Park Operations will largely stay the same. Recreation: This area will be divided into distinct programs including Recreation Administration, Adaptive Recreation, Ice Centers, Sports Office, Shared Centers (SLC Sports Complex, Millcreek Community Center, Northwest Community Center, Sorenson Multicultural Center), Recreation Centers, Aquatics, and Childcare. Recreation will also have new collectively managed departments for maintenance, utilities, vehicles, and fitness instructors. This is a technical budget shift. No appropriation unit shifts or funding is requested. Golf, Open Space, and Millcreek Canyon will continue as separate, unchanged components within Parks and Recreation.	-	10,376,882	10,376,882 (Yes)

2	185	[31-37809] POLICY SIGNIFICANT BASE ADJUSTMENT SLCO Arts and Culture This request is a policy-significant base movement in response to the request to isolate operations and maintenance spending. These updates will support a study on maintenance, repair, and replacement plans.	A&C O&M Budget Movement	-	-	- (Yes)
3	110	[31-37471] TECHNICAL DEBT SERVICE ADJUSTMENT Parks & Recreation To adjust the 2026 debt service amounts for the 2024A STR bonds	2026 - 2024A STR Bond Adjustment	-	(3)	(3) (Yes)
4	390	[31-37211] TECHNICAL DEBT SERVICE ADJUSTMENT Clark Planetarium This request is to shift lease payments to Vestar Properties Inc. (Vestar) from operations to debt service on an ongoing basis with annual contractual increases. With the implementation of GASB 87, a lease accounting standard, Clark Planetarium's lease with Vestar is required to be reclassified. The new standard increases financial statement usefulness by recognizing lease liabilities and the right-to-use another entity's assets.	CP_Vestar Lease	-	-	- (Yes)
5	185	[31-36921] NEW REQUEST SLCO Arts and Culture This request trues up payroll allocations between Arts & Culture, Eccles Building, and Eccles Site based on standard distribution of payroll for merit staff whose effort is allocated between these budgets. While the total salaries and benefits across all budgets are within existing base budget, due to salary changes from turnover and salary adjustments a true up is necessary to ensure that the appropriation within individual budgets reflects the proper allocation of payroll costs.	A&C Personnel True-Up	-	(103,900)	(103,900) (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
6	185	[31-36922] NEW REQUEST	A&C Centralized Service True-Up	-	(145,858)	(145,858)
		SLCO Arts and Culture [Exp: 70,618; Rev: 216,476]				(Yes)
		This request trues-up our centralized services charge to Eccles Theater for shared expenses paid for within Fund 185 Arts & Culture budget and allocable to fund 726 Eccles Theater. The costs are paid by A&C, and in return, Eccles provides revenue to A&C based on the usage of the services. Centralized services costs include County indirect administrative costs, ticketing, event management, marketing, and patron services shared costs. A portion of these shared costs are allocated to Eccles Theater using various allocation bases that reflect the proportionate share of expenses. Increased centralized service costs for 2026 are primarily due to an increase in County overhead for insurance and risk management costs. This true up also includes a reallocation of fraud management software costs from a direct Eccles operating expense to centralized services.				
7	185	[31-36920] NEW REQUEST	A&C Align Revenue & Expense	-	(148,565)	(148,565)
		SLCO Arts and Culture [Exp: 41,322; Rev: 189,887]				(Yes)
		This request trues-up earned event revenues and associated event expenses based on the projected booking calendar and proposed fee increases. Revenue projections are based on an in-depth analysis of actual and projected bookings completed by Event Managers. Once the projected booking calendar has been created, all associated revenues and expenses are projected based on standard event needs. All revenue projections are then compared to the previous year's actuals and known impacts such as maintenance closures, significant changes in Resident or regular user programming, and other factors.				
8	110	[31-37126] NEW REQUEST	PAR Childcare Fee Increase	-	(137,942)	(137,942)
		Parks & Recreation [Exp: 7,261; Rev: 145,203]				(Yes)
		Parks and Recreation requests to increase childcare fees by 20% to stabilize the childcare program.				
		An external consulting firm is nearing the completion of an in-depth analysis and assessment of our county's childcare operations. Preliminary findings suggest that our current tuition rates are significantly below the market average, which compromises the financial sustainability of our services. We have been informed that some of the recommendations will include implementing consistent and scheduled rate increases to align with inflation and rising food costs. The objective of these adjustments is to position our program for long-term sustainability. One of the initial suggestions is to implement an immediate (2026) rate increase to begin addressing these financial pressures.				
		Also included is an increase for credit card processing fees resulting from a higher dollar amount of credit card transactions processed.				
		This request was reviewed by the Revenue Committee.				
		No new County dollars are requested.				
		FUTURE YEARS ADJUSTMENT: -98,530				
9	390	[31-37324] NEW REQUEST	CP_ Alignment of Revenue with projected Expenditure	-	-	-
		Clark Planetarium [Exp: 16,199; Rev: 16,199]				(Yes)
		Clark Planetarium is seeking to align projected revenues with anticipated expenditures. These adjustments collectively result in a net neutral adjustment.				
10	110	[31-37130] NEW REQUEST	PAR Jordan School District Pool Maintenance	-	-	-
		Parks & Recreation [Exp: 6,000; Rev: 6,000]				(Yes)
		Parks and Recreation requests to establish a budget for the annual pool maintenance paid by Jordan School District for the new South Jordan Recreation Center competition pool.				
		In 2024, Jordan School District contributed funds for the design and construction of the competition pool and a pool timing system. This contribution also included 20 years of upfront annual pool maintenance. The pool is expected to be operational in Summer 2026 and the upfront pool maintenance revenue will begin to be recognized.				
		No new County dollars are requested.				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
11	390	[31-37209] NEW REQUEST CP_Program Fee Clark Planetarium As Clark Planetarium concludes its first year of expanded fee-based programming, we have identified a need for greater flexibility in pricing to better match the value, duration, and resource requirements of our offerings. Currently, youth summer camps are priced at \$40–\$80 per day, while adult programming ranges from \$15–\$35 per hour, with special events such as Clark After Dark set at \$20–\$50. This model, while effective for a limited set of programs, restricts our ability to accurately price new offerings that vary widely in complexity, content, and materials. We propose adopting a unified pricing range of \$5–\$50 per hour for both youth and adult programming, including current program offerings such as Telescope Basics, Observational Astronomy, and Clark After Dark, as well as future initiatives such as Astrophotography. This range will allow us to more effectively align fees with program value, cover specialized equipment and staffing needs, and ensure accessibility for diverse audiences. By doing so, we can remain competitive, support innovation in programming, and expand our reach while maintaining financial sustainability. We consulted with the Revenue Committee, and they have waived their review of this request since it results in a zero-budget impact.	-	(1)	(1) (Yes)
12	390	[31-37210] NEW REQUEST CP_Building Rental Discounts Clark Planetarium Clark Planetarium is requesting to make changes to our existing building rental discount sheet. The purpose is to increase clarity and readability. The new discount structure is written in a more organized, reader-friendly format. With this new version, each discount is separated into three clear components (name, discount offered, and eligibility), making it easier for staff and guests to quickly understand applicable offers. Benefits include a reduction in confusion, which ensures consistent communication and improves guest experience during rental inquiries. The discounts in this new version focus on key partnership groups such as non-profits, Salt Lake County entities, and Clark Planetarium members. We would like to stay competitive in the market and offer attractive rates for Salt Lake County government agencies. We hope to encourage more weekday rentals from local government groups, increase daytime utilization of the space, and foster stronger ties with county partners. The updated version provides significant incentives for Salt Lake County government agencies as follows: • Classrooms/The Learning Space: 50% discount during regular hours, Monday–Friday. • Full Building: Flat \$500/hour rate during regular hours, Monday–Thursday. The updated version provides for a member discount as follows: • Classrooms/The Learning Space: 15% member discount. We believe this discount will add to the value to our membership program, potentially boosting membership sales and renewals while deepening member engagement with the facility. Some discounts and fees from the old version (e.g., frequent renter and super frequent renter discounts, gift store and concessions discounts, specialized programming fees) have been removed. We believe this streamlines offerings and reduces administrative complexity for staff and ensures discounts are easy to track and apply. The revised discounts outline eligible days and hours, concentrating high-discount rates in off-peak periods. This protects revenue during high-demand times while making better use of underutilized slots. We consulted with the Revenue Committee, and they have waived their review of this request since it results in a zero-budget impact.	-	(1)	(1) (Yes)
13	110	[31-37125] TECHNICAL ADJUSTMENT PAR Balance Tollbooth Revenue and Expense Millcreek Canyon Parks and Recreation requests this increase to balance the Millcreek Canyon Tollbooth's revenue and expense budgets. The County operates the tollbooth at the mouth of Millcreek Canyon on behalf of the US Forest Service. The County collects all users fees, subtracts the cost to operate the tollbooth, and remits the remainder to the Forest Service. The net effect on the General Fund should be zero. This request brings the expense budget in line with the revenue budget, so that the displayed effect on the General Fund is zero.	-	12,948	12,948 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
14	185	[31-36925] NEW REQUEST	A&C Mid-Valley Stage Manager (TD)	1.00	-	1,412
	SLCO Arts and Culture		Arts & Culture requests funding for a third Technical Director at Mid-Valley Performing Arts Center. The need for this position was identified as part of Arts & Culture's long-term workforce plan and represents the highest priority workforce need. MVPAC has been a very successful addition to the Salt Lake County arts community and the number of bookings has significantly exceeded expectations. Without this full-time position, Arts & Culture has relied heavily on part-time Technical Directors and the use of additional hours from existing Technical Directors assigned to other venues. This impacts the quality of service to Arts & Culture organizations due to inconsistent temp TDs as well as the ability of TDs to provide adequate levels of support and maintenance to arts organizations and theatrical systems. This full-time FTE request is partially offset by a reduction in temp wages due to the full-time position covering many responsibilities currently covered by part-time Technical Directors. This request also includes an offset from anticipated budgeted salary and benefits underexpend, based on a conservative estimate of a portion of historical underexpend. Fiscal staff performed a 5-year historical analysis of actual payroll expenses compared to appropriations, determining that there has been a significant and reliable amount of underexpend each year due to turnover, shifting benefit elections, and other factors. By including a conservative estimate of anticipated underexpend in our proposed budget (less than 50% of annual actual underexpend in the last five years), this will ensure our budget more closely reflects our need for budget resources. This position is scheduled to begin 4/1/2026 to facilitate posting and selecting a new employee. FUTURE YEARS ADJUSTMENT: -28,359		(Yes) 1.00 FTE	
15	185	[31-36923] NEW REQUEST	A&C Inflation Expenditures	-	138,355	138,355
	SLCO Arts and Culture		This request reflects the anticipated increase in the cost of standard ongoing maintenance, cleaning, and utilities, as well as other increases directly related to inflation, to internal service and contract rate increases. Costs for Salt Lake County Facilities Management, contracted cleaning services through a county-wide contract with RBM, and utilities rates, are all anticipated to increase from 10-20% based on communications from applicable suppliers. To maintain the same level of maintenance, cleaning, and utility usage for Arts & Culture venues, additional budget appropriation is needed to cover these rate increases. Without additional appropriation, Arts & Culture would have to significantly decrease the service level of our venue operations, which would significantly impact the arts organization and patron experience.		(Yes)	
16	110	[31-37127] NEW REQUEST	PAR Childcare Food Services Increase	-	76,792	76,792
	Parks & Recreation		Parks and Recreation requests increased budget for the rising cost of food provided in our childcare centers. An external consulting firm is nearing completion of an in-depth analysis of our childcare operations. Preliminary findings indicate that our current tuition rates are significantly below the market average, which threatens the financial sustainability of our services. Additionally, due to rising inflationary food costs, we overspent in 2024 and anticipate similar challenges in 2025, with annual food cost increases of up to 5%. As a result, we are facing a substantial deficit. To align with rising food costs, we are requesting a 25% increase in our food service budget, as last year's increase was insufficient.		(Yes)	
17	185	[31-36926] NEW REQUEST	A&C Mid-Valley Facility Operations Worker	1.00	8,205	9,297
	SLCO Arts and Culture		Arts & Culture requests County funding for a third operations worker at Mid-Valley Performing Arts Center. The need for this position was identified as part of Arts & Culture's long-term workforce plan and represents the highest priority workforce need. MVPAC has been a very successful addition to the Salt Lake County arts community, and the number of bookings has significantly exceeded expectations. The current two operations workers do not provide enough hours to cover all shifts needed to provide event porter services, event setup and cleanup, general maintenance, and office cleanup. The contracted cleaning services are used to supplement operations workers' hours but do not cover all the required services provided by the Facility Operations Workers. Currently, to make up for the hours not covered with a third position, we utilize operations staff from other venues, other full-time staff such as technical directors and event managers or must postpone cleaning of low priority areas which reduces the overall quality of our venue. To maintain the high-quality environment at Mid-Valley and support our employees' well-being we are requesting funding to add a third full-time operations position at the venue. This position is scheduled to begin 4/1/2026 to facilitate posting and selecting a new employee.		(Yes) 1.00 FTE	

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
18	185	[31-36927] NEW REQUEST A&C Emerging Performing Artist Incubation Program SLCO Arts and Culture [Exp: 17,900; Rev: 17,900] Arts & Culture requests funding to create a program to fulfill key needs identified through the 2020 Arts & Culture Master Plan and ongoing community assessment. This project is proposed to be funded from unused gift card proceeds in accordance with the breakage policy. The proposed Artist incubation program would provide mentorship, rehearsal, and performance, at Arts & Culture venues to a small cohort of emerging/early career local artists/artist collectives. This program supports a population who experience the lowest level of access to many artistic and nonprofit resources. Emerging artist/artist collectives are often not able to access community support such as ZAP grants, Arts & Culture resident programs, and other nonprofit benefits vital to achieving early success and career development. Arts & Culture is uniquely positioned to provide this support using existing spaces and resources. Local artists/artist collectives apply through open call to participate in a 9-month cohort starting in September 2026, receiving mentorship from a professional Artist Fellow (also selected through a competitive process), access to rehearsal space and performance opportunities at an A&C venue, and a stipend for performance to the community. Funding is proposed to come from unused ArtTix gift certificate funds, in alignment with the breakage policy. \$17,900 is proposed to launch the program in 2026 with a future year increase of \$22,100 for an annual program cost of \$40,000. This will draw from the unrestricted fund balance generated after recognizing the unused gift card proceeds to Arts & Culture of \$120K resulting in a one-time request expiring after three program years beginning in September 2026 through August 2029.	-	-	- (Yes)
19	185	[31-36928] NEW REQUEST A&C Time-Limited Community Engagement Activation Manager One-Year Extension SLCO Arts and Culture Arts & Culture requests a one-year extension of the time-limited Community Engagement Activation Manager to provide administrative support to the Emerging Performing Arts Incubation Program and other ongoing Community Engagement activities. The time-limited position is currently approved for three years from 2024-2026. The one-year extension would extend the approval of the position to the end of 2027. The time-limited position was funded from available Arts & Culture unrestricted fund balance. Due to the time to create, classify, advertise, and onboard the position in 2024, payroll expenses did not start until September 2024, resulting in excess fund balance savings, which are sufficient to cover the cost of this time-limited extension for another one year. With a one-year extension, Arts & Culture would have sufficient staff support to administer the first year of the Emerging Artist program to determine success while building additional resources. The first year of the Emerging Artist program is anticipated to run from September 2026 through August 2027, including time in early 2026 to launch and advertise the program.	-	1	1 (Yes)
20	185	[31-36924] NEW REQUEST A&C Background Checks SLCO Arts and Culture [Exp: 21,000; Rev: 8,900] Arts & Culture requests a partial one-time and partial ongoing increase in appropriation to cover background checks to ensure compliance with temporary employee and volunteer background check policy. The one-time request will allow Arts & Culture to implement background checks for all current temporary and volunteer positions at Arts & Culture, totaling approximately 600 individuals, necessary due to the recent change in policy and nature of the associated job duties. The ongoing request will allow the Division to cover the costs associated with standard turnover associated with these same positions on an annual basis. FUTURE YEARS ADJUSTMENT: -7,308	-	12,100	12,100 (Yes)
21	185	[31-36929] NEW REQUEST A&C Event Management Software Improvements SLCO Arts and Culture [Exp: 21,660; Rev: 3,247] Arts & Culture requests funding for enhancements to our primary Event Management Software including the addition of room-diagramming capabilities and single-sign on capacity. These enhancements will significantly improve Arts & Culture's ability to provide high-level customer service and event support to arts organization clients through room-diagramming services, currently performed manually or through time-intensive CAD programs. The addition of a single sign-on will also improve security and efficiency of one of Arts & Culture's key enterprise software systems. This request includes one-time costs for development and implementation of the enhancements of \$9,660, as well as ongoing annual licensing costs of \$12,000. These enhancements will be included in Centralized Services with a portion allocated to Eccles Building and Site. These software modules have been reviewed by the Technology Advisory Board (TAB). FUTURE YEARS ADJUSTMENT: -9,660	-	18,413	18,413 (Yes)

22	185	[31-36930] NEW REQUEST A&C Technical Director Training & Development SLCO Arts and Culture Arts & Culture requests funding for specialized technical development training for Technical Directors to mitigate the risk of failure that has a cost impact. The high-level technical skills and expertise needed to operate specialized theatrical systems, as well as the arts organizations that rent Arts & Culture venues, demand regular and ongoing training. A lack of sufficient training has been identified as a significant gap, for both Arts & Culture technical staff, and technical theater personnel throughout the community who support arts and culture events and activities. This training aims to address these skill gaps, reduce risk, and enhance services to clients. The Arts & Culture theater operations team will engage professionals to provide hands-on, in-house training tailored to our venues. This will ensure that Arts & Culture technical staff possess the necessary skills and expertise to complete job functions effectively. The requested funding will cover expert trainers' fees and equipment rentals needed for the training sessions. Costs are shared between Arts & Culture and Eccles Theater based on which venue systems the trainings are anticipated to cover.	-	20,000	20,000 (Yes)
23	280	[31-37131] NEW REQUEST PAR Open Space Revenue True-Up Open Space Parks and Recreation requests to true-up the property tax and interest revenue budgets in the Open Space Fund. HB371 from the 2023 Legislative General Session directed greenbelt rollback property tax revenue collections into the Open Space Fund. This fund has not historically had a consistent revenue stream, so revenue budgets were not established until 2025. In 2023, greenbelt rollback funds transferred into the fund totaled \$610,158 and total interest revenue recognized was \$185,680. In 2024, greenbelt rollback funds transferred into the fund totaled \$1,083,237 and total interest revenue recognized was \$261,311. Beginning in 2025, this revenue will be recorded as restricted fund balance. Restricted funding would be released based on actual expenses incurred on eligible transactions. HB237 from the 2025 Legislative General Session increased the amount deposited into the Open Space Fund from 20% to 100% of collections. This request trues-up the revenue budgets based on actuals from 2024 and 2025 at 100% of collections. This request was presented to Revenue Committee.	-	(6,995,929)	(6,995,929) (Yes)
24	280	[31-36917] NEW REQUEST PAR Open Space and Natural Lands Manager Open Space Parks and Recreation requests one full-time Open Space and Natural Lands Manager (Job Code 147, Grade 16) to strategically lead and manage a coordinated and systemic approach to open space throughout Salt Lake County. This role is essential to address the significant challenges and opportunities within our approximately 9,500 acres of open space. Our current staffing levels haven't kept pace with the growing portfolio, leading to neglect in critical areas. A primary responsibility of this manager will be to oversee the restoration and rehabilitation of the roughly 4,400 acres of open space we own. These parcels are severely impacted by invasive species like Russian olive, cheatgrass, and phragmites, which choke out native vegetation, hinder recreational access, and pose substantial wildfire risks. The Open Space and Natural Lands Manager will lead efforts to eradicate these invasives, coordinating with contractors, Parks Operations staff, volunteer groups, and entities like the Utah Conservation Corps to restore ecological health and public enjoyment. Additionally, the Open Space and Natural Lands Manager will be responsible for monitoring the 4,500 acres under conservation easements. While we don't own these lands, we have a legal and fiduciary obligation to ensure landowners uphold the terms of their agreements. This manager will conduct regular inspections to prevent unauthorized uses, illegal dumping, or encroachments, and will be responsible for filing annual compliance reports with partner municipalities. Beyond these critical oversight functions, the Open Space and Natural Lands Manager will be instrumental in strategically growing our open space portfolio by evaluating new acquisition opportunities. They will also be crucial in maximizing our existing resources by managing and directing volunteer efforts, ensuring that valuable community contributions are effectively utilized towards our open space goals. This dedicated position is critical for protecting, restoring, and expanding our valuable open space assets for the long-term benefit of the community. This request includes salaries and benefits, computer equipment, software, supplies, and training costs for one FTE. The position is prorated to begin 4/1/26. FUTURE YEARS ADJUSTMENT: -2,000	1.00	106,700	108,259 (Yes) 1.00 FTE

25	185	[31-37778] NEW REQUEST A&C ArtTix Tickets as Fare SLCO Arts and Culture Arts & Culture has received a proposal from UTA for an annual partnership that would allow all ArtTix tickets for Arts & Culture events to be used as UTA fare on the day of the event. The proposal represents a fixed annual fee that will be evaluated for future years, with a cost significantly lower than if patrons were to purchase public transit tickets for each event individually. This partnership would significantly reduce barriers to attending Art & Culture events. Parking and related costs are frequently cited as significant challenges for attendees. By allowing tickets to serve as fare, this initiative would also help improve air quality by encouraging more people to use public transportation and reducing reliance on car travel. The cost of this initiative is allocated between Arts & Culture and Eccles Theater based on the proportional number of tickets sold.	-	45,164	45,164 (Yes)
26	110	[31-37132] NEW REQUEST PAR Sugar House Park Sewer Rate Impact Parks & Recreation [Exp: 1,066,521; Rev: 1,066,521] Parks and Recreation requests additional budget for the impact of the new sewer rate charges at Sugar House Park. Salt Lake City Public Utilities recently completed a water/sewer rate study with new fees effective July 1, 2025. Water will increase nominally, while sewer rates will increase exponentially. With respect to sewer, calculations changed from using wintertime water usage as the basis of the sewer cost (low months at Sugar House Park) to calculating sewer usage at 70% of total water used, then multiplied by the cost of the water. As a result of this, SLCPU's analysis identified some large institutional outliers – Sugar House Park being one of them. The old calculation resulted in a \$130,000 annual sewer and water cost. The new calculation results in a \$1.2M annual sewer and water cost. The Parks Section is gathering water use data to see if a more reasonable calculation can be used and are looking at options to change a meter to distinguish irrigation from sewer. This request will be net neutral for Parks and Recreation as Sugar House Park Authority pays for all operating and maintenance costs at Sugar House Park. Salt Lake City and Salt Lake County contribute equally to Sugar House Park Authority for the operating and maintenance costs for Sugar House Park, agreement BL2001C. Based on this maintenance agreement, Salt Lake County will be requesting an increase in TRCC subsidy of \$533,261 to cover the County's portion.	-	-	- (Yes)
27	390	[31-37205] NEW REQUEST CP_Temp Labor Clark Planetarium Clark Planetarium is requesting an increase in the personnel appropriation of \$150,000 to both adjust our baseline temporary starting wage to \$15.00 per hour and to maintain current service levels. This proposed wage adjustment aligns with the Mayor's directive to advance implementation of a "living wage" for all County employees, including temporary staff. In addition to addressing wage equity, the requested funding will allow us to fill our 1.50 FTE merit vacancies by freeing up the personnel budget that is currently being used to cover temporary labor costs. The requested \$150,000 allocation will ensure Clark Planetarium can meet both the County's living wage objectives and its operational staffing needs, thereby sustaining high-quality public service and organizational effectiveness. Clark Planetarium will raise the base pay for (5) positions to a minimum of \$15.00 per hour as follows: -Guest Services Specialist -Retail Assistant -Dome Show Presenter -School Reservation Assistant -Membership Assistant This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request.	-	150,000	150,000 (Yes)

28	390	[31-37208] NEW REQUEST	CP_Development Coordinator Clark Planetarium Clark Planetarium requests an increase in the personnel appropriation to reinstate the Development Coordinator position, eliminated from County operations in FY24 due to budget reductions. The absence of this role has created a significant gap in the Planetarium's ability to pursue development initiatives and grant opportunities. Restoring this position will provide a dedicated employee for development coordination and grant writing—functions critical to expanding external funding and strengthening community engagement. Since the reduction, the Planetarium has relied on a grant writing consultant, whose support has been limited and temporary. Reinstating this position will strengthen Clark Planetarium's strategic development efforts, raise the organization's visibility in the community, and enhance its capacity to secure competitive funding. Our strategic partners indicate this role should generate development income of at least twice the annual salary by the second year. This position is a vital investment in the long-term sustainability and growth of Clark Planetarium's programs, outreach, and public mission. This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request. The position will be effective 4/1/2026 to allow for recruitment of a qualified candidate.	1.00	77,389	78,697 (Yes) 1.00 FTE
29	390	[31-37204] NEW REQUEST	CP_Inflation Expenditures Clark Planetarium Clark Planetarium is requesting an increase in operating appropriation funds to cover essential services which have seen increased costs. These include costs related to equipment maintenance, additional users for software subscriptions and janitorial supplies and services, which total \$34,260. These measures are essential to ensure the continued operational success of the planetarium. This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request.	-	34,260	34,260 (Yes)
30	110	[32-37351] STRESS TEST REDUCTION	PAR Divest Kearns Recreation Center Parks & Recreation Kearns Recreation Center would close June 30, 2026. The facility was built in 1965. The 2023 facility conditions assessment determined that the facility has \$1.56 million in capital needs. 2023 has total savings of \$331,125 reflecting a six month closure. 2027 will realize the full savings of \$662,249. 		Parks & Recreation				(No)
		Parks would reduce the frequency of landfill trips, saving money on tipping fees. User experience at parks may be degraded due to longer intervals between debris removal.				
58	110	[32-37355] STRESS TEST REDUCTION	PAR Reduce Mowing Hours	-	(28,559)	-
		Parks & Recreation				(No)
		Parks would reduce the hours of seasonal mowing crews. Grass will be mowed less frequently, with priority given to active recreation areas				
59	185	[32-37093] STRESS TEST REDUCTION	Arts & Culture Venue Operations 2nd Stage (STRESS)	-	(57,597)	-
		SLCO Arts and Culture				(No)
		The method used to derive the associated numbers was based on a 3-tier approach to limit the impact on our venues. The second and third tier of Arts & Culture's stress request was for building maintenance. The amounts were split into 2 requests, an initial and second request to avoid excessively impeding building functions necessary for operating the venue as a first-class theater where possible. Reductions would include cleaning supplies, maintenance, and small equipment. Arts & Culture endeavors to present a safe and visually appealing venue, and the reduction of building operating funds will reduce the ability to respond quickly to maintenance issues as they arise, leading to a lower level of service and potentially unsafe working environment. Deferred maintenance or inability to quickly address malfunctioning systems could also lead to a loss of earned revenue.				
60	390	[32-37214] STRESS TEST REDUCTION	CP_Reduction in Temporary labor	-	(150,000)	-
		Clark Planetarium				(No)
		Recruiting and retaining part-time employees has been an ongoing challenge. In response, Clark Planetarium has steadily increased the minimum starting wage for temporary employees, a strategy that has proven effective in attracting, training, and retaining employees. Maintaining a competitive wage is critical to sustaining this progress. If we cannot increase our last few positions to a minimum of \$15/hour we risk losing skilled employees to competing employers.				
		Reducing our temporary budget would make these challenges even harder. It would mean fewer services for the public, less efficiency, and more work falling on the shoulders of the remaining team. Over time, that extra pressure can lead to burnout, lower morale, and a less positive work environment. Eventually, this could cause more staff to leave, take valuable experience with them, and increase the time and money we have to spend on hiring and training new people, all of which can disrupt programs and negatively affect the guest experience.				
61	390	[32-37213] STRESS TEST REDUCTION	CP_Reduction in Vestar Lease	-	(107,468)	-
		Clark Planetarium				(No)
		Clark Planetarium is contractually obligated to maintain the lease for our Learning Space on 400 West for the full five-year term ending 11/30/2027. Any reduction in the funds allocated for this lease would directly compromise our ability to meet payment requirements, leaving us no choice but to cancel the contract and vacate the space. Such an outcome would not only result in the loss of a legally binding investment but would also waste the substantial hard costs and staff investments of approximately \$1M committed in FY2023 to secure and remodel the space. This facility now serves as a cornerstone for our Education and Community Programs teams providing essential office space and equipment storage, a large classroom for public programming, and a versatile multipurpose room for expanded school services and our emerging fee-based public programming such as summer camps and adult classes. Reducing or eliminating funding would undermine these vital community services, diminish our public presence, and erase the significant progress already achieved.				
62	110	[32-37203] STRESS TEST REDUCTION	PAR Divest Copperview Recreation Center	(4.00)	(745,715)	-
		Parks & Recreation				(No)
		Copperview Recreation Center would close December 31, 2025. The Adaptive Recreation staff would be reassigned to other centers. The Copperview Recreation Center was built in 1978. The building has capital maintenance needs totaling \$2.98 million, based on a 2023 evaluation of Recreation facilities.				
63	185	[32-37094] STRESS TEST REDUCTION	Arts & Culture Venue Operations 3rd Stage (STRESS)	-	(57,597)	-
		SLCO Arts and Culture				(No)
		This initiative is the second request for the reduction of building maintenance operating funds. These additional reductions will further reduce our ability to maintain the A&C venues to a high standard.

CORE MISSION

Support arts and culture in Salt Lake County with premiere spaces, places and services.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Measure Mid-Valley Performing Arts Center Utilization				
• Measure utilization of the main stage theatre by calculating number of external bookings as a percentage of days of the year. Utilization target based on industry standard for annual utilization defined as full capacity for theatre staffing resources. (Industry Standard for Full Theater Capacity is 65%)	62%	65%	67%	60%
Arts & Culture venues maintain a world-class standard of operation.				
• Using an online work order tracking system, ensure that all facilities issues are addressed in a timely manner. Target is based on the percentage of work orders that are responded to within the required timeline based on the severity of the maintenance issue.	100%	90%	98%	90%
Arts organization presenting at Arts & Culture venues are supported in presenting high quality events for the community.				
• Following an event, we will ask arts organizations to fill out a short survey about their experience. Target is based on number of responses that rate general experience with at least 4 out of 5 stars.	100%	90%	100%	90%
Patrons have an excellent experience attending events at Arts & Culture venues.				
• Following an event, we will ask arts patrons to fill out a short survey about their experience. Target is based on number of responses that rate general experience with at least 4 out of 5 stars.	95%	90%	90%	90%
Arts & Culture engages with members of all Salt Lake County communities.				
• Arts & Culture will administer intercept surveys at community engagement events, with questions including whether the patron has attended an event at an Arts & Culture venue in the past and whether they are likely to return in the future. Target is based on percentage of responses that indicate they are likely to return to an Arts & Culture event in the future.	-	85%	-	85%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-36920]	NEW REQUEST	A&C Align Revenue & Expense	-	(148,565)	(148,565)
[Exp: 41,322; Rev: 189,887] This request trues-up earned event revenues and associated event expenses based on the projected booking calendar and proposed fee increases. Revenue projections are based on an in-depth analysis of actual and projected bookings completed by Event Managers. Once the projected booking calendar has been created, all associated revenues and expenses are projected based on standard event needs. All revenue projections are then compared to the previous year's actuals and known impacts such as maintenance closures, significant changes in Resident or regular user programming, and other factors.					(Yes)	
2	[31-36921]	NEW REQUEST	A&C Personnel True-Up	-	(103,900)	(103,900)
This request trues up payroll allocations between Arts & Culture, Eccles Building, and Eccles Site based on standard distribution of payroll for merit staff whose effort is allocated between these budgets. While the total salaries and benefits across all budgets are within existing base budget, due to salary changes from turnover and salary adjustments a true up is necessary to ensure that the appropriation within individual budgets reflects the proper allocation of payroll costs.					(Yes)	
2	[31-37809]	POLICY SIGNIFICANT BASE ADJUSTMENT	A&C O&M Budget Movement	-	-	-
This request is a policy-significant base movement in response to the request to isolate operations and maintenance spending. These updates will support a study on maintenance, repair, and replacement plans.					(Yes)	
3	[31-36922]	NEW REQUEST	A&C Centralized Service True-Up	-	(145,858)	(145,858)
[Exp: 70,618; Rev: 216,476] This request trues-up our centralized services charge to Eccles Theater for shared expenses paid for within Fund 185 Arts & Culture budget and allocable to fund 726 Eccles Theater. The costs are paid by A&C, and in return, Eccles provides revenue to A&C based on the usage of the services. Centralized services costs include County indirect administrative costs, ticketing, event management, marketing, and patron services shared costs. A portion of these shared costs are allocated to Eccles Theater using various allocation bases that reflect the proportionate share of expenses. Increased centralized service costs for 2026 are primarily due to an increase in County overhead for insurance and risk management costs. This true up also includes a reallocation of fraud management software costs from a direct Eccles operating expense to centralized services.					(Yes)	

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	[31-36923] NEW REQUEST A&C Inflation Expenditures This request reflects the anticipated increase in the cost of standard ongoing maintenance, cleaning, and utilities, as well as other increases directly related to inflation, to internal service and contract rate increases. Costs for Salt Lake County Facilities Management, contracted cleaning services through a county-wide contract with RBM, and utilities rates, are all anticipated to increase from 10-20% based on communications from applicable suppliers. To maintain the same level of maintenance, cleaning, and utility usage for Arts & Culture venues, additional budget appropriation is needed to cover these rate increases. Without additional appropriation, Arts & Culture would have to significantly decrease the service level of our venue operations, which would significantly impact the arts organization and patron experience.	-	138,355	138,355 (Yes)
5	[31-36925] NEW REQUEST A&C Mid-Valley Stage Manager (TD) Arts & Culture requests funding for a third Technical Director at Mid-Valley Performing Arts Center. The need for this position was identified as part of Arts & Culture's long-term workforce plan and represents the highest priority workforce need. MVPAC has been a very successful addition to the Salt Lake County arts community and the number of bookings has significantly exceeded expectations. Without this full-time position, Arts & Culture has relied heavily on part-time Technical Directors and the use of additional hours from existing Technical Directors assigned to other venues. This impacts the quality of service to Arts & Culture organizations due to inconsistent temp TDs as well as the ability of TDs to provide adequate levels of support and maintenance to arts organizations and theatrical systems. This full-time FTE request is partially offset by a reduction in temp wages due to the full-time position covering many responsibilities currently covered by part-time Technical Directors. This request also includes an offset from anticipated budgeted salary and benefits underexpend, based on a conservative estimate of a portion of historical underexpend. Fiscal staff performed a 5-year historical analysis of actual payroll expenses compared to appropriations, determining that there has been a significant and reliable amount of underexpend each year due to turnover, shifting benefit elections, and other factors. By including a conservative estimate of anticipated underexpend in our proposed budget (less than 50% of annual actual underexpend in the last five years), this will ensure our budget more closely reflects our need for budget resources. This position is scheduled to begin 4/1/2026 to facilitate posting and selecting a new employee. FUTURE YEARS ADJUSTMENT: -28,359	1.00	-	1,412 (Yes) 1.00 FTE
6	[31-36926] NEW REQUEST A&C Mid-Valley Facility Operations Worker Arts & Culture requests County funding for a third operations worker at Mid-Valley Performing Arts Center. The need for this position was identified as part of Arts & Culture's long-term workforce plan and represents the highest priority workforce need. MVPAC has been a very successful addition to the Salt Lake County arts community, and the number of bookings has significantly exceeded expectations. The current two operations workers do not provide enough hours to cover all shifts needed to provide event porter services, event setup and cleanup, general maintenance, and office cleanup. The contracted cleaning services are used to supplement operations workers' hours but do not cover all the required services provided by the Facility Operations Workers. Currently, to make up for the hours not covered with a third position, we utilize operations staff from other venues, other full-time staff such as technical directors and event managers or must postpone cleaning of low priority areas which reduces the overall quality of our venue. To maintain the high-quality environment at Mid-Valley and support our employees' well-being we are requesting funding to add a third full-time operations position at the venue. This position is scheduled to begin 4/1/2026 to facilitate posting and selecting a new employee.	1.00	8,205	9,297 (Yes) 1.00 FTE
7	[31-36924] NEW REQUEST A&C Background Checks [Exp: 21,000; Rev: 8,900] Arts & Culture requests a partial one-time and partial ongoing increase in appropriation to cover background checks to ensure compliance with temporary employee and volunteer background check policy. The one-time request will allow Arts & Culture to implement background checks for all current temporary and volunteer positions at Arts & Culture, totaling approximately 600 individuals, necessary due to the recent change in policy and nature of the associated job duties. The ongoing request will allow the Division to cover the costs associated with standard turnover associated with these same positions on an annual basis. FUTURE YEARS ADJUSTMENT: -7,308	-	12,100	12,100 (Yes)
8	[31-36927] NEW REQUEST A&C Emerging Performing Artist Incubation Program [Exp: 17,900; Rev: 17,900] Arts & Culture requests funding to create a program to fulfill key needs identified through the 2020 Arts & Culture Master Plan and ongoing community assessment. This project is proposed to be funded from unused gift card proceeds in accordance with the breakage policy. The proposed Artist incubation program would provide mentorship, rehearsal, and performance, at Arts & Culture venues to a small cohort of emerging/early career local artists/artist collectives. This program supports a population who experience the lowest level of access to many artistic and nonprofit resources. Emerging artist/artist collectives are often not able to access community support such as ZAP grants, Arts & Culture resident programs, and other nonprofit benefits vital to achieving early success and career development. Arts & Culture is uniquely positioned to provide this support using existing spaces and resources. Local artists/artist collectives apply through open call to participate in a 9-month cohort starting in September 2026, receiving mentorship from a professional Artist Fellow (also selected through a competitive process), access to rehearsal space and performance opportunities at an A&C venue, and a stipend for performance to the community. Funding is proposed to come from unused ArtTix gift certificate funds, in alignment with the breakage policy. \$17,900 is proposed to launch the program in 2026 with a future year increase of \$22,100 for an annual program cost of \$40,000. This will draw from the unrestricted fund balance generated after recognizing the unused gift card proceeds to Arts & Culture of \$120K resulting in a one-time request expiring after three program years beginning in September 2026 through August 2029.	-	-	- (Yes)

9	[31-36928] NEW REQUEST	A&C Time-Limited Community Engagement Activation Manager One-Year Extension	-	1	1
	Arts & Culture requests a one-year extension of the time-limited Community Engagement Activation Manager to provide administrative support to the Emerging Performing Arts Incubation Program and other ongoing Community Engagement activities. The time-limited position is currently approved for three years from 2024-2026. The one-year extension would extend the approval of the position to the end of 2027. The time-limited position was funded from available Arts & Culture unrestricted fund balance. Due to the time to create, classify, advertise, and onboard the position in 2024, payroll expenses did not start until September 2024, resulting in excess fund balance savings, which are sufficient to cover the cost of this time-limited extension for another one year. With a one-year extension, Arts & Culture would have sufficient staff support to administer the first year of the Emerging Artist program to determine success while building additional resources. The first year of the Emerging Artist program is anticipated to run from September 2026 through August 2027, including time in early 2026 to launch and advertise the program.				(Yes)
10	[31-36929] NEW REQUEST	A&C Event Management Software Improvements	-	18,413	18,413
	[Exp: 21,660; Rev: 3,247] Arts & Culture requests funding for enhancements to our primary Event Management Software including the addition of room-diagramming capabilities and single-sign on capacity. These enhancements will significantly improve Arts & Culture's ability to provide high-level customer service and event support to arts organization clients through room-diagramming services, currently performed manually or through time-intensive CAD programs. The addition of a single sign-on will also improve security and efficiency of one of Arts & Culture's key enterprise software systems. This request includes one-time costs for development and implementation of the enhancements of \$9,660, as well as ongoing annual licensing costs of \$12,000. These enhancements will be included in Centralized Services with a portion allocated to Eccles Building and Site. These software modules have been reviewed by the Technology Advisory Board (TAB). FUTURE YEARS ADJUSTMENT: -9,660				(Yes)
11	[31-36930] NEW REQUEST	A&C Technical Director Training & Development	-	20,000	20,000
	Arts & Culture requests funding for specialized technical development training for Technical Directors to mitigate the risk of failure that has a cost impact. The high-level technical skills and expertise needed to operate specialized theatrical systems, as well as the arts organizations that rent Arts & Culture venues, demand regular and ongoing training. A lack of sufficient training has been identified as a significant gap, for both Arts & Culture technical staff, and technical theater personnel throughout the community who support arts and culture events and activities. This training aims to address these skill gaps, reduce risk, and enhance services to clients. The Arts & Culture theater operations team will engage professionals to provide hands-on, in-house training tailored to our venues. This will ensure that Arts & Culture technical staff possess the necessary skills and expertise to complete job functions effectively. The requested funding will cover expert trainers' fees and equipment rentals needed for the training sessions. Costs are shared between Arts & Culture and Eccles Theater based on which venue systems the trainings are anticipated to cover.				(Yes)
12	[31-37778] NEW REQUEST	A&C ArtTix Tickets as Fare	-	45,164	45,164
	Arts & Culture has received a proposal from UTA for an annual partnership that would allow all ArtTix tickets for Arts & Culture events to be used as UTA fare on the day of the event. The proposal represents a fixed annual fee that will be evaluated for future years, with a cost significantly lower than if patrons were to purchase public transit tickets for each event individually. This partnership would significantly reduce barriers to attending Art & Culture events. Parking and related costs are frequently cited as significant challenges for attendees. By allowing tickets to serve as fare, this initiative would also help improve air quality by encouraging more people to use public transportation and reducing reliance on car travel. The cost of this initiative is allocated between Arts & Culture and Eccles Theater based on the proportional number of tickets sold.				(Yes)
13	[32-37092] STRESS TEST REDUCTION	Arts & Culture Programmatic Reduction 1st Stage (STRESS)	-	(86,834)	-
	The method used to derive the associated numbers is based on a 3-tier approach to limit the impact on our venues. This request is based on programmatic costs (exclusive of building upkeep) which include supplies, small equipment, training and professional development, and advertising. Reductions to these expenses will reduce our ability to maintain a highly qualified workforce and appropriately promote and support events taking place at Arts & Culture theaters. This request represents a 2.5% reduction based on our stress test calculated value.				(No)
14	[32-37093] STRESS TEST REDUCTION	Arts & Culture Venue Operations 2nd Stage (STRESS)	-	(57,597)	-
	The method used to derive the associated numbers was based on a 3-tier approach to limit the impact on our venues. The second and third tier of Arts & Culture's stress request was for building maintenance. The amounts were split into 2 requests, an initial and second request to avoid excessively impeding building functions necessary for operating the venue as a first-class theater where possible. Reductions would include cleaning supplies, maintenance, and small equipment. Arts & Culture endeavors to present a safe and visually appealing venue, and the reduction of building operating funds will reduce the ability to respond quickly to maintenance issues as they arise, leading to a lower level of service and potentially unsafe working environment. Deferred maintenance or inability to quickly address malfunctioning systems could also lead to a loss of earned revenue.				(No)
15	[32-37094] STRESS TEST REDUCTION	Arts & Culture Venue Operations 3rd Stage (STRESS)	-	(57,597)	-
	This initiative is the second request for the reduction of building maintenance operating funds. These additional reductions will further reduce our ability to maintain the A&C venues to a high standard.				(No)

1	[47-36887] CAPITAL PROJECT CT Freight Elevator Ram Replacement This project will replace the faulty hydraulic ram in the freight elevator at Capitol Theatre. The hydraulic ram that raises and lowers the freight elevator has developed a leak and must be replaced. Previous attempts at repairing the ram to avoid replacement have proven only to be effective for a short time.	-	150,000	150,000
				(Yes)
3	[47-36888] CAPITAL PROJECT A&C ACCESS CONTROL KEYPAD SECURITY UPGRADE This project aims to replace the current access control keypads, access cards, and card printers with a modern encrypted system. The existing building infrastructure and software will remain unchanged and will work seamlessly with the new keypads and cards. Salt Lake County Facilities has identified a security threat that could compromise our access control system. This upgrade will enhance the system's security to a higher standard.	-	120,000	120,000
				(Yes)
6	[47-36889] CAPITAL PROJECT CT ROOF REPAIRS - WELL AND VAULT This project will involve replacing the roofing materials on two sections of the Capitol Theatre roof and repairing any adjacent damage in those areas. During the Phase II Renovations, two small areas that required roof replacement were not included in the renovation design and construction. This project aims to address those oversights, resolve some structural issues, and replace the necessary roofing sections.	-	41,000	41,000
				(Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
7	[47-36890] CAPITAL PROJECT MVPAC AIR INTAKE WEATHER PROTECTION At the Mid-Valley PAC, we have identified an issue with the air intakes for the building's air handlers, which are inadequate to prevent moisture from entering the building. This project will install a new framework and cover these intakes to effectively protect the building from water penetration caused by inclement weather conditions. Over the course of operating the facility, unforeseen issues have arisen during certain weather events, allowing moisture to enter the building through the air intake. As a result, water leaks into the building, particularly affecting the administration wing and causing damage to light fixtures and ceiling tiles.	-	81,000	81,000 (Yes)
8	[47-36891] CAPITAL PROJECT CT DRAINAGE REMEDIATION PHASE I This project will involve hiring an architect and consultants to create a plan that addresses various areas of the Capitol Theatre where stormwater is entering the building. Additionally, the project will assess the stormwater drainage systems across the entire property. There are multiple locations where stormwater penetrates the Capitol Theatre. The first phase will focus on engaging an architect and civil engineers to develop a plan to resolve the drainage issues that led to this intrusion. Previous operational attempts to address the problems have been minimally effective. Sump pumps and piping leading to storm drains have experienced multiple failures, so a permanent solution is necessary.	-	90,000	90,000 (Yes)
12	[47-36892] CAPITAL PROJECT A&C SECURITY CAMERA UPGRADES AND ADDITIONS PHASE I This multi-year project aims to replace some aging security cameras and add new ones in Arts & Culture facilities. The project will upgrade the security cameras in these venues, enabling their integration into potential future unified monitoring systems, should the county decide to develop such systems. Many of the current cameras are aging and reaching the end of their effective life. Newer technology cameras have enhanced capabilities, which will improve their usefulness in addressing the security issues within the Arts & Culture Facilities.	-	108,000	108,000 (Yes)
14	[47-36893] CAPITAL PROJECT RW-BB MAIN DRAPE REPLACEMENT This project aims to replace the aging main drape in the Rose Wagner Black Box with a new drape that possesses inherent fire-retardant properties. The current fire retardancy measures are no longer sufficient, and the existing drape exhibits visible signs of wear.	-	17,000	17,000 (Yes)
22	[47-36894] CAPITAL PROJECT CT CEILING TILE & LIGHTING REPLACE This project aims to replace the aging and deteriorating ceiling tile systems in various areas of the Capitol Theatre. Several of these deteriorating ceiling tiles have fallen during rental events and need to be replaced as they are part of a non-repairable ceiling tile system. The project will involve replacing both the ceiling tiles and the associated lighting fixtures with new ones.	-	177,000	177,000 (Yes)
24	[47-36895] CAPITAL PROJECT A&C RE-KEYING PROJECT This project aims to rekey existing door hardware, replace certain lock hardware in Arts & Culture facilities, and provide new key sets for users as needed. The project will address security issues related to the current key structure at various Arts & Culture facilities. It is recommended that the key controls of each facility be evaluated regularly. Several concerns need to be addressed due to the high number of former employees, particularly those with resident organizations, who may have either retained or lost keys. This project will restructure the key systems and replace individual keys as necessary. The project consists of re-keying and or replacing hardware for 582 doors including parts and labor which is an average of \$151 per door.	-	88,000	88,000 (Yes)
26	[47-36897] CAPITAL PROJECT A&C HVAC CONTROLS RECOMMISSIONING This project will engage a building system controls contractor to assess and update the programming of the HVAC control systems in the Arts & Culture Facilities. After several years of undertaking multiple HVAC projects with limited scope, issues have emerged within the control system, resulting in inconsistent HVAC management. Therefore, this project will involve hiring a consultant to evaluate the current control systems and create a plan for updating their programming to ensure consistent monitoring and control.	-	170,000	170,000 (Yes)
30	[47-35848] CAPITAL PROJECT A&C CELLULAR DIST. PHASE II [New/Add/Reduction: 450,000; Rebudget: 75,000] A&C CELLULAR DIST. PHASE II This project will install a distributed antenna system (DAS) in Arts and Culture venues to enhance cellular signal coverage for clients, vendors, and staff. A DAS enhances cellular signals in areas with weak coverage by using a network of antennas and connecting infrastructure. Currently, cellular service does not reach several areas of A&C venues, where the production offices, dressing rooms, and some staff offices are located. This project will install a DAS in the basements of Rose Wagner, the MVPAC, and the Capitol Theatre.	-	450,000	450,000 (Yes)
39	[47-35885] CAPITAL PROJECT CFA_CAP_OVERHEA - CFA Capital Projects Overhead CFA_CAP_OVERHEA - CFA Capital Projects Overhead	-	50,784	50,784 (Yes)
49	[47-35887] CAPITAL PROJECT CFA_SM_BTS_EQP - A&C-Small BTS Equipment [New/Add/Reduction: 226,506; Rebudget: 174,529] This request is for the annual scheduled replacement of IT small equipment and IT infrastructure replacements at Arts & Culture (A&C) venues, excluding Eccles Theater. A 3% inflation increase has been included in this request. A&C has a list of IT equipment and infrastructure components that must be replaced on a cyclical rotation. This list includes computers, monitors, printers, ticketing hardware, wiring, networking & infrastructure, and other related equipment. This funding allows us to replace the equipment regularly to avoid costly unplanned replacements, lost work time due to bad or faulty equipment, and future equipment failure.	-	226,506	226,506 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
50	[47-35888] CAPITAL PROJECT CFA_SM_OPS_EQP - A&C-Small Ops Equipment [New/Add/Reduction: 71,121; Rebudget: 58,996] This request is for the annual scheduled replacement of small operating equipment at Arts & Culture (A&C) venues, excluding Eccles Theater. A 3% inflation increase has been included in this request. A&C has a list of small operations equipment that must be replaced on a cyclical rotation. This list contains lighting, sound, technical, operations and office equipment. This funding will allow us to replace this equipment regularly to avoid future failures, lost work time due to bad or faulty equipment, and costly unplanned replacements. Remaining funds from the prior year are requested for re-budget.	-	71,121	71,121 (Yes)
51	[47-35886] CAPITAL PROJECT CFA_LG_EQP - A&C Large Equip Replacement [New/Add/Reduction: 212,180; Rebudget: 256,313] This request is for the annual scheduled replacement of large equipment at Arts & Culture (A&C) venues, excluding Eccles Theater. A 3% inflation increase has been included in this request. As equipment costs have continued to increase due to inflation and other market factors, A&C has more items considered to be large equipment (unit cost greater than \$5,000) that need to be replaced on a rotating basis. Large equipment for operations and IT includes projectors, follow spots, servers, and firewalls. This funding will allow A&C to replace equipment regularly to avoid future failures and associated loss of activity and revenue, lost work time due to bad or faulty equipment, and costly unplanned replacements. Remaining funds from the prior year are requested for re-budget.	-	212,180	212,180 (Yes)
55	[47-35877] CAPITAL PROJECT PFF - RW Countertop and Sink Replace Phase II [Exp: 62,307; Rev: 62,307] This continuation of a 2025 Preservation-funded project request is to replace aging and deteriorating countertops and sinks in the Rose Wagner dressing rooms and public restrooms. The current countertops and sinks were installed during the original construction of Phase I in 1997 and Phase II in 2001. Over time, the materials have begun to peel, and the outdated plumbing has caused the countertops to detach from the walls, rendering them unusable. This project will allocate additional funding to the 2025 project to complete all the necessary countertops.	-	-	- (Yes)
56	[47-36898] CAPITAL PROJECT PFF-CT GRAND DRAPE SYSTEM REPL. PH I-DESIGN [Exp: 65,000; Rev: 65,000] This project will engage an architect and consultants to design and create a replacement for the Capitol Theatre Main drape, valance system, and asbestos fire curtain. The current main drape and valance system are aging, exhibiting signs of dry rot, and have outdated fire retardancy. Therefore, they need to be replaced.	-	-	- (Yes)
57	[47-36899] CAPITAL PROJECT PFF-MVPAC STAGE FLOOR UPGRADE [Exp: 78,000; Rev: 78,000] This project will replace the failing Masonite flooring system on the stages of the Mid-Valley Performing Arts Center with a new, solid surface, panelized system. The stage floor has sustained higher-than-expected damage due to higher-than-expected use. This upgrade will provide better durability to withstand the wear and tear associated with frequent stage use.	-	-	- (Yes)
61	[47-36896] CAPITAL PROJECT RW BASEMENT CEILING TILE & LIGHTING REPLACE This project aims to replace the aging and deteriorating ceiling tile systems and outdated lighting systems in various areas of the Rose Wagner Performing Arts Center. Several of these deteriorating ceiling tiles are failing and need to be replaced as they are part of a non-repairable ceiling tile system. Certain areas in the back-of-house sections are showing their age and require updates to both the ceilings and overhead lighting. This upgrade will not only enhance the appearance of the back-of-house areas but also install more energy-efficient lighting, making maintenance of the above-ceiling systems easier.	-	197,000	- (No)

CORE MISSION

Clark Planetarium's mission is to inspire and engage curious minds by connecting people to the wonder of the universe.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Clark Planetarium expands access to STEAM (Science, Technology, Engineering, Arts & Math) through providing off-site programs with a broad geographic reach.				
• We will track the location and frequency of programs, ensuring service throughout Salt Lake County and our region, contributing to the outcome of expanding access to STEAM.	322	250	236	250
Clark Planetarium Building Utilization				
• Utilizing technology, we will track the number of individuals entering Clark Planetarium's primary location.	604,765	500,000	417,670	650,000
Clark Planetarium Theatre Engagement				
• Through our point of sale software we will track the percentage of guests in the building who purchase show tickets.	42%	60%	31%	50%
Clark Planetarium Net Promoter Score				
• NPS measures overall satisfaction of a guest's visit, and how likely the guest is to recommend Clark Planetarium to others. Guests will report on a 0-10 scale with 9-10 indicating promoters, 7-8 representing neutral, and 0-6 representing detractors.	9.4	9	9	9

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID	Request Description	Request	FTE Request	Requested Net \$ (Total Exp-Total Rev)
0	[33-37951] REVENUE PROJECTION CHANGE Interest - Time Deposits Projection Adjustments Update interest revenue in key funds.	-	(24,000)	(24,000) (Yes)
1	[31-37324] NEW REQUEST CP_Alignment of Revenue with projected Expenditure [Exp: 16,199; Rev: 16,199] Clark Planetarium is seeking to align projected revenues with anticipated expenditures. These adjustments collectively result in a net neutral adjustment.	-	-	- (Yes)
2	[31-37204] NEW REQUEST CP_Inflation Expenditures Clark Planetarium is requesting an increase in operating appropriation funds to cover essential services which have seen increased costs. These include costs related to equipment maintenance, additional users for software subscriptions and janitorial supplies and services, which total \$34,260. These measures are essential to ensure the continued operational success of the planetarium. This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request.	-	34,260	34,260 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
3	[31-37205] NEW REQUEST CP_Temp Labor Clark Planetarium is requesting an increase in the personnel appropriation of \$150,000 to both adjust our baseline temporary starting wage to \$15.00 per hour and to maintain current service levels. This proposed wage adjustment aligns with the Mayor's directive to advance implementation of a "living wage" for all County employees, including temporary staff. In addition to addressing wage equity, the requested funding will allow us to fill our 1.50 FTE merit vacancies by freeing up the personnel budget that is currently being used to cover temporary labor costs. The requested \$150,000 allocation will ensure Clark Planetarium can meet both the County's living wage objectives and its operational staffing needs, thereby sustaining high-quality public service and organizational effectiveness. Clark Planetarium will raise the base pay for (5) positions to a minimum of \$15.00 per hour as follows: -Guest Services Specialist -Retail Assistant -Dome Show Presenter -School Reservation Assistant -Membership Assistant This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request.	-	150,000	150,000 (Yes)
4	[31-37208] NEW REQUEST CP_Development Coordinator Clark Planetarium requests an increase in the personnel appropriation to reinstate the Development Coordinator position, eliminated from County operations in FY24 due to budget reductions. The absence of this role has created a significant gap in the Planetarium's ability to pursue development initiatives and grant opportunities. Restoring this position will provide a dedicated employee for development coordination and grant writing—functions critical to expanding external funding and strengthening community engagement. Since the reduction, the Planetarium has relied on a grant writing consultant, whose support has been limited and temporary. Reinstating this position will strengthen Clark Planetarium's strategic development efforts, raise the organization's visibility in the community, and enhance its capacity to secure competitive funding. Our strategic partners indicate this role should generate development income of at least twice the annual salary by the second year. This position is a vital investment in the long-term sustainability and growth of Clark Planetarium's programs, outreach, and public mission. This request represents a budget-negative impact, as new county funds are being requested. A subsidy allocation will be required to cover the cost of this request. The position will be effective 4/1/2026 to allow for recruitment of a qualified candidate.	1.00	77,389	78,697 (Yes) 1.00 FTE
5	[31-37211] TECHNICAL DEBT SERVICE ADJUSTMENT CP_Vestar Lease This request is to shift lease payments to Vestar Properties Inc. (Vestar) from operations to debt service on an ongoing basis with annual contractual increases. With the implementation of GASB 87, a lease accounting standard, Clark Planetarium's lease with Vestar is required to be reclassified. The new standard increases financial statement usefulness by recognizing lease liabilities and the right-to-use another entity's assets.	-	-	- (Yes)
6	[31-37209] NEW REQUEST CP_Program Fee As Clark Planetarium concludes its first year of expanded fee-based programming, we have identified a need for greater flexibility in pricing to better match the value, duration, and resource requirements of our offerings. Currently, youth summer camps are priced at \$40–\$80 per day, while adult programming ranges from \$15–\$35 per hour, with special events such as Clark After Dark set at \$20–\$50. This model, while effective for a limited set of programs, restricts our ability to accurately price new offerings that vary widely in complexity, content, and materials. We propose adopting a unified pricing range of \$5–\$50 per hour for both youth and adult programming, including current program offerings such as Telescope Basics, Observational Astronomy, and Clark After Dark, as well as future initiatives such as Astrophotography. This range will allow us to more effectively align fees with program value, cover specialized equipment and staffing needs, and ensure accessibility for diverse audiences. By doing so, we can remain competitive, support innovation in programming, and expand our reach while maintaining financial sustainability. We consulted with the Revenue Committee, and they have waived their review of this request since it results in a zero-budget impact.	-	(1)	(1) (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[31-37210] NEW REQUEST CP_Building Rental Discounts Clark Planetarium is requesting to make changes to our existing building rental discount sheet. The purpose is to increase clarity and readability. The new discount structure is written in a more organized, reader-friendly format. With this new version, each discount is separated into three clear components (name, discount offered, and eligibility), making it easier for staff and guests to quickly understand applicable offers. Benefits include a reduction in confusion, which ensures consistent communication and improves guest experience during rental inquiries. The discounts in this new version focus on key partnership groups such as non-profits, Salt Lake County entities, and Clark Planetarium members. We would like to stay competitive in the market and offer attractive rates for Salt Lake County government agencies. We hope to encourage more weekday rentals from local government groups, increase daytime utilization of the space, and foster stronger ties with county partners. The updated version provides significant incentives for Salt Lake County government agencies as follows: - Classrooms/The Learning Space: 50% discount during regular hours, Monday–Friday. - Full Building: Flat \$500/hour rate during regular hours, Monday–Thursday. The updated version provides for a member discount as follows: - Classrooms/The Learning Space: 15% member discount. We believe this discount will add to the value to our membership program, potentially boosting membership sales and renewals while deepening member engagement with the facility. Some discounts and fees from the old version (e.g., frequent renter and super frequent renter discounts, gift store and concessions discounts, specialized programming fees) have been removed. We believe this streamlines offerings and reduces administrative complexity for staff and ensures discounts are easy to track and apply. The revised discounts outline eligible days and hours, concentrating high-discount rates in off-peak periods. This protects revenue during high-demand times while making better use of underutilized slots. We consulted with the Revenue Committee, and they have waived their review of this request since it results in a zero-budget impact.	-	(1)	(1) (Yes)
8	[32-37215] STRESS TEST REDUCTION CP_Reduction in Development Coordinator Reducing the development budget would hinder our ability to cultivate donor relationships, secure sponsorships, and pursue grant opportunities, which are key revenue streams that support programs, exhibits, and operations. Without dedicated resources for donor engagement, and events, we risk weakening connections with existing supporters and missing opportunities to attract new ones. Over time, this can lead to reduced funding, limiting our capacity to grow, innovate, and maintain the high-quality experiences that sustain our reputation and community impact.	(1.00)	(77,389)	- (No)
9	[32-37214] STRESS TEST REDUCTION CP_Reduction in Temporary labor Recruiting and retaining part-time employees has been an ongoing challenge. In response, Clark Planetarium has steadily increased the minimum starting wage for temporary employees, a strategy that has proven effective in attracting, training, and retaining employees. Maintaining a competitive wage is critical to sustaining this progress. If we cannot increase our last few positions to a minimum of \$15/hour we risk losing skilled employees to competing employers. Reducing our temporary budget would make these challenges even harder. It would mean fewer services for the public, less efficiency, and more work falling on the shoulders of the remaining team. Over time, that extra pressure can lead to burnout, lower morale, and a less positive work environment. Eventually, this could cause more staff to leave, take valuable experience with them, and increase the time and money we have to spend on hiring and training new people, all of which can disrupt programs and negatively affect the guest experience.	-	(150,000)	- (No)
10	[32-37233] STRESS TEST REDUCTION CP_Reduction in Expenditures A reduction in expenditures requested would directly decrease our operating budget, limiting the financial resources available to sustain essential programs and services. These funds are critical for delivering high-quality, mission-driven services to the public, maintaining operational stability, and ensuring that our offerings remain accessible and impactful. Without this support, the organization may be forced to scale back programming or delay essential initiatives, ultimately diminishing our ability to meet community needs.	-	(34,260)	- (No)
11	[32-37231] STRESS TEST REDUCTION CP_Reduction in Food Provision Providing food provisions supports engagement and learning in outreach programs and youth camps, boosts productivity in administrative functions, and enhances our image in marketing and partnership efforts. Cutting these provisions would reduce program effectiveness and potentially weaken our public and partner relationships.	-	(2,270)	- (No)
12	[32-37225] STRESS TEST REDUCTION CP_Reduction in Meals & Refreshments This line item is used to provide lunches and snacks for monthly Board meetings, member/sustainer events and an annual staff retreat. A reduction in this line will result in limiting meals and snacks provided to certain functions. This may also have a negative effect on our membership program levels, volunteer participation and morale.	-	(4,300)	- (No)
13	[32-37219] STRESS TEST REDUCTION CP_Reduction in Training Reducing the training budget would limit staff development, potentially impacting their ability to stay current with best practices, safety protocols, and emerging technologies relevant to our programs. This can lead to lower quality educational experiences, decreased operational efficiency, and an increased risk of errors and safety incidents. Over time, a lack of ongoing training can also hurt employee morale, hinder career growth, and make it harder to attract and retain skilled team members, ultimately impacting both guest satisfaction and organizational reputation.	-	(1,700)	- (No)
14	[32-37232] STRESS TEST REDUCTION CP_Reduction in Printing Printing fees support the fabrication of promotional window wraps, advertising brochures and direct mail campaigns. A reduction in this line item will result in decreased awareness, attendance and consequently revenue. This reduction will require a delay or cancellation of projects, campaigns or other jobs requiring printing services.	-	(5,000)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
15	[32-37228] STRESS TEST REDUCTION CP_Reduction in Travel Clark Planetarium sends employees to a variety of conferences and trade shows annually to 1) provide professional development and participate in panel discussions and presentations; 2) stay current on trends and industry best practices; 3) evaluate new content and offerings for our theatres, exhibits and educational programming; 4) showcase our in-house developed exhibits and exhibit software for sale to our industry peers; and 5) maintain Clark Planetarium's reputation as a leader and partner in the industry. This reduction will result in staff not being able to attend and participate in these trade shows and conferences and likely result in a substantial revenue shortfall in our exhibit sales line item.	-	(18,750)	(No)
16	[32-37229] STRESS TEST REDUCTION CP_Reduction in Miscellaneous Rental Charges A reduction in the budget for miscellaneous rentals could limit our capacity to conduct established programs and activities, thereby diminishing the guest experience. These rentals are essential to supporting a variety of operations and events, and may include items such as parking space fees, event table rentals, helium tanks, park pavilion reservations, and off-site meeting room facilities.	-	(2,295)	(No)
17	[32-37221] STRESS TEST REDUCTION CP_Reduction in Development Reducing the development budget would hinder our ability to cultivate donor relationships, secure sponsorships, and pursue grant opportunities, which are key revenue streams that support programs, exhibits, and operations. Without dedicated resources for donor engagement, and events, we risk weakening connections with existing supporters and missing opportunities to attract new ones. Over time, this can lead to reduced funding, limiting our capacity to grow, innovate, and maintain the high-quality experiences that sustain our reputation and community impact.	-	(5,000)	(No)
18	[32-37222] STRESS TEST REDUCTION CP_Reduction in Office Supplies A reduction in the purchase of necessary office consumables may impact efficiency of staff daily operations. Such supplies include, but are not limited to, copy paper, document folders and binders, printed calendars (wall or desk), pens, pencils, highlighters, etc.	-	(990)	(No)
19	[32-37218] STRESS TEST REDUCTION CP_Reduction in Clothing Provisions Cutting the clothing provisions line item would reduce our ability to present a consistent, professional image. Uniforms and branded apparel help guests easily identify staff, fostering trust, safety, and smooth operations. Without them, team members may appear less approachable and cohesive, which can weaken guest confidence, diminish brand visibility, and reduce the impact of marketing and outreach efforts.	-	(1,700)	(No)
20	[32-37230] STRESS TEST REDUCTION CP_Reduction in Other Professional Fees Clark Planetarium relies on professional services to augment staff efforts creating marketing collateral and related projects. A reduction will result in time delays as well as increased demand for staff time and consequently overtime to complete relevant projects.	-	(10,910)	(No)
21	[32-37224] STRESS TEST REDUCTION CP_Reduction in Small Equipment A reduction small equipment will impact our ability to replace aged equipment or purchase new equipment, subsequently limiting our ability to effectively and efficiently carry out day-to-day operations and may impact the guest experience.	-	(4,000)	(No)
22	[32-37226] STRESS TEST REDUCTION CP_Reduction in Maintenance of Office Equipment This account code is used exclusively for our contracted maintenance of our primary copier/printer. A reduction in this budget could result in the need to significantly reduce, delete or delay printing projects that are too small for out-of-house printing businesses.	-	(1,000)	(No)
23	[32-37227] STRESS TEST REDUCTION CP_Reduction in Maintenance of Machinery & Equipment A reduction in maintenance of machinery/equipment will impact the guest experience by delaying or minimizing our efforts to fix and repair exhibits in public spaces. Without adequate maintenance, our exhibits will show increase wear and tear or may have to be taken off-line for longer than ideal time frames.	-	(5,000)	(No)
24	[32-37216] STRESS TEST REDUCTION CP_Reduction in Janitorial Services and Supplies Reducing janitorial supplies and services would quickly compromise cleanliness, safety, and the professional appearance of our facilities. Unsanitary conditions can harm guest satisfaction, and increase health risks. Over time, inadequate maintenance may cause costly damage to facilities and negatively impact our guest experience.	-	(4,434)	(No)
25	[32-37220] STRESS TEST REDUCTION CP-Reduction in Development Advertising Clark Planetariums advertising budget is based on a historical standard of budgeting \$1 in advertising for every person purchasing a theatre ticket in our primary facility and it is probable we will see a comparable reduction in general attendance, which will also result in lower ticket revenues for theatres, store and concession sales.	-	(5,430)	(No)
26	[32-37213] STRESS TEST REDUCTION CP_Reduction in Vestar Lease Clark Planetarium is contractually obligated to maintain the lease for our Learning Space on 400 West for the full five-year term ending 11/30/2027. Any reduction in the funds allocated for this lease would directly compromise our ability to meet payment requirements, leaving us no choice but to cancel the contract and vacate the space. Such an outcome would not only result in the loss of a legally binding investment but would also waste the substantial hard costs and staff investments of approximately \$1M committed in FY2023 to secure and remodel the space. This facility now serves as a cornerstone for our Education and Community Programs teams providing essential office space and equipment storage, a large classroom for public programming, and a versatile multipurpose room for expanded school services and our emerging fee-based public programming such as summer camps and adult classes. Reducing or eliminating funding would undermine these vital community services, diminish our public presence, and erase the significant progress already achieved.	-	(107,468)	(No)
	[33-37813] REVENUE PROJECTION CHANGE Property Tax MV Fee Projection Adjustments As vetted by Revenue Committee on 9/12/2025	-	-	(54,998) (Yes)

[33-37965]	NEW REQUEST Property Tax Increase for Countywide Funds	-	-	(583,099)
Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate.				(Yes)
The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center.				
The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
(detail rows exclude projects that are strictly re-budgets)				
31	[47-35907] CAPITAL PROJECT CP_SolarPanels - CP_SOLARPANELS	-	45,000	45,000
[New/Add/Reduction: 45,000; Rebudget: 66,000]				(Yes)
Clark Planetarium is requesting that the previously approved FY25 solar panel project be re-budgeted to FY26, with additional funding to cover:				
• Administrative costs associated with issuing a new RFP. • Anticipated price increases in materials and labor.				
This project is expected offset ongoing energy costs as well as nearly double the Planetarium's solar energy capacity, reinforcing alignment with Salt Lake County's sustainability and infrastructure goals.				
Delays were caused by:				
• Postponements in roof replacement. • Anticipated increased costs. • Expiration of State contract.				
32	[47-36854] CAPITAL PROJECT CP_STOREDISPLAYS	-	50,000	50,000
The current shelving and layout in the Planet Fun Store, which generates average annual revenue over \$1M, needs an upgrade to improve product visibility, enhance customer experience, and optimize space utilization as well as enhance the cash wrap installed at the store. This upgrade is intended to provide the store with increased flexibility for seasonal or thematic layouts, improve accessibility in accordance with ADA guidelines, and support more efficient inventory management. This investment is intended to elevate the professional appearance of the shop and contribute to increased sales and customer satisfaction.				(Yes)
38	[47-35906] CAPITAL PROJECT CP_Indirectcost - INDIRECT COSTS/CAPITAL PROJECT	-	27,221	27,221
This represents overhead costs by the County for the Planetarium's capital projects.				(Yes)
48	[47-35904] CAPITAL PROJECT CP_Equipment - CP EQUIPMENT REPLACEMENT FUND	-	100,000	100,000
The Equipment Fund is an annual capital allocation designated to support the timely replacement, repair or upgrade of essential equipment due to unexpected failure, end-of-life functionality, or obsolescence. This fund ensures continuity of operations and minimizes disruptions across all departments and functions. This allocation was previously funded by the Planetariums operating budget and is now being requested from the TRCC fund. This is anticipated as an annual request to include a 3% inflation rate year over year.				(Yes)
Covered items may include but are not limited to both large-scale and smaller equipment such as projection systems, audio and visual components, theatrical lighting, concession equipment (e.g., popcorn machine), administrative or hardware and software. The fund may also be used to address unforeseen breakdowns or deficiencies in infrastructure-critical systems that are vital to maintaining service standards and operational safety.				

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
60	[47-36452] CAPITAL PROJECT CP26_0001 - CP_DOMEUPGRADE [Exp: 500,000; Rev: 500,000] The projection system in Clark Planetarium's Dome Theatre has surpassed its intended operational lifespan and is now due for replacement. Originally installed in FY2018, the current projectors have been in continuous use—averaging approximately 80 hours per week. This sustained high level of utilization significantly elevates the likelihood of critical failure within the next fiscal year. Further compounding this concern, the existing projectors are discontinued models. Replacement parts are increasingly difficult to source, and where available, costs may be prohibitive or delivery timelines uncertain. This presents a substantial risk of an unplanned and extended theatre shutdown, directly impacting public programming and revenue. In conjunction with the projection upgrade, the theatre's original lighting system—installed concurrently with the projection system—has also reached the end of its effective service life. The lighting infrastructure, which is integral to immersive presentations and safety operations within the Dome, exhibits reduced reliability and energy inefficiency. Replacement components are also becoming obsolete, leading to increased maintenance costs and operational downtime. To mitigate these operational and financial risks, a full replacement of both the projection and lighting systems is essential in FY26. This capital investment ensures continued operational reliability, enhances energy efficiency, improves system compatibility with evolving content formats, and provides long-term value over the next five to seven years.	-	-	(Yes)
75	[47-36453] CAPITAL PROJECT CP26_0002 - CP_IMAXTHEATER [Exp: 1,300,000; Rev: 500,000] Clark Planetarium's current IMAX theater system will reach end-of-life status by FY2028 and will no longer be supported by IMAX. To continue offering top-tier cinematic experiences, we must upgrade the primary theater systems, including: • Projectors • Viewing port • Screen sheet • Audio and automation systems The project will also include facility upgrades such as: • New flooring • Enhanced lighting • Repainting of handrails • Wall cleaning Upgrading to the latest IMAX specifications will significantly enhance image brightness, contrast, resolution, and sound quality—delivering a dramatically improved and immersive experience. This investment is expected to boost audience satisfaction and increase repeat visitation.	-	800,000	(No)
76	[47-36454] CAPITAL PROJECT CP26_0003 - CP_LED PANELS To strengthen brand visibility and enhance public engagement, Clark Planetarium plans to augment our existing digital signage network by: • Replacing our three traditional large-format printed exterior panels with a direct view LED array • Installing an LED array of approximately 18'x11' on the interior north wall of the lobby. These digital displays will: • Provide real-time, customizable content • Support dynamic motion for improved visual impact, and • Allow greater messaging flexibility across seasons and events We anticipate this modernization will significantly increase visibility, attract more attention, and optimize brand presence.	-	686,725	(No)
77	[47-35915] CAPITAL PROJECT CP25_0008 - CP_Office Modernization Study [New/Add/Reduction: 1,429,837; Rebudget: 50,000] Following Council-approved funding in FY25, Clark Planetarium completed a study on the current office layout, which revealed inefficiencies in supporting staff collaboration and operations. The study produced: • A revised layout proposal • Preliminary cost estimates for remodeling and furnishings The renovation is projected to take approximately four months and will deliver: • A balanced mix of open office areas and meeting spaces • Improved shop space • Enhanced overall functionality to support team growth and productivity	-	1,429,837	(Yes)

CORE MISSION

The mission of the Salt Lake County Equestrian Park & Event Center is to be a world class equestrian facility offering services for events, long term boarding, and recreational use by equestrian and non-equestrian users. We strive to maximize economic and cultural benefits to the community by making the best use of the park's facilities while maintaining focus on equestrian activity.

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37131]	NEW REQUEST	PAR Open Space Revenue True-Up	-	(6,995,929)	(6,995,929)
	Parks and Recreation requests to true-up the property tax and interest revenue budgets in the Open Space Fund.					(Yes)
	HB371 from the 2023 Legislative General Session directed greenbelt rollback property tax revenue collections into the Open Space Fund. This fund has not historically had a consistent revenue stream, so revenue budgets were not established until 2025.					
	In 2023, greenbelt rollback funds transferred into the fund totaled \$610,158 and total interest revenue recognized was \$185,680.					
	In 2024, greenbelt rollback funds transferred into the fund totaled \$1,083,237 and total interest revenue recognized was \$261,311.					
	Beginning in 2025, this revenue will be recorded as restricted fund balance. Restricted funding would be released based on actual expenses incurred on eligible transactions.					
	HB237 from the 2025 Legislative General Session increased the amount deposited into the Open Space Fund from 20% to 100% of collections. This request trues-up the revenue budgets based on actuals from 2024 and 2025 at 100% of collections.					
	This request was presented to Revenue Committee.					
2	[31-36917]	NEW REQUEST	PAR Open Space and Natural Lands Manager	1.00	106,700	108,259
	Parks and Recreation requests one full-time Open Space and Natural Lands Manager (Job Code 147, Grade 16) to strategically lead and manage a coordinated and systemic approach to open space throughout Salt Lake County.					(Yes) 1.00 FTE
	This role is essential to address the significant challenges and opportunities within our approximately 9,500 acres of open space. Our current staffing levels haven't kept pace with the growing portfolio, leading to neglect in critical areas.					
	A primary responsibility of this manager will be to oversee the restoration and rehabilitation of the roughly 4,400 acres of open space we own. These parcels are severely impacted by invasive species like Russian olive, cheatgrass, and phragmites, which choke out native vegetation, hinder recreational access, and pose substantial wildfire risks. The Open Space and Natural Lands Manager will lead efforts to eradicate these invasives, coordinating with contractors, Parks Operations staff, volunteer groups, and entities like the Utah Conservation Corps to restore ecological health and public enjoyment.					
	Additionally, the Open Space and Natural Lands Manager will be responsible for monitoring the 4,500 acres under conservation easements. While we don't own these lands, we have a legal and fiduciary obligation to ensure landowners uphold the terms of their agreements. This manager will conduct regular inspections to prevent unauthorized uses, illegal dumping, or encroachments, and will be responsible for filing annual compliance reports with partner municipalities.					
	Beyond these critical oversight functions, the Open Space and Natural Lands Manager will be instrumental in strategically growing our open space portfolio by evaluating new acquisition opportunities. They will also be crucial in maximizing our existing resources by managing and directing volunteer efforts, ensuring that valuable community contributions are effectively utilized towards our open space goals. This dedicated position is critical for protecting, restoring, and expanding our valuable open space assets for the long-term benefit of the community.					
	This request includes salaries and benefits, computer equipment, software, supplies, and training costs for one FTE. The position is prorated to begin 4/1/26.					
	FUTURE YEARS ADJUSTMENT: -2,000					
3	[32-37133]	STRESS TEST REDUCTION	PAR Withdraw Open Space and Natural Lands Manager Request	(1.00)	(106,700)	-

CORE MISSION

Salt Lake County Parks & Recreation provides essential public services, maintains community assets, and creates innovative programming to improve lives through people, parks, and play.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Parks, Trails & Open Spaces provides hundreds of miles of accessible multi-use trails for active transportation, recreation and healthy living throughout the Salt Lake Valley for the public to enjoy at their leisure.				
• Trail counters to track utilization along the Parley's Trail (east/west), the Jordan River Trail (north/south) and the Bonneville Shoreline Trail (perimeter of the valley).	366,761	1,000,000	514,411	1,000,000
Parks, Trails & Open Spaces will continue to expand access to and reduce barriers to recreation and healthy living by providing accessible and welcoming spaces in our parks and outdoor recreational facilities.				
• Percentage of available days our Class 1 Regional Park pavilions were reserved (Big Cottonwood, Bingham Creek, Creekside, Lodestone, Magna, Valley, Wardle, Wheadon).	-	75%	18.57%	75%
• Percentage of available days outdoor fields were rented. Fields include 45 ballfields, 19 multiuse fields and 3 cricket pitches.	-	75%	23.26%	75%
• Number of school tours at Wheeler Historic Farm	132	148	63	148
• Number of tour participants annually at Wheeler Historic Farm	6,649	5,514	524	5,514
Salt Lake County Parks & Recreation provides well-maintained parks, trails, open spaces, and recreation centers that give residents and visitors a place to enjoy leisurely activities, foster mental and physical health, nurture social connections, and build a broader sense of community.				
• Percentage of surveyed residents and visitors satisfied with Parks & Recreation services.	66%	75%	80%	75%
Participating in recreational activities improves mental and physical health as well as nurture social connections and build a broader sense of community.				
• Percentage of surveyed residents and visitors who are satisfied with recreation services, programs, and amenities.	66%	75%	80%	75%
• Number of swim lesson participants.	0	0	7,620	10,000
• Number of participants in all Salt Lake County youth sports clinics, programs, leagues, and classes.	0	0	33,347	85,000
• Number of participants in all Salt Lake County adult sports leagues, tournaments, and programs.	0	0	2,522	25,000
• Number of daily admittances in Salt Lake County Recreation Facilities (excludes My County Rec Pass).	0	0	847,049	1,100,000
• Number of daily admittances with My County Rec Pass to Salt Lake County Recreation facilities.	0	0	194,629	300,000
• Number of daily program admittances in Salt Lake County Ice Facilities (Acord Ice Center and County Ice Center).	0	0	34,897	90,000

1	[31-37140]	POLICY SIGNIFICANT BASE ADJUSTMENT	PAR Parks and Recreation Budget Consolidation	-	10,376,882	10,376,882
	[Exp: 44,810,189; Rev: 34,433,307] Parks and Recreation requests to consolidate the Parks (363000) and Recreation (364000) orgs into a new Parks and Recreation (367000) org. This change will better align our budget and financial reporting with current operational structures, which have evolved significantly since the current coding was established in the 1990s. This consolidation will lead to more transparent program reporting, eliminate artificial separation of administrative costs, and simplify revenue and expenditure analysis. The new budget will feature three main areas: Administration, Parks, and Recreation. Administration: All administrative functions, including Planning and Development (previously in Parks), will be centralized here building on the groundwork when some administrative positions were moved in the 2025 request. Administration now encompasses Division Administration, Community Engagement, Planning and Development, and Administrative Operations; with technology and travel/training budgets consolidated here. Parks: The structure of Park Operations will largely stay the same. Recreation: This area will be divided into distinct programs including Recreation Administration, Adaptive Recreation, Ice Centers, Sports Office, Shared Centers (SLC Sports Complex, Millcreek Community Center, Northwest Community Center, Sorenson Multicultural Center), Recreation Centers, Aquatics, and Childcare. Recreation will also have new collectively managed departments for maintenance, utilities, vehicles, and fitness instructors. This is a technical budget shift. No appropriation unit shifts or funding is requested. Golf, Open Space, and Millcreek Canyon will continue as separate, unchanged components within Parks and Recreation.					(Yes)

2	[31-37130]	NEW REQUEST	PAR Jordan School District Pool Maintenance	-	-	- (Yes)
	[Exp: 6,000; Rev: 6,000] Parks and Recreation requests to establish a budget for the annual pool maintenance paid by Jordan School District for the new South Jordan Recreation Center competition pool. In 2024, Jordan School District contributed funds for the design and construction of the competition pool and a pool timing system. This contribution also included 20 years of upfront annual pool maintenance. The pool is expected to be operational in Summer 2026 and the upfront pool maintenance revenue will begin to be recognized. No new County dollars are requested.					
3	[31-37132]	NEW REQUEST	PAR Sugar House Park Sewer Rate Impact	-	-	- (Yes)
	[Exp: 1,066,521; Rev: 1,066,521] Parks and Recreation requests additional budget for the impact of the new sewer rate charges at Sugar House Park. Salt Lake City Public Utilities recently completed a water/sewer rate study with new fees effective July 1, 2025. Water will increase nominally, while sewer rates will increase exponentially. With respect to sewer, calculations changed from using wintertime water usage as the basis of the sewer cost (low months at Sugar House Park) to calculating sewer usage at 70% of total water used, then multiplied by the cost of the water. As a result of this, SLCPU's analysis identified some large institutional outliers – Sugar House Park being one of them. The old calculation resulted in a \$130,000 annual sewer and water cost. The new calculation results in a \$1.2M annual sewer and water cost. The Parks Section is gathering water use data to see if a more reasonable calculation can be used and are looking at options to change a meter to distinguish irrigation from sewer. This request will be net neutral for Parks and Recreation as Sugar House Park Authority pays for all operating and maintenance costs at Sugar House Park. Salt Lake City and Salt Lake County contribute equally to Sugar House Park Authority for the operating and maintenance costs for Sugar House Park, agreement BL2001C. Based on this maintenance agreement, Salt Lake County will be requesting an increase in TRCC subsidy of \$533,261 to cover the County's portion.					
4	[31-37126]	NEW REQUEST	PAR Childcare Fee Increase	-	(137,942)	(137,942) (Yes)
	[Exp: 7,261; Rev: 145,203] Parks and Recreation requests to increase childcare fees by 20% to stabilize the childcare program. An external consulting firm is nearing the completion of an in-depth analysis and assessment of our county's childcare operations. Preliminary findings suggest that our current tuition rates are significantly below the market average, which compromises the financial sustainability of our services. We have been informed that some of the recommendations will include implementing consistent and scheduled rate increases to align with inflation and rising food costs. The objective of these adjustments is to position our program for long-term sustainability. One of the initial suggestions is to implement an immediate (2026) rate increase to begin addressing these financial pressures. Also included is an increase for credit card processing fees resulting from a higher dollar amount of credit card transactions processed. This request was reviewed by the Revenue Committee. No new County dollars are requested. FUTURE YEARS ADJUSTMENT: -98,530					
5	[31-37127]	NEW REQUEST	PAR Childcare Food Services Increase	-	76,792	76,792 (Yes)
	Parks and Recreation requests increased budget for the rising cost of food provided in our childcare centers. An external consulting firm is nearing completion of an in-depth analysis of our childcare operations. Preliminary findings indicate that our current tuition rates are significantly below the market average, which threatens the financial sustainability of our services. Additionally, due to rising inflationary food costs, we overspent in 2024 and anticipate similar challenges in 2025, with annual food cost increases of up to 5%. As a result, we are facing a substantial deficit. To align with rising food costs, we are requesting a 25% increase in our food service budget, as last year's increase was insufficient.					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
6	[32-37136]	STRESS TEST REDUCTION	PAR Withdraw Childcare Food Service Increase Request	-	(76,792)	- (No)
7	[32-37203]	STRESS TEST REDUCTION	PAR Divest Copperview Recreation Center Copperview Recreation Center would close December 31, 2025. The Adaptive Recreation staff would be reassigned to other centers. The Copperview Recreation Center was built in 1978. The building has capital maintenance needs totaling \$2.98 million, based on a 2023 evaluation of Recreation facilities.	(4.00)	(745,715)	- (No)
8	[32-37351]	STRESS TEST REDUCTION	PAR Divest Kearns Recreation Center Kearns Recreation Center would close June 30, 2026. The facility was built in 1965. The 2023 facility conditions assessment determined that the facility has \$1.56 million in capital needs. 2023 has total savings of \$331,125 reflecting a six month closure. 2027 will realize the full savings of \$662,249.	(7.00)	(331,124)	- (No)
9	[32-37352]	STRESS TEST REDUCTION	PAR Divest Redwood Recreation Center Redwood Recreation Center would close December 31, 2025. Redwood Recreation Center was built in 1978. The 2023 facility conditions assessment determined that the building's capital needs total \$1.95 million.	(5.00)	(819,756)	- (No)
10	[32-37353]	STRESS TEST REDUCTION	PAR Reduce Caretaking Hours Parks would reduce the number of hours of seasonal caretakers at parks, which would result in reduced availability of park restrooms and pavilions.	-	(200,000)	- (No)
11	[32-37354]	STRESS TEST REDUCTION	PAR Reduce Landfill Trips Parks would reduce the frequency of landfill trips, saving money on tipping fees. User experience at parks may be degraded due to longer intervals between debris removal.	-	(35,000)	- (No)
12	[32-37355]	STRESS TEST REDUCTION	PAR Reduce Mowing Hours Parks would reduce the hours of seasonal mowing crews. Grass will be mowed less frequently, with priority given to active recreation areas	-	(28,559)	- (No)
13	[32-37356]	STRESS TEST REDUCTION	PAR Reduce Planning Studies Fewer pre-project architectural and engineering studies would be conducted. Any studies would need to be funded out of the project's appropriated budget.	-	(150,000)	- (No)
	[33-37900]	REVENUE PROJECTION CHANGE	Sales Taxes Projections and Related Updates	-	-	(472,800) (Yes)
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-	(61,153)	(533,953)

2	[47-37502] CAPITAL PROJECT	PAR ADA Compliance Projects Parks and Recreation requests to add the 2026 tranche to ADA Compliance project. This request will fund modifications and improvements required for ADA compliance. In 2016, a consultant completed an ADA Self-Evaluation and Transition Plan for the Parks & Recreation Division. To ensure continued compliance and equitable access, it is necessary to implement remaining items from the 2016 plan and address updated ADA requirements. Ongoing improvements are essential to meet legal obligations, enhance accessibility, and provide inclusive facilities for all users. This is an annual request to comply with the ADA requirements.	-	200,000	200,000 (Yes)
4	[47-36761] CAPITAL PROJECT	PAR Replace Pool UV Systems Parks and Recreation requests a project for the phase 1 request to replace existing UV equipment system wide at pools and splash pads. The existing UV light units have exceeded their expected lifespan and require replacement to ensure continued water quality in the pools. UV treatment is a critical component of pool sanitation, effectively eliminating harmful waterborne pathogens such as cryptosporidiosis that chlorine alone cannot fully neutralize. This first phase of replacements will target 9–10 pools, prioritizing patron health and safety while maintaining compliance with public health standards.	-	300,000	300,000 (Yes)
5	[47-37488] CAPITAL PROJECT	Add SLC Revenue to Liberty Pool Boiler Replacement Parks and Recreation requests to add the Salt Lake City reimbursement to the Liberty Pool Boiler Replacement project. This project was funded in the 2024 budget request due to safety concerns. The project is expected to be completed in 2025. By contract, SLC and SLCo split maintenance costs 50/50 on all projects. SLC has committed funding to reimburse us for the cost, and we are now requesting the revenue. No new County dollars are requested.	-	(85,000)	(85,000) (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
9	[47-36764] CAPITAL PROJECT PAR System-wide Playground Repair Parks and Recreation requests a project for system-wide playground repair/replacement part projects across multiple locations. This request includes replacing broken nets and parts on existing playgrounds. The existing playground components have exceeded their expected lifespans and show signs of significant wear and damage. They no longer meet current safety standards, posing risks to children. Replacing the worn and unsafe equipment is essential to provide a safe, engaging, and compliant play environment for users. This is an annual request for repair, maintenance, and compliance. Estimated locations identified for repairs in 2026 are Creekside Park, Central City Recreation Center, etc.		-	250,000	250,000 (Yes)
10	[47-37493] CAPITAL PROJECT PAR Parking Lot Repairs Parks and Recreation requests to add the 2026 tranche to the Parking Lot Repairs project. Parking lots at Parks and Recreation facilities require ongoing maintenance due to frequent surface cracking, pothole development, and curb and gutter deterioration. These issues accelerate asphalt breakdown and contribute to the rusting of light poles, creating safety hazards for users. Delaying repairs increases long-term costs and the risk of major reconstruction. This project will address these concerns by repairing damaged areas, applying slurry seal or overlay, re-striping, updating ADA signage and ramps, replacing broken curbs and gutters, and installing new light poles where needed to ensure safety and accessibility. This is an annual request for repair, maintenance, and compliance. Estimated Locations: Oquirrh Park, Vista, Redwood Rec, Parleys Trailhead (Grandeur Peak), etc.		-	500,000	500,000 (Yes)
11	[47-37497] CAPITAL PROJECT Parks: Playground Surfacing Parks and Recreation requests to add the 2026 tranche to the playground resurfacing project. This is a system-wide playground surfacing projects across multiple locations including: seal coat application for poured-in-place surfacing to maintain warranties, complete removal and replacement of existing fiber fill surfacing, and repair/replacement of artificial turf systems. The existing playground surfacing requires replacement to ensure continued safety and compliance. The poured-in-place surfacing needs a seal coat every 2-3 years to maintain its warranty and performance. Additionally, the fiber fill surfacing has been in place for over 10 years and has deteriorated, resulting in reduced fall attenuation. Replacing the surfacing is necessary to maintain a safe play environment and meet current safety standards. This is an annual request for repair, maintenance, and compliance.		-	300,000	300,000 (Yes)
13	[47-37495] CAPITAL PROJECT PAR Security Camera Upgrade, Phase 3 Parks and Recreation requests to add funding for phase 3 of the system-wide Security Camera Upgrade project. The current security camera system lacks the digital capacity, video quality, and coverage needed to adequately monitor buildings and property. Upgrading the system is essential to enhance safety for users and employees, deter potential incidents, and support the recovery of loss or damage to County and patron property through improved surveillance capabilities. This request is to upgrade security systems at Acord Ice, County Ice, Taylorsville Rec, and multiple centers for PCI compliance.		-	225,000	225,000 (Yes)
15	[47-37494] CAPITAL PROJECT South Jordan Recreation Center Replace RTUs, Phase 2 Parks and Recreation requests to add funding to replace the nine remaining rooftop HVAC units at South Jordan Recreation Center. A/E is currently preparing construction documents for bidding. This project will be ready to bid early 2026. The remaining rooftop HVAC units and one make-up air unit (MAU) are over 20 years old and have exceeded their expected service life. They are increasingly unreliable, require frequent and costly repairs, and fail to maintain consistent indoor temperatures, compromising occupant comfort and building efficiency. While 2025 funding enabled the replacement of three units (two serving the gym and one for the fitness area), eight RTUs and one MAU still require replacement in this phase to ensure reliable climate control, reduce maintenance costs, and improve overall energy efficiency. Facilities Management has reviewed and recommended this project.		-	925,000	925,000 (Yes)
16	[47-36771] CAPITAL PROJECT South Jordan Recreation Center Replace AHU Parks and Recreation requests a project to replace the pool air handler unit (AHU) at South Jordan Recreation Center. The existing AHU is aging, with replacement parts increasingly difficult to source, making it challenging to maintain required temperatures in the pool area. Replacing this unit is critical to ensure reliable climate and room temperature control, regulatory compliance, and uninterrupted facility operations.		-	1,400,000	- (Yes)
16	[47-37914] CAPITAL PROJECT South Jordan Recreation Center Replace AHU [New/Add/Reduction: 1,400,000; Rebudget: 72,715] Parks and Recreation requests a project to replace the pool air handler unit (AHU) at South Jordan Recreation Center. The existing AHU is aging, with replacement parts increasingly difficult to source, making it challenging to maintain required temperatures in the pool area. Replacing this unit is critical to ensure reliable climate and room temperature control, regulatory compliance, and uninterrupted facility operations.		-	1,400,000	1,400,000 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
17	[47-37491] CAPITAL PROJECT Holladay Lions Recreation Center Replace Roof	Parks and Recreation requests additional funding to replace the existing roof at Holladay Lions Recreation Center. Design and construction documents have been completed and are ready for bidding early 2026. This is a ZAP 1 facility. The existing membrane roof, over 20 years old, has reached the end of its expected lifespan and requires frequent repairs due to persistent leaks. These leaks have caused water damage to ceiling tiles and pose potential safety hazards in main corridors if left unaddressed. Although partial re-roofing was funded in 2025, a consultant's review revealed that full removal of the roofing and insulation over the pool is necessary due to the roof's deteriorated condition, necessitating additional funding to ensure a safe and effective long-term solution.	-	400,000	400,000 (Yes)
18	[47-36773] CAPITAL PROJECT Holladay Lions Recreation Center Replace HVAC	Parks and Recreation requests a new project to replace existing HVAC rooftop units (RTUs) and provide connections to the HVAC controls at Holladay Lions Recreation Center. The existing rooftop HVAC units, over 20 years old, have exceeded their expected lifespan and are no longer functioning reliably. They require frequent, costly repairs and fail to maintain required room temperatures, negatively affecting occupant comfort and operational efficiency. Replacement is necessary to ensure dependable climate control, improve energy efficiency, and reduce ongoing maintenance expenses. Facilities Management has reviewed and recommended this project.	-	775,000	775,000 (Yes)
19	[47-36775] CAPITAL PROJECT Fairmont Aquatic Center Replace Roof	Parks and Recreation requests a new project to replace the existing roof, mechanical curbs, coping cap, and all other required elements for the successful completion of this project at Fairmont Aquatic Center. This is a ZAP 1 facility. The roof, over 20 years old, has exceeded its expected lifespan and now requires frequent repairs due to ongoing leaks. Undetected leaks pose safety risks, especially in main corridors, making replacement essential to ensure a safe, secure, and durable building envelope.	-	775,000	775,000 (Yes)
20	[47-37492] CAPITAL PROJECT Fairmont Aquatic Center Replace Locker Room HVAC	Parks and Recreation requests additional funding for the HVAC replacement project at Fairmont Aquatic Center. This request is to remove and replace roof top units (RTU) for locker rooms, provide connections to HVAC controls, and all other required elements for the successful completion of this project. The existing rooftop HVAC units, over 20 years old, have exceeded their expected lifespan and are no longer functioning reliably. They require frequent, costly repairs and fail to maintain required room temperatures, negatively affecting occupant comfort and operational efficiency. Replacement is necessary to ensure dependable climate control, improve energy efficiency, and reduce ongoing maintenance expenses. Facilities Management has reviewed and recommended this project.	-	750,000	750,000 (Yes)
21	[47-36778] CAPITAL PROJECT Acord Ice Center Replace Condensing Tower	Parks and Recreation requests a new project to replace the ammonia evaporative condenser tower, provide connections to controls, and all other required elements for the successful completion of this project at Acord Ice Center. A/E is currently preparing construction documents for bidding. This project will be ready to bid early 2026. This is a ZAP 1 facility. While the evaporative chiller barrels were replaced in 2018, the corresponding evaporative condensers—critical for rejecting heat from the refrigerant during the compression cycle—were not included in that project. These units have now reached or exceeded their useful life and are essential to the operation of the ice-making system, which cools the concrete floors. Replacing the condensers is necessary to ensure continued, reliable ice production and to support the core function of the facility. Facilities Management has reviewed and recommended this project..	-	450,000	450,000 (Yes)
23	[47-36790] CAPITAL PROJECT Northwest Recreation Center Light Controls Repair	Parks and Recreation requests funding to replace lighting controls for the entire facility and all other required elements for the successful completion of this project at Northwest Recreation Center. The existing lighting controls are no longer functioning correctly and are unable to operate the emergency lighting system. As a result, staff must keep all facility lighting on continuously, leading to increased energy consumption and operational inefficiency. Emergency lighting is critical for ensuring safe evacuation during power outages or emergencies and for illuminating essential fire safety equipment such as manual call points and extinguishers. Replacing the controls is necessary to restore proper operation of the emergency lighting system and maintain compliance with life safety standards	-	60,000	60,000 (Yes)
25	[47-36789] CAPITAL PROJECT Northwest Community Center Replace Boiler Flue	Parks and Recreation requests funding to replace the flue for existing boilers and all other required elements for the successful completion of this project at Northwest Community Center. A section of the boiler flue has rotted out and is no longer effectively venting the boiler. Delaying repairs will lead to continued deterioration of the flue, potential boiler failure, and increased repair costs. Prompt replacement is necessary to ensure safe and efficient boiler operation and to prevent further damage and costly system failures. Facilities Management has reviewed and recommended this project.	-	25,000	25,000 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
27	[47-36786] CAPITAL PROJECT	SLC Sports Complex Replace Ammonia Viper Drive [Exp: 120,000; Rev: 60,000] Parks and Recreation requests a new project to replace the viper drive that is part of the ammonia compressor system at SLC Sports Complex. The unit is approximately 14 years old and has exceeded its expected lifespan of 10 to 12 years. It is now considered obsolete and due for replacement to ensure reliable performance, reduce the risk of failure, and maintain operational efficiency. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request.	-	60,000	60,000 (Yes)
28	[47-36785] CAPITAL PROJECT	SLC Sports Complex Electrical Room A/E Study [Exp: 80,000; Rev: 40,000] Parks and Recreation requests a new project to complete an architectural assessment and repair plan for roof and water intrusion issues in the high-voltage electrical room at SLC Sports Complex. A water leak in the high voltage electrical room has caused significant rusting of the roof structure, posing a serious safety concern due to its proximity to the building's main power supply. An architect study is needed to assess the extent of the damage, identify the source of the leak, and develop a safe and effective repair solution to prevent further deterioration and mitigate electrical hazards. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has reviewed and requested this project and has earmarked funding for this request.	-	40,000	40,000 (Yes)
29	[47-36784] CAPITAL PROJECT	SLC Sports Complex Replace Storage Tank [Exp: 120,000; Rev: 60,000] Parks and Recreation requests funding to replace two hot water storage tanks at SLC Sports Complex. The facility relies on two water tanks for hot water. One tank is already out of service due to severe leaking, and the second tank has a significant, non-repairable leak but remains in use. If the second tank fails, the facility will be left without hot water, disrupting operations and essential services. Replacing the tanks is critical to ensure uninterrupted hot water supply and avoid a complete system failure. Facilities Management has reviewed and recommended this project. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request.	-	60,000	60,000 (Yes)
33	[47-36757] CAPITAL PROJECT	PAR Mechanical Systems Study Parks and Recreation requests funding for the phase 1 evaluation for HVAC equipment replacement including design, construction documents for replacement, and cost estimate. The existing HVAC and boiler systems at multiple facilities—including Magna Recreation Center, Magna Pool, Central City Recreation Center, Dimple Dell Recreation Center, Fairmont, Gene Fullmer Recreation Center, Millcreek Community Center, Copperview Recreation Center, County Ice Center, and Acord Ice Center—have exceeded their expected service lives. These aging systems have become increasingly unreliable, resulting in higher maintenance demands, rising operational costs, and reduced occupant comfort. As building systems age, their performance and energy efficiency decline. Evaluating these systems is critical to identifying needed replacements, prioritizing improvements, and developing accurate, data-driven future capital budget requests. The majority of the facilities identified are ZAP 1 or older, emphasizing the importance of proactive assessment and planning to ensure long-term, efficient operation and service continuity. Facilities Management has reviewed and recommended this project.	-	250,000	250,000 (Yes)
34	[47-37486] CAPITAL PROJECT	Sugar House Park Hidden Grove Bridge Guard Rail [Exp: 11,752; Rev: 33,890] Parks and Recreation requests additional TRCC funding and revenue from Salt Lake City to replace the Hidden Grove bridge guard rail, paint lanes and parking striping, and all other required elements for the successful completion of this project The existing guard rail has been damaged and must be replaced to ensure the safety of park users. This project was originally funded by TRCC in 2023. Delays in funding from SLC have resulted in increased construction costs, requiring additional TRCC funding to complete the project. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. The Park Authority has prioritized this project as a priority for 2025.	-	(22,138)	(22,138) (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
35	[47-36781] CAPITAL PROJECT	Sugar House Park Upgrade Irrigation [Exp: 103,734; Rev: 51,867] Parks and Recreation requests funding to replace the existing WeatherTRAK irrigation controller and warranties at Sugar House Park. Replacing the existing WeatherTRAK irrigation controller is essential to ensure the system remains up-to-date and functions efficiently. Upgrades will improve reliability, enhance water management, and support critical water conservation efforts, aligning with sustainability goals and reducing operational costs. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. Sugar House Park Authority has requested this project.	-	51,867	51,867 (Yes)
36	[47-36780] CAPITAL PROJECT	Sugar House Park Replace Culinary Water Line Design [Exp: 164,000; Rev: 82,000] Parks and Recreation requests funding to study replacing the culinary water line for the restrooms and maintenance shop at Sugar House Park. The existing culinary water line and electrical system are over 40 years old and have exceeded their expected service life. SLC Public Utilities has expressed concerns about the integrity of the water line, which serves restrooms, drinking fountains, and the maintenance shop. Replacement is necessary to ensure reliable service, prevent failures, and maintain safe, functional facility operations. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. The Park Authority has prioritized this project as a priority for 2025.	-	82,000	82,000 (Yes)
37	[47-37499] CAPITAL PROJECT	PAR TRCC Project Overhead Fund countywide overhead costs.	-	286,497	286,497 (Yes)
40	[47-37480] CAPITAL PROJECT	Jordan River Trail - Trail Repair [Exp: 500,000; Rev: 500,000] Parks and Recreation requests additional funding to repair sections of the Jordan River Trail and to stabilize banks at Jordan Narrows, Perry Farms, and Little Confluence. The trail surface is cracking and developing potholes. If slurry-seal is not applied now, it will lead to more costly reconstruction in the near future. Slurry-seal will extend the trail's life by approximately seven years. Additionally, the bank is sluffing off, encroaching on the trail, which further jeopardizes its condition and safety. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.	-	-	- (Yes)
41	[47-37489] CAPITAL PROJECT	Utah Salt Lake Canal Trail Phase 7 - Taylorsville to West Jordan [Exp: 750,000; Rev: 750,000] Parks and Recreation requests ORD funding to develop a 10-foot wide, asphalt-paved, multi-use trail within the Utah & Salt Lake Canal corridor. Design of the trail was funded in the 2025 budget request. The trail will begin in Taylorsville City at approximately 2200 West 6460 South and extend southwest to 2700 West at approximately 6577 South, where it will cross into West Jordan City. It will continue south across 7000 South at approximately 3075 West, and proceed further south to end at approximately 2920 West 7800 South. The total proposed trail length is approximately 2.26 miles. This project will provide a critical active transportation and recreational connection between Taylorsville and West Jordan, serving walkers, cyclists, and other non-motorized users. By utilizing the Utah & Salt Lake Canal corridor, the trail will make efficient use of an existing linear open space, offering a safe and scenic alternative to busy roadways. It will improve regional connectivity, promote healthy lifestyles, and enhance access to nearby neighborhoods, parks, schools, and commercial areas. The trail also supports long-term goals of multi-modal transportation planning and increased access to outdoor recreation opportunities for all residents. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.	-	-	- (Yes)
42	[47-37027] CAPITAL PROJECT	Decker Lake Park Pave Perimeter [Exp: 300,000; Rev: 300,000] Parks and Recreation requests funding to asphalt pave the existing soft-surface perimeter trail at Decker Lake Park to improve durability, accessibility, and year-round usability. The current soft-surface trail is subject to erosion, uneven surfaces, and weather-related closures, which limit accessibility for pedestrians, cyclists, and mobility devices. Asphalt paving will provide a stable, low-maintenance surface, extend the trail's usable season, and enhance safety for all users. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.	-	-	- (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
43	[47-37831] CAPITAL PROJECT Hunter Park Connection Trail [Exp: 400,000; Rev: 400,000] Parks and Recreation requests ORD funding to develop a 10-foot-wide connection trail through Hunter Park to link surrounding neighborhoods with the Mountain View Corridor Trail. This also requests necessary irrigation repairs that are impacted by the trail construction The Hunter Park Connection Trail project will create a safe, accessible pathway linking nearby neighborhoods through Hunter Park to the Mountain View Corridor Trail. This improvement will enhance community connectivity, expand recreation opportunities, and provide residents with convenient access to the regional trail system. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds		-	-	(Yes)
44	[47-37833] CAPITAL PROJECT Utah & Salt Lake Canal Trail Restoration [Exp: 250,000; Rev: 250,000] Parks and Recreation requests ORD funding to provide restoration along each side of the existing canal trail path in West Valley City and Magna. The work involves cutting down and spraying invasive plant species along the canal corridor and path, limb up existing trees, and removing unwanted or dead trees that may fall and create a dam within the canal. This work includes about 5-miles of existing path and canal corridor starting at 4000 W. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.		-	-	(Yes)
45	[47-37834] CAPITAL PROJECT Big Cottonwood Regional Park - Park Connector Study [Exp: 25,000; Rev: 25,000] Parks and Recreation requests ORD funding for an implementation study for the development of a pedestrian and cyclist connection system that links the four parks within Big Cottonwood Regional Park. These improvements aim to create a safe, unified, and accessible active transportation network connecting the parks and surrounding neighborhoods. Big Cottonwood Regional Park is currently experienced as four separate parks—Hillview Basin, Big Cottonwood, Holladay Lions, and Creekside. Establishing safe and accessible connections between these parks and surrounding neighborhoods will transform them into a unified regional destination. Improved connectivity will strengthen the community's active transportation system while expanding recreational opportunities for walking, biking, and other non-motorized activities. Improvements under consideration include multi-use pathways, enhanced pedestrian crossings, consistent street treatments, intersection upgrades at 4500 S/1300 E, and potential below-grade crossings. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.		-	-	(Yes)
46	[47-37835] CAPITAL PROJECT Utah & Salt Lake Canal Trail Phase 5 - Magna [Exp: 1,200,000; Rev: 1,200,000] Parks and Recreation requests ORD funding to develop a 10-foot wide, asphalt-paved, multi-use trail within the Utah & Salt Lake Canal corridor in Magna. The proposed section of trail is to be approximately 3-miles in length, beginning at approximately 3750 South 8000 West, and then running northwest and then north to Magna Copper Park at 2600 South 8950 West in Magna. The trail is to utilize the canal corridor, between 3750 South 8000 West to 3500 South 8860 West (1.35-miles). Within the canal corridor, the trail will use a stretch of the existing canal maintenance road, and a stretch of the opposite bank to accommodate the trail. While the other section from 3500 South 8860 West to Magna Copper Park (8940 West 2600 South, 1.67-miles) is to utilize the public right-of-way along three streets, 9200 West, 9180 West and 2600 South. Along 9200 West, a ditch, approximately 0.75-miles in length exists and is used for storm water purposes. To accommodate the trail along this stretch of road, the ditch needs to be piped. This request will be net neutral, funded with ORD 4th Quarter Local Option Sales Tax funds.		-	-	(Yes)
47	[47-37481] CAPITAL PROJECT PAR Capital Projects Overhead Fund county overhead costs.		-	233,860	233,860 (Yes)
52	[47-37957] CAPITAL PROJECT Parks Equipment Replacement Parks and Recreation requests to add the 2026 tranche to the Parks Equipment Replacement Fund. This request is for a County Council approved annual transfer from the TRCC Fund for scheduled replacement of worn out parks equipment. A 3% inflation increase has been included in this request. In 2013, a revolving fund to replace dilapidated Parks capital equipment was established. Constant breakdowns and costly repairs of the equipment limited Park staff's ability to perform assignments effectively. This request is to continue funding the replacement of capital equipment.		-	473,491	473,491 (Yes)
53	[47-37958] CAPITAL PROJECT Recreation Equipment Replacement Parks and Recreation requests a project to add the 2026 tranche to the Recreation Equipment Replacement Fund. This request is for a County Council approved annual transfer from the TRCC Fund for scheduled replacement of worn out recreation equipment. A 3% inflation increase has been included in this request. The Recreation Section receives funding annually in an equipment replacement fund. This fund was initiated in 2005, to replace and upgrade fitness equipment; replace office, recreation and building equipment. This request is to continue funding the replacement of capital equipment.		-	1,033,722	1,033,722 (Yes)
54	[47-37956] CAPITAL PROJECT PAR Equipment Overhead Fund countywide overhead costs.		-	132,138	132,138 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
58	[47-36753] CAPITAL PROJECT 2026 Rec FIF Projects [Exp: 303,713; Rev: 303,713] Parks and Recreation requests a project to use Recreation Facility Improvement Funds.		-	-	(Yes)
59	[47-37479] CAPITAL PROJECT PAR FIF Overhead [Exp: 5,230; Rev: 5,230] Fund countywide overhead costs.		-	-	(Yes)
62	[47-36793] CAPITAL PROJECT Acord Ice Replace AHU Parks and Recreation requests funding to replace the variable air volume (VAV) air handler unit (AHU), provide connections to HVAC controls, and all other required elements for the successful completion of this project. A/E is currently preparing construction documents for bidding. This project will be ready to bid early 2026. This is a ZAP 1 facility. The existing AHU has reached the end of its expected lifespan and is no longer operating reliably, requiring frequent and costly repairs. Additionally, the unit is unable to maintain required humidity levels, impacting indoor air quality and occupant comfort. Replacing the AHU is necessary to ensure consistent performance, improve energy efficiency, and maintain proper environmental conditions. This project has been reviewed and recommended by Facilities Management.		-	400,000	(No)
63	[47-36792] CAPITAL PROJECT County Ice Center Replace Condensing Tower Parks and Recreation requests a project to replace the ammonia evaporative condenser tower, provide connections to controls, and all other required elements for the successful completion of this project at County Ice. A/E is currently preparing construction documents for bidding. This project will be ready to bid early 2026. This is a ZAP 1 facility. While the evaporative chiller barrels were replaced in 2018, the corresponding evaporative condensers—critical for rejecting heat from the refrigerant during the compression cycle—were not included in that project. These units have now reached or exceeded their useful life and are essential to the operation of the ice-making system, which cools the concrete floors. Replacing the condensers is necessary to ensure continued, reliable ice production and to support the core function of the facility. This project has been reviewed and recommended by Facilities Management.		-	650,000	(No)
64	[47-36788] CAPITAL PROJECT West Jordan Pool Renovate Pool Parks and Recreation requests funding to remove the pool liner, re-plaster the pool, replace pool lights with LED, replace expansion joints and all other items pertaining to the pool's operation, and install new aquatic play structures at the West Jordan Pool. The existing pool PVC liner is worn in high-traffic areas, with multiple holes, faded lap lane lines, and large water bubbles trapped beneath the surface. The liner has become too thin to effectively patch, compromising pool safety and aesthetics. Removing the liner and replastering the pool will provide a safer, more durable surface, enhancing the swimming experience for patrons. Additionally, adding new pool toys will increase recreational value and enjoyment.		-	1,300,000	(No)
65	[47-36787] CAPITAL PROJECT SLC Sports Complex Upgrade Security Camera System [Exp: 65,000; Rev: 32,500] Parks and Recreation requests a new project to upgrade the existing security camera system at SLC Sports Complex. The existing security camera system has exceeded its expected lifespan, is no longer functioning reliably, and lacks the capacity to support expanded coverage of key areas including the building, parking lot, gyms, classrooms, and pool. Replacing the system is essential to ensure reliable surveillance, enhance campus security, and support the safety of staff, students, and visitors. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects.		-	32,500	(No)
66	[47-36783] CAPITAL PROJECT Sugar House Park Sugar Beet Pavilion Replacement [Exp: 1,056,000; Rev: 528,000] Parks and Recreation requests funding to replace the Sugar Beet pavilion, upgrade electrical, remove the BBQ, paint lanes and parking striping, and all other required elements for the successful completion of this project at Sugar House Park. The existing pavilion is over 40 years old and has deteriorated significantly due to age and heavy use. It does not meet current seismic or ADA accessibility standards and is no longer feasible to maintain effectively. Replacing the pavilion is necessary to ensure structural safety, code compliance, and continued usability for the community. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. Sugar House Park Authority has requested this project.		-	528,000	(No)

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
67	[47-36779] CAPITAL PROJECT	Sugar House Park Parking Lot Repairs [Exp: 414,000; Rev: 207,000] Parks and Recreation requests funding for parking lot repairs, paint parking striping, ADA signage replacement, and all other required elements for the successful completion of this project at Sugar House Park. The parking lot is experiencing surface cracks, potholes, and curb and gutter deterioration, which accelerate asphalt breakdown and contribute to rusting of light poles. Timely repairs are essential to avoid costly reconstruction and reduce hazards for facility users. This project will address these issues by repairing damage, applying asphalt slurry or overlay, re-striping, updating ADA signage and ramps, and replacing broken curbs and gutters, ensuring a safer and more durable surface. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. Sugar House Park Authority has requested this project.	-	207,000	(No)
68	[47-36777] CAPITAL PROJECT	Sugar House Park Shade for Central Playground [Exp: 204,000; Rev: 102,000] Parks and Recreation requests funding to install a shade structure over the existing central playground at Sugar House Park. Installing shade over the existing playground is essential to improve safety, comfort, and usability. Shade structures protect children from harmful UV exposure, reducing the risk of sunburn and heat-related illnesses. They also help keep playground equipment cooler, preventing burns from hot surfaces. Additionally, shaded areas extend playtime during warmer months and support inclusive access by creating a more comfortable environment for all users. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. Sugar House Park Authority has requested this project.	-	102,000	(No)
69	[47-36774] CAPITAL PROJECT	Sugar House Park Loop Drive Slurry Seal [Exp: 129,720; Rev: 64,860] Parks and Recreation requests funding to slurry seal the loop drive, repair curbs and gutters, paint lanes and parking striping, and all other required elements for the successful completion of this project at Sugar House Park. The loop road is showing signs of deterioration, including cracking and pothole formation. Applying a slurry seal now will prevent further damage, avoiding costly future reconstruction and extending the road's lifespan by approximately seven years. The project also includes adding crosswalk striping, signage, and bike lane markings to improve safety for all users. By contract, Salt Lake City and Salt Lake County split maintenance costs 50/50 on all projects. Salt Lake City has earmarked funding for this request. Sugar House Park Authority has requested this project.	-	64,860	(No)
70	[47-36770] CAPITAL PROJECT	Acord Ice Center Upgrade Rink Study Parks and Recreation requests funding for an evaluation for the Acord Ice Center ice rink upgrades and/or equipment replacement, design and construction documents for replacement, and cost estimate. This is a ZAP 1 facility. The ice center requires critical renovations to ensure safety, functionality, and long-term viability. A crack in the rink floor makes it difficult for staff to maintain a smooth ice surface, impacting both operations and user experience. Upgrading dasher boards to NHL standard size will enhance the facility's ability to support future programming needs. Installing glass and netting above the boards will improve safety for both patrons and staff. Additionally, the utility trench side walls are deteriorating and may soon be unable to support the weight of the Zamboni, posing a serious operational risk. The floor inside the Zamboni room is also damaged due to heavy use and is becoming unsafe. Renovation is necessary to address these structural issues, maintain safe conditions, and support the facility's continued use.	-	200,000	(No)
71	[47-36766] CAPITAL PROJECT	Dimple Dell Rec Center Floor Resurfacing Parks and Recreation requests funding to resurface locker room floors and pool deck, and all other required repairs for the successful completion of this project at Dimple Dell Recreation Center. This is a ZAP 1 facility. The existing surfaces are rough and hard to clean, resulting in a facility that appears unkept and dingy. This negatively impacts the user experience and creates an unpleasant environment.	-	325,000	(No)
72	[47-36742] CAPITAL PROJECT	Pleasant Green Park Renovate Irrigation System Parks and Recreation requests funding to renovate the irrigation system, affected landscape, and surrounding amenities in accordance with the completed 2025 construction documents, including all appurtenant and incidental items and associated work necessary for the successful completion of the project at Pleasant Green Park. The existing irrigation system is over 40 years old and no longer functions reliably. Frequent line breaks, worn-out valves, and extensive damage to control wires from gophers, vandalism, and aging have resulted in costly and ongoing repairs. Replacing the system is necessary to improve reliability, reduce maintenance costs, and ensure efficient water distribution.	-	1,800,000	(No)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
73	[47-36740] CAPITAL PROJECT	Dimple Dell Regional Park New Maintenance Building Parks and Recreation requests funding to construct a new maintenance building, site access, storage, and all other required elements for the successful completion of this project at Dimple Dell Regional Park. Dimple Dell Regional Park encompasses 630 acres of natural open space and over 15 miles of multi-use trails, serving a growing population in Sandy. As park use increases, so does the demand for responsive and effective maintenance. A new maintenance building is essential to support park operations by providing a centralized base for staff, equipment, and supplies. It will enable quicker response times to address vandalism, safety hazards, and infrastructure repairs, while also improving the overall care of trails, natural areas, and park amenities. This facility will enhance service delivery, reduce travel and downtime for staff, and ensure the park remains safe, clean, and enjoyable for all visitors.	-	550,000	- (No)
74	[47-36738] CAPITAL PROJECT	JL Sorenson Recreation Center Pipe Bracing Parks and Recreation requests a new project to provide bracing for existing pool supply piping, repair or replace any damaged pipe, and all other required elements for the successful completion of this project at JL Sorenson Recreation Center. The existing pool piping is experiencing significant vibration due to high water pressure, causing leaks at the joints. Installing proper bracing will stabilize the piping system, relieve stress on the joints, and prevent potential pipe failures. This is essential to maintain the integrity of the pool system, reduce water loss, and avoid costly emergency repairs.	-	25,000	- (No)

			FTE Request	Requested Net \$ (Total Exp-Total Rev) Mayor Proposed
1	[31-37125] TECHNICAL ADJUSTMENT	PAR Balance Tollbooth Revenue and Expense	-	12,94812,948
	Parks and Recreation requests this increase to balance the Millcreek Canyon Tollbooth's revenue and expense budgets.			(Yes)
	The County operates the tollbooth at the mouth of Millcreek Canyon on behalf of the US Forest Service. The County collects all users fees, subtracts the cost to operate the tollbooth, and remits the remainder to the Forest Service. The net effect on the General Fund should be zero.			
	This request brings the expense budget in line with the revenue budget, so that the displayed effect on the General Fund is zero.			
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-12,94812,948

0	[31-37430]	TECHNICAL DEBT SERVICE ADJUSTMENT	2026 - 2017 STR TRCC Bond Adjustment	-	4,000	4,000
	To adjust the 2026 debt service amounts for the 2017 STR TRCC Bond payments					(Yes)
0	[33-37900]	REVENUE PROJECTION CHANGE	Sales Taxes Projections and Related Updates	-	-	(2,720,000)
						(Yes)
0	[33-37951]	REVENUE PROJECTION CHANGE	Interest - Time Deposits Projection Adjustments	-	724,000	724,000
	Update interest revenue in key funds.					(Yes)
1	[31-37963]	POLICY SIGNIFICANT BASE ADJUSTMENT	True-up TRCC Base Budget for Outside Contributions	-	669,602	669,602
	This request trues-up the base budget for TRCC outside contributions. 2025 year-end decision package #37765 should have been one-time, not ongoing. This request reverses the budget adjustment in 2026.					(Yes)
	FUTURE YEARS ADJUSTMENT: -669,602					
2	[31-37962]	NEW REQUEST	Re-budget Previously Approved TRCC Contributions	-	108,111	108,111
	This request re-budgets a previously approved TRCC contribution.					(Yes)
	1) Kearns City - David Gourley Park Pavilion and Restroom (D1051) \$108,111 The project is underway and is internally managed by Parks and Recreation.					
	FUTURE YEARS ADJUSTMENT: -108,111					
3	[31-37964]	NEW REQUEST	Sugar House Park Authority Sewer Subsidy Increase	-	511,490	511,490
	Sugar House Park Authority (SHPA) requests an ongoing increase in park subsidy for the impact of the new sewer rate charges at Sugar House Park. Salt Lake City Public Utilities (SLCPU) recently completed a water/sewer rate study with new fees effective July 1, 2025. Water rates increased nominally, while sewer rates increased exponentially. The basis for the sewer rate calculation changed from using wintertime water usage (low months at Sugar House Park) to calculating sewer usage at 70% of total water used, then multiplying by the cost of water. As a result, SLCPU's analysis identified some large institutional outliers, Sugar House Park being one of them. Salt Lake County's Parks Section is gathering water use data to see if a more reasonable calculation can be used and are also looking at options to change a meter to distinguish irrigation water from sewer. The old calculation resulted in \$130,000 annually for water and sewer. The new calculation projects annual costs for water and sewer to be \$1,066,521.					(Yes)
	Salt Lake City and Salt Lake County contribute equally to the Sugar House Park Authority for operations and maintenance at Sugar House Park. This request is for the County's portion of the cost increase, \$533,261. This amount is then decreased by \$21,771 to true-up the budget to the FY26 SHPA operations and maintenance request. The net requested increase is \$511,490.					
	The TRCC advisory board has reviewed and supported this request.					
	FUTURE YEARS ADJUSTMENT: -511,490

CORE MISSION

Support arts and culture in Salt Lake County with premiere spaces, places and services.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
All community members are able to attend Broadway and Live at the Eccles events, regardless of their ability to pay.				
• The Eccles Theater Arts for All program distributes free tickets to income qualified Salt Lake County residents. Target is based on the percentage of individuals receiving free tickets that attend an event at Eccles Theater.	92%	90%	100%	90%
Eccles Theater maintains a world-class standard of operation.				
• Using an online work order tracking system, ensure that all facilities issues are addressed in a timely manner. Target is based on the percentage of work orders that are responded to within the required timeline based on the severity of the maintenance issue.	100%	90%	100%	90%
Patrons have an excellent experience attending events at Arts & Culture venues.				
• Following an event, we will ask arts patrons to fill out a short survey about their experience. Target is based on number of responses that rate general experience with at least 4 out of 5 stars.	95%	90%	100%	90%
Regent Street Black Box is a vital and well-utilized resource in the community.				
• Measure utilization of the Regent Street Black Box by calculating number of non-maintenance bookings as a percentage of days of the year. Utilization target based on industry standard for annual utilization defined as full capacity for theatre staffing resources. (Industry Standard for Full Theater Capacity is 65%)	48%	60%	61%	60%
Eccles Theater engages with members of all Salt Lake County communities.				
• Arts & Culture will administer intercept surveys at community engagement events, with questions including whether the patron has attended an event at an Arts & Culture venue in the past and whether they are likely to return in the future. Target is based on percentage of responses that indicate they are likely to return to an Arts & Culture event in the future.	-	85%	-	85%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37840]	POLICY SIGNIFICANT BASE ADJUSTMENT	Eccles O&M Budget Movement	-	-	-
This request is a policy-significant base movement in response to the request to isolate operations and maintenance spending. These updates will support a study on maintenance, repair, and replacement plans.						(Yes)
2	[31-36936]	NEW REQUEST	ECC Align Revenue & Expense	-	(554,900)	(554,900)
[Exp: 6,093; Rev: 560,993] This request trues-up earned event revenues and associated event expenses based on the projected booking calendar and proposed fee increases. Revenue projections are based on an in-depth analysis of actual and projected bookings completed by Event Managers. Once the projected booking calendar has been created, all associated revenues and expenses are projected based on standard event needs. All revenue projections are then compared to the previous year's actuals and known impacts such as maintenance closures, significant changes in Resident or regular user programming, and other factors.						(Yes)
3	[31-36937]	NEW REQUEST	ECC Personnel Appropriation True-Up	-	103,900	103,900
This request trues up payroll allocations between Arts & Culture, Eccles Building, and Eccles Site based on standard distribution of payroll for merit staff whose effort is allocated between these budgets. While the total salaries and benefits across all budgets are within existing base budget, due to salary changes from turnover and salary adjustments a true up is necessary to ensure that the appropriation within individual budgets reflects the proper allocation of payroll costs.						(Yes)
4	[31-36939]	NEW REQUEST	ECC Centralized Service True-Up	-	145,858	145,858
This request trues-up our centralized services charge to Eccles Theater for shared expenses paid for within Fund 185 Arts & Culture budget and allocable to fund 726 Eccles Theater. The costs are paid by A&C, and in return, Eccles provides revenue to A&C based on the usage of the services. Centralized services costs include County indirect administrative costs, ticketing, event management, marketing, and patron services shared costs. A portion of these shared costs are allocated to Eccles Theater using various allocation bases that reflect the proportionate share of expenses. Increased centralized service costs for 2026 are primarily due to an increase in County overhead for insurance and risk management costs. This true up also includes a reallocation of fraud management software costs from a direct Eccles operating expense to centralized services.						(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
5	[31-36951] NEW REQUEST ECC Arts for All Ticket Cost True-Up [Exp: 6,150; Rev: 6,150] We are requesting a \$6,150 increase from fund balance to the Arts for All (AFA) ticketing line to support a 5% escalation in ticket costs and accommodate the continued growth of the program. Ticket prices for both LIVE at the Eccles and Broadway at the Eccles events rise annually, directly impacting our ability to provide the same number of free tickets each year with the current budget allocation. This requested increase will ensure that Arts for All can maintain current service levels, continue growing to meet community demand, and uphold equitable access to live performing arts events for under-resourced Salt Lake County residents.		-	-	- (Yes)
6	[31-36940] NEW REQUEST ECC Inflation Expenditures This request reflects the anticipated increase in the cost of standard ongoing maintenance, cleaning and utilities as well as other increases directly related to inflation, to internal service and contract rate increases. Costs for Salt Lake County Facilities Management, contracted cleaning services through county-wide contract with RBM, and utilities rates, are all anticipated to increase from 10-20% based on communications from applicable suppliers. To maintain the same level of maintenance, cleaning, and utility usage for maintaining and operating Arts & Culture venues, additional budget appropriation is needed to cover these rate increases. Without additional appropriation, Arts & Culture would have to significantly decrease the service level of our venue operations, significantly impacting arts organization and patron experience.		-	75,000	75,000 (Yes)
7	[31-36941] NEW REQUEST ECC Background Checks Eccles Theater requests a partial one-time and partial ongoing increase in appropriation to cover background checks to ensure compliance with temporary employees and volunteer background check policy. The one-time request will allow Arts & Culture to implement background checks for all current temporary and volunteer positions at Arts & Culture, totaling approximately 600 individuals, necessary due to the recent change in policy and nature of the associated job duties. The ongoing request will allow the Division to cover the costs associated with standard turnover associated with these same positions on an annual basis. FUTURE YEARS ADJUSTMENT: -5,292		-	8,900	8,900 (Yes)
8	[31-36942] NEW REQUEST ECC Site Community Engagement Arts for All Funding [Exp: 30,000; Rev: 15,000] The Eccles Theater is requesting funding from the Arts for All fund to address ongoing cost increases resulting from rising attendance and to implement key enhancements to its existing programs that support community engagement. This funding will support Eccles Site Community Engagement costs utilizing available Arts for All funding. Ongoing community engagement events such as Salt Lake Speaks, Mariachi Festival, and Voces en Bloom have proven to be very successful ways to increase accessibility and attract new audiences for Eccles Theater. While we are not proposing any new programs, this funding request aligns with the long-range financial plan of Arts for All.		-	15,000	15,000 (Yes)
9	[31-36943] NEW REQUEST ECC Event Management Software Improvements Arts & Culture requests funding for enhancements to our primary Event Management Software including the addition of room-diagramming capabilities and single-sign on capacity. These enhancements will significantly improve Arts & Culture's ability to provide high-level customer service and event support to arts organization clients through room-diagramming services. The addition of a single sign-on will also improve security and efficiency of one of Arts & Culture's key enterprise software systems. This request includes one-time costs for development and implementation of the enhancements of \$9,660, as well as ongoing annual licensing costs of \$12,000. These enhancements will be included in Centralized Services with a portion allocated to Eccles Building and Site. These software modules have been reviewed by the Technology Advisory Board (TAB).		-	3,247	3,247 (Yes)
10	[31-36944] NEW REQUEST ECC Technical Director Training & Development Arts & Culture requests funding for specialized technical development training for Technical Directors to mitigate the risk of failure that has a cost impact. The high-level technical skills and expertise needed to operate specialized theatrical systems, as well as the arts organizations that rent Arts & Culture venues, demand regular and ongoing training. A lack of sufficient training has been identified as a significant gap, for both Arts & Culture technical staff, and technical theater personnel throughout the community who support arts and culture events and activities. This training aims to address these skill gaps, reduce risk, and enhance services to clients. The Arts & Culture theater operations team will engage professionals to provide hands-on, in-house training tailored to our venues. This will ensure that Arts & Culture technical staff possess the necessary skills and expertise to complete job functions effectively. The requested funding will cover expert trainers' fees and equipment rentals needed for the training sessions. Costs are shared between Arts & Culture and Eccles Theater based on which venue systems the trainings are anticipated to cover.		-	6,000	6,000 (Yes)
11	[31-36947] NEW REQUEST ECC - Eccles 10-Year Celebration Eccles Theater requests one-time funding for a 10-Year Anniversary Celebration. In Fall 2026, Eccles Theater will mark its 10th Anniversary since its opening in Fall 2016. This is a key milestone to celebrate the community impact of the Theater. While specific activities have not been fully defined, this request would help fund a celebration performance in the fall, along with other community engagement activities over the course of the 2026-2027 season. FUTURE YEARS ADJUSTMENT: -27,500		-	27,500	27,500 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
12	[31-37779]	NEW REQUEST	Eccles - ArtTix Tickets as Fare	-	55,201	55,201 (Yes)
	Arts & Culture has received a proposal from UTA for an annual partnership that would allow all ArtTix tickets for Arts & Culture events to be used as UTA fare on the day of the event. The proposal represents a fixed annual fee that will be evaluated for future years, with a cost significantly lower than if patrons were to purchase public transit tickets for each event individually.					
	This partnership would significantly reduce barriers to attending Art & Culture events. Parking and related costs are frequently cited as significant challenges for attendees. By allowing tickets to serve as fare, this initiative would also help improve air quality by encouraging more people to use public transportation and reducing reliance on car travel.					
	The cost of this initiative is allocated between Arts & Culture and Eccles Theater based on the proportional number of tickets sold.					
13	[32-37782]	STRESS TEST REDUCTION	Eccles Stress Test Reduction ArtTix Tickets as Fare	-	(55,201)	- (No)
14	[32-37099]	STRESS TEST REDUCTION	Eccles Programmatic Reduction 1st Stage (STRESS)	-	(99,133)	- (No)
	The method used to derive the associated numbers is based on a 3-tier approach to limit the impact on our venues. This request is based on programmatic costs (exclusive of building upkeep) which include supplies, small equipment, training and professional development, and advertising. Reductions to these expenses will reduce our ability to maintain a highly qualified workforce and appropriately promote and support events taking place at Arts & Culture theaters.					
	This request represents a 2.5% reduction based on our stress test calculated value.					
15	[32-37100]	STRESS TEST REDUCTION	Eccles Venue Operations 2nd Stage (STRESS)	-	(99,135)	- (No)
	The method used to derive the associated numbers was based on a 3-tier approach to limit the impact on our venues. The second and third tier of Arts & Culture's stress request was for building maintenance. The amounts were split into 2 requests, an initial and second request to avoid excessively impeding building functions necessary for operating the venue as a first-class theater where possible. Reductions would include cleaning supplies, maintenance, and small equipment. Arts & Culture endeavors to present a safe and visually appealing venue, and the reduction of building operating funds will reduce the ability to respond quickly to maintenance issues as they arise, leading to a lower level of service and potentially unsafe working environment. Deferred maintenance or inability to quickly address malfunctioning systems could also lead to a loss of earned revenue.					
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-	(114,294)	(114,294)
	TOTAL BASE BUDGET ADJUSTMENTS:			-	-	-
	TOTAL STRESS TEST REDUCTIONS:			-	(253,469)	-

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS					
Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
(detail rows exclude projects that are strictly re-budgets)					
1	[47-35965]	CAPITAL PROJECT Eccles Bldg-Small & Large Ops Equip This ongoing request is for Eccles Building small & large equipment replacement according to the equipment replacement cycle. This project is requested to be funded from Operational BLDG revenues.	-	80,000	80,000 (Yes)
2	[47-35964]	CAPITAL PROJECT Eccles Bldg-Small & Large BTS Equip This ongoing request is for Eccles Building Business Technology Systems (BTS) small & large equipment as well as network infrastructure replacement according to the equipment replacement cycle. This project is requested to be funded from Operational BLDG revenues.	-	100,000	100,000 (Yes)
3	[47-35963]	CAPITAL PROJECT Eccles Site-Small & Large Ops Equip This ongoing request is for Eccles Site small & large equipment replacement according to the equipment replacement cycle. This project is requested to be funded from Operational SITE revenues.	-	30,000	30,000 (Yes)
4	[47-35962]	CAPITAL PROJECT Eccles Site-Small & Large BTS Equip This ongoing request is for Eccles Site Business Technology System (BTS) small & large equipment as well as network infrastructure. This project is requested to be funded from Operational Site revenues.	-	20,000	20,000 (Yes)
5	[47-36900]	CAPITAL PROJECT ET Controls Commissioning - Phase1 This project initiates a phased commissioning of building automation systems (BAS) to improve energy performance, reduce maintenance costs, and extend equipment life. Outdated or misconfigured controls are leading to inefficiencies and system strain.	-	20,000	20,000 (Yes)
6	[47-36901]	CAPITAL PROJECT ET BLDG Access Control Keypad Security This project aims to replace the current access control keypads, access cards, and card printers with a modern encrypted system. The existing building infrastructure and software will remain unchanged and will work seamlessly with the new keypads and cards. Salt Lake County Facilities has identified a security threat that could compromise our access control system. This upgrade will enhance the system's security to a higher standard.	-	30,000	30,000 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
7	[47-36903] CAPITAL PROJECT ET FF&E Venue Furniture Upgrade The current venue furniture is outdated, worn, and fails to meet functional or aesthetic standards. Upgrading will enhance comfort, support event versatility, and align with brand expectations. This project is requested to be funded from BLDG Operations.		-	75,000	75,000 (Yes)
8	[47-36906] CAPITAL PROJECT ET-BLDG Office Remodel Project The BLDG Office Remodel Project aims to modernize our workspace, enhancing efficiency and fostering collaboration among our team. This remodel will bring staff who interact with patrons into a unified and functional workspace, thereby improving collaboration and streamlining guest services. This request will reconfigure the current space and allow for FF&E to furnish the space. Funding for this project is requested from BLDG Operations.		-	154,000	154,000 (Yes)
9	[47-36908] CAPITAL PROJECT ET - Facilities Condition Assessment This project will engage consultants to develop a comprehensive condition assessment. This assessment is essential for identifying maintenance needs, prioritizing capital investments, and extending the life of facility assets. The project requests funding from BLDG Operations.		-	40,000	40,000 (Yes)
10	[47-35961] CAPITAL PROJECT ECC_CAP_OVERHEA - ET Capital Projects Overhead ECC_CAP_OVERHEA - ET Capital Projects Overhead		-	5,539	5,539 (Yes)
11	[47-36902] CAPITAL PROJECT ET Paint Front of House Interior paint throughout the facility has reached end-of-life, with visible wear, fading, and surface damage. Repainting is necessary to maintain a clean, professional environment and protect interior surfaces. This project is requested to be funded from Capital Reserve Account.		-	285,000	285,000 (Yes)
12	[47-36904] CAPITAL PROJECT ET BLDG Delta Stage Lighting Package This project completes the phased upgrade of the Delta stage lighting system. Existing fixtures and controls are outdated, which limits performance quality and increases maintenance demands. Finalizing the lighting package ensures consistency, reliability, and technical capability for a diverse range of productions. This project is requested to be funded from Capital Reserve Account.		-	130,000	130,000 (Yes)
13	[47-36905] CAPITAL PROJECT ES-SITE Install Permanent Seats BB Risers The temporary seating currently used in the Eccles Black Box theater is labor-intensive, inconsistent, and not ideal for long-term use. Permanent seating will enhance safety, improve the theater's appearance, and increase operational efficiency. This project is requested to be funded from the Capital Reserve Account.		-	100,000	100,000 (Yes)
14	[47-36907] CAPITAL PROJECT ET-SITE RSBB Audio Replacement The audio system at Regent Street Black Box is outdated and has reached the end of its operational life. Replacing it is essential to maintain professional-grade sound quality for events and to ensure reliability for vendors. We request funding for this project from the Capital Reserve Account.		-	95,000	95,000 (Yes)
15	[47-36909] CAPITAL PROJECT ET - Cellular Dist. Phase II This project will install a distributed antenna system (DAS) in the basement of the Eccles Theater to enhance cellular signal coverage for clients, vendors, and staff. A DAS enhances cellular signals in areas with weak coverage by using a network of antennas and connecting infrastructure. Currently, cellular service does not reach the basement of the Eccles Theater, where the production offices, main dressing rooms, and some staff offices are located. This project is requested to be funded from BLDG Operations.		-	150,000	150,000 (Yes)

CORE MISSION

Salt Lake County Parks & Recreation provides essential public services, maintains community assets, and creates innovative programming to improve lives through people, parks, and play.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County golf courses support the physical health of residents of all ages, socioeconomic backgrounds, and abilities.				
• Increase/maintain junior golf clinic/camp/league participation level.	1,265	1,000	1,065	1,000
• Maintain a 3-year rolling average of 9-hole rounds played.	470,620	413,293	246,424	439,300
• Percentage of surveyed residents and visitors who are satisfied with golf services, programs, and amenities.	66%	75%	80%	75%
Salt Lake County golf is in excellent financial health.				
• Achieve revenue goal.	135.79%	100%	73%	100%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37129] NEW REQUEST PAR Golf Increase Revenue and Expense [Exp: 211,104; Rev: 1,038,194] Golf requests an increase to revenue and expense budgets to reflect the increasing 3-year average of 9-hole rounds played and the additional expenses necessary to support those added rounds played. Part of the request is on-going, and part of the request is one-time. Although the long-term outlook for Golf remains uncertain, data indicates solid demand and a continuing upward trend. From 2023 to 2024, the 3-year average rounds played increased by 6.3%. The past four years (2021-2024) have each set a new record for rounds played. Despite a fee increase for 2025, year-over-year rounds played (January through June) is up 14.8% compared to 2024. The requested revenue increases are based on the difference between the number of rounds budgeted and the 3-year average of rounds. Golf requests that 15% of the difference be added as an on-going increase - a revenue increase of \$207,641. This increase in revenue is accompanied by expense increases for utilities, maintenance, seasonal staffing, and credit card processing fees due to increase usage of the courses. Golf also requests a one-time increase of an additional 60% of the difference (all indications are that revenue will continue increasing, but we are cautious because we are still less than a decade removed from a time when Golf's outlook was markedly different) - a one-time revenue increase of \$830,553. This one-time increase in revenue is accompanied by an expense increase for credit card processing fees. This request was presented to the Revenue Committee. FUTURE YEARS ADJUSTMENT: 789,024	-	(827,090)	(827,090) (Yes)	
2	[31-37128] NEW REQUEST PAR Golf Capital Equipment Purchases Golf requests to establish a capital expense budget for capital equipment and machinery purchases. These funds are used to purchase golf carts (which are now over the \$5,000 capitalization threshold) and capital maintenance equipment such as mowers. This request reduces the Golf Fund balance.	-	1,215,160	1,215,160 (Yes)	
3	[32-37309] STRESS TEST REDUCTION PAR Reduce Capital Equipment Purchases Golf would purchase fewer pieces of capital equipment, which does increase the risk of breakdowns that directly impact crews' ability to maintain the courses.	-	(859,583)	- (No)	
TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-	388,070	388,070
TOTAL BASE BUDGET ADJUSTMENTS:			-	-	-
TOTAL STRESS TEST REDUCTIONS:			-	(859,583)	-

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
1	[47-36747] CAPITAL PROJECT Golf: System-wide Irrigation Projects	Golf requests a project for the system-wide replacement of pumps, motors, and lateral valves supplying irrigation water to the golf course, satellite controllers software and components, and to repair a pump station. The existing golf course irrigation systems, including pumps, motors, lateral valves, satellite controllers and software, and associated infrastructure, are reaching the end of their operational life and is in critical need of replacement and repair. The current system is experiencing frequent breakdowns and inefficiencies, leading to inconsistent water delivery. This not only disrupts our irrigation schedules but also increases maintenance costs and staff workload. This system is essential for maintaining turf quality, playability, and the overall aesthetics of the golf course.	-	1,085,000	1,085,000 (Yes)
2	[47-36748] CAPITAL PROJECT Golf: System-wide Restroom Updates	Golf requests a project for the system-wide renovation of on-course and clubhouse restrooms including installing power, discontinuing propane, replacing fixtures, flush valves, doors, frames, epoxy flooring, paint walls/partitions, and replacing heaved concrete. The existing restrooms are outdated, lack electricity, and rely on propane heating which creates strong fumes and discomfort. Installing electrical service will eliminate these fumes, improve lighting, and allow for safer, more efficient heating and cooling year-round. Fixtures are corroded and unreliable, leading to frequent breakdowns and high maintenance. Replacing flush valves and fixtures will reduce water use and service disruptions. The rusted door and frame pose safety risks, while new epoxy flooring will eliminate odors, support proper sanitation, and significantly enhance the user experience. Anticipated 2026 locations include Mountain View and Old Mill.	-	65,000	65,000 (Yes)
3	[47-36749] CAPITAL PROJECT Golf: System-wide Fencing	Golf requests a project for the system-wide replacement of fencing at multiple courses. This request encompasses funding for system-wide fence replacement and repair as needed across all golf courses. Additionally, the boundary fence on hole four at Mick Riley has been repeatedly damaged by the homeless population, leading to unauthorized access and recurring encampments. Replacing the fence with a more secure solution is necessary to protect the property and maintain safety for patrons and staff. Riverbend is another anticipated project location.	-	100,000	100,000 (Yes)
4	[47-36750] CAPITAL PROJECT Golf: System-wide Facility Safety	Golf requests a project for the system-wide replacement of fire and security systems. The current security systems are outdated and no longer reliable. Replacing them are essential to maintain proper surveillance, ensure video storage, and support system functionality. Facility Management has reviewed and recommended this project	-	94,500	94,500 (Yes)
5	[47-37504] CAPITAL PROJECT Golf Overhead	Fund countywide overhead costs.	-	41,821	41,821 (Yes)
6	[47-36751] CAPITAL PROJECT 2026 Golf FIF Projects	Golf requests a project to use Golf Facility Improvement Funds.	-	530,000	530,000 (Yes)

CORE MISSION

The mission of Salt Lake County Library Services is to make a positive difference in the lives of our community by inspiring imagination, satisfying curiosity and providing a great place for everyone to visit.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The County Library will be recognized by Salt Lake County residents as a valuable community asset with a high level of customer service and satisfaction.				
• The Net Promoter Score (NPS) is designed to measure customer experience, loyalty, and satisfaction. The range runs from -100 to +100 and is calculated by subtracting the number of detractors from the number of promoters. A score above 0 is good, above 20 is favorable, and above 50 is excellent	0	0	0	50
Residents will regularly visit the County Library to read, learn, create and connect with each other to build healthy, happy lives and a strong, thriving civil society.				
• Number of patrons entering a county library location measured by a door counter. *2026 Target has been adjusted to account for planned branch closures for maintenance.	2,814,134	2,500,000	1,699,586	2,600,000
Library patrons find free, high-interest, high-demand materials in formats and languages they want and when they want them.				
• Material usage is measured by circulation and retrieval statistics. *2026 Target has been adjusted to account for planned branch closures for maintenance.	12,939,941	12,500,000	7,873,532	12,750,000
Residents will utilize County Library and programs and activities, in person or online, for early and lifelong learning, civic engagement, and for connecting with others in their community.				
• Measured by counting the number of attendees at online and in person activities. *2026 Target has been adjusted to account for planned branch closures for maintenance.	557,186	500,000	348,992	525,000
Salt Lake county residents have access to the tools, collections, knowledge, spaces, and human connections that foster their well-being and ability to meet their goals.				
• Measured by a percentage of households with library cards.	67%	70%	66%	70%

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
0	[33-37813] REVENUE PROJECTION CHANGE	Property Tax MV Fee Projection Adjustments		-	-	(1,386,589)
	As vetted by Revenue Committee on 9/12/2025					(Yes)
0	[33-37951] REVENUE PROJECTION CHANGE	Interest - Time Deposits Projection Adjustments		-	(79,000)	(79,000)
	Update interest revenue in key funds.					(Yes)
1	[31-37104] POLICY SIGNIFICANT BASE ADJUSTMENT	LIB_Technical Reduce .25 FTE		(0.25)	(32,369)	(33,156)
	This is a technical request to reduce a .25 FTE that was eliminated earlier this year due to a reorganization of the library Collection & Resources team which included the reclassification of multiple positions.					(Yes) (0.25) FTE
2	[31-37114] POLICY SIGNIFICANT BASE ADJUSTMENT	LIB_Reduce Kearns Lease Payment		-	(682,524)	(682,524)
	The last year of the Kearns Lease payment is 2026. This last payment is reduced from prior years. The library is requesting a reduction of the difference between what has been budgeted in the past and what the actual payment will be for 2026.					(Yes)
3	[31-37836] POLICY SIGNIFICANT BASE ADJUSTMENT	LIB_Facilities O&M		-	-	-
	This request is to budget Facilities O&M in one subdepartment for the library.					(Yes) 0.00 FTE
4	[31-37112] REDUCTION AMOUNT	LIB_Reduce TL Construction Project Mgr FTE		(1.00)	(156,136)	(161,648)
	This TL position was originally approved in 2023 for 3 years so the position is set to expire at the end of 2025. Due to a delay in the project timelines the library waited to hire this position until Spring of 2025 when the projects started to move forward. We believe this position is essential to these new building projects to provide project oversight and represent the specific needs of the library system. A request to extend the TL Construction Project Mgr is requested to reverse this reduction, decision package 37106.					(Yes) (1.00) FTE
5	[31-37107] REVENUE PROJECTION CHANGE	LIB_Change in Revenue Projection		-	(59,000)	(59,000)
	[Exp: 4,000; Rev: 63,000] The library is projecting a net increase in operating revenue. The library is seeing a decline in revenue from sales of products but seeing an increase in fine & fee revenue. The Viridian is seeing a slight increase in rental income offset by an increase in rental related expense.					(Yes)
6	[31-37116] NEW REQUEST	LIB_Library Appropriation Unit Shift		-	-	-
	This request is to allocate funds between cost of goods sold, capital equipment, and operating expenses. Each year as needs change, funds are reallocated to these appropriation units to meet current priorities. No new county funds are being requested.					(Yes)
7	[31-37105] NEW REQUEST	LIB_New Building (CRS) Utilities		-	52,000	52,000
	The library is requesting funding to pay for utilities at the new CRS Building. The Building was purchased in the Spring of 2025 and waiting to undergo remodeling. The utilities will be necessary to maintain the building and allow remodeling work to be completed throughout 2026.					(Yes)
8	[31-37106] NEW REQUEST	LIB_Extend TL Construction Project Mgr		1.00	156,136	161,648
	This request is to extend the existing full-time, time-limited project manager position for 3 more years to support four upcoming construction projects and two remodels spanning the next several years. This TL position was originally approved in 2023 for 3 years so the position is set to expire at the end of 2025. Due to a delay in the project timelines the library waited to hire this position until Spring of 2025 when the projects started to move forward. We believe this position is essential to these new building projects to provide project oversight and represent the specific needs of the library system.					(Yes) 1.00 FTE
9	[31-37113] NEW REQUEST	LIB_Ops Inflation Increase		-	191,213	191,213
	The budget increase aims to address the rising costs of IT operations driven by inflation as well as janitorial supplies, collections and other ops costs. Many software programs utilized by the library have experienced significant increases in subscription prices. Furthermore, hardware costs have risen over the past several years. As a result of these escalating expenses, maintaining the current IT functions has become more costly. These rising costs are associated with software and hardware that impact both staff operations as well as patron use through public access computers as well as the Create Space program.					(Yes)
10	[31-37101] NEW REQUEST	LIB_New FTE_Library Safety & Resource Program Manager		1.00	142,526	144,336
	The Library is requesting a new FTE. The Safety Program Manager will work closely with library leadership to develop a safety and resource plan for the library. This position will build working relationships with community agencies to support library patrons in need, develop partnerships with organizations that can directly connect patrons to helpful resources, support public facing employees with training, and manage an internship program to facilitate safety in all 18 library branches.					(Yes) 1.00 FTE
	This position will be responsible to develop and evaluate the library's safety plan, prioritize projects, and allocate resources to best meet organizational and community needs, intervention services to patrons in crisis, and work closely with the library leadership team and branch managers to implement the safety plan.					
	FUTURE YEARS ADJUSTMENT: -3,500					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
11	[31-37103]	NEW REQUEST	LIB_New FTE_Library Grants & Development Manager	1.00	60,026	61,836 (Yes) 1.00 FTE
	The Library is requesting a new FTE. The Grants and Development Manager will apply for and oversee compliance for local, state and federal grants, identify and pursue public/private partnership opportunities, manage the library's book sale program, build and manage a donor program, and support other revenue-generating operations in the Library. This role will coordinate closely with any county-wide fundraising roles and processes. This request includes an operating budget reduction to offset the cost of the FTE. The library has funding set aside for a consultant that would not be needed if this position was in place.					
	FUTURE YEARS ADJUSTMENT: -3,500					
12	[32-37119]	STRESS TEST REDUCTION	LIB_Cut Request_LIB New FTE Library Grants & Development Manger	(1.00)	(60,026)	- (No)
	Cut new request for new FTE Library Grants & Development Manager.					
13	[32-37120]	STRESS TEST REDUCTION	LIB_Cut Request_LIB New FTE Library Safety & Resource Program Manager	(1.00)	(142,526)	- (No)
	Cut new request for new FTE Library Safety & Resource Program Manager					
14	[32-37121]	STRESS TEST REDUCTION	LIB_Cut Request_LIB_Ops Inflation Increase	-	(191,213)	- (No)
	Cut new request for ops inflation increase					
15	[32-37118]	STRESS TEST REDUCTION	LIB_Cut Request_LIB_New Building (CRS) Utilities	-	(52,000)	- (No)
	Cut new request for new building utilities					
16	[32-37122]	STRESS TEST REDUCTION	LIB_Close West Valley Branch	-	(1,364,306)	- (No)
	The West Valley Branch is one of our oldest library buildings and has major infrastructure problems that could soon result in catastrophic failure of the building. Closing the branch would significantly impact the West Valley community depriving them of necessary library services.					
17	[32-37123]	STRESS TEST REDUCTION	LIB_Close Tyler Branch	-	(1,294,748)	- (No)
	The Tyler Branch is our second oldest library building and has major infrastructure problems. The closure would significantly impact the community, depriving them of necessary library services. This would negatively impact our goal of making our libraries a community resource and a great place to visit and obtain valuable materials.					
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			2.00	307,765	(1,075,204)
	TOTAL BASE BUDGET ADJUSTMENTS:			(0.25)	(714,893)	-
	TOTAL STRESS TEST REDUCTIONS:			(2.00)	(3,104,819)	-

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS						
	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
	(detail rows exclude projects that are strictly re-budgets)					
1	[47-36857]	CAPITAL PROJECT	LIBMAGROOF - Magna Roof Membrane Replacement	-	250,000	250,000 (Yes)
	Replacing roof membrane at Magna due to significant hail damage in 2024. We have been constantly repairing holes to keep the interior of the building dry.					
2	[47-36858]	CAPITAL PROJECT	LIBSLURRY26 Systemwide Parking Lot Slurry	-	123,000	123,000 (Yes)
	System-wide parking lot slurry seal. Applying slurry seal and crack seal to the parking lots helps to prolong the life between complete overlays. Our maintenance plan is to slurry and crack seal our parking lots every 5 years. Projects at Daybreak, Facilities, Holladay, Hunter, Kearns, Taylorsville, West Jordan are anticipated.					
3	[47-36859]	CAPITAL PROJECT	LIBLIGHTING26 LIB Lighting Control Panel Upgrade	-	45,000	45,000 (Yes)
	Lighting control panel replacement at Draper & Magna Library. The lighting control panels are original to the buildings and have experienced failure for the past few years. Parts and factory support are currently unavailable for the existing panel. The proposed plan is to replace them with something similar to those just installed at West Jordan. The Facilities team is striving for efficiency by standardizing panels across all libraries.					
4	[47-36860]	CAPITAL PROJECT	LIBWJOHVAC West Jordan HVAC Study/Replacement	-	1,070,000	1,070,000 (Yes)
	The HVAC system at West Jordan has required extensive maintenance/repairs recently. Although not at the end of its useful life we believe it is time to replace. The system consists of a cooling tower, pumps, and 2 large air handling units. This project is to perform a study, engineering of improvements needed, construction documents prepared and replacement of system.					
5	[47-36861]	CAPITAL PROJECT	LIBMAGHVAC - LIB Magna HVAC Study/Replacement	-	1,050,000	1,050,000 (Yes)
	The HVAC system at Magna has required extensive maintenance/repairs recently. Although not at the end of its useful life we believe it is time to replace. The system consists of packaged roof top air handling units. This project is to perform a study, engineering of improvements needed, construction documents prepared and replacement of system.					
6	[47-36862]	CAPITAL PROJECT	LIBHERHVAC Herriman HVAC Study/Replacement	-	1,070,000	1,070,000 (Yes)
	The HVAC system at Herriman has required extensive maintenance/repairs recently. Although not at the end of its useful life we believe it is time to replace. The system consists of individual heat pump units. This project is to perform a study, engineering of improvements needed, construction documents prepared and replacement of system.					

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed	
7	[47-36863]	CAPITAL PROJECT LIBXERISCAPE26 Systemwide Xeriscaping	-	50,000	50,000	
	System-wide Xeriscaping. The library system has a lot of grass that needs watering. We want to start eliminating grass / turf areas and replace with rock beds, water wise plants, and drip system irrigation. This also includes Xeriscaping in the parking lot strips at our buildings. Projects at Sandy, Holladay, and Taylorsville are anticipated.				(Yes)	
8	[47-36864]	CAPITAL PROJECT LIBPARKLOTREP Riverton Parking Lot Repair	-	75,000	75,000	
	The asphalt parking lot surface at various locations needs to have a complete overlay done. We typically slurry/crack seal every 5 years. Despite regular maintenance, the surface eventually breaks down enough that it needs to have a layer removed and reapplied. Projects at Riverton are anticipated.				(Yes)	
9	[47-36865]	CAPITAL PROJECT LIBBCLIBOFF Bingham Creek Librarian Office Remodel	-	30,000	30,000	
	The librarian work room at Bingham Creek Library is small and congested. This project would reconfigure the work area and create a more open space. Project includes adding a sink in the large meeting room for events and programming.				(Yes)	
10	[47-36866]	CAPITAL PROJECT LIBHERRMREMODEL Herriman Study Room Remodel	-	27,000	27,000	
	Retrofit the multipurpose room into a small study room and shared Librarian/Library Assistant workspace. Herriman Library has only 2 study rooms and both are regularly occupied. The multipurpose room is too small for programming. The current Librarian shared workspace is roughly 100 square feet and is shared among 5 Librarians and our Library Assistant uses a small space near the sorter. The multipurpose room is fairly large and can easily accommodate the entire Info Team staff while carving out an additional small study room (2 to 4 people) for patrons.				(Yes)	
11	[47-36867]	CAPITAL PROJECT LIBSOJOCIRC South Jordan Circulation Room Remodel	-	15,000	15,000	
	The South Jordan Library circulation room is congested and has poor workflow. Improving the workflow would increase productivity and employee morale.				(Yes)	
12	[47-36868]	CAPITAL PROJECT LIBSECURITY26 Systemwide Security Camera Replacement	-	87,000	87,000	
	Systemwide security camera replacement. We have security cameras throughout the library system. Over time the (NVR) becomes slow as the hard drive is continually overwritten with new data. Life expectancy of the recording device and cameras is approximately 5-7 years. The systems for the identified libraries were last upgraded in 2018 and 2019. Projects at Bingham Creek, Facilities Ops, Holladay, Riverton are anticipated.				(Yes)	
13	[47-36869]	CAPITAL PROJECT LIBCARPET26 Systemwide Carpet Replacement	-	285,000	285,000	
	Carpet replacement at various locations. The carpet throughout is showing signs of wear and is at the end of its useful life. Projects at Hunter & West Jordan are anticipated.				(Yes)	
14	[47-36870]	CAPITAL PROJECT LIBSOJOROOF South Jordan Roof Membrane Replace	-	150,000	150,000	
	The roof membrane at South Jordan is original to the building (2005) and is past the life expectancy. The roof membrane needs to be replaced.				(Yes)	
15	[47-36871]	CAPITAL PROJECT LIBDRAROOF Draper Roof Membrane Replacement	-	100,000	100,000	
	The roof membrane at Draper is original to the building (2006) and is past the life expectancy of 20 years. The roof membrane needs to be replaced.				(Yes)	
16	[47-36872]	CAPITAL PROJECT LIBDRAFLOOR Draper Auditorium Flooring	-	15,000	15,000	
	The carpet in the community room at the Draper Library is in poor condition due to the multitude of activities hosted in the space. Replace carpet with Linoleum/Vinyl/Tile flooring.				(Yes)	
17	[47-36873]	CAPITAL PROJECT LIBVIRSEATING Viridian Stadium Seating Replace	-	375,000	375,000	
	The stadium seating in the exhibit halls of the Viridian Event Center has required extensive maintenance to keep operable and prevent injury. This project is to replace the old system with new and improved stadium seating.				(Yes)	
18	[47-36874]	CAPITAL PROJECT LIBDBKCANOPY Daybreak Amphitheatre Canopy	-	400,000	400,000	
	The Daybreak Library is requesting to install a canopy for its outdoor amphitheater space. This improvement will help shade the area so it will be more usable during the summer. The current setup often leaves the surfaces too hot for patrons to sit.				(Yes)	
19	[47-36875]	CAPITAL PROJECT LIBCONCRETE26 Systemwide Concrete Repair	-	75,000	75,000	
	System-wide concrete replacement and repair. Each year there are concrete issues throughout the library system. Concrete walkways and parking lots develop cracked and damaged areas. This creates tripping hazards. We make concrete repairs and patches as needed to extend life and remove the safety hazards.				(Yes)	
20	[47-36876]	CAPITAL PROJECT LIBFACBLDGASSES FAC Building Assessment	-	60,000	60,000	
	Per County Facilities, this assessment of all county buildings will be done. The Library will need to pay for their portion.				(Yes)	
21	[47-36055]	CAPITAL PROJECT LIB Overhead	-	35,687	35,687	
	Re-budget overhead costs. These will be trued up in June 2026.				(Yes)	
	TOTAL NEW REQUESTS (excludes rebudget \$) – PROJECT ORGANIZATIONS & OTHER RELATED ORGS:			-	5,387,687	5,387,687

CORE MISSION

Salt Lake County Zoo, Arts and Parks' mission is to enhance resident and visitor experiences through art, culture and recreational offerings.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
All Salt Lake County residents have access to-and participate in-artistic and cultural opportunities.				
• Increase participants in the ZAP Summer Passport Program. (Outcome will be retired 2025.)	722	750	0	0
Salt Lake County Arts & Culture nonprofits receive regular and consistent financial support from the ZAP program.				
• The primary mission of the ZAP program is to provide regular and consistent support to all qualified organizations. This target is based on maintaining or increasing the number of organizations receiving ZAP awards each year. (New outcome for 2026)	0	0	0	240
Salt Lake County residents and visitors are aware-and recognize the impact-of the Zoo, Arts & Parks Program.				
• Maintain the number of average monthly users on the Zoo, Arts and Parks website through ongoing marketing efforts. (Outcome will be retired 2025.)	2,978	3,000	1,702	0
• Increase the total number of followers on ZAP's social media platforms by 10% on an annual basis. (Outcome will be retired 2025.)	19,590	20,104	19,957	0
• To ensure ZAP continues to maintain awareness among residents and Arts & Culture organizations, this indicator will track the number of email subscribers, social media followers, and unique website visitors. (New outcome for 2026)	0	0	0	25,500
Salt Lake County arts & culture nonprofits receive excellent support in organizational development and grant application assistance.				
• Increase technical assistance provided to applicants as measured through application workshop attendance, and individual technical assistance sessions and capacity building Impact Program functions. (Outcome will be retired 2025.)	804	200	411	0
• ZAP provides technical assistance through grant workshops, one-on-one support, and the ZAP impact program. This target is based on the number of organizations receiving support from the ZAP program. (New outcome for 2026)	0	0	0	500

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
0	[33-37900]	REVENUE PROJECTION CHANGE	Sales Taxes Projections and Related Updates	-	-	(148,999) (Yes)
1	[31-37429]	TECHNICAL DEBT SERVICE ADJUSTMENT	2026 - 2012 STR Bond Adjustment	-	(1,461,200)	(1,461,200) (Yes)
	To adjust the 2026 debt service amounts for the 2012 STR Bonds					
2	[31-37763]	NEW REQUEST	ZAP Grants for Advancing Local Arts Agencies	-	8,000	8,000 (Yes)
	[Exp: 50,000; Rev: 42,000] ZAP requests funding of \$50,000 per year, for 5 years to launch a Grants for Advancing Local Arts Agencies (GALAA) program within the ZAP Tier 2 category. This program would disperse surplus ZAP Tier II project funds throughout SLCo using the existing network of municipally designated Local Arts Agencies (LAA's) ensuring funds are dispersed throughout the County. This program would support LAA's development activities with project needs determined by local community arts leaders. LAA's are municipally designated arts organizations with a mission to provide programming and development responsive to community needs, providing low-cost access to all residents. Under this program, LAAs in the Tier 2 category could apply for one-time supplemental grant funding for \$5,000-15,000 for projects which will strengthen their capacity or enhance/expand meaningful community engagement offerings. We are requesting to restrict a total of \$208,000 for the LAA program. Funding is proposed to primarily come from surplus ZAP TII funds, as well as from \$42,000 in remaining Local Arts Advancement funds, sunset in 2024, currently set aside in a designated fund balance. This is in alignment with the approved ZAP TII spend-down plan.					
3	[31-36949]	NEW REQUEST	ZAP Salary & Benefits True-Up	-	10,000	10,000 (Yes)
	ZAP requests a true-up of personnel appropriations to cover the ongoing costs of updated benefits elections associated with staff turnover. Because of the small number of benefited staff within this fund, changes to benefit elections cannot always be absorbed within the base budget. This true-up can be covered from projected ongoing allocations of the 1.5% of ZAP revenues dedicated to administration of the program, in accordance with applicable State statute.					
4	[32-37350]	STRESS TEST REDUCTION	ZAP Programmatic Reduction 1st Stage (STRESS)	-	(19,574)	- (No)
	This request is based on programmatic costs which include supplies, equipment, training, professional development, and advertising. Reductions to these expenses will reduce our ability to promote the ZAP program, the impact program, and could impact the annual external audit process. This request represents a 2.5% reduction based on our stress test calculated value.					
5	[32-37577]	STRESS TEST REDUCTION	ZAP Programmatic Reduction 2nd Stage. (STRESS)	-	(18,110)	- (No)
	This request is based on programmatic costs which include supplies, equipment, training, professional development, and advertising. Reductions to these expenses will reduce our ability to promote the ZAP program, the impact program, and could impact the annual external audit process. This request represents the remaining amount to achieve the total 5% reduction based on our stress test calculated value.					
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-	(1,443,200)	(1,592,199)
	TOTAL BASE BUDGET ADJUSTMENTS:			-	-	-
	TOTAL STRESS TEST REDUCTIONS:			-	(37,684)	-

0	370	[33-37965] NEW REQUEST	Property Tax Increase for Countywide Funds Health Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate. The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center. The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%	-	-	(5,442,261) (Yes)

8	121	[31-36970] REDUCTION AMOUNT	OSF_Approved Existing Projects Rebudget	-	(25,910)	(25,910)
		Opioid Treatment & Prevention To true-up and rebudget the preciously approved OSF funded projects remaining available balance in 2026 and future year adjustments: *Community Bridget Program (USARA): carryover \$168K remaining funding in 2026. *Sheriff's MAT Expansion - OTP Accreditation: carryover \$46K in 2026. Future year adjustments for the projects end by 12/31/2026: Community Bridget annual project budget (\$168,000) Contributions to SUPERAD (\$45K) and TCCU (\$85K) Sheriff's Office MAT OTP Accreditation (\$62K) Sheriff's Office DEA (\$390K) FUTURE YEARS ADJUSTMENT: -749,820				(Yes)
9	121	[31-37650] NEW REQUEST	OSF_Leadership & Evaluation of Efforts	1.00	145,389	147,196
		Opioid Treatment & Prevention The Salt Lake County opioid settlement fund will total more than \$91 million over the next 14 years. Effective governance, transparency, and impact reporting is essential. Each new project launched requires agreement/contract negotiation, outcomes, ongoing monitoring and communication, as well as ensuring data are reported and analyzed. In addition, grant programs require RFP development, managing review committees, in addition to the above. A Program Manager is essential to effectively manage these funds as well as monitoring for new trends and opportunities for leveraging other resources to address the opioid crisis.				(Yes) 1.00 FTE
10	121	[31-37637] NEW REQUEST	OSF_USU_SBIRT Project	-	125,000	125,000
		Opioid Treatment & Prevention Implement SBIRT (Screening, Brief Intervention and Referral to Treatment) in two schools in Granite School District and expand to additional schools based on pilot results. Studies have shown that SBIRT can identify at-risk students before substance use escalates, provide timely, brief counseling that influences decision-making, and connect youth to appropriate treatment when needed. School-based implementations in states such as New Jersey and Wisconsin have demonstrated reductions in risky behaviors, improvements in coping and problem-solving skills, and increased referrals to treatment. By integrating a dedicated SBIRT specialist into SLCo schools, this proposed initiative seeks to: 1) delay initiation, 2) decrease rates of escalation, and 3) increase access to treatment for those engaging in problematic use. FUTURE YEARS ADJUSTMENT: 175,000				(Yes)
11	121	[31-37639] NEW REQUEST	OSF_HLT_Opioid-Focused CRA	-	203,000	203,000
		Opioid Treatment & Prevention Conduct CRA (Community Readiness Assessments) in 2026 four communities: Downtown SLC, Rose Park, Glendale and Millcreek. Funds will also support implementation of efforts already highlighted through completed CRAs. Expand number of CRAs in 2027, as well as implement actions determined through 2026 CRA process. Salt Lake County Health Department (SLCoHD) uses the research-informed Community Readiness for Community Change framework to assess a community's readiness to address opioid use and misuse. Just as individuals vary in their readiness to change, communities are at different stages of readiness to tackle local issues. Too often, well-intentioned efforts to launch programs and activities meet with resistance and inaction. One common reason for this frustration is a lack of readiness—both among community members and leadership—to address the issue. It is essential to use the right actions and strategies for a community's current stage. Aligning interventions with the community's readiness level is critical to achieving sustainable success. FUTURE YEARS ADJUSTMENT: 131,000				(Yes)

13	121	[31-37638] NEW REQUEST OSF_HLT_Community Coalitions Expansion Opioid Treatment & Prevention Support three new coalitions over three years— Rose Park, Downtown SLC and WVC—that are highly impacted by opioid overdoses and deaths to start the process of addressing opioid use together with the community. Develop alliances of residents and organizations across diverse sectors to create buy-in and shared ownership to make prevention efforts last. Coalitions implement evidence-based environmental strategies that reduce substance access and build accountability. They focus on reducing risks and increasing long-term health, wellness and safety across communities. There are currently 10 evidence-based coalitions but there are areas in the county highly impacted by opioids that do not currently have coalitions – Rose Park, Downtown SLC, and West Valley City. The state legislature has supported community coalitions as an evidence-based tool for prevention utilizing state OSF funding. It has supported 2 coalitions in SLCo (Magna and Midvale) but funding is not available for others proposed above. FUTURE YEARS ADJUSTMENT: 100,000	-	100,000	100,000 (Yes)
14	370	[31-37811] NEW REQUEST HLT_OSF_Community Coalitions Expansion Health [Exp: 100,000; Rev: 100,000] Support three new coalitions over three years— Rose Park, Downtown SLC and WVC—that are highly impacted by opioid overdoses and deaths to start the process of addressing opioid use together with the community. 15	121	[31-37640] NEW REQUEST OSF_USU_CREST Expansion Opioid Treatment & Prevention Expand Project CREST (Create Resilient Students) to 8 new schools across 3 years. Project CREST is an established approach created and led by USU Extension in collaboration with the SLCo Health Department and Division of Youth Services. It focuses on building family skills and is designed to facilitate the effective delivery of research- and evidence-based prevention programming in schools. To date, Project CREST has been implemented in 11 schools in SLCo. Each Project CREST school receives training and technical assistance to work through a standardized process of assessing needs, selecting, planning, recruiting for, and holding three family skill-building workshops and a multi-week family prevention program. There is growing demand from new schools who want to participate and a clear need for additional prevention efforts in the focus communities. FUTURE YEARS ADJUSTMENT: 150,000	-	150,000	150,000 (Yes)

19	121	[31-37644] NEW REQUEST OSF_ILS_Recidivism Reduction Plan Opioid Treatment & Prevention This request is to support an extension and expansion of the Recidivism Reduction Program managed through Indigent Legal Services' LDA contract. This program was piloted through a one-time federal earmark, which concludes December 2025. The extension is to maintain 2 Case Managers, and the expansion is for an additional 2 Case Managers and 2 clinical social workers (LCSWs). We are proposing a phased rollout. Year 1 (2026) extension + half expansion. Year 2 (2027) remaining extension. Extension has two components, 1) housing- focused Case Managers to support clients and provide resources to help them find and remain housed. (Mirrored off a Weber County program supported by its county OSF). Case Managers will navigate housing for homeless clients, and provide wraparound support for skills and tasks needed to maintain stable housing. Component 2) are utilizing 2 LCSWs (or equivalent master-level clinicians) to oversee and manage the Recidivism Reduction Plan. The LCSW will conduct ASAM-informed screenings and assessments, mental health assessments, and advise case management team regarding clinical appropriateness and programmatic fit for treatment and housing recommendations. FUTURE YEARS ADJUSTMENT: 79,750	-	300,500	150,250 (Yes)

34	110	[31-36961] NEW REQUEST	ILS_Capital Defense Account Balance True-up Indigent Legal Services [Exp: 900,000; Rev: 900,000] Since 2021, this account has been established to reserve each remaining available contract amount with the budget approved by the Council. As of 2025, this account has 7 active aggravated homicide/murder cases. Due to the dynamic nature of capital cases, when a case is closed, if any remaining available contract amount, it would stay in this account. This request is to rebudget all the projected remaining available funds in 2026 and to broaden the usage of remaining account balances when and if one case is closed with remaining available funds for any one-time funding needs or providing temporary support for a new case before going to the council asking for additional funds. FUTURE YEARS ADJUSTMENT: [Exp: -900,000; Rev: -900,000]	-	-	- (Yes)

35	370	[31-37158] NEW REQUEST HLT_Tonnage Fee Revenue Increase Health [Exp: 147,897; Rev: 850,000] Environmental Health's Household Hazardous Waste (HHW) Program proposed a 25 percent increase to tonnage fees, effective January 1, 2026. Tonnage fees assessed at private and public landfills allow free waste disposal at HHW's Sandy disposal facility, the Salt Lake Valley Landfill, and the TransJordan Landfill to assist in keeping hazardous and electronic waste out of public landfills and dispose of them in environmentally safe ways. Tonnage fees have not been adjusted since 2014. The proposed fee increase projects an annualized on-going revenue increase of \$850K to help address increasing operating costs to meet demand, including \$35K increase for temporary staff and \$113K increase in HHW clean-up and disposal costs. The proposed fee increase has been reviewed by the landfill councils, approved by the Board of Health, and vetted and supported by the County's Revenue Review Committee on 8/18/25.	-	(702,103)	(702,103) (Yes)
36	370	[31-37421] GRANT TRUE-UP HLT_Operations True Up Health [Exp: -694,066; Rev: -694,066] This request is to true up Health Department's various operating revenues funding level. The total funding reduction is \$694K from the following funding sources: \$647K federal funds reduction: * \$732K reduction from federal grant terminations (HLT21PPHEA, HLT21COVPHCRWS, HLT24DEQ). * \$263K reduction from on-going partial federal grant reductions (HLT20TOB, HLT23PHHS, HLT23CCC, HLT19IMMS). * \$224K increase from Overdose Data to Action (OD2A) grant carryforward. * \$124K increase from Targeted Case Management (TCM) contract revenue contract. \$47K state, local/private, and other funds reduction: * \$50K reduction from American Heart Association grant end. * \$22K increase to FY26 Intermountain Health grant award. * \$11K reduction from various small state grants * \$8K reduction in other funding Health has reduced its spending by \$694K through eliminating 5 vacant time-limited FTE positions, totaling \$552K, and reducing its operating costs by \$239K to respond to the funding reduction. The positions eliminated are as follows: * Community health worker time-limited position #10686 (\$93K) * Community health worker time-limited position #10696 (\$93K) * Bureau manager time-limited position #10675 (\$152K) * Program manager time-limited position #10695 (\$133K) * COVID contact tracer time-limited position #8820 (\$81K)	(5.00)	-	(7,940) (Yes) (5.00) FTE
37	120	[31-37288] REDUCTION AMOUNT AAS_New Choices Waiver Program Aging and Adult Services [Exp: -200,809; Rev: -200,809] This request is to eliminate the New Choices Waiver Program, reducing revenue by \$201K and cutting 1.5 FTEs along with all associated program costs. The request is budget neutral and will have no negative impact on County funding. Although Aging and Adult Services will discontinue the New Choices Waiver Program effective 1/1/2026, these services will remain available through other providers within the county. This strategic move streamlines operations, reduces administrative burden, and allows reassignment of a case manager to serve 40-45 individuals currently on the TAP waitlist. Additionally, nursing resources will be freed to admit clients from the Aging Waiver waitlist and provide essential backup coverage.	(1.50)	-	(4,208) (Yes) (1.50) FTE
38	120	[31-36952] GRANT TRUE-UP BHS_Operating Revenues True-up Behavioral Health Services [Exp: 4,900,000; Rev: 4,900,000] This request is to true-up various operating revenues funding level: 1. Medicaid revenues increased by \$4.9M: * \$3.5M passthrough from the State Directed Medicaid to HMHI supporting the rising costs of inpatient care. * \$1.4M increase for the Medicaid match expenses. 2. \$1.6M for accounting coding changes to align the Housing Program expenditure and funding sources.	-	-	- (Yes)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
39	120	[31-37117] GRANT TRUE-UP YSV_Operating Revenues True-up Youth Services Division [Exp: -321,911; Rev: -321,911] This request is to adjust various grant funding levels for a total reduction of (\$322K) in funds. It is a budget neutral request with no impact on County funding. The Afterschool Program services 11 schools and has \$1.66 million in 2025 grant funding. In 2026, that will be reduced by (\$177K) for a total of \$1.48 million in grant funding with the following details: • \$378K increase in funding from Department of Workforce Services (DWS) from 2025 funding of \$456K to 2026 funding of \$834K. Specifically, funding in 2025 for Student Age Quality (SAQ) is \$456K for six schools. In 2026, a new school was added with an increase of \$76K in funding for a total of \$532K. In addition, a new grant, Teen Age Prevention (TAP), was awarded to four schools for a total of \$302K. Total DWS Funding in 2026 totals \$834K with funding for each of the 11 schools. • (\$533K) reduction from the various 21st Century Community Learning Center (21st CCLC) grants which reduces funding in all 11 schools due to the uncertainty of federal funding for the FY26-27 and future school years. 2025 funding totals \$940K and 2026 funding is projected at \$407K. • (\$22K) reduction in local Magna Safety & Success funding at Matheson. Annual grant totals \$44.5K and will end 6-30-26. The Shelter and Crisis programs will have a revenue reduction of (\$114.5K): • (\$92.5K) reduction in Department of Child and Family Services (DCFS) due to end of one-time funds. Total funding in 2025 is approximately \$1.6 million and will be \$1.5 million in 2026. • (\$22K) reduction due to revenue true-up in Child Nutrition Program (CNP) funds from \$57k to \$35k. For the Family Peer Support Program (FPS) revenues, an \$136K increase from Salt Lake County Behavioral Health brought total funding up from \$690K in 2025 to \$826K in 2026. For the Prevention program, a total of (\$166K) reduction from \$621K in 2025 to \$455K in 2026: • (\$88K) reduction in funding due to the end of the Utah State University pass-through Federal Opioid grant in 2025. • (\$78K) reduction due to revenue true-up in Salt Lake County Health Department funding.	-	-	- (Yes)
40	110	[31-37065] GRANT TRUE-UP CJS_Operating Revenues True-up Criminal Justice Services [Exp: 10,622; Rev: 10,622] This budget-neutral request trues-up: 1) Specialty Court funding. State pass-through from Behavioral Health Services to provide client services and professional staff development. 2) State funds for two jail screeners conducting public safety assessments.	-	-	- (Yes)
41	370	[31-37157] NEW REQUEST HLT_EVRRAP One-time Health [Exp: 4,084,386; Rev: 4,084,386] Environmental Health's Air Bureau secured \$4.9M one-time federal funds pass-through from the State of Utah DEQ to carry out an income-qualified incentive program to replace light-duty vehicles for individuals. The Electronic Vehicle Replacement Assistance Program (EVRRAP) estimates to replace 1,370 vehicles over the period of five years. Similar to the Bureau's VRRAP program, the anticipated completion of the program will not extend to the full five year period end based on demand. FUTURE YEARS ADJUSTMENT: [Exp: -4,315,500; Rev: -4,315,500]	-	-	- (Yes)
42	370	[31-37380] GRANT TRUE-UP HLT_Crisis Workforce One-time Health [Exp: 110,000; Rev: 110,000] Population Health was awarded a \$1M one-time federal pass-through grant for avian flu surveillance in 2025. Flu season and related surveillance activity begin in the fall and last through late winter. Health anticipates one-time spending and revenue from the grant to extend through the end of its period of performance in January 2026. This one-time adjustment will carry forward \$110K of budget authority for one-time grant spending through flu season and the grant period. FUTURE YEARS ADJUSTMENT: [Exp: -110,000; Rev: -110,000]	-	-	- (Yes)
43	370	[31-37252] NEW REQUEST HLT_PHIG One-time Health [Exp: 942,527; Rev: 1,112,721] Health has been awarded its Public Health Infrastructure Grant (PHIG) as one-time federal funds pass-through from the state in 2023. Funding ends in 2027. This request is to provide funding to stabilize workforce through training and development as well as finding efficiencies through the modernization of public health infrastructure and data functionality. This request seeks budget authority for \$1.2M of one-time funding from the \$3.1M award to meet these needs. FUTURE YEARS ADJUSTMENT: 310,362	-	(170,194)	(170,194) (Yes)
44	120	[31-37275] GRANT TRUE-UP AAS_Operating Revenues True-up Aging and Adult Services This request reflects changes in the state revenue contract for Area Agency on Aging (AAA) funding sources. It replaces \$195K in state funds with federal funds. Additionally, this request creates a new DeptID to track the Older Refugee Program, aligning with its new supervisory oversight. This ensures accurate financial alignment with current operational needs.	-	-	- (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
45	370	[31-37263]	GRANT TRUE-UP HLT_Smart GOV Rebudget One-time Health Health's Community Health Promotion Bureau received two \$50K Smart Gov awards in 2025 to support its activities around lead poisoning and diabetes. Health received these funds through a \$100K funds transfer in 2025. This request is to re-budget \$74K of remaining funds in 2026 to complete the projects. FUTURE YEARS ADJUSTMENT: -73,914	-	73,914	73,914 (Yes)
46	110	[31-37064]	NEW REQUEST CJS_JRRP Case Management Supervisor Status from TL to Merit Criminal Justice Services This request is to change the status of Position #11223, a case management supervisor, from Time Limited to Merit. Through the 2025F budget process, the Council approved on-going funding for this position to supervise the JRRP with a one-time contra account amount built to this position. JRRP currently has 2 case management supervisors, one is TL and the other Merit. With the restoration of the one-time contra amount restored back to this position, this position should be classified as merit. This change will provide long-term staffing stability, support employee retention, and ensure continuity of supervision for critical program functions. It also aligns with county employment practices, secures institutional knowledge, and reduce the operational risks associated with time-limited roles.	-	-	- (Yes) 0.00 FTE
47	120	[31-37578]	NEW REQUEST AAS_Food Provisions Aging and Adult Services [Exp: 290,000; Rev: -297,000] Aging and Adult Services (AAS) is requesting \$587,000 in county funding for 2026 food provisions. This request addresses two factors: 1. \$290K is needed for a projected 5% increase from the 2025 budget, which is necessary to maintain current service levels and ensure uninterrupted operations. 2. \$297K is needed to fund a six-month portion of one-time State Legislative funding of \$593K. It is unknown whether this one-time funding will be re-appropriated during the 2026 Legislative session. The funding is essential to maintain current service levels and avoid service cuts. FUTURE YEARS ADJUSTMENT: 297,000	-	587,000	587,000 (Yes)
48	120	[31-37283]	NEW REQUEST AAS_Underfunded Facility O&M Need Aging and Adult Services Aging and Adult Services (AAS) is responsible for facility maintenance, critical repairs, and general upkeep of 15 senior centers. Since 2019, AAS has experienced rising costs. Based on the 2026 projection, Aging is facing a budget gap of about \$181K beyond its base budget. Without proper funding to close this gap, Aging will have to either delay facility maintenance, posing safety risks to senior patrons, or reduce services funding to cover the costs.	-	181,000	181,000 (Yes)
49	120	[31-37367]	NEW REQUEST AAS_Facility Rate Increase Aging and Adult Services County Facilities is proposing a rate increase across all trades, ranging from 10% to 43%. AAS already faces funding challenges for the maintenance needs of its 15 senior centers. This rate hike will result in an estimated additional funding need of \$88K.	-	88,000	88,000 (Yes)
50	120	[31-37280]	NEW REQUEST AAS_Senior Center Program Operations and \$15 Per Hour Minimum Wage Aging and Adult Services \$32K increase is requested for the Senior Center Program, which has been offsetting rising costs by finding efficiencies. However, it has now reached a point where no further cost savings can be identified. Without additional funding, the centers will need to scale back services. This increase will help hire temporary workers to address staffing needs and cover rising costs for program supplies. \$38K is needed to increase the hourly wage to \$15 for the remaining temporary workers, such as class instructors and office specialists. This funding will help retention of temp staff and maintain competitiveness in hiring.	-	70,000	70,000 (Yes)
51	110	[31-36958]	NEW REQUEST ILS_LDA 1 Data Analyst Indigent Legal Services This request is to establish ongoing funding for LDA to continue data analyst position. This allows LDA to more efficiently and effectively assign cases, allocate resources, track outcomes, and partner with SLCo on systematic efforts. In 2021, LDA hired a data analyst to improve organization efficiency, including implementation of refined time tracking processes, undertake an organization-wide case weighting and management program, and navigating a new cloud-based data storage and tracking system. Results are improved management practices, less burnout and turnover, and improved collaboration and coordination with SLCo Human Services. LDA is now providing regular and detailed data and performance reports to SLCo to ensure we are fiscally responsible and operationally efficient with taxpayer money. Finally, LDA data and support is integral to strategic partnerships with the county, SLC, and the State of Utah on multijurisdictional efforts, including the recent HB 312 and Downtown Safety Initiative.	-	127,200	127,200 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
52	110	[31-37062] NEW REQUEST	CJS_Staffing and Operational Needs	10.00	1,071,769	1,087,094
		Criminal Justice Services				(Yes) 10.00 FTE
		This request is CJS's top priority to maintain national standards for caseloads and service delivery—standards that reduce recidivism and give clients the best chance to avoid returning to the justice system.				
		Pretrial supervision has grown from 1,000 monthly clients in 2018 to over 3,500 clients in 2025. Probation has increased from 1,800 clients in 2018 to 2,300 clients in 2025. We have managed so far by reallocating staff and improving efficiency, but the demand now exceeds our capacity.				
		Additional employees are essential to meet increased pretrial and probation supervision needs, comply with state code requirements, and fulfill judges' requests for more information during probable cause submissions.				
53	110	[31-36959] NEW REQUEST	ILS_UJDA 2 Forensic Social Workers	-	235,700	235,700
		Indigent Legal Services				(Yes)
		This request is to establish ongoing funding to continue UJDA's social service department to facilitate client access to services, reduce risk and trauma, and maintain firm efficiency. Since 2021, UJDA has established and refined a social work program through grants, and in 2025 using one-time funds. ILS seeks on-going funding to continue this work. Upon appointment to UJDA, a youth client is screened by a social service worker (SSW), which immediately connects them to needed behavioral health services. Early intervention and a robust treatment plan have been shown to reduce risk and improve outcomes. Additionally, the inclusion of SSWs alleviates stress and fear for the minors, their families, and even at times crime victims. SSWs improves the efficiency and impact of UJDA services by taking on non-legal tasks. This allows attorneys to focus on legal tasks, as well as allows the office to expand capacity without hiring additional attorneys.				
54	110	[31-36960] NEW REQUEST	ILS_Lokken 2 Social Workers	-	181,230	181,230
		Indigent Legal Services				(Yes)
		This request is to establish ongoing funding to continue Lokken's social service department to facilitate access to services, increase family reunification, and maintain firm efficiency. Since 2021, Lokken and Putnam (L&P) established and refined a social work program within their office through grants, and in 2025 using one-time funds. ILS seeks on-going funding to continue this social services work (SSW). Success in family reunification is in large part dependent on whether they are able to complete the reunification plan that is ordered by the court. Having experienced SSWs allows the attorneys to better advocate for a plan that gives clients the best chance for success. Once the plan is in place, an SSW provides invaluable support and education to aid the family in implementing the plan. SSWs improved the efficiency and impact of L&P services by taking on non-legal tasks. This allows attorneys to focus on legal tasks, as well as expands capacity without hiring additional attorneys.				
55	110	[31-36967] NEW REQUEST	ILS_LDA Operations Need	-	370,000	370,000
		Indigent Legal Services				(Yes)
		This request is to address the on-going funding needs for 2026 and beyond for LDA operations cost increase. In 2022, during the COVID era, LDA received a federal Paycheck Protection Program (PPP) loan which provided substantial funding to LDA's reserve account. Since 2022, LDA also been experiencing an upward trend in operational costs including annual lease increases, IT technology upgrades (the case tracking system, file management systems, etc.), professional costs (outsourced accounting and HR supports), litigation costs, etc. LDA and SLCo established a spending plan by utilizing LDA's reserve account balance to meet the increasing operation's needs. This has allowed LDA's budget to absorb these increases without additional general fund money. However, it does create a structural imbalance in the budget, by using the one-time funding (the reserve account balance) to support on-going needs. The reserve account balance, according to the spending plan, is projected to be exhausted in 2027. The budgetary gap is \$740K now. This request is to support \$740K on-going, requesting \$370K ongoing in 2026 with the other \$370K ongoing in 2027 as the future year adjustment.				
		FUTURE YEARS ADJUSTMENT: 370,000				
56	110	[31-37212] NEW REQUEST	CJS_Gov Cox Safety Plan, Legislative Changes, and HB312	15.00	1,606,893	332,933
		Criminal Justice Services				(Yes) 3.00 FTE
		This request is based on participation with Governor Cox, the Salt Lake City Public Safety Plan, recent legislative changes, and enhanced legal penalties. HB 312, effective June 1, 2025, has significantly impacted both jail bookings and court-ordered supervision. The jail estimates 4,000 individuals will no longer be released due to capacity limits, and pretrial releases by CJS have increased by 16%. The Public Safety Plan addresses both homelessness and crime, increasing demands on CJS. As a result, CJS is facing additional workload pressures in providing adequate support and accountability for misdemeanor probation clients.				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
57	110	[31-37601] NEW REQUEST	ILS_Adult Criminal Defense Conflict of Interest Indigent Legal Services This request is to address the on-going funding need to support the adult criminal defense conflict of interest attorney costs. LDA's reserved account (please refer to the description in ILS_LDA_Operations Need) currently supports \$172K for the conflict of interest attorney costs. With the reserve account balance projected to be exhausted in 2027, this request is to support \$172K on-going, requesting \$86K ongoing in 2026 with the other \$86K ongoing in 2027 as the future year adjustment. FUTURE YEARS ADJUSTMENT: 86,000	-	86,000	86,000 (Yes)
58	110	[31-36962] NEW REQUEST	ILS_LDA 4 New Attorneys Indigent Legal Services To keep up current service levels and address the changing criminal justice system landscape, including HB312 and Downtown Safety Initiative, new attorneys are necessary to meet system needs. LDA has seen an approximate 20% increase in case filings and probation violations year to date in 2025. In addition to an overall increase, LDA has seen a 17% increase in filings on first-degree felonies and 300% increase in capital homicides, year to date. These are the most labor-intensive cases and tend to take the longest to resolve or get to trial. The result has been a decrease in cases closing which creates capacity challenges for the organization. The new attorneys will allow the organization to keep pace with these demands.	-	542,300	542,300 (Yes)
59	110	[31-37388] NEW REQUEST	ILS_LDA 4 New Legal Assistants Indigent Legal Services To keep up current service levels and address the changing criminal justice system landscape, including HB312 and Downtown Safety Initiative, new legal assistants are necessary to meet system needs. These positions support staff to the newly requested attorneys to meet the burden of an approximate 20% increase in filings and clients. In addition to increased filings, case discovery has markedly increased due to increased video, audio, and other digital files becoming central to the information that police departments and the district attorney's office send to LDA. This requires additional staff hours to format into a usable form for attorneys.	-	221,800	221,800 (Yes)
60	110	[31-36969] NEW REQUEST	USU_SNAP_Ed Extension Service The recent passage of the HR1 will eliminate federal SNAP-Ed funding, ending Utah State University's Create Better Health program in Salt Lake County on September 30, 2025. While some state-level resources may be funded for limited outreach about SNAP benefits, this funding does not cover the robust, evidence-based nutrition education that has been provided for over 25 years. Compounding this concern, Utah has been identified by the CDC as having the highest death rate for older adults due to malnutrition. Without new investment, the county will lose direct, hands-on classes that help families stretch food dollars, prepare healthy meals, and prevent chronic disease. With \$150,000 annually, we could retain two full-time education dedicated to youth and underserved population nutrition education—continuing to serve limited-resource families and diverse communities and meeting a critical need for our older adult populations across Salt Lake County with practical, culturally responsive programs that make healthy living achievable. The SNAP-Ed program has a demonstrated return of \$5.36–\$9.54 for every dollar invested through reduced chronic disease risk, lower healthcare costs, and improved lifelong eating and activity habits. Continued investment will protect a proven, cost-effective educational resource in one of Utah's most diverse counties.	-	150,000	150,000 (Yes)
61	110	[31-37063] NEW REQUEST	CJS_JRRP_BHS Peer Mentors Criminal Justice Services The Jail Resource Re-entry Program (JRRP) helps individuals transition from incarceration to the community through a partnership of Criminal Justice Services (CJS), the Legal Defender Association, the Sheriff, and Valley Behavioral Health (VBH). VBH peer mentors guide clients in navigating the justice system, accessing resources, and engaging in treatment. CJS funds Salt Lake County Behavioral Services to contract these peer services, ensuring experienced reentry support. In 2025, the Council approved one-time funding for this portion of JRRP; this request seeks ongoing funding through an interfund transaction between BHS (Child) and CJS (Parent), with the full JRRP budget presented in CJS.	-	217,831	- (No)
62	120	[31-36953] NEW REQUEST	BHS_JRRP Peer Mentors Behavioral Health Services [Exp: 217,831; Rev: 217,831] Jail Resource Re-entry Program (JRRP) is a program that focuses on supporting individuals transitioning from incarceration to the community and is a partnership between Criminal Justice Services (CJS), the Legal Defender Association (LDA), the Sheriff and Valley Behavioral Health (via its contract with BHS). VBH peer mentor services for individuals exiting jail, providing guidance in navigating the criminal justice system, accessing community resources, and engaging in treatment services. Criminal Justice Services will fund Salt Lake County Behavioral Services to contract these peer support services through Behavioral Health Services, ensuring clients receive experienced assistance during reentry. In 2025 Council approved one time funding for this portion of the JRRP program and this request is to seek on-going funding to continue the support. The funding will be an interfund transaction between BHS (Child) and CJS (Parent) as the JRRP entire budget is presented in CJS.	-	-	- (No)

80	120	[32-37362] STRESS TEST REDUCTION	AAS_Stress Test_5% of ABB Aging and Adult Services 5% of Aging and Adult Services' 2026 adjusted base County funding budget, totaling \$720K, is subject to the stress test. The stress test reductions would be met by: 1. A \$425K reduction from the closure of a senior center, including \$346K in personnel underspend (equivalent to 3.75 FTEs) and \$78K in operational underspend. If implemented, this would severely limit clients' access to congregate meals, social interactions, nutrition, wellness, healthcare classes, and information. 2. A \$145K reduction by discontinuing contracted meals and services at the Harman Home Senior Center (West Valley) and South Jordan Senior Center. If implemented, the cities would need to step in to continue providing these services. 3. A \$141K reduction from the Rides for Wellness program. If implemented, this would result in 4,750 fewer rides, decreased efficiency, and a less sustainable service delivery model over time. If only 2.5% of the adjusted base budget applies, a total of \$360K, it would be met by closing one senior center.	-	(720,175)	- (No)
81	120	[32-37357] STRESS TEST REDUCTION	YSV_Stress Test_5% of ABB Youth Services Division 5% of Youth Services' 2026 adjusted base County funding budget, in total of \$677K, is subject to the stress test: The stress test would be met by personnel underspend through not funding approximately 6 FTEs. If implemented, it would create several serious negative impacts including: 1. Reducing Youth Services' capacity to provide essential shelter and counseling services, including reducing the total capacity for the shelter contract which limits the total youth provided with temporary shelter as well as reducing counseling service FTEs which would impact overall Medicaid revenue. 2. Increasing County's liability for not meeting the contractual obligation to maintain required medical care for youth in shelter care. 3. Increasing workload for the staff, hence decreasing quality of services and timely access to services. If only 2.5% of ABB applies, a total of \$339K, it would be met by personnel underspend through not funding approximately 3 FTEs. If implemented, it will still create serious negative impact on the areas mentioned above.	-	(667,252)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
82	120	[32-36946] STRESS TEST REDUCTION BHS_Stress Test_5 % of ABB Behavioral Health Services 5% of Behavioral Health Services' 2026 adjusted base County funding budget, in total of \$604K, is subject to the stress test: The stress test would be met by reducing the funding for approximately 39 supportive housing units. Each unit costs \$15,600 per year on average. Supportive housing is a critical need in the behavioral health system but because our primary focus is treatment and most of our treatment is funded by Medicaid and grant revenues (currently under threat) and so much of our county funding is needed for local Medicaid match and other mandated services, unfortunately housing, by necessity, would be the lower priority. If only 2.5% of ABB applies, a total of \$302K, it would be met by reducing the funding for approximately 19 supportive housing units.	-	(604,478)	- (No)
83	110	[32-37234] STRESS TEST REDUCTION CJS_Stress Test_5% of ABB Criminal Justice Services 5% reduction of the adjusted base budget (\$907K): Met by not funding 11 FTEs. This would severely reduce capacity for evidence-based services (Pretrial/Probation, Jail Screening/JRRP, Treatment, Specialty Courts, Assessments), increase recidivism, burden the justice system, raise caseloads beyond best practices, and reduce compliance and accountability. 2.5% reduction (\$453K): met by not funding 5.5 FTEs. While smaller, it would still significantly impact services and outcomes.	-	(906,771)	- (No)
84	110	[32-37390] STRESS TEST REDUCTION ILS_Stress Test_5% of ABB Indigent Legal Services Reduce 5% of the adjusted base budget The workloads of the three major providers (LDA, UJDA, and Lokken) are not within their control. They must accept all cases assigned to them by the Courts. Similarly, their litigation costs are mostly inelastic and dictated by the cases assigned to them. Therefore, a contraction in their budget of this size would require a reduction in force and thereby capacity. This could endanger their ability to carry out Salt Lake County's legally required responsibilities. Indigent Legal Services would implement a 5% reduction to the three primary contracts and then work with the providers to coordinate the programming reductions. Reduce 2.5% of the adjusted base budget The workloads of the three major providers (LDA, UJDA, and Lokken) are not within their control. They must accept all cases assigned to them by the Courts. Similarly, their litigation costs are mostly inelastic and dictated by the cases assigned to them. Therefore, a contraction in their budget of this size would require a reduction in force and thereby capacity. This could endanger their ability to carry out Salt Lake County's legally required responsibilities. Indigent Legal Services would implement a 2.5% reduction to the three primary contracts and then work with the providers to coordinate the programming reductions.	-	(1,619,899)	- (No)
85	370	[32-37405] STRESS TEST REDUCTION HLT_Stress Test_5% of ABB Health Health's 5 percent stress test of its 2026F adjusted base county funding budget is \$392K. Health's strategy to meet this requirement includes deferring \$64K of maintenance and upgrades to the Southeast Public Health Center in Sandy and delaying \$328K of long-term equipment and machinery updates. This will be done through the operating underspend account. If implemented, Health will not be able to maintain its facilities and long-term performance of equipment to support public health services. If only 2.5 percent applies, Health anticipates delaying a total of \$196K of long-term equipment and machinery updates.	-	(391,930)	- (No)
86	110	[32-37284] STRESS TEST REDUCTION USU_Stress Test_5% of ABB Extension Service 5% of USU Extension Services' 2026 adjusted base County funding budget, in total of \$45K, is subject to the stress test. The stress test would be met by reducing the funding for the interlocal government agreement with USU. If implemented, it will reduce USU Extension Services' capacity and resources to provide services in the areas of plant/pest diagnostics, food safety, 4-H and youth programs, mental health and substance misuse prevention, food and nutrition education, gardening and sustainability as well as employee COLA increases and general program support. If only 2.5% of ABB applies, a total of \$22.5K, it would be met by reducing the funding for the interlocal government agreement with USU.	-	(45,328)	- (No)

CORE MISSION

Promoting independence through advocacy, engagement and access to resources.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Older adults with the highest levels of need have access to critical medical rides				
• Maintain the number of critical medical rides provided to older adults.	47,014	44,000	25,323	47,014
Older adults with the highest levels of need are able to age in place				
• Maintain the number of home-delivered meals served (regular and liquid).	384,317	394,000	207,573	384,317
• Maintain the number of unique Caregiver Support case managed clients.	199	211	128	199
• Increase the number of home delivered meals delivered by volunteers by 8%.	148,148	160,000	87,480	172,800
Opportunities are available for older adults to remain socially engaged				
• Maintain the total number of meals provided by senior centers (dine-in, to-go, drive through meals).	261,801	245,000	139,655	261,801
• Increase the number of participants in evidence-based fitness classes and programs, offered at Senior Centers by 5%.	45,602	40,830	29,294	47,882

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
0	[31-37474] TECHNICAL DEBT SERVICE ADJUSTMENT	2026 - 2020B STRRB & 2024A STR Bond Adjustment	-	23	23
	To adjust the 2026 debt service amounts for the 2020B STRRB & 2024A STR bonds				(Yes)
1	[31-37578] NEW REQUEST	AAS_Food Provisions	-	587,000	587,000
	[Exp: 290,000; Rev: -297,000] Aging and Adult Services (AAS) is requesting \$587,000 in county funding for 2026 food provisions. This request addresses two factors: 1. \$290K is needed for a projected 5% increase from the 2025 budget, which is necessary to maintain current service levels and ensure uninterrupted operations. 2. \$297K is needed to fund a six-month portion of one-time State Legislative funding of \$593K. It is unknown whether this one-time funding will be re-appropriated during the 2026 Legislative session. The funding is essential to maintain current service levels and avoid service cuts. FUTURE YEARS ADJUSTMENT: 297,000				(Yes)
2	[31-37280] NEW REQUEST	AAS_Senior Center Program Operations and \$15 Per Hour Minimum Wage	-	70,000	70,000
	\$32K increase is requested for the Senior Center Program, which has been offsetting rising costs by finding efficiencies. However, it has now reached a point where no further cost savings can be identified. Without additional funding, the centers will need to scale back services. This increase will help hire temporary workers to address staffing needs and cover rising costs for program supplies. \$38K is needed to increase the hourly wage to \$15 for the remaining temporary workers, such as class instructors and office specialists. This funding will help retention of temp staff and maintain competitiveness in hiring.				(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
3	[31-37283] NEW REQUEST AAS_Underfunded Facility O&M Need Aging and Adult Services (AAS) is responsible for facility maintenance, critical repairs, and general upkeep of 15 senior centers. Since 2019, AAS has experienced rising costs. Based on the 2026 projection, Aging is facing a budget gap of about \$181K beyond its base budget. Without proper funding to close this gap, Aging will have to either delay facility maintenance, posing safety risks to senior patrons, or reduce services funding to cover the costs.	-	181,000	181,000 (Yes)
4	[31-37367] NEW REQUEST AAS_Facility Rate Increase County Facilities is proposing a rate increase across all trades, ranging from 10% to 43%. AAS already faces funding challenges for the maintenance needs of its 15 senior centers. This rate hike will result in an estimated additional funding need of \$88K.	-	88,000	88,000 (Yes)
5	[31-37288] REDUCTION AMOUNT AAS_New Choices Waiver Program [Exp: -200,809; Rev: -200,809] This request is to eliminate the New Choices Waiver Program, reducing revenue by \$201K and cutting 1.5 FTEs along with all associated program costs. The request is budget neutral and will have no negative impact on County funding. Although Aging and Adult Services will discontinue the New Choices Waiver Program effective 1/1/2026, these services will remain available through other providers within the county. This strategic move streamlines operations, reduces administrative burden, and allows reassignment of a case manager to serve 40–45 individuals currently on the TAP waitlist. Additionally, nursing resources will be freed to admit clients from the Aging Waiver waitlist and provide essential backup coverage.	(1.50)	-	(4,208) (Yes) (1.50) FTE
6	[31-37275] GRANT TRUE-UP AAS_Operating Revenues True-up This request reflects changes in the state revenue contract for Area Agency on Aging (AAA) funding sources. It replaces \$195K in state funds with federal funds. Additionally, this request creates a new DeptID to track the Older Refugee Program, aligning with its new supervisory oversight. This ensures accurate financial alignment with current operational needs.	-	-	- (Yes)
7	[32-37368] STRESS TEST REDUCTION AAS_Stress Test_Withdraw Facility Rate Increase To withdraw the new request of Facility Rate Increase.	-	(88,000)	- (No)
8	[32-37360] STRESS TEST REDUCTION AAS_Stress Test_Withdraw Underfunded Facility O&M Need To withdraw the new request of Underfunded Facility O&M Needs.	-	(181,000)	- (No)
9	[32-37358] STRESS TEST REDUCTION AAS_Stress Test_Withdraw Senior Center Operations and \$15 Per Hour Minimum Wage To withdraw the new request of Senior Center Operations and \$15 Per Hour Minimum Wage.	-	(70,000)	- (No)
10	[32-37579] STRESS TEST REDUCTION AAS_Stress Test_Withdraw Food Provisions [Exp: -290,000; Rev: 297,000] To withdraw the new request for Food Provisions.	-	(587,000)	- (No)
11	[32-37362] STRESS TEST REDUCTION AAS_Stress Test_5% of ABB 5% of Aging and Adult Services' 2026 adjusted base County funding budget, totaling \$720K, is subject to the stress test. The stress test reductions would be met by: 1. A \$425K reduction from the closure of a senior center, including \$346K in personnel underspend (equivalent to 3.75 FTEs) and \$78K in operational underspend. If implemented, this would severely limit clients' access to congregate meals, social interactions, nutrition, wellness, healthcare classes, and information. 2. A \$145K reduction by discontinuing contracted meals and services at the Harman Home Senior Center (West Valley) and South Jordan Senior Center. If implemented, the cities would need to step in to continue providing these services. 3. A \$141K reduction from the Rides for Wellness program. If implemented, this would result in 4,750 fewer rides, decreased efficiency, and a less sustainable service delivery model over time. If only 2.5% of the adjusted base budget applies, a total of \$360K, it would be met by closing one senior center.	-	(720,175)	- (No)

CORE MISSION

At the Division of Behavioral Health Services (BHS), we believe that behavioral health is an essential part of overall health and that together we can make a difference for those among us that suffer from the symptoms of mental health and substance use disorders. We know that prevention is effective, treatment works, and that individuals with a behavioral health condition can and do recover. DBHS is continually striving to ensure access to evidence-based treatment practices throughout the community that provide support along the road to recovery and healing. The results of these efforts are improved outcomes for individuals and families, and a stronger and healthier community.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County supports stable and safe housing opportunities for individuals in behavioral health treatment, to allow them to recover in their communities.				
• Increase the monthly number of Salt Lake County behavioral health supported housing units.	725	800	766	800
Individuals experiencing debilitating mental health conditions receive stabilizing and supportive services while remaining in their communities.				
• Maintain the annual number of Salt Lake County residents accessing mental health services through Salt Lake County Behavioral Health Services.	13,562	13,300	10,185	13,300
Salt Lake County provides access to high quality programs and resources to assist individuals in their recovery from substance use disorders and to prevent costly and disruptive incarceration.				
• Maintain the number of Salt Lake County residents accessing substance use disorder (SUD) treatment through Salt Lake County Behavioral Health Services.	6,313	6,000	4,065	6,000

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-36952]	GRANT TRUE-UP	BHS_Operating Revenues True-up	-	-	-
[Exp: 4,900,000; Rev: 4,900,000] This request is to true-up various operating revenues funding level: 1. Medicaid revenues increased by \$4.9M: *\$3.5M passthrough from the State Directed Medicaid to HMHI supporting the rising costs of inpatient care. *\$1.4M increase for the Medicaid match expenses. 2. \$1.6M for accounting coding changes to align the Housing Program expenditure and funding sources.						(Yes)
2	[31-36953]	NEW REQUEST	BHS_JRRP Peer Mentors	-	-	-
[Exp: 217,831; Rev: 217,831] Jail Resource Re-entry Program (JRRP) is a program that focuses on supporting individuals transitioning from incarceration to the community and is a partnership between Criminal Justice Services (CJS), the Legal Defender Association (LDA), the Sheriff and Valley Behavioral Health (via its contract with BHS). VBH peer mentor services for individuals exiting jail, providing guidance in navigating the criminal justice system, accessing community resources, and engaging in treatment services. Criminal Justice Services will fund Salt Lake County Behavioral Services to contract these peer support services through Behavioral Health Services, ensuring clients receive experienced assistance during reentry. In 2025 Council approved one time funding for this portion of the JRRP program and this request is to seek on-going funding to continue the support. The funding will be an interfund transaction between BHS (Child) and CJS (Parent) as the JRRP entire budget is presented in CJS.						(No)
3	[31-37669]	NEW REQUEST	BHS_OSF_Sober Living Housing Supports Expansion	-	-	-
[Exp: 500,000; Rev: 500,000] This request is to provide \$500,000 annually for three years to support housing for 100 additional individuals per year through Behavioral Health Services existing network providers. The need for safe, stable, and sober housing upon transitioning from incarceration or residential treatment back into the community is far greater than the Salt Lake County Sober Living Program can currently support. A \$500k infusion into this program would provide up to six months of rental assistance for approximately 100 additional individuals in need of stable, sober housing within a licensed recovery residence. Participants come directly from Odyssey House's CATS Program in the Salt Lake County Jail, Salt Lake County Drug Courts, or those engaging in residential treatment who are transitioning to an outpatient level of care within the County's treatment network.						(Yes)
4	[32-36946]	STRESS TEST REDUCTION	BHS_Stress Test_5 % of ABB	-	(604,478)	-
5% of Behavioral Health Services' 2026 adjusted base County funding budget, in total of \$604K, is subject to the stress test: The stress test would be met by reducing the funding for approximately 39 supportive housing units. Each unit costs \$15,600 per year on average. Supportive housing is a critical need in the behavioral health system but because our primary focus is treatment and most of our treatment is funded by Medicaid and grant revenues (currently under threat) and so much of our county funding is needed for local Medicaid match and other mandated services, unfortunately housing, by necessity, would be the lower priority. If only 2.5% of ABB applies, a total of \$302K, it would be met by reducing the funding for approximately 19 supportive housing units.						(No)

CORE MISSION

To provide citizens of Salt Lake County with alternatives to incarceration using evidence-based practices and community collaboration.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Pretrial Program at Criminal Justice Services provides prejudicated individuals an alternative to incarceration. Pretrial case management supervision helps ensure court appearance and public safety.				
• Increase the percentage of successful completion of court ordered pretrial supervision.	57%	62%	53%	62%
Criminal Justice Services reduces recidivism by identifying and addressing risks and behaviors that may lead to criminal activity.				
• Maintain or reduce the client Risk/Needs Level score from entry to exit for successful probation clients.	-6.17	-6	-6.29	-6
• Maintain or reduce the client Risk/Needs Level score from entry to exit for successful specialty court clients.	-13.22	-12	-12.59	-12
Decrease the likelihood that an individual will commit a new offense and cycle back through the jail.				
• Increase the percent of clients receiving services through the Jail Resource and Reentry Program (JRRP).	60%	70%	56%	70%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37064] NEW REQUEST	CJS_JRRP Case Management Supervisor Status from TL to Merit	This request is to change the status of Position #11223, a case management supervisor, from Time Limited to Merit. Through the 2025F budget process, the Council approved on-going funding for this position to supervise the JRRP with a one-time contra account amount built to this position. JRRP currently has 2 case management supervisors, one is TL and the other Merit. With the restoration of the one-time contra amount restored back to this position, this position should be classified as merit. This change will provide long-term staffing stability, support employee retention, and ensure continuity of supervision for critical program functions. It also aligns with county employment practices, secures institutional knowledge, and reduce the operational risks associated with time-limited roles.	-	-	(Yes) 0.00 FTE
2	[31-37065] GRANT TRUE-UP	CJS_Operating Revenues True-up	[Exp: 10,622; Rev: 10,622] This budget-neutral request trues-up: 1) Specialty Court funding. State pass-through from Behavioral Health Services to provide client services and professional staff development. 2) State funds for two jail screeners conducting public safety assessments.	-	-	(Yes)
3	[31-37223] NEW REQUEST	CJS_OSF_Jail Expansion and Reentry Efforts	[Exp: 1,053,966; Rev: 1,053,966] CJS proposes to implement a new reentry program in the ADC and Oxbow in 2026. The proposal includes a team of 12 FTEs, including 6 certified peer support specialists, 4 case managers and 2 case management supervisors. The team will meet with inmates prior to release to develop a reentry plan and work to ensure warm hand-offs where possible upon release. Justice-involved individuals will have access to recovery dialogues with someone with lived experience, classes in the jail, and overall emotional and social service support to them as they transition back into the community. Services include employment services, healthcare/Medicaid enrollment, housing, transportation, digital competency, and budget/financial literacy. The intent is to add 4 certified peer support specialists in 2027 with corresponding funding.	12.00	-	(Yes) 6.00 FTE
4	[31-37063] NEW REQUEST	CJS_JRRP_BHS Peer Mentors	The Jail Resource Re-entry Program (JRRP) helps individuals transition from incarceration to the community through a partnership of Criminal Justice Services (CJS), the Legal Defender Association, the Sheriff, and Valley Behavioral Health (VBH). VBH peer mentors guide clients in navigating the justice system, accessing resources, and engaging in treatment. CJS funds Salt Lake County Behavioral Services to contract these peer services, ensuring experienced reentry support. In 2025, the Council approved one-time funding for this portion of JRRP; this request seeks ongoing funding through an interfund transaction between BHS (Child) and CJS (Parent), with the full JRRP budget presented in CJS.	-	217,831	(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
5	[31-37062] NEW REQUEST CJS_Staffing and Operational Needs This request is CJS's top priority to maintain national standards for caseloads and service delivery—standards that reduce recidivism and give clients the best chance to avoid returning to the justice system. Pretrial supervision has grown from 1,000 monthly clients in 2018 to over 3,500 clients in 2025. Probation has increased from 1,800 clients in 2018 to 2,300 clients in 2025. We have managed so far by reallocating staff and improving efficiency, but the demand now exceeds our capacity. Additional employees are essential to meet increased pretrial and probation supervision needs, comply with state code requirements, and fulfill judges' requests for more information during probable cause submissions.	10.00	1,071,769	1,087,094 (Yes) 10.00 FTE
6	[31-37212] NEW REQUEST CJS_Gov Cox Safety Plan, Legislative Changes, and HB312 This request is based on participation with Governor Cox, the Salt Lake City Public Safety Plan, recent legislative changes, and enhanced legal penalties. HB 312, effective June 1, 2025, has significantly impacted both jail bookings and court-ordered supervision. The jail estimates 4,000 individuals will no longer be released due to capacity limits, and pretrial releases by CJS have increased by 16%. The Public Safety Plan addresses both homelessness and crime, increasing demands on CJS. As a result, CJS is facing additional workload pressures in providing adequate support and accountability for misdemeanor probation clients.	15.00	1,606,893	332,933 (Yes) 3.00 FTE
7	[32-37248] STRESS TEST REDUCTION CJS_Stress Test_Withdraw Gov Cox Safety Plan, Legislative Changes, and HB312 CJS withdraw Gov Cox Safety Plan, Legislative Changes, and HB312	(15.00)	(1,606,893)	- (No)
8	[32-37241] STRESS TEST REDUCTION CJS_Stress Test_Withdraw Staffing and Operational Needs CJS withdraw Staffing and Operational Needs request.	(10.00)	(1,071,769)	- (No)
9	[32-37251] STRESS TEST REDUCTION CJS_Stress Test_Withdraw_JRRP Peer Mentors CJS withdraw JRRP Peer Mentor request.	-	(217,831)	- (No)
10	[32-37234] STRESS TEST REDUCTION CJS_Stress Test_5% of ABB 5% reduction of the adjusted base budget (\$907K): Met by not funding 11 FTEs. This would severely reduce capacity for evidence-based services (Pretrial/Probation, Jail Screening/JRRP, Treatment, Specialty Courts, Assessments), increase recidivism, burden the justice system, raise caseloads beyond best practices, and reduce compliance and accountability. 2.5% reduction (\$453K): met by not funding 5.5 FTEs. While smaller, it would still significantly impact services and outcomes.	-	(906,771)	- (No)

CORE MISSION

The Utah State University (USU) Extension office in Salt Lake County is a partnership between USU Extension and Salt Lake County Government. Employees and programming in Salt Lake County work(s) to "IMPROVE LIVES AND COMMUNITIES" by conducting workshops, trainings, mass media demonstrations, 4-H youth projects, consultations, groups collaborations, and providing educational resources. All services we offer are research based.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County residents have the opportunity to participate in research-based programming designed to increase the capacity to lead healthy and productive lives.				
• Increase the number of people participating in Family and Consumer Science related programming (Food and Nutrition, Finance, Relationship Education, Health and Wellness, Substance Abuse, etc.).	20,352	15,000	14,285	17,000
• Increase the number of volunteer hours provided by program volunteers and mentors.	11,808	8,000	5,662	10,000
• Increase the number of Family and Consumer Science related classes offered (Food and Nutrition, Finance, Relationship Education, Health and Wellness, Substance Abuse, etc.).	1,285	750	800	1,000
Salt Lake County youth have the opportunity to participate in research-based programming to provide education, skills and leadership development for future success.				
• Maintain the number of learning experiences in which 4-H youth participate.	12,078	21,000	10,981	21,000
• Maintain the number of 4-H youth classes offered.	671	600	349	600
Salt Lake County residents have the opportunity to participate in research-based horticulture, agriculture and sustainability focused programming designed to increase the capacity to better surroundings and improve quality of life.				
• Increase the number of people participating in Horticulture, Agriculture and Natural Resource related programming.	6,230	6,000	4,850	7,000
• Maintain the number of Horticulture, Agriculture and Natural Resource related classes offered.	156	150	103	150
Salt Lake County residents have the opportunity to participate in equine based programming designed to increase the capacity to lead healthy and productive lives.				
• Increase the number of Equine programming attendees overall (participants and viewers) at the Bastian Agricultural Center.	24,825	30,000	20,295	40,000
• Increase the number of Equine programming participants at the Bastian Agricultural Center.	8,725	6,500	6,088	10,000

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-36968]	NEW REQUEST	USU_Compensation	-	22,100	20,562 (Yes)
This request is to increase the amount for the interlocal government agreement with USU Extension Services for the anticipated state employee compensation increase in 2026.						
2	[31-36969]	NEW REQUEST	USU_SNAP_Ed	-	150,000	150,000 (Yes)
The recent passage of the HR1 will eliminate federal SNAP-Ed funding, ending Utah State University's Create Better Health program in Salt Lake County on September 30, 2025. While some state-level resources may be funded for limited outreach about SNAP benefits, this funding does not cover the robust, evidence-based nutrition education that has been provided for over 25 years. Compounding this concern, Utah has been identified by the CDC as having the highest death rate for older adults due to malnutrition. Without new investment, the county will lose direct, hands-on classes that help families stretch food dollars, prepare healthy meals, and prevent chronic disease.						
With \$150,000 annually, we could retain two full-time education dedicated to youth and underserved population nutrition education—continuing to serve limited-resource families and diverse communities and meeting a critical need for our older adult populations across Salt Lake County with practical, culturally responsive programs that make healthy living achievable. The SNAP-Ed program has a demonstrated return of \$5.36–\$9.54 for every dollar invested through reduced chronic disease risk, lower healthcare costs, and improved lifelong eating and activity habits. Continued investment will protect a proven, cost-effective educational resource in one of Utah's most diverse counties.						
3	[31-37235]	NEW REQUEST	USU_4H_Meat Donation Program	-	23,000	23,000 (Yes)
This request is to increase the County's contribution by \$23K to Salt Lake County Junior Livestock Council. The contribution application is attached to this request						
4	[32-37286]	STRESS TEST REDUCTION	USU_Stress Test_Withdraw New Request_4-H Meat Donation Program	-	(23,000)	- (No)
To withdraw this request would limit the ability for animals to be purchased from 4-H and FFA Youth to be donated to the foodbank (a win-win for youth development and food insecurity). The Jr Livestock program is seeing growth thanks to the efforts of the Bastian Agricultural Center and a withdrawn of these funds would limit our ability to leverage that growth to benefit local food banks.						
5	[32-37285]	STRESS TEST REDUCTION	USU_Stress Test_Withdraw New Request of SNAP_Ed	-	(150,000)	- (No)
To withdraw this proposal would eliminate our ability to provide an annual average of 220 classes to 5,500 youth (ages 3-18) with research-based nutrition education. An additional 1000+ refugee and underserved populations (including Spanish speaking) would be impacted per year and we would not be able to focus our efforts on older adult populations and the concerning statistics of Utah's high malnourishment death rates. This will be especially difficult for these populations who may be losing SNAP and Medicaid benefits.						
7	[32-37284]	STRESS TEST REDUCTION	USU_Stress Test_5% of ABB	-	(45,328)	- (No)
5% of USU Extension Services' 2026 adjusted base County funding budget, in total of \$45K, is subject to the stress test.						
The stress test would be met by reducing the funding for the interlocal government agreement with USU. If implemented, it will reduce USU Extension Services' capacity and resources to provide services in the areas of plant/pest diagnostics, food safety, 4-H and youth programs, mental health and substance misuse prevention, food and nutrition education, gardening and sustainability as well as employee COLA increases and general program support.						
If only 2.5% of ABB applies, a total of \$22.5K, it would be met by reducing the funding for the interlocal government agreement with USU.

0	[31-37771] NEW REQUEST HLT_OSF_Naloxone Countywide Distribution Initiative Component #1 [Exp: 107,100; Rev: 107,100] This initiative project is to fund Health Department for a robust and widespread naloxone education and distribution effort at all county facilities and throughout the community. The project includes 3 Components: Component #1: To fund one TL FTE Community Health Worker to support training for non-traditional first responders (library staff, rec center staffs) on overdose recognition, naloxone administration, and Good Samaritan protections; community health workers to provide health education and ensure naloxone is available in communities most at-risk of overdoses; Component #2: To purchase of naloxone for distribution in high-risk communities; Component #3: To fund the outreach efforts: 1 TL FTE Marketing and Communications Coordinator and educational campaign, including media and materials). This project's goal is 70 anchor sites by year 2 and expansion to more than 1,000 community sites through year 3 utilizing microgrants to CBOs to assist in distribution. This request is to support Component #1 (Position #10680).	-	-	(Yes)
0	[31-37772] NEW REQUEST HLT_OSF_Naloxone Countywide Distribution Initiative Component #2 [Exp: 200,000; Rev: 200,000] Component #2 is to fund Health Department for the purchasing of naloxone kits up to \$200K. These kits are for distribution in high risk communities and priority zip codes and to be available at outreach events across the county. These kits will also be distributed to county facilities, i.e. rec centers, senior centers, to be be available to for community members.	-	-	(Yes)
0	[31-37773] NEW REQUEST HLT_OSF_Opioid-Focused CRA [Exp: 153,000; Rev: 203,000] Conduct CRA (Community Readiness Assessments) in 2026 four communities: Downtown SLC, Rose Park, Glendale and Millcreek. Funds will also support implementation of efforts already highlighted through completed CRAs. Expand number of CRAs in 2027, as well is implement actions determined through 2026 CRA process. Salt Lake County Health Department (SLCoHD) uses the research-informed Community Readiness for Community Change framework to assess a community's readiness to address opioid use and misuse. Just as individuals vary in their readiness to change, communities are at different stages of readiness to tackle local issues. Too often, well-intentioned efforts to launch programs and activities meet with resistance and inaction. One common reason for this frustration is a lack of readiness—both among community members and leadership—to address the issue. It is essential to use the right actions and strategies for a community's current stage. Aligning interventions with the community's readiness level is critical to achieving sustainable success. FUTURE YEARS ADJUSTMENT: -50,000	-	(50,000)	(Yes)
0	[31-37775] NEW REQUEST HLT_OSF_Toolbox Talks Project [Exp: 60,000; Rev: 60,000] Build knowledge in worksites with high risk of injury re: opioid overdose prevention. Provide train-the-trainer sessions to equip supervisors and forepersons with effective facilitation skills; develop and distribute multilingual materials that address the needs of the diverse and mobile workforce; and partner with employers, unions, and industry associations to integrate Toolbox Talks into ongoing workplace safety programs. Goal is to reach at least 40 worksites over three years. Occupational injuries remain a persistent workplace challenge in high-risk industries such as construction, excavation, and manufacturing. These injuries not only threaten worker safety and productivity but also contribute to the risk of opioid misuse, as injured workers may be prescribed opioids for pain management. Toolbox talks are a brief, structured, safety discussion led on worksites, and are widely recognized by supervisors and safety managers as a core occupational safety practice. FUTURE YEARS ADJUSTMENT: [Exp: 190,000; Rev: 190,000]	-	-	(Yes)
0	[31-37811] NEW REQUEST HLT_OSF_Community Coalitions Expansion [Exp: 100,000; Rev: 100,000] Support three new coalitions over three years— Rose Park, Downtown SLC and WVC—that are highly impacted by opioid overdoses and deaths to start the process of addressing opioid use together with the community. Develop alliances of residents and organizations across diverse sectors to create buy-in and shared ownership to make prevention efforts last. Coalitions implement evidence-based environmental strategies that reduce substance access and build accountability. They focus on reducing risks and increasing long-term health, wellness and safety across communities. There are currently 10 evidence-based coalitions but there are areas in the county highly impacted by opioids that do not currently have coalitions – Rose Park, Downtown SLC, and West Valley City. The state legislature has supported community coalitions as an evidence-based tool for prevention utilizing state OSF funding. It has supported 2 coalitions in SLCo (Magna and Midvale) but funding is not available for others proposed above. FUTURE YEARS ADJUSTMENT: [Exp: 100,000; Rev: 100,000]	-	-	(Yes)

1	[31-37421] GRANT TRUE-UP HLT_Operations True Up [Exp: -694,066; Rev: -694,066] This request is to true up Health Department's various operating revenues funding level. The total funding reduction is \$694K from the following funding sources: \$647K federal funds reduction: *\$732K reduction from federal grant terminations (HLT21PPHEA, HLT21COVPHCRWS, HLT24DEQ). *\$263K reduction from on-going partial federal grant reductions (HLT20TOB, HLT23PHHS, HLT23CCI, HLT19IMMS). *\$224K increase from Overdose Data to Action (OD2A) grant carryforward. *\$124K increase from Targeted Case Management (TCM) contract revenue contract. \$47K state, local/private, and other funds reduction: *\$50K reduction from American Heart Association grant end. *\$22K increase to FY26 Intermountain Health grant award. *\$11K reduction from various small state grants *\$8K reduction in other funding Health has reduced its spending by \$694K through eliminating 5 vacant time-limited FTE positions, totaling \$552K, and reducing its operating costs by \$239K to respond to the funding reduction. The positions eliminated are as follows: *Community health worker time-limited position #10686 (\$93K) *Community health worker time-limited position #10696 (93K) *Bureau manager time-limited position #10675 (\$152K) *Program manager time-limited position #10695 (\$133K) *COVID contact tracer time-limited position #8820 (\$81K)	(5.00)	-	(7,940) (Yes) (5.00) FTE
2	[31-37157] NEW REQUEST HLT_EVRRAP One-time [Exp: 4,084,386; Rev: 4,084,386] Environmental Health's Air Bureau secured \$4.9M one-time federal funds pass-through from the State of Utah DEQ to carry out an income-qualified incentive program to replace light-duty vehicles for individuals. The Electronic Vehicle Replacement Assistance Program (EVRAP) estimates to replace 1,370 vehicles over the period of five years. Similar to the Bureau's VRRAP program, the anticipated completion of the program will not extend to the full five year period end based on demand. FUTURE YEARS ADJUSTMENT: [Exp: -4,315,500; Rev: -4,315,500]	-	-	- (Yes)
3	[31-37380] GRANT TRUE-UP HLT_Crisis Workforce One-time [Exp: 110,000; Rev: 110,000] Population Health was awarded a \$1M one-time federal pass-through grant for avian flu surveillance in 2025. Flu season and related surveillance activity begin in the fall and last through late winter. Health anticipates one-time spending and revenue from the grant to extend through the end of its period of performance in January 2026. This one-time adjustment will carry forward \$110K of budget authority for one-time grant spending through flu season and the grant period. FUTURE YEARS ADJUSTMENT: [Exp: -110,000; Rev: -110,000]	-	-	- (Yes)
4	[31-37158] NEW REQUEST HLT_Tonnage Fee Revenue Increase [Exp: 147,897; Rev: 850,000] Environmental Health's Household Hazardous Waste (HHW) Program proposed a 25 percent increase to tonnage fees, effective January 1, 2026. Tonnage fees assessed at private and public landfills allow free waste disposal at HHW's Sandy disposal facility, the Salt Lake Valley Landfill, and the TransJordan Landfill to assist in keeping hazardous and electronic waste out of public landfills and dispose of them in environmentally safe ways. Tonnage fees have not been adjusted since 2014. The proposed fee increase projects an annualized on-going revenue increase of \$850K to help address increasing operating costs to meet demand, including \$35K increase for temporary staff and \$113K increase in HHW clean-up and disposal costs. The proposed fee increase has been reviewed by the landfill councils, approved by the Board of Health, and vetted and supported by the County's Revenue Review Committee on 8/18/25.	-	(702,103)	(702,103) (Yes)
5	[31-37252] NEW REQUEST HLT_PHIG One-time [Exp: 942,527; Rev: 1,112,721] Health has been awarded its Public Health Infrastructure Grant (PHIG) as one-time federal funds pass-through from the state in 2023. Funding ends in 2027. This request is to provide funding to stabilize workforce through training and development as well as finding efficiencies through the modernization of public health infrastructure and data functionality. This request seeks budget authority for \$1.2M of one-time funding from the \$3.1M award to meet these needs. FUTURE YEARS ADJUSTMENT: 310,362	-	(170,194)	(170,194) (Yes)
6	[31-37263] GRANT TRUE-UP HLT_Smart GOV Rebudget One-time Health's Community Health Promotion Bureau received two \$50K Smart Gov awards in 2025 to support its activities around lead poisoning and diabetes. Health received these funds through a \$100K funds transfer in 2025. This request is to re-budget \$74K of remaining funds in 2026 to complete the projects. FUTURE YEARS ADJUSTMENT: -73,914	-	73,914	73,914 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[32-37405] STRESS TEST REDUCTION HLT_Stress Test_5% of ABB Health's 5 percent stress test of its 2026F adjusted base county funding budget is \$392K. Health's strategy to meet this requirement includes deferring \$64K of maintenance and upgrades to the Southeast Public Health Center in Sandy and delaying \$328K of long-term equipment and machinery updates. This will be done through the operating underspend account. If implemented, Health will not be able to maintain its facilities and long-term performance of equipment to support public health services. If only 2.5 percent applies, Health anticipates delaying a total of \$196K of long-term equipment and machinery updates.	-	(391,930)	- (No)
	[33-37813] REVENUE PROJECTION CHANGE Property Tax MV Fee Projection Adjustments As vetted by Revenue Committee on 9/12/2025	-	-	(213,458) (Yes)
	[33-37965] NEW REQUEST Property Tax Increase for Countywide Funds Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate. The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center. The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%	-	-	(5,442,261) (Yes)

Request ID and Description				
			FTE Request	Requested Net \$ (Total Exp-Total Rev) Mayor Proposed
0	[31-36955] NEW REQUEST ILS_Compensation_LDA		-	692,000 737,028
	Placeholder to mirror County's 2026 compensation increase approved by the Council with the intention to maintain the pay parity and stay competitive with the market. The calculation currently is based on 2.4% increase in wages and 10% increase in Health insurance. The providers stated the anticipated increase for the health insurance premium would be more than 10%. Mayor changed to 3% salary increase and 3.5% health insurance increase.			(Yes)
0	[31-36956] NEW REQUEST ILS_Compensation_UJDA		-	107,000 111,943
	Placeholder to mirror County's 2026 compensation increase approved by the Council with the intention to maintain the pay parity and stay competitive with the market. The calculation currently is based on 2.4% increase in wages and 10% increase in Health insurance. The providers stated the anticipated increase for the health insurance premium would be more than 10%. Mayor changed to 3% salary increase and 3.5% health insurance increase.			(Yes)
0	[31-36957] NEW REQUEST ILS_Compensation_Lokken		-	52,730 59,744
	Placeholder to mirror County's 2026 compensation increase approved by the Council with the intention to maintain the pay parity and stay competitive with the market. The calculation currently is based on 2.4% increase in wages and 10% increase in Health insurance. The providers stated the anticipated increase for the health insurance premium would be more than 10%. Mayor changed to 3% salary increase and 3.5% health insurance increase.			(Yes)
1	[31-36961] NEW REQUEST ILS_Capital Defense Account Balance True-up		-	- -
	[Exp: 900,000; Rev: 900,000] Since 2021, this account has been established to reserve each remaining available contract amount with the budget approved by the Council. As of 2025, this account has 7 active aggravated homicide/murder cases. Due to the dynamic nature of capital cases, when a case is closed, if any remaining available contract amount, it would stay in this account. This request is to rebudget all the projected remaining available funds in 2026 and to broaden the usage of remaining account balances when and if one case is closed with remaining available funds for any one-time funding needs or providing temporary support for a new case before going to the council asking for additional funds. FUTURE YEARS ADJUSTMENT: [Exp: -900,000; Rev: -900,000]			(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
2	[31-36965] NEW REQUEST ILS_OSF_Recidivism Reduction Plan [Exp: 300,500; Rev: 300,500] This request is to support an extension and expansion of the Recidivism Reduction Program managed through Indigent Legal Services' LDA contract. This program was piloted through a one-time federal earmark, which concludes December 2025. The extension is to maintain 2 Case Managers, and the expansion is for an additional 2 Case Managers and 2 clinical social workers (LCSWs). We are proposing a phased rollout. Year 1 (2026) extension + half expansion. Year 2 (2027) remaining extension. Extension has two components, 1) housing- focused Case Managers to support clients and provide resources to help them find and remain housed. (Mirrored off a Weber County program supported by its county OSF). Case Managers will navigate housing for homeless clients, and provide wraparound support for skills and tasks needed to maintain stable housing. Component 2) are utilizing 2 LCSWs (or equivalent master-level clinicians) to oversee and manage the Recidivism Reduction Plan. The LCSW will conduct ASAM-informed screenings and assessments, mental health assessments, and advise case management team regarding clinical appropriateness and programmatic fit for treatment and housing recommendations. FUTURE YEARS ADJUSTMENT: [Exp: 79,750; Rev: 79,750]	-	-	(Yes)
3	[31-36958] NEW REQUEST ILS_LDA 1 Data Analyst This request is to establish ongoing funding for LDA to continue data analyst position. This allows LDA to more efficiently and effectively assign cases, allocate resources, track outcomes, and partner with SLCo on systematic efforts. In 2021, LDA hired a data analyst to improve organization efficiency, including implementation of refined time tracking processes, undertake an organization-wide case weighting and management program, and navigating a new cloud-based data storage and tracking system. Results are improved management practices, less burnout and turnover, and improved collaboration and coordination with SLCo Human Services. LDA is now providing regular and detailed data and performance reports to SLCo to ensure we are fiscally responsible and operationally efficient with taxpayer money. Finally, LDA data and support is integral to strategic partnerships with the county, SLC, and the State of Utah on multijurisdictional efforts, including the recent HB 312 and Downtown Safety Initiative.	-	127,200	127,200 (Yes)
4	[31-36959] NEW REQUEST ILS_UJDA 2 Forensic Social Workers This request is to establish ongoing funding to continue UJDA's social service department to facilitate client access to services, reduce risk and trauma, and maintain firm efficiency. Since 2021, UJDA has established and refined a social work program through grants, and in 2025 using one-time funds. ILS seeks on-going funding to continue this work. Upon appointment to UJDA, a youth client is screened by a social service worker (SSW), which immediately connects them to needed behavioral health services. Early intervention and a robust treatment plan have been shown to reduce risk and improve outcomes. Additionally, the inclusion of SSWs alleviates stress and fear for the minors, their families, and even at times crime victims. SSWs improves the efficiency and impact of UJDA services by taking on non-legal tasks. This allows attorneys to focus on legal tasks, as well as allows the office to expand capacity without hiring additional attorneys.	-	235,700	235,700 (Yes)
5	[31-36960] NEW REQUEST ILS_Lokken 2 Social Workers This request is to establish ongoing funding to continue Lokken's social service department to facilitate access to services, increase family reunification, and maintain firm efficiency. Since 2021, Lokken and Putnam (L&P) established and refined a social work program within their office through grants, and in 2025 using one-time funds. ILS seeks on-going funding to continue this social services work (SSW). Success in family re-unification is in large part dependent on whether they are able to complete the reunification plan that is ordered by the court. Having experienced SSWs allows the attorneys to better advocate for a plan that gives clients the best chance for success. Once the plan is in place, an SSW provides invaluable support and education to aid the family in implementing the plan. SSWs improved the efficiency and impact of L&P services by taking on non-legal tasks. This allows attorneys to focus on legal tasks, as well as expands capacity without hiring additional attorneys.	-	181,230	181,230 (Yes)
6	[31-36967] NEW REQUEST ILS_LDA Operations Need This request is to address the on-going funding needs for 2026 and beyond for LDA operations cost increase. In 2022, during the COVID era, LDA received a federal Paycheck Protection Program (PPP) loan which provided substantial funding to LDA's reserve account. Since 2022, LDA also been experiencing an upward trend in operational costs including annual lease increases, IT technology upgrades (the case tracking system, file management systems, etc.), professional costs (outsourced accounting and HR supports), litigation costs, etc. LDA and SLCo established a spending plan by utilizing LDA's reserve account balance to meet the increasing operation's needs. This has allowed LDA's budget to absorb these increases without additional general fund money. However, it does create a structural imbalance in the budget, by using the one-time funding (the reserve account balance) to support on-going needs. The reserve account balance, according to the spending plan, is projected to be exhausted in 2027. The budgetary gap is \$740K now. This request is to support \$740K on-going, requesting \$370K ongoing in 2026 with the other \$370K ongoing in 2027 as the future year adjustment. FUTURE YEARS ADJUSTMENT: 370,000	-	370,000	370,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
7	[31-37601] NEW REQUEST ILS_Adult Criminal Defense Conflict of Interest			-	86,000	86,000 (Yes)
	This request is to address the on-going funding need to support the adult criminal defense conflict of interest attorney costs. LDA's reserved account (please refer to the description in ILS_LDA_Operations Need) currently supports \$172K for the conflict of interest attorney costs. With the reserve account balance projected to be exhausted in 2027, this request is to support \$172K on-going, requesting \$86K ongoing in 2026 with the other \$86K ongoing in 2027 as the future year adjustment. FUTURE YEARS ADJUSTMENT: 86,000					
8	[31-36962] NEW REQUEST ILS_LDA 4 New Attorneys			-	542,300	542,300 (Yes)
	To keep up current service levels and address the changing criminal justice system landscape, including HB312 and Downtown Safety Initiative, new attorneys are necessary to meet system needs. LDA has seen an approximate 20% increase in case filings and probation violations year to date in 2025. In addition to an overall increase, LDA has seen a 17% increase in filings on first-degree felonies and 300% increase in capital homicides, year to date. These are the most labor-intensive cases and tend to take the longest to resolve or get to trial. The result has been a decrease in cases closing which creates capacity challenges for the organization. The new attorneys will allow the organization to keep pace with these demands.					
9	[31-37388] NEW REQUEST ILS_LDA 4 New Legal Assistants			-	221,800	221,800 (Yes)
	To keep up current service levels and address the changing criminal justice system landscape, including HB312 and Downtown Safety Initiative, new legal assistants are necessary to meet system needs. These positions support staff to the newly requested attorneys to meet the burden of an approximate 20% increase in filings and clients. In addition to increased filings, case discovery has markedly increased due to increased video, audio, and other digital files becoming central to the information that police departments and the district attorney's office send to LDA. This requires additional staff hours to format into a usable form for attorneys.					
10	[32-37395] STRESS TEST REDUCTION ILS_Stress Test_Withdraw LDA 4 New Legal Assistants			-	(221,800)	- (No)
	Withdraw the new request of LDA 2 Legal Assistants Lack of new support staff would endanger LDA's ability to handle increased cases assignments.					
11	[32-37394] STRESS TEST REDUCTION ILS_Stress Test_Withdraw LDA 4 New Attorneys			-	(542,300)	- (No)
	Withdraw the new request of LDA 4 New Attorneys. Lack of new attorney positions would endanger LDA's ability to handle the cases assigned to it, specifically high-level felonies which require the assignment of experienced attorneys.					
12	[32-37789] STRESS TEST REDUCTION ILS_Stress Test_Withdraw LDA Operations Need			-	(370,000)	- (No)
	Withdraw the new request for LDA Operations Need.					
13	[32-37790] STRESS TEST REDUCTION ILS_Stress Text_Withdraw Adult Criminal Defense Conflict of Interest			-	(86,000)	- (No)
	Withdraw the new request for Adult Criminal Defense Conflict of Interest.					
14	[32-37393] STRESS TEST REDUCTION ILS_Stress Test_Withdraw Lokken 2 Social Workers			-	(181,230)	- (No)
	Withdraw the new request of Lokken 2 Social Workers Would require Lokken to winddown social work department resulting in an increased likelihood of negative outcomes for families and would reduce overall firm capacity.					
15	[32-37392] STRESS TEST REDUCTION ILS_Stress Test_Withdraw UJDA 2 Forensic Social Workers			-	(235,700)	- (No)
	Withdraw the new request of UJDA 2 Forensic Social Workers Would require UJDA to winddown social work department resulting in an increased likelihood of negative outcomes for youth and would reduce overall firm capacity.					
16	[32-37391] STRESS TEST REDUCTION ILS_Stress Test_Withdraw LDA 1 Data Analyst			-	(127,200)	- (No)
	Withdraw the new request for LDA 1 Data Analyst LDA would need to either end comprehensive data collection and analysis or make cuts to core legal functions. County would no longer receive key data and would lose ability to monitor LDA work and spending.					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description			FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
17	[32-37390] STRESS TEST REDUCTION	ILS_Stress Test_5% of ABB	-	(1,619,899)	-
Reduce 5% of the adjusted base budget					(No)
The workloads of the three major providers (LDA, UJDA, and Lokken) are not within their control. They must accept all cases assigned to them by the Courts. Similarly, their litigation costs are mostly inelastic and dictated by the cases assigned to them. Therefore, a contraction in their budget of this size would require a reduction in force and thereby capacity. This could endanger their ability to carry out Salt Lake County's legally required responsibilities. Indigent Legal Services would implement a 5% reduction to the three primary contracts and then work with the providers to coordinate the programming reductions.					
Reduce 2.5% of the adjusted base budget					
The workloads of the three major providers (LDA, UJDA, and Lokken) are not within their control. They must accept all cases assigned to them by the Courts. Similarly, their litigation costs are mostly inelastic and dictated by the cases assigned to them. Therefore, a contraction in their budget of this size would require a reduction in force and thereby capacity. CORE MISSION

We strive to be the leader in empowering youth and families by reducing risk factors, providing safe spaces, fostering supportive communities, and creating a pathway to a more positive future.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Youth ages (8-18) have access to evidence-based prevention services which include substance use disorder and mental health.				
• Increase the percentage of youth who have successfully completed prevention programming.	87%	85%	89%	87%
Youth Services provides immediate shelter and services to youth in crisis and state's custody.				
• Track the number of youth served in residential programs.	1,353	1,400	745	1,400
Youth (ages 8-18) have access to evidence-based counseling services, which include mental health and substance use disorder.				
• Track the number of counseling hours where youth and families are provided individual, family, and group counseling services.	10,065.2	9,500	6,046.31	9,500
Youth Services serves young adults ages 18-21 experiencing homelessness by assisting them to become self-sufficient through access to housing, employment, and connections to ongoing support and resources.				
• Increase the percent of Milestone homeless young adults who are successfully discharged with safe and stable housing.	83.33%	91%	90.91%	100%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37117] GRANT TRUE-UP	YSV_Operating Revenues True-up	-	-	(Yes)
[Exp: -321,911; Rev: -321,911] This request is to adjust various grant funding levels for a total reduction of (\$322K) in funds. It is a budget neutral request with no impact on County funding. The Afterschool Program services 11 schools and has \$1.66 million in 2025 grant funding. In 2026, that will be reduced by (\$177K) for a total of \$1.48 million in grant funding with the following details: • \$378K increase in funding from Department of Workforce Services (DWS) from 2025 funding of \$456K to 2026 funding of \$834K. Specifically, funding in 2025 for Student Age Quality (SAQ) is \$456K for six schools. In 2026, a new school was added with an increase of \$76K in funding for a total of \$532K. In addition, a new grant, Teen Age Prevention (TAP), was awarded to four schools for a total of \$302K. Total DWS Funding in 2026 totals \$834K with funding for each of the 11 schools. • (\$533K) reduction from the various 21st Century Community Learning Center (21st CCLC) grants which reduces funding in all 11 schools due to the uncertainty of federal funding for the FY26-27 and future school years. 2025 funding totals \$940K and 2026 funding is projected at \$407K. • (\$22K) reduction in local Magna Safety & Success funding at Matheson. Annual grant totals \$44.5K and will end 6-30-26. The Shelter and Crisis programs will have a revenue reduction of (\$114.5K): • (\$92.5K) reduction in Department of Child and Family Services (DCFS) due to end of one-time funds. Total funding in 2025 is approximately \$1.6 million and will be \$1.5 million in 2026. • (\$22K) reduction due to revenue true-up in Child Nutrition Program (CNP) funds from \$57k to \$35k. For the Family Peer Support Program (FPS) revenues, an \$136K increase from Salt Lake County Behavioral Health brought total funding up from \$690K in 2025 to \$826K in 2026. For the Prevention program, a total of (\$166K) reduction from \$621K in 2025 to \$455K in 2026: • (\$88K) reduction in funding due to the end of the Utah State University pass-through Federal Opioid grant in 2025. • (\$78K) reduction due to revenue true-up in Salt Lake County Health Department funding.					
2	[32-37357] STRESS TEST REDUCTION	YSV_Stress Test_5% of ABB	-	(667,252)	(No)
5% of Youth Services' 2026 adjusted base County funding budget, in total of \$677K, is subject to the stress test: The stress test would be met by personnel underspend through not funding approximately 6 FTEs. If implemented, it would create several serious negative impacts including: 1. Reducing Youth Services' capacity to provide essential shelter and counseling services, including reducing the total capacity for the shelter contract which limits the total youth provided with temporary shelter as well as reducing counseling service FTEs which would impact overall Medicaid revenue. 2. Increasing County's liability for not meeting the contractual obligation to maintain required medical care for youth in shelter care. 3. Increasing workload for the staff, hence decreasing quality of services and timely access to services. If only 2.5% of ABB applies, a total of \$339K, it would be met by personnel underspend through not funding approximately 3 FTEs. If implemented, it will still create serious negative impact on the areas mentioned above.

0	[33-37951]	REVENUE PROJECTION CHANGE	Interest - Time Deposits Projection Adjustments	-	(120,000)	(120,000)
	Update interest revenue in key funds.					(Yes)
7	[31-37787]	REVENUE PROJECTION CHANGE	OSF_2026 OSF Revenues	-	(5,410,378)	(5,410,378)
	This request is to budget the 2026 projected Opioid Settlement Funds revenues based on the National Opioid Settlement Directing Administrator payment schedule.					(Yes)
	FUTURE YEARS ADJUSTMENT: 5,410,378					
8	[31-36970]	REDUCTION AMOUNT	OSF_Approved Existing Projects Rebudget	-	(25,910)	(25,910)
	To true-up and rebudget the preciously approved OSF funded projects remaining available balance in 2026 and future year adjustments: *Community Bridget Program (USARA): carryover \$168K remaining funding in 2026. *Sheriff's MAT Expansion - OTP Accreditation: carryover \$46K in 2026.					(Yes)
	Future year adjustments for the projects end by 12/31/2026: Community Bridget annual project budget (\$168,000) Contributions to SUPERAD (\$45K) and TCCU (\$85K) Sheriff's Office MAT OTP Accreditation (\$62K) Sheriff's Office DEA (\$390K)					
	FUTURE YEARS ADJUSTMENT: -749,820					
9	[31-37650]	NEW REQUEST	OSF_Leadership & Evaluation of Efforts	1.00	145,389	147,196
	The Salt Lake County opioid settlement fund will total more than \$91 million over the next 14 years. Effective governance, transparency, and impact reporting is essential.					(Yes) 1.00 FTE
	Each new project launched requires agreement/contract negotiation, outcomes, ongoing monitoring and communication, as well as ensuring data are reported and analyzed. In addition, grant programs require RFP development, managing review committees, in addition to the above. A Program Manager is essential to effectively manage these funds as well as monitoring for new trends and opportunities for leveraging other resources to address the opioid crisis.					
10	[31-37637]	NEW REQUEST	OSF_USU_SBIRT Project	-	125,000	125,000
	Implement SBIRT (Screening, Brief Intervention and Referral to Treatment) in two schools in Granite School District and expand to additional schools based on pilot results.					(Yes)
	Studies have shown that SBIRT can identify at-risk students before substance use escalates, provide timely, brief counseling that influences decision-making, and connect youth to appropriate treatment when needed. School-based implementations in states such as New Jersey and Wisconsin have demonstrated reductions in risky behaviors, improvements in coping and problem-solving skills, and increased referrals to treatment. By integrating a dedicated SBIRT specialist into SLCo schools, this proposed initiative seeks to: 1) delay initiation, 2) decrease rates of escalation, and 3) increase access to treatment for those engaging in problematic use.					
	FUTURE YEARS ADJUSTMENT: 175,000					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
11	[31-37639] NEW REQUEST OSF_HLT_Opioid-Focused CRA Conduct CRA (Community Readiness Assessments) in 2026 four communities: Downtown SLC, Rose Park, Glendale and Millcreek. Funds will also support implementation of efforts already highlighted through completed CRAs. Expand number of CRAs in 2027, as well as implement actions determined through 2026 CRA process. Salt Lake County Health Department (SLCoHD) uses the research-informed Community Readiness for Community Change framework to assess a community's readiness to address opioid use and misuse. Just as individuals vary in their readiness to change, communities are at different stages of readiness to tackle local issues. Too often, well-intentioned efforts to launch programs and activities meet with resistance and inaction. One common reason for this frustration is a lack of readiness—both among community members and leadership—to address the issue. It is essential to use the right actions and strategies for a community's current stage. Aligning interventions with the community's readiness level is critical to achieving sustainable success. FUTURE YEARS ADJUSTMENT: 131,000	-	203,000	203,000 (Yes)
13	[31-37638] NEW REQUEST OSF_HLT_Community Coalitions Expansion Support three new coalitions over three years— Rose Park, Downtown SLC and WVC—that are highly impacted by opioid overdoses and deaths to start the process of addressing opioid use together with the community. Develop alliances of residents and organizations across diverse sectors to create buy-in and shared ownership to make prevention efforts last. Coalitions implement evidence-based environmental strategies that reduce substance access and build accountability. They focus on reducing risks and increasing long-term health, wellness and safety across communities. There are currently 10 evidence-based coalitions but there are areas in the county highly impacted by opioids that do not currently have coalitions – Rose Park, Downtown SLC, and West Valley City. The state legislature has supported community coalitions as an evidence-based tool for prevention utilizing state OSF funding. It has supported 2 coalitions in SLCo (Magna and Midvale) but funding is not available for others proposed above. FUTURE YEARS ADJUSTMENT: 100,000	-	100,000	100,000 (Yes)
15	[31-37640] NEW REQUEST OSF_USU_CREST Expansion Expand Project CREST (Create Resilient Students) to 8 new schools across 3 years. Project CREST is an established approach created and led by USU Extension in collaboration with the SLCo Health Department and Division of Youth Services. It focuses on building family skills and is designed to facilitate the effective delivery of research- and evidence-based prevention programming in schools. To date, Project CREST has been implemented in 11 schools in SLCo. Each Project CREST school receives training and technical assistance to work through a standardized process of assessing needs, selecting, planning, recruiting for, and holding three family skill-building workshops and a multi-week family prevention program. There is growing demand from new schools who want to participate and a clear need for additional prevention efforts in the focus communities. FUTURE YEARS ADJUSTMENT: 150,000	-	150,000	150,000 (Yes)
16	[31-37635] NEW REQUEST OSF_Community Prevention Grants Provide \$1 million in community grants annually, building local prevention capacity. We seek to invest in trusted community-based organizations that are working in communities most at-risk of opioid misuse. Building capacity of trusted organizations in communities ensures a stronger connection to the message. Human Services anticipates an annual grant program that leverages existing evidence-based efforts. CBOs would be required to outline program design, expected outcomes and report progress in alignment with the MOU and demonstrate evidence of effectiveness. Proposed pilots of innovative initiatives would require an evaluation component as part of the proposal.	-	1,000,000	1,000,000 (Yes)
17	[31-37643] NEW REQUEST OSF_CJS_Jail Expansion and Reentry Efforts CJS proposes to implement a new reentry program in the ADC and Oxbow in 2026. The propose includes a team of 12 FTEs, including 6 certified peer support specialists, 4 case managers and 2 case management supervisors. The team will meet with inmates prior to release to develop a reentry plan and work to ensure warm hand-offs where possible upon release. Justice-involved individuals will have access to recovery dialogues with someone with lived experience, classes in the jail, and overall emotional and social service support to them as they transition back into the community. Services include employment services, healthcare/Medicaid enrollment, housing, transportation, digital competency, and budget/ financial literacy. The intent is to add 4 certified peer support specialists in 2027 with corresponding funding.	-	1,053,966	619,994 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
19	[31-37644] NEW REQUEST OSF_ILS_Recidivism Reduction Plan This request is to support an extension and expansion of the Recidivism Reduction Program managed through Indigent Legal Services' LDA contract. This program was piloted through a one-time federal earmark, which concludes December 2025. The extension is to maintain 2 Case Managers, and the expansion is for an additional 2 Case Managers and 2 clinical social workers (LCSWs). We are proposing a phased rollout. Year 1 (2026) extension + half expansion. Year 2 (2027) remaining extension. Extension has two components, 1) housing- focused Case Managers to support clients and provide resources to help them find and remain housed. (Mirrored off a Weber County program supported by its county OSF). Case Managers will navigate housing for homeless clients, and provide wraparound support for skills and tasks needed to maintain stable housing. Component 2) are utilizing 2 LCSWs (or equivalent master-level clinicians) to oversee and manage the Recidivism Reduction Plan. The LCSW will conduct ASAM-informed screenings and assessments, mental health assessments, and advise case management team regarding clinical appropriateness and programmatic fit for treatment and housing recommendations. FUTURE YEARS ADJUSTMENT: 79,750	-	300,500	150,250 (Yes)
21	[31-37642] NEW REQUEST OSF_SO_MAT Capital & Equipment-One Fund a one-time capital investment to ensure the jail meets accreditation requirements to allow for expanded Jail-Based Medication Assisted Treatment Program. Operations expected to begin in 2027. FUTURE YEARS ADJUSTMENT: -2,300,000	-	2,300,000	2,300,000 (Yes)
22	[31-37646] NEW REQUEST OSF_BHS_Sober Living Housing Supports Expansion This request is to provide \$500,000 annually for three years to support housing for 100 additional individuals per year through Behavioral Health Services existing network providers. The need for safe, stable, and sober housing upon transitioning from incarceration or residential treatment back into the community is far greater than the Salt Lake County Sober Living Program can currently support. A \$500k infusion into this program would provide up to six months of rental assistance for approximately 100 additional individuals in need of stable, sober housing within a licensed recovery residence. Participants come directly from Odyssey House's CATS Program in the Salt Lake County Jail, Salt Lake County Drug Courts, or those engaging in residential treatment who are transitioning to an outpatient level of care within the County's treatment network.	-	500,000	500,000 (Yes)
24	[31-37645] NEW REQUEST OSF_Community Treatment Infrastructure Grants This request is to provide \$1,000,000 annually in treatment infrastructure grants to community-based treatment providers through a competitive process. While Medicaid generally covers the costs of SUD and MH treatment, it does not cover the infrastructure development nor fully cover start-up costs for services. Community-based SUD treatment providers often need assistance with investments in building purchases, remodels, or start-up/bridge funding to support expansion of treatment efforts. We propose providing fundings to SUD treatment providers to support these efforts, thus growing treatment capacity in the County.	-	1,000,000	1,000,000 (Yes)
25	[31-37786] NEW REQUEST OSF_Peer Support Specialist Certification & Training Provide certification and training for up to 10 CPSS peers in 2026 that will serve in the behavioral health system beginning in 2027. To become a CPSS, certification training is required. Training starts at a cost of \$400 per trainee. There are three enhancement certifications, forensic, transition aged youth, and integrated wellness. "Forensic" enhancement is specific for individuals who work within an incarcerated setting. Each enhancement is \$200 per trainee. Total cost is \$600 per Peer. FUTURE YEARS ADJUSTMENT: -6,000	-	6,000	6,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
26	[31-37648] NEW REQUEST OSF_HLT_Naloxone Countywide Distribution Initiative Component #1 OSF_HLT_Naloxone Countywide Distribution Initiative Component #1 This initiative project is to fund Health Department for a robust and widespread naloxone education and distribution effort at all county facilities and throughout the community. The project includes 3 Components: Component #1: To fund one TL FTE Community Health Worker to support training for non-traditional first responders (library staff, rec center staffs) on overdose recognition, naloxone administration, and Good Samaritan protections; community health workers to provide health education and ensure naloxone is available in communities most at-risk of overdoses; Component #2: To purchase of naloxone for distribution in high-risk communities; Component #3: To fund the outreach efforts: 1 TL FTE Marketing and Communications Coordinator and educational campaign, including media and materials). This project's goal is 70 anchor sites by year 2 and expansion to more than 1,000 community sites through year 3 utilizing microgrants to CBOs to assist in distribution. This request is to support Component #1 (Position #10680)	-	107,100	107,100 (Yes)
28	[31-37768] NEW REQUEST OSF_HLT_Naloxone Countywide Distribution Initiative Component #2 "OSF_HLT_Naloxone Countywide Distribution Initiative Component #2 Component #2 is to fund Health Department for the purchasing of naloxone kits up to \$200K. These kits are for distribution in high risk communities and priority zipcodes and to be available at outreach events across the county. These kits will also be distributed to county facilities, i.e. rec centers, senior centers, to be available to for community members.	-	200,000	200,000 (Yes)
30	[31-37649] NEW REQUEST OSF_HLT_Naloxone Countywide Distribution Initiative Component #3 Component #3 is to fund Health Department for the naloxone education/communications campaign efforts. This request includes 1 TL FTE Marketing and Communications Coordinator and \$170K in operations. This new position is to develop a media campaign, including creating content, overseeing translation and individualization of created and print materials, and maintaining QR codes and the SLCo opioid website. This position will work in coordination with the Mayor's Office communications team FUTURE YEARS ADJUSTMENT: -40,000	-	257,951	257,951 (Yes)
32	[31-37641] NEW REQUEST OSF_HLT_Toolbox Talks Project Build knowledge in worksites with high risk of injury re: opioid overdose prevention. Provide train-the-trainer sessions to equip supervisors and forepersons with effective facilitation skills; develop and distribute multilingual materials that address the needs of the diverse and mobile workforce; and partner with employers, unions, and industry associations to integrate Toolbox Talks into ongoing workplace safety programs. Goal is to reach at least 40 worksites over three years. Occupational injuries remain a persistent workplace challenge in high-risk industries such as construction, excavation, and manufacturing. These injuries not only threaten worker safety and productivity but also contribute to the risk of opioid misuse, as injured workers may be prescribed opioids for pain management. Toolbox talks are a brief, structured, safety discussion led on worksites, and are widely recognized by supervisors and safety managers as a core occupational safety practice. FUTURE YEARS ADJUSTMENT: 190,000	-	60,000	60,000 (Yes)

		South Towne Operations	[Exp: 392,904; Rev: 441,374]			(Yes)
		Revenue				
		Revenue budget increased YoY from 2025 to 2026. Noticeable increase with budgeted setup charges and bank interest. County share of F&B continues to increase. Telecom/Electrical/AV remains healthy, continued capital projects and firmware update costs.				
		Set up charges are more closely adjusted to actual performance in the 2026 budget, where we have seen a constant year-over-year growth coming out of COVID.				
		Internet (telecom), audio visual, and electrical services continue to grow year over year adjusting budget up compared to historical actual performances. These revenue segments are possible to due to past and continued capital expenditure investments.				
		Expense				
		People related expenses include the following: (1) up to 4% annual merit increases, (2) \$20,000 set aside for market adjustments as needed, and (3) an additional staff engineer to ensure proper coverage.				
		General Liability Insurance continues to increase, with an estimated attendance of 813,265 in 2026 at \$0.98 per person, we are seeing a budgeted increase of 30%.				
		Utilities, specifically electrical, are budgeted at an increased \$50k, a 12% increase, adjusting to 2025 actual trends.

		Revenue				
		Revenue budget increased \$2 Million YoY from 2025 to 2026. Noticeable increase with budgeted setup charges and bank interest. County share of F&B continues to increase. Telecom/Electrical/AV remains healthy, continued capital projects and firmware update costs.				
		Parking revenue remains strong with the addition of the NHL games at the delta center and 10% agreed price increase for the use of the West Garage.				
		F&B (Sodexo) is forecasting a healthy catering month in 2026, increasing the YoY revenue of 8%.				
		Set up charges are more closely adjusted to actual performance in the 2026 budget, where we have seen a constant year-over-year growth coming out of COVID.				
		Internet (telecom), audio visual, and electrical services continue to grow year over year adjusting budget up compared to historical actual performances. These revenue segments are possible to due to past and continued capital expenditure investments.				
		Expense				
		People related expenses include the following: (1) up to 4% annual merit increases, (2) \$250,000 set aside for market adjustments as needed, and (3) a few new positions.				
		New positions proposed include: (1) a full-time social media coordinator requested by our communications department, (2) an additional zero-waste coordinator to keep up with the increased sustainability workloads, and (3) a dispatcher to assist organization and coordination between operations and event managers. These three positions total to a combined \$153,775 annual wage. In addition every year we request fund to support an internship program that is rolling over from the previous year.				
		General Liability Insurance continues to increase, with an estimated attendance of 900,000 in 2026 at \$0.98 per person, we are seeing a budgeted increase of 44%.				
		Utilities, specifically electrical are budgeted at an increased \$400k, a 34% increase, adjusting to 2025 actual trends.

CORE MISSION

To improve the area economy by attracting and providing support to conventions, leisure travelers, and visitors to Salt Lake County. Marketing efforts feature the positive differences between Salt Lake and competing destinations. Convention and visitor services are provided to encourage longer stays and future returns.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Visit Salt Lake expands economic vitality through visitor spending in Salt Lake County.				
• Increase the number of hotel room nights booked and consumed.	1,116,331	1,000,000	684,705	775,000
Visit Salt Lake generates positive messaging about Salt Lake County as a premier travel, tourism and meeting destination.				
• Drive the advertising value in US Dollars for 'Earned Media', including stories and discussions told via social media, magazines, newspapers, television, radio, etc..	22,847,885	50,000,000	28,286,026	45,000,000
• Increase the number of sessions on the VSL Websites *Discontinued as of end of 2025	3,360,485	3,360,000	2,083,903	0
• Increase brand engagement(web visits, comments, likes, follows, shares, views) through VSL-owned channels (websites, social media, etc)(in engagements)	0	0	0	42,000,000
Visit Salt Lake impacts Salt Lake County's economy by bringing new money into Salt Lake County that improves businesses and both supports and creates jobs in the hospitality industry.				
• Increase current results of VSL's sales and marketing efforts measured in terms of jobs that Visitor Spending in Salt Lake County supports	8,286	7,770	4,978	5,920
• Increase current results of VSL's sales and marketing efforts measured in terms of exogenous spending - money that visitors attending meetings, conventions, and tradeshow spend in Salt Lake County's hotels, restaurants, retail stores, attractions, on rental cars, etc..	589,042,512	546,735,000	353,871,269	421,000,000
The Salt Lake County CTAA is designed to provide specific benefits directly to payors by increasing awareness and demand for room night sales.				
• *Includes room nights booked through online travel agencies (OTAs), measured by Adara Impact (directly connecting media campaigns and website activity to revenue generated), and attributable to Travel Trade (international itineraries). These programs are intended to room nights in historically low demand periods, with a focus on the fourth quarter. (Previous to 2026 this included only room nights attributable to Travel Trade)	9,818	11,000	4,412	65,000
• *Offer incentive CTAA funds to close 10 new citywide conventions. (Discontinued as of the end of 2025)	18	11	5	7
• *Offer incentive CTAA funds to close 10 new sporting events. (Discontinued as of the end of 2025)	23	20	6	12

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
(detail rows exclude projects that are strictly re-budgets)						
1	[47-36375]	CAPITAL PROJECT	ST25_02 - MAEC HVAC / Mechanical	-	340,000	340,000

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
[New/Add/Reduction: 340,000; Rebudget: 245,000] ST25_02 This project encompasses a comprehensive package of critical mechanical and infrastructure upgrades at the MAEC facility. These improvements are essential to ensure the ongoing safety, efficiency, and reliability of core building systems that support daily operations and emergency preparedness. The project scope includes: Fan Coil Units: Replacement of aging and deteriorating air handling units, many of which have exceeded 25 years of service. These replacements will restore reliable cooling, improve indoor air quality, reduce energy consumption, and minimize the risk of sudden system failures. Sump Pump System: Enhancement of the facility's groundwater removal system to prevent water intrusion, protect the building foundation, and safeguard underground utilities from potential flooding or water damage. Variable Speed Drives (VSDs): Installation of VSDs to allow HVAC motors to operate efficiently at variable speeds. This reduces wear and tear on equipment, lowers energy usage, and supports more precise environmental control. Emergency Generator Fuel Tank & Pump: Upgrade of the 10,000-gallon diesel fuel tank and pumping system that supports the emergency generator. This ensures dependable backup power during electrical outages and brings fuel storage infrastructure up to modern standards. Electrical System Improvements: Targeted upgrades to outdated electrical components to enhance safety, operational efficiency, and code compliance. Together, these coordinated upgrades address long-standing deferred maintenance, reduce operational and safety risks, and extend the service life of critical building systems. Additionally, they support sustainability goals by increasing overall energy efficiency and system performance.				(Yes)
2	[47-36372] CAPITAL PROJECT ST24_03 - Asphalt Slurry [New/Add/Reduction: 80,000; Rebudget: 80,059] ST24_03 This project requests funding for the application of an asphalt slurry seal to the existing parking lot surfaces at Mountain America Expo Center. As part of a proactive pavement preservation program, the slurry seal provides a protective overlay that helps minimize weather-related deterioration, extend the service life of the asphalt, and maintain safe, functional parking areas. The maintenance will be executed in four stages over a four-year cycle. This phased approach: Promotes cost efficiency by spreading expenses over multiple years Minimizes disruptions to parking availability and facility operations Aligns with the Salt Lake County Facilities Maintenance Department's recommended five-year surface maintenance schedule Implementing this program ensures the long-term durability and safety of the parking lot surfaces, reducing the need for costly repairs or full replacement in the future.	-	80,000	80,000 (Yes)
3	[47-37004] CAPITAL PROJECT Permanent Carpet Replacement P557808 This project proposes the replacement of high-traffic carpeting originally installed in 2015 throughout key areas of the Mountain America Expo Center. Over time, the carpet has shown advanced wear, particularly at high ingress and egress points, leading to potential safety concerns such as tripping hazards. Additionally, the worn carpet detracts from the overall aesthetic appeal of the interior spaces. Replacing the carpeting will: Enhance visitor safety by eliminating worn and potentially hazardous flooring Improve the visual appearance and professionalism of the facility Support a positive guest experience by maintaining a clean, modern environment Extend the lifespan of interior finishes and reduce ongoing maintenance costs This upgrade is essential to uphold the Mountain America Expo Center's standards of safety, comfort, and presentation for guests and event clients.	-	200,000	200,000 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)				FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
4	[47-37005]	CAPITAL PROJECT	Exterior Facilities Upgrade P814833 This project focuses on critical improvements to the exterior infrastructure of the Mountain America Expo Center to enhance safety, accessibility, and overall operational functionality. Loading Dock Concrete Replacement: The concrete surfaces at the facility's truck loading docks, which are over 25 years old, have deteriorated significantly. This degradation poses safety risks to personnel and vehicle operations, including delivery trucks and facility equipment. Replacing the damaged concrete will restore a safe, durable working surface, ensuring continued efficient and secure loading and unloading activities. Parking Lot Striping: Following the scheduled asphalt slurry sealing maintenance, all parking areas will be re-striped as part of an ongoing phased annual maintenance program. This work improves traffic flow, enhances visibility of designated parking spaces, and ensures compliance with safety regulations and ADA accessibility standards, supporting safe and efficient vehicle movement throughout the site. These exterior upgrades are essential to maintaining a safe, accessible, and well-functioning facility exterior that supports the Salt Palace Convention Center's operational needs and guest experience.	-	810,000	810,000 (Yes)

CORE MISSION

To be an economic magnet to Salt Lake County by hosting conventions, trade shows, meeting, public events and managing the County's world-class conventions, exhibition, trade show and meeting facilities.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Salt Palace Convention Center serves as an economic magnet for visitor and convention spending in Utah.				
• Measure the economic impact to our community as a result of hosting conventions at the Salt Palace Convention Center.	246,082,581.02	250,000,000	180,177,050	250,000,000
• Measure the number of events hosted by the Salt Palace Convention Center.	127	136	65	130
• Measure the amount of revenue earned at the Salt Palace Convention Center from event income.	20,484,563.98	15,189,645	12,020,984.61	17,322,495
• Increase the level of Salt Palace Convention Center facility our clients overall experience rating (on a scale of 1 - 100). Prior to 2025 it was a 1-5 scale.	4.27	80	94	85
• Increase the amount of materials used in the facility operation that can be removed from landfill streams. This is accomplished through upcycling, recycling, food rescue, and food waste diverted to the anaerobic digester.	42.38%	50%	44.51%	50%
The Salt Palace Convention Center serves as an economic magnet for visitor and convention spending in Utah. [Transformational Initiatives]				
• Salt Palace Convention Center Chiller Replacement Project - Percent of project milestone deadlines met.	5%	5%	5%	5%

	[Exp: 1,241,279; Rev: 1,959,625] Revenue Revenue budget increased \$2 Million YoY from 2025 to 2026. Noticeable increase with budgeted setup charges and bank interest. County share of F&B continues to increase. Telecom/Electrical/AV remains healthy, continued capital projects and firmware update costs. Parking revenue remains strong with the addition of the NHL games at the delta center and 10% agreed price increase for the use of the West Garage. F&B (Sodexo) is forecasting a healthy catering month in 2026, increasing the YoY revenue of 8%. Set up charges are more closely adjusted to actual performance in the 2026 budget, where we have seen a constant year-over-year growth coming out of COVID. Internet (telecom), audio visual, and electrical services continue to grow year over year adjusting budget up compared to historical actual performances. These revenue segments are possible to due to past and continued capital expenditure investments. Expense People related expenses include the following: (1) up to 4% annual merit increases, (2) \$250,000 set aside for market adjustments as needed, and (3) a few new positions. New positions proposed include: (1) a full-time social media coordinator requested by our communications department, (2) an additional zero-waste coordinator to keep up with the increased sustainability workloads, and (3) a dispatcher to assist organization and coordination between operations and event managers. These three positions total to a combined \$153,775 annual wage. In addition every year we request fund to support an internship program that is rolling over from the previous year. General Liability Insurance continues to increase, with an estimated attendance of 900,000 in 2026 at \$0.98 per person, we are seeing a budgeted increase of 44%. Utilities, specifically electrical are budgeted at an increased \$400k, a 34% increase, adjusting to 2025 actual trends.					(Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

Request ID and Description (detail rows exclude projects that are strictly re-budgets)				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[47-36351]	CAPITAL PROJECT	SP24_15 - Update Ballroom sound panels	-	315,000	315,000

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
[New/Add/Reduction: 315,000; Rebudget: 321,112] SP24_15 This project seeks funding to replace the upholstered sound-dampening panels located along the walls of the Grand Ballroom at the Salt Palace Convention Center. These panels play a critical role in maintaining optimal acoustics within the space, ensuring that sound is evenly distributed and that communication between speakers, performers, and audiences remains clear and intelligible. Positioned at eye level around the perimeter of the room, the panels are also highly visible and contribute to the overall aesthetic of the ballroom. Due to their placement and function, the panels are subject to routine wear and tear, including damage from impact, stains from food and beverages, and fabric deterioration. While these panels are typically replaced every ten years, the current set has exceeded its intended service life and now shows extensive signs of aging. Replacing the sound panels will restore both the acoustic performance and visual appeal of the Grand Ballroom, ensuring it continues to meet the expectations of event organizers and guests.				(Yes)
2	[47-36995] CAPITAL PROJECT Box Truck P107552 This project requests funding to replace a box truck that requires frequent repairs and is no longer reliable for daily operations. The vehicle has over 225,000 miles and has reached a point where ongoing maintenance is becoming increasingly costly and disruptive. The truck is used for routine tasks such as: Transporting equipment and materials between the Salt Palace Convention Center, Mountain America Expo Center, and warehouse Supporting event setup and breakdown Hauling debris and delivering maintenance supplies Due to its age and condition, the truck often needs service, which reduces availability and increases operational inefficiencies. Replacing it with a newer vehicle will help ensure more dependable transportation and reduce the time and expense currently spent on temporary fixes and workarounds.	-	125,000	125,000 (Yes)
3	[47-36999] CAPITAL PROJECT Firmware updated and technical support P417587 This project requests funding to maintain active firmware update and technical support subscriptions for the network infrastructure at both the Salt Palace Convention Center (SPCC) and the Mountain America Expo Center (MAEC). The network systems at these facilities—comprising six Aruba controllers, ClearPass, AirWave, and 924 wireless access points—are essential to day-to-day operations, guest connectivity, and event services. To maintain system security, reliability, and performance, ongoing firmware updates and vendor technical support are required. These subscription-based services are critical for: Ensuring access to the latest security patches and system updates Maintaining compliance with current cybersecurity standards and best practices Providing access to expert vendor support for troubleshooting and emergency response Minimizing the risk of outages, vulnerabilities, and compatibility issues Budget-conscious options, including 3- and 5-year subscription terms, offer long-term savings and reduce administrative overhead if funded upfront. Investing in these subscriptions ensures uninterrupted network operations, protects critical infrastructure, and supports the high-performance standards expected at both SPCC and MAEC facilities.	-	454,000	454,000 (Yes)

Request ID and Description (detail rows exclude projects that are strictly re-budgets)		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
4	[47-37002] CAPITAL PROJECT Cybersecurity Upgrades P856575 In response to evolving and increasingly sophisticated cybersecurity threats, the Salt Palace Convention Center requires enhanced security tools beyond traditional antivirus solutions. This project proposes the implementation of Endpoint Detection and Response (EDR) alongside an enterprise-level Device Management system to strengthen the facility's cybersecurity posture. EDR technology provides real-time threat detection through advanced behavioral analysis and machine learning, enabling rapid identification and response to malicious activities before they can cause significant damage. Complementing this, the Device Management system will enable secure access control to network resources, continuous monitoring of device health, enforcement of security policies, and the capability to remotely lock or wipe devices if they are lost, stolen, or compromised. Together, these tools will: Significantly improve protection of sensitive data and critical systems Enhance user security by preventing unauthorized access and mitigating risks Increase IT team responsiveness with real-time alerts and automated threat containment Support compliance with industry standards and best cybersecurity practices Investing in these cybersecurity upgrades is essential to safeguard the Salt Palace Convention Center's network infrastructure, protect client and operational data, and maintain trust and confidence among stakeholders.	-	75,000	75,000 (Yes)
5	[47-36994] CAPITAL PROJECT FFE Chair Replacement P217376 This project requests funding for the replacement of worn and outdated chairs as part of the Furniture, Fixtures, and Equipment (FF&E) lifecycle at the SPCC facility. Over time, frequent use of chairs in high-traffic public and event spaces leads to visible wear, diminished comfort, and in some cases, structural failure. Many of the existing chairs are beyond their expected service life and no longer meet current standards for appearance, comfort, or durability. Replacing these chairs will: Enhance the overall guest and client experience by providing clean, modern, and comfortable seating Support the facility's professional appearance and competitiveness as a premier event venue Improve storage and handling efficiency with updated models that are lighter, stackable, or more ergonomically designed Reduce maintenance needs and safety risks associated with broken or unstable furniture This investment is part of a broader effort to keep the facility's interior spaces attractive, functional, and aligned with industry expectations. It reflects the SPCC's ongoing commitment to hospitality, safety, and operational excellence.	-	596,820	596,820 (Yes)
6	[47-36360] CAPITAL PROJECT SP25_03 - Facility Capital Maintenance [New/Add/Reduction: 800,000; Rebudget: 1,000,000] SP25_03 We seek funding continued approval for the 2026 maintenance of mechanical components for aged capital systems at the Salt Palace Convention Center, specifically focusing on elevators and escalators. Currently, we have two escalators that are 39 years old, eight that are 27 years old, and two that are 21 years old. We require almost weekly maintenance to keep all escalators operational, primarily due to the heavy use and advanced age of these units. Additionally, increased county facility labor rates escalate year-over-year costs to support the continued operation of capital system maintenance, which also includes escalators and elevators. This request is to allocate capital maintenance funding separately from the operating budget.	-	800,000	800,000 (Yes)
7	[47-36993] CAPITAL PROJECT Upgrade Hall ABCDE Restrooms P080850 As the Salt Palace Convention Center prepares for its planned expansion and vertical development, this project proposes interim cosmetic upgrades to the existing restroom facilities in Halls A, B, C, D, and E. These improvements—primarily consisting of painting and minor surface updates—are intended to improve the appearance of the restrooms and maintain a clean, welcoming environment for guests until full renovation and construction work begins. Many of the restrooms currently show signs of wear and age. While full upgrades will be addressed during the broader expansion, these short-term enhancements will help ensure that the facilities remain presentable and functional for events in the meantime. The focus is on visual refreshment rather than infrastructure changes. This temporary investment will support the continued use of the facility, improve the visitor experience, and uphold the Salt Palace's reputation during the transition period. We respectfully request funding approval for these cosmetic improvements as a stopgap measure ahead of the larger, long-term restroom renovation project.	-	600,000	600,000 (Yes)

NEW REQUESTS – CAPITAL PROJECT ORGANIZATIONS & OTHER RELATED ORGS

		Request ID and Description (detail rows exclude projects that are strictly re-budgets)	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
8	[47-37000]	CAPITAL PROJECT ISP Switch Upgrade P748438 This project requests funding to upgrade the facility's core network switches that connect to Internet Service Providers (CentraCom and UEN). The existing Aruba 5406 switches, installed in 2019, are the final major network components yet to be upgraded to the modern Aruba CX platform. These switches serve as critical connection points between the Salt Palace Convention Center and its external internet services. As such, their performance, reliability, and compatibility directly impact the speed and stability of network services used by staff, event clients, vendors, and attendees. Upgrading to the Aruba CX platform will: Align all core network infrastructure with a single, modern architecture for easier management and support Improve network reliability and reduce the risk of downtime or performance bottlenecks at key connection points Enhance compatibility with other recently upgraded network systems and components Extend long-term supportability and access to future firmware and security updates This investment ensures a consistent, high-performance digital experience throughout the facility and supports the mission-critical connectivity required for large-scale events, internal operations, and guest services.	-	250,000	250,000 (Yes)
9	[47-37003]	CAPITAL PROJECT Security Cameras for Sodexo at SPCC P352167 Sodexo has formally requested the installation of dedicated security cameras within their operational areas at the Salt Palace Convention Center. These areas include kitchen spaces, the Tasting Room/Server Room, and concession stands located in Halls A through E. The addition of these cameras will enhance overall safety by providing real-time monitoring and recording of critical operational zones. This will support increased accountability, deter theft or misconduct, and contribute to a safer working environment for staff. Furthermore, these improvements align with Sodexo's internal risk management and compliance standards. This project serves as a targeted enhancement to the existing campus-wide video security system and can be pursued as a standalone initiative or incorporated into the planned 2026 capital improvement cycle. Investing in this security upgrade strengthens operational oversight, protects valuable assets, and supports the Salt Palace Convention Center's commitment to a safe and secure facility.	-	50,000	50,000 (Yes)
10	[47-37001]	CAPITAL PROJECT Digital Signage P420835 This project proposes the installation of a digital signage and wayfinding system throughout key areas of the Salt Palace Convention Center, including meeting rooms, ballrooms, and primary entrances. The goal is to improve navigation for guests and provide a more efficient way to share event-related information. The system is intended to: Improve guest navigation throughout the facility Offer flexible content that can be tailored to each event Modernize the appearance of high-traffic areas Provide potential opportunities for sponsor recognition This upgrade is a practical step toward keeping the facility current and supporting the needs of event organizers and attendees alike.	-	200,000	200,000 (Yes)
11	[47-36324]	CAPITAL PROJECT SP_LG_EQUIP - SPCC-Large Operational Equip	-	260,814	260,814 (Yes)

CORE MISSION

The Office of Homelessness and Criminal Justice Reform advances solutions to the County's criminal justice and homelessness challenges by convening county-wide partners and staffing the Criminal Justice Advisory Council and the Salt Lake Valley Coalition to End Homelessness. The Office conducts systems analysis, supports innovative programming, and advises the Mayor on the criminal justice and homelessness issues and the intersections between these systems.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Bolster access to housing and supportive services for people experiencing homelessness. [NEW]				
• Coordinate application for federal, state and county funding opportunities for housing, and supportive services that prevents the loss of and builds the capacity for safe and stable homes.	0	2	1	2
• Increase housing units or programs that receive referrals from coordinated entry.	0	25	3	5
Increase cross-system collaboration to enhance efficiencies, improve outcomes, and reduce costs that result in a reduction in the number of individuals utilizing jails for housing, mental health, and substance use services who do not pose a public safety risk and would be more effectively served in the community: [NEW]				
• Increase the number of partnerships that support outcome-focused, data driven solutions surrounding homelessness and criminal justice reform.	0	50	11	3
• Increase the number of partnerships engaged in youth violence prevention.	0	10	9	5
• Leverage partnerships, through initiative and or policy changes, that improve systems.	0	2	3	2
• Host and engage community partners through Criminal Justice Advisory Council and Salt Lake Valley Coalition to End Homelessness meetings.	0	12	21	12
Use data and analysis to leverages limited resources, improve outcomes, and enhance transparency. [NEW]				
• Build data sharing agreements that support cross-system data collection analysis and integration by adding one additional data sharing agreement annually and/or document additional data integration.	0	1	1	1
• Use collected data and analytics to build and maintain public-facing dashboard to enhance our collective systems.	0	2	1	2
• Track, analyze, and educate partners about legislation that impacts homelessness, criminal justice, and behavioral health through one legislative report annually and 2 presentations about legislation annually for a total of three objectives.	0	3	3	3

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37736]	GRANT TRUE-UP	HUD CE Grant True Up [Exp: 87; Rev: 16,988] True up for increased grant revenue for the HUD Coordinated Entry grant.	-	(16,901)	(16,901) (Yes)
2	[31-37675]	GRANT TRUE-UP	HUD CoC Grant True Up [Exp: 39,231; Rev: 39,231] Grant True-up for increased grant revenue from the HUD Continuum of Care Planning grant.	-	-	- (Yes)
3	[31-37731]	GRANT TRUE-UP	CVIPI Grant True up/ Extension [Exp: 51,386; Rev: 68,692] Grant extension occurred, extending the project period to end 9/30/2026. No increase in revenue but accounting for remaining grant funds to spend down.	-	(17,306)	(17,306) (Yes)
4	[31-37674]	GRANT TRUE-UP	AmeriCorps Program Expansion [Exp: 293,250; Rev: 303,250] This increase in grant revenue will allow six additional members and an increase in pay from \$13.69 to \$17/hr. We anticipate this increase in pay will allow the program to recruit higher quality staff and provide additional support for our community partners who hire these individuals.	-	(10,000)	(10,000) (Yes)
5	[31-37696]	NEW REQUEST	1 Crisis Response Coordinator This year, we are focusing our efforts on building a more efficient, effective, and coordinated crisis response system that will deliver better outcomes and lower costs in the form of jail and emergency room savings. After more than a year of research into nationwide best practices, qualitative analysis of crisis response data, and over 50 crisis-responder interviews conducted county-wide, we built a roadmap for improving our crisis response system. Our roadmap, which is integrated into the County's Systemic Coordination Plan, shores up two critical gaps in our crisis response system. We propose building a Task force, co-led by law enforcement and behavioral health, to advise and coordinate crisis response across the county. This would require one additional FTE, housed in our office, to lead out in fully implementing the five recommendations of the road map. Investing upstream in crisis prevention promotes healthy, long-term outcomes for clients, reduces the cycling nature and burden on the crisis response system especially for law enforcement, and saves taxpayer resources. This request is to fund one additional FTE titled Crisis Response Coordinator, including salary, benefits, and operation expenses for supplies. FUTURE YEARS ADJUSTMENT: -3,400	1.00	161,703	163,664 (Yes) 1.00 FTE
6	[32-37753]	STRESS TEST REDUCTION	Stress Reduction - Crisis Response Coord. Eliminate request for Crisis Response Coordinator	(1.00)	(161,703)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[32-37754] STRESS TEST REDUCTION Stress Reduction - Operating Reduction Reduce operating expenditures budget to meet stress test requirement. These funds are essential to our operations, and as costs continue to rise, it has become increasingly difficult. The Education and training line have been reduced, limiting staff development and access to updated system information and partner connections. Additional cuts would further strain our ability to keep staff properly trained and informed. Our Other Professional Fees line provides flexible funding for research and consulting projects, such as the Youth Community Violence Intervention initiative and the Justice and Mental Health Institute's technical assistance. Not only providing value resources to projects but also allowing us to match dollars to bring in federal grant revenue to the County. We have reduced spending on meals and refreshments by eliminating food for our CJAC workgroups and scaling back offerings at general CJAC membership meetings. Further reductions could negatively impact attendance and engagement, as we have observed in our workgroups. Since CJAC participants contribute their work time to these projects, it is important for us to provide basic refreshments in appreciation of their effort. Travel expenses have also been significantly reduced, allowing only a portion of our team to attend out-of-state opportunities. Continued cuts and rising travel costs will jeopardize our ability to send staff to any external trainings or conferences in the future.	-	(38,334)	- (No)

CORE MISSION

Salt Lake County is thriving and growing. At Salt Lake County, we are committed to ensuring residents are safe and healthy, our growth is inclusive, and our government is efficient and modern. Our work supports economic development, public health, affordable housing, a clean environment, social services, spaces for arts and recreation, and so much more.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Mayor's Administration is committed to ensuring residents are safe and healthy, and our actions support inclusive growth, an improved standard of living, extending opportunities, and an efficient, modern government.				
• Increase audience engagement (newsletter, social media, etc.) with New American communities (Retiring at End of 2024).	10%	-	-	-
• Increase community engagement through the Mayor's newsletter and our social media platforms (Retiring at End of 2024).	42%	-	-	-
• Ensures that all constituent messages are cataloged, recorded, and referred to the appropriate agency within 5 business days and that the constituent is notified of the reference.	95.94%	100%	97.14%	100%
• Engage with the community by planning, sponsoring, and/or hosting events that bring residents together to extend opportunities and resources throughout the county. (Retiring at End of 2024).	61	0	0	0
• Boards and Commissions will work to improve accessible participation for residents who want to contribute to our open meetings under the Mayor's Portfolio. (Retiring at End of 2024).	25%	-	-	-
• Increase the number of new partnerships focused on maximizing the potential of New Americans in Salt Lake County (Retiring at End of 2024).	50	0	0	0
• The Mayor's newsletter will achieve an average annual open rate of 40.5 percent or higher (New Indicator 2025).	-	40.5%	49.32%	40.5%
• The Mayor's Office will host at least 24 events, gatherings, or outreach opportunities a year (New Indicator 2025).	0	24	17	24
• The Mayor's Office will conduct a minimum of 25 annual training sessions designed specifically for various County staff members. These trainings will cover a wide array of pertinent topics aimed at enhancing employee performance and effectiveness within their respective roles (New Indicator 2025).	0	25	20	25
• All 36 boards and commissions coordinators will track resident participation, utilizing attendance records, and public comments. (New Indicator 2025).	0	36	18	36
• The Office of New Americans will increase the number of partnerships with organizations focused on new American and refugee populations (New Indicator 2025).	-	10%	11%	10%
Mayor's Administration Grant Writer to coordinate, write, and submit grant applications on behalf of various Salt Lake County agencies and programs. [Transformational Initiatives]				
• Develop and submit grant funding requests that align with agency strategy and bandwidth for 100% of agency requests	100%	100%	100%	100%
• Identify 40 opportunities that align with agency priorities by end of year.	62	40	32	40
Salt Lake County is a responsive and trusted government and its programs, services, and activities reflect the community served. [Transformational Initiatives]				
• Maintain 100% ARPA compliance status with the Department of the Treasury.	100%	100%	-	-
• 100% of ARPA & Transformational projects with completed quarterly reports.	100%	100%	-	-
Improve Housing and Health Outcomes for Those Experiencing Homelessness [Transformational Initiatives]				
• Provide Housing for 200 High Needs Individuals	388	200	0	0
• Connect 50 vulnerable individuals with long-term housing solutions	32	50	0	0
• Connect 150 vulnerable individuals with supportive services (medical, mental health, employment)	388	150	0	0
• Number of tiny homes built for the chronically homeless	32	54	0	0

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37363]	NEW REQUEST	ODI - County Privacy Officer	1.00	167,691	169,712
'County Privacy Officer: The recent enactment of the Utah Government Data Privacy Act (GDPA) has introduced new compliance requirements for government entities, with increasing compliance targets over time, highlighting the need for a dedicated privacy professional to navigate these complexities. The establishment of the County Privacy Officer (CPO) position will enable the implementation of the requirements under the GDPA, comprehensive data privacy policies and the conduction of regular privacy audits. In the short term, this will enhance data security and ensure regulatory compliance. In the long term, it will foster increased public trust and significantly reduce the risk of data breaches. This initiative aligns with our legal and ethical commitments to safeguard the personal information of Salt Lake County residents and maintain the integrity of the County's operations.					(Yes) 1.00 FTE	
2	[31-37364]	NEW REQUEST	ODI - Data & Performance Analyst	1.00	138,934	140,712
The Office of Data & Innovation (ODI) continues to face increasing demand for its services, with a small, high-performing team managing a growing portfolio of complex, high-impact projects. To sustain service quality and meet this demand, we are requesting the formal addition of a Data & Performance Analyst position. This role has been filled on a temporary basis for over a year, clearly demonstrating both the ongoing need and the significant value it brings. The analyst has built strong relationships across departments and earned trust by consistently delivering human-centered, data-informed solutions tailored to the unique needs of our internal partners. As agency needs grow in both volume and complexity, this position is essential to maintaining ODI's ability to deliver responsive, innovative, and effective support. The analyst will help develop digital solutions that bring value to county agencies and their customer/ operations. As user experience becomes central to the success of digital services, this position will also bring much-needed UX/UI expertise to ensure that data tools and platforms are intuitive, accessible, and user-centered. The new analyst will help ODI maintain its role as a trusted partner to County agencies, ensuring we continue to deliver innovative, compliant, and high-impact solutions. This position is not just a staffing need, it's a strategic investment in the County's ability to deliver data-informed, user-friendly, and compliant solutions. Additionally, this position will support the County Privacy Office to ensure compliance with the Government Data Privacy Act (GDPA) requirements.					(Yes) 1.00 FTE	

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
3	[31-37576] NEW REQUEST ODI - Equity and Market Adjustment The Office of Data & Innovation (ODI) plays a critical role in advancing data-informed decision-making, performance improvement, and innovation across the organization. The team's positions, Data & Performance Analysts and Performance & Innovation Manager, require a high level of technical expertise, strategic thinking, and cross-functional collaboration. The Data & Performance Analyst role within the Office of Data & Innovation is a highly technical position that requires advanced skills in data analysis, visualization, advanced knowledge of data management, Artificial Intelligence (AI) tools, and strategic insight into County Operations. As the demand for data-driven decision-making grows across the public sector, retaining skilled analysts is increasingly competitive. The Performance & Innovation Manager position is a strategic leadership role that requires a unique blend of analytical expertise, project management, and change leadership. This position is responsible for driving cross-departmental innovation, improving operational performance, and delivering measurable outcomes that align with organizational priorities. To ensure fair and competitive compensation, it is essential to conduct an equity and market pay adjustment review. This will help address any internal pay disparities, align salaries with current labor market benchmarks, and support the retention of highly skilled professionals in a competitive talent landscape.	-	32,190	33,261 (Yes) 0.00 FTE
4	[31-37812] TECHNICAL ADJUSTMENT FYA Correction relating to Pre-June Appr Shift from form id 35470 The 2025 Pre-June Adjustment in form id 35470 requested an appropriation shift moving \$50k of salary to professional fees. The adjustment indicated that this would be for a 2-year contract period. This adjustment is to reverse that appropriation shift after the 2 year term has completed in 2026 so that the 2027 budget reflects the budget prior to the pre-june adjustment.	-	-	(Yes)
5	[32-37804] STRESS TEST REDUCTION CS_02-Reduce CS Employee Years of Service Recognition This cut is not recommended. The Community Services department has a tradition of recognizing employees with service milestones each year. It's important for the department to acknowledge their dedication and service. Employees need to know they are valued and important to the success of the whole organization. Reduced funding would limit the department's ability to build a sense of value, thus affecting employee job satisfaction and motivation.	-	(800)	(No)
6	[32-37550] STRESS TEST REDUCTION ODI - Computer Replacement The Office of Data & Innovation relies heavily on high-performing, secure, and up-to-date computing equipment to analyze data, develop digital tools, and support enterprise-wide innovation initiatives. Cutting the computer replacement budget entirely would significantly impair the team's ability to run advanced analytics, manage large datasets, and prototype new solutions. Outdated hardware can lead to system slowdowns, compatibility issues with modern software, and increased cybersecurity vulnerabilities—directly affecting the quality and speed of innovation efforts. This cut would also hinder collaboration with other departments and limit the office's ability to support data-driven decision-making across the organization. In short, the budget reduction risks stalling innovation, increasing technical debt, and reducing the office's overall impact.	-	(2,500)	(No)
7	[32-37551] STRESS TEST REDUCTION ODI - Computer Software Subscription Reducing the software subscription budget directly impacts the Office of Data & Innovation's ability to access the essential tools needed for data analysis, visualization, collaboration, and innovation. Many of the Lab's core functions rely on specialized platforms—such as data analytics suites, design and prototyping tools, cloud-based collaboration environments, and workflow automation software. These subscriptions enable staff to work efficiently, securely, and in alignment with modern best practices. Without them, the team may be forced to rely on outdated or less capable alternatives, leading to slower project delivery, reduced quality of insights, and increased manual work. It also limits the ODI's ability to experiment with emerging technologies and deliver innovative solutions across departments.	-	(2,500)	(No)
8	[32-37549] STRESS TEST REDUCTION ODI - Employee Education & Training Budget Reducing or eliminating the employee training and education budget in the Office of Data & Innovation directly undermines the team's ability to stay current with rapidly evolving technologies, data governance practices, and innovation methodologies. This office plays a critical role in driving data-informed decision-making and fostering innovation across the organization. Without ongoing training, staff may fall behind on best practices in data analytics, privacy compliance, AI tools, and emerging technologies, limiting the office's capacity to deliver high-impact solutions. The cut also reduces opportunities for cross-departmental collaboration and innovation, as professional development often facilitates knowledge sharing and creative problem-solving. In the long term, this budget reduction risks stagnation, decreased efficiency, and missed opportunities to modernize services and improve outcomes.	-	(3,776)	(No)
9	[32-37860] STRESS TEST REDUCTION DAS - Computer Replacement & Software Subscription The computer replacement portion of the budget supports the regular refresh of aging hardware, reducing downtime, improving performance, and ensuring compatibility with current applications and cybersecurity standards. The software subscriptions fund critical platforms such as Microsoft Office, Adobe, and Smartsheet—tools that enable document creation, mapping, digital workflows, and project coordination.	-	(4,259)	(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
10	[32-37552] STRESS TEST REDUCTION ODI - Professional Fees	Reducing the professional fees budget limits the Office of Data & Innovation's ability to bring in specialized external expertise that is often critical for short-term, high-impact projects. These funds are used to access skills not available in-house, such as innovation training, user-centered design, innovation lab instructors and privacy assessments or technical consulting on an as-needed basis. It also reduces opportunities for collaboration with subject matter experts who bring fresh perspectives and cutting-edge methods, key ingredients for driving meaningful change across departments and improving public services.	-	(5,000)	- (No)
11	[32-37859] STRESS TEST REDUCTION DAS - Employee Education, Training & Travel	The Employee Education, Training, and Travel budget is essential to maintaining a knowledgeable, skilled, and adaptable workforce across the Department of Administrative Services. This funding supports professional development opportunities that enhance staff expertise in areas such as privacy, data governance and public administration.	-	(5,500)	- (No)
12	[32-37803] STRESS TEST REDUCTION CS_01-Reduce CS Operations	This reduction is not recommended. Funding is essential for staff to perform tasks effectively and efficiently. Reduced funding could lead to a lower quality work product due to outdated skills and lack of newer technology. Equipment failures could lead to lost work time and an increased need for additional space to store obsolete equipment. Fewer meetings would be held in-person leading to workplace disconnectedness. These stress cuts limit the department's ability to perform basic tasks.	-	(8,953)	- (No)
13	[32-37858] STRESS TEST REDUCTION DAS - Temp, Seasonal, Emergency	The Temporary and Seasonal Employees budget is essential for supplementing core fiscal operations across key service areas, including Real Estate, Records Management & Archives, and Addressing Services. These temporary roles provide critical support during peak workloads, special projects, and staffing gaps, ensuring continuity of service without overextending permanent staff. Recently, this budget has been supporting the ODI temp employee to assist with Real Estate Operations.	-	(14,389)	- (No)
14	[32-37553] STRESS TEST REDUCTION ODI - Temporary / Internship Budget	The internship program has been a flagship program for the ODI to invite students from the local academic institutions to learn about the public sector innovation and contribution to our efforts. Maintaining the ODI Internship Program is essential for cultivating future talent and fostering innovation within our team. The program provides valuable hands-on experience to emerging professionals while contributing fresh perspectives and innovative ideas to our projects. By investing in this program, we ensure a steady pipeline of skilled individuals who can support our long-term goals and strengthen the organization's capacity for growth and development.	-	(14,220)	- (No)
15	[32-37805] STRESS TEST REDUCTION CS_03-Reduce CS Personnel Hours	This reduction is not recommended. Cutting hours effective 05/01/26 will impact customer service, department coordination, and delay purchase requests, payments, and contract processing. These responsibilities would need to wait until the employee was scheduled next or be absorbed by other staff members as time permitted.	(0.25)	(26,129)	- (No)
16	[32-37580] STRESS TEST REDUCTION ODI - Equity and Market Adjustment	The Data & Performance Analyst role within the Office of Data & Innovation is a highly technical position that requires advanced skills in data analysis, visualization, advanced knowledge of data management, Artificial Intelligence (AI) tools, and strategic insight into the County Operations. As the demand for data-driven decision-making grows across the public sector, retaining skilled analysts is increasingly competitive. Conducting a market salary adjustment review ensures the incumbent is fairly compensated in alignment with current labor market conditions and the technical complexity of the role. This review is critical not only for equity and retention but also for maintaining the ODI's ability to deliver high-quality, data-informed solutions that support innovation and operational excellence across the organization.	-	(32,190)	- (No)
17	[32-37832] STRESS TEST REDUCTION PW Admin Stress Test	In order to accomplish the Public Works Administrative Stress Test the Department Director and the Department Fiscal Administrator would both take a reduction to salary.	-	(22,737)	- (No)
18	[32-37548] STRESS TEST REDUCTION ODI - Data & Performance Analyst	The Office of Data & Innovation (ODI) continues to face increasing demand for its services, with a small, high-performing team managing a growing portfolio of complex, high-impact projects. To sustain service quality and meet this demand, we are requesting the formal addition of a Data & Performance Analyst position. This role has been filled on a temporary basis for over a year, clearly demonstrating both the ongoing need and the significant value it brings. The analyst has built strong relationships across departments and earned trust by consistently delivering human-centered, data-informed solutions tailored to the unique needs of our internal partners. As agency needs grow in both volume and complexity, this position is essential to maintaining ODI's ability to deliver responsive, innovative, and effective support. The analyst will help develop digital solutions that bring value to county agencies and their customer/ operations. As user experience becomes central to the success of digital services, this position will also bring much-needed UX/UI expertise to ensure that data tools and platforms are intuitive, accessible, and user-centered. The new analyst will help ODI maintain its role as a trusted partner to County agencies, ensuring we continue to deliver innovative, compliant, and high-impact solutions. This position is not just a staffing need, it's a strategic investment in the County's ability to deliver data-informed, user-friendly, and compliant solutions. Additionally, this position will support the County Privacy Office to ensure compliance with the Government Data Privacy Act (GDPA) requirements.	(1.00)	(138,934)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
19	[32-37547] STRESS TEST REDUCTION ODI - County Privacy Officer The Office of Data & Innovation is unable to self-fund this request: The recent enactment of the Utah Government Data Privacy Act (GDPA) has introduced new compliance requirements for government entities, with increasing compliance targets over time, highlighting the need for a dedicated privacy professional to navigate these complexities. The establishment of the County Privacy Officer (CPO) position will enable the implementation of the requirements under the GDPA, comprehensive data privacy policies and the conduction of regular privacy audits. In the short term, this will enhance data security and ensure regulatory compliance. In the long term, it will foster increased public trust and significantly reduce the risk of data breaches. This initiative aligns with our legal and ethical commitments to safeguard the personal information of Salt Lake County residents and maintain the integrity of the County's operations.	(1.00)	(167,691)	- (No)
20	[32-37720] STRESS TEST REDUCTION MOHS_Stress Test_5% of ABB To meet 5% of the adjusted base budget, the Human Services department administration will need to discontinue the annual contribution \$42,124 to the Rape Recovery Center (RRC) and implement \$6.6K operational underspend. For many years, Salt Lake County has been a consistent supporter for RRC sexual assault healing services and administrative function, a reliable funding source. If this stress test were implemented, the RRC would not be able to provide as much support to survivors by meeting them at hospitals to advocate for and support them. It would impact the team's ability to ensure survivors and victims of sexual violence in Salt Lake County receive effective advocacy and clinical services including hospital accompaniments, case management, clinical therapy, support groups and basic needs, safety planning. In the fiscal year 2024-2025, RRC served 1,425 Salt Lake County Survivors. The services include hospital accompaniments, advocacy, clinical therapy, support groups, safety planning, and basic needs assistance. The Administrative and Operations Team plays a crucial role in coordinating these services, managing resources, and ensuring effective service delivery. The implementation of \$6.6K to the operational underspend would severely limit the HS admin team's capacity for already lean operations. To meet 2.5% of the adjusted base budget, the Human Services department administration will need to cut the annual contribution by \$24,377 to the Rape Recovery Center (RRC).	-	(48,753)	- (No)
21	[32-37863] STRESS TEST REDUCTION 5% Stress - UAC Membership & Off Supplies STRESS TEST REDUCTION Mayor's Admin. 5 Percent Stress Cuts MA Subscriptions and Membership 611005 (\$216,149) The Utah Association of Counties (UAC) is a statewide organization that represents counties to the state and federal government. UAC is an important organization for Salt Lake County government because of their legislative advocacy at the state and federal levels and are essential in securing state and federal legislation and administrative action that is beneficial to the county. MA Office Supplies 615005 (\$5,162) Our office is responsible for programs, communications, constituent affairs, and other executive programs within several areas of operation. Decreasing the office supply budget would mean that our efforts would be minimized in several areas and would need to cut back our support of other area operations including events we host for communities, regional and national partners, and internal trainings and meetings.	-	(221,311)	- (No)

These funds will be reimbursed by the cities who chose to participate in this project through Local Government Contract revenue. The revenue will be collected at the completion of the project which may be in 2026, but may not be until 2027. FUTURE YEARS ADJUSTMENT: -290,000	-	145,000	145,000 (Yes)
17	735	[31-37522] NEW REQUEST	2026 Yard Maintenance Expense & Revenue - Partial Fund Balance Expense and Revenue Public Works Operations [Exp: 119,913; Rev: 198,580] This request is to purchase paving materials to re-pave some of the parking areas and roads throughout our complex. The 2026 year project will require us to purchase \$119,913 in materials out of 501005 Cost of Goods sold to pave these areas. Our share of the materials cost is \$49,133 which will be paid for in line 607010 maintenance of grounds with funding from our fund balance. The rest including a share of our employees' time and equipment will be paid for by Fleet, Flood Control and WFWRD. FUTURE YEARS ADJUSTMENT: 78,667	-	(78,667)	(78,667) (Yes)
18	735	[31-37556] NEW REQUEST	2026 Purchase of New Camera Truck, software and Funding for Two Staff to operate it - Fund balance to Purchase Truck Public Works Operations [Exp: 50,000; Rev: 148,237] This is a request to purchase a new camera truck and software to be able to provide storm drain camera service to our contract customers. The truck would initially be purchased with funds from our fund balance and then would be placed in the Fleet replacement funds in future years. This request is also to fund two of our unfunded positions to operate the truck and camera. Our contract cities will be paying for the cost of this service through an increase in Local Government Contract revenue. FUTURE YEARS ADJUSTMENT: -346,474 Balance Sheet Acquisition: \$450,000	-	(98,237)	(98,237) (Yes) 0.00 FTE
19	735	[31-37558] NEW REQUEST	2026 Increase in Equipment Rental Fees and Revenue from Sale of Equipment Public Works Operations [Exp: 85,000; Rev: 105,000] This request is for an increase of \$85,000 in Equipment Rental for the rental of a Planer. We will be selling the Planer we own as it is very old and very expensive to repair. We will be able to rent a Planer for at least the next 12 years for the same amount of money it would cost to purchase a new one and we will save immensely on the maintenance over that time. We are hoping to get about \$105,000 in revenue from the sale of our old Planer. FUTURE YEARS ADJUSTMENT: 105,000	-	(20,000)	(20,000) (Yes)
20	735	[31-37557] NEW REQUEST	2026 Increase in Fleet Replacement Charges & Depreciation after transferring Heavy Equipment Funds back to PW Ops Public Works Operations [Exp: 194,197; Rev: 194,197] This is to request an increase in our Fleet Replacement Fund charges of \$284,510 after we reduce our Heavy Equipment Fleet Replacement Fund charges \$277,246 to Fleet by moving those funds back to a designated fund in our Enterprise Fund along with an additional \$300,000 set aside. The net effect of this in our Operating Fund is an increase of \$7,264 in 2026. The Move of the Heavy Equipment Fund to our fund will also result in an increase in Depreciation of \$186,933. This will be funded by our Local Government Contracts, revenue line 723000 in the amount of \$194,197.	-	-	(Yes)
21	735	[31-37614] NEW REQUEST	2026 Increase in Cost of Goods Sold Appropriation, Increase in Personnel Underexpend and Adjust Revenues Public Works Operations [Exp: 841,277; Rev: 1,098,420] This request is to decrease line item 501005 Cost of Materials Sold by \$373,637 and to increase line 502000 Cost of Services Sold by \$1,321,566 and to increase line 601095 Personnel Under Expend by \$106,652. This will be funded by a revenue increase of \$1,098,420 from line 423000 Local Government Contracts.	-	(257,143)	(257,143) (Yes)

CORE MISSION

Salt Lake County Animal Services is dedicated to providing consistent, reliable, and professional solutions for animal-related issues.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Provide Excellent Services to Residents and Service Areas				
• Increase contract service areas from 13 jurisdictions in 2026 to 15 jurisdictions in 2027.	13	15	13	15
Provide a Safe Work Environment for Employees				
• Our goal for 2026 is 7 or less OSHA-reported accidents that incurred costs.	13	7	5	7
• 100% of employees must pass required training programs and certifications and receive approval of completion from FTOs (Field Training Officers) and/or Clinic Director in designated area prior to working independently.	100%	100%	100%	100%
Animal Services is a Good Fiduciary Agent of Funds Entrusted to Them				
• Fiscal leadership team will meet 1 time a month and 12 times annually to discuss, review, analyze, forecast, and monitor financial KPIs.	12	12	6	12

CORE MISSION

Provide high quality municipal engineering services to the Greater Salt Lake Municipal Services District (MSD) and its residents at the highest possible degree of efficiency, cost effectiveness, and customer service. Ensure the preservation and performance of the road and storm drainage systems within the 5 Metro Townships, Town of Brighton, and Unincorporated County area. Transportation innovation through congestion elimination and implementation of each municipality's Complete Street Plans. Proactive water quality stewardship through meeting the requirements of the Utah Pollutant Discharge Elimination System (UPDES) MS4 permit.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Public Works Engineering addresses constituents concerns immediately.				
• Maintain response time of 24 hours or 1 business day to all complaints received from the public from 100% complaints as of the end of July 2022 to 100% complaints by end of July 2023.	-	100%	-	-
Public Works Engineering leverages taxpayer dollars to obtain State and Federal funding for capital improvement projects.				
• Maintain the number of new outside funding sources received annually to two (2) grants as of the end of July 2022 to 2 grants by end of July 2023.	0	2	0	0
Public Works Engineering manages and utilizes personnel and processes effectively and efficiently to deliver projects.				
• 80% of funded Capital Projects are delivered on-time and in a cost-effective manner, in accordance with the triennial execution plans.	-	80%	-	-
Regional Operations is a good fiduciary agent of funds entrusted to them by taxpayers and customers.				
• Department Director, Department Fiscal Administrator and Division Director will meet monthly to review agency financial Key Performance Indicators (KPIs)	0	12	0	0

CORE MISSION

Salt Lake County Public Works Operations provides high quality road maintenance, snow removal and other related services in a timely manner to promote the safety and welfare of County residents.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Public Works Operations provides efficient services				
• Respond to service requests within an average of 72 hours or less. Responding to service requests quickly shows our responsiveness to our customers and the residents of Salt Lake County.	95.8%	95%	95%	95%
Public Works Operations employees receive necessary training to do their jobs effectively and safely.				
• Maintain the number of employees trained in clean storm water compliance and RSI certified at 2 in 2026. Both employees work to improve UPDES clean storm water compliance on our projects and contractor projects. One employee is the Trainer that educates all other employees and inspects their job sites. The other employee inspects contractor construction sites. Proper training helps our employees understand the importance of UPDES compliance and reduces the chance of fines for non-compliance.	4	2	4	2
• Maintain the number of employees certified as a traffic control supervisor at 8 in 2026. This will enhance safety in the work zones and help to reduce liability from accidents. Traffic control includes setting up construction barricades, men working signs, flagger certification and other construction related signs.	14	11	16	11
• Reduce workers' comp claims to twelve (12) recordable claims in 2026. Workers' comp claims were 20 in 2020, 13 in 2021, 14 in 2022, 15 in 2023 and 5 in 2024. Proper training allows our employees to return home to their families each night and saves money on Workman Comp claims.	5	12	7	12
Public Works Operations consistently provides a high level of customer service.				
• A survey will be sent out to our four main customers once a year. The survey questions will concern service levels, response times, and quality of work. PW Ops will score at an overall level of 3 (satisfied) or higher on a scale of 1-5. The results of this survey will be discussed in our regular meetings with our customers.	3.9	3.5	0	4
• Maintain the total paving square footage at 90% of contract amounts. The paving schedule changes constantly due to weather, staffing levels, utility conflicts and other workload. PW Ops strives to complete the work as outlined in the contract. Our Customers' contract year runs from July-June.	98.88%	90%	63.41%	90%
Regional Operations is a good fiduciary agent of funds entrusted to them by taxpayers and customers.				
• Department Director, Department Fiscal Administrator and Division Director will meet monthly to review agency financial Key Performance Indicators (KPIs).	12	12	7	12

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37527] NEW REQUEST	2026 - Heavy Equipment Purchases - From Fund Balance in new Heavy Equipment Designated funds	We are planning on moving our Heavy Equipment Replacement Funds from Fleet to our Balance Sheet as designated funds, the amount they will be transferring is approximately \$4,111,420. We are planning on replacing 6 pieces of heavy equipment as well as adding 2 new pieces of Equipment. Equipment replacement includes an 824K Loader for \$840,054, three 724 J loaders for \$589,357 each totaling \$1,768,071, and two Skid Steer loaders for \$88,538 each for a total of \$177,076. The two new pieces of equipment are two Mastic Trailers for \$125,000 each for a total of \$250,000. The grand total of heavy equipment replacement is \$2,785,201 with estimated revenue from the sale of the old equipment at \$157,500. FUTURE YEARS ADJUSTMENT: 157,000 Balance Sheet Acquisition: \$2,785,201	-	(157,500)	(157,500) (Yes)
2	[31-37531] NEW REQUEST	2026 Purchase of a Blue Stake Locator - Fund Balance	Our Traffic Signal / Street Light crew would like to purchase another Blue Stake Locator. They have one but there are times when it is busy and they need to have two people blue staking and they aren't able to without the purchase of another locator. Balance Sheet Acquisition: \$6,000	-	-	- (Yes)
3	[31-37533] NEW REQUEST	2026 Compact Airless paint sprayer Purchase - Fund Balance	We would like to buy another airless paint sprayer for our Road Striping Crew. This would be used to stripe cross walks and other smaller areas that can't be painted with the Striping truck. This will be a balance sheet purchase. Balance Sheet Acquisition: \$6,610	-	-	- (Yes)
4	[31-37554] NEW REQUEST	2026 Purchase of 20 New Handheld Radios	This is a request to spend \$35,000 in budget line 615030 to buy 20 new handheld radios at \$1,750 a piece to replace old ones that no longer work. These radios have an estimated useful life of ten years. This will be paid for with a reduction to our gasoline, diesel and oil line 619005 due to lower costs of fuel so this will be revenue neutral. FUTURE YEARS ADJUSTMENT: -35,000	-	-	- (Yes)
5	[31-37555] NEW REQUEST	2026 Signal Interconnect Project Federal matching funds - Paid for by contract city assessments	This is a request to spend \$145,000 for the federal matching funds for the Signal Interconnect Project in conjunction with the Utah Department of Transportation. These funds will be reimbursed by the cities who chose to participate in this project through Local Government Contract revenue. The revenue will be collected at the completion of the project which may be in 2026, but may not be until 2027. FUTURE YEARS ADJUSTMENT: -290,000	-	145,000	145,000 (Yes)
6	[31-37522] NEW REQUEST	2026 Yard Maintenance Expense & Revenue - Partial Fund Balance Expense and Revenue	[Exp: 119,913; Rev: 198,580] This request is to purchase paving materials to re-pave some of the parking areas and roads throughout our complex. The 2026 year project will require us to purchase \$119,913 in materials out of 501005 Cost of Goods sold to pave these areas. Our share of the materials cost is \$49,133 which will be paid for in line 607010 maintenance of grounds with funding from our fund balance. The rest including a share of our employees' time and equipment will be paid for by Fleet, Flood Control and WFWRD. FUTURE YEARS ADJUSTMENT: 78,667	-	(78,667)	(78,667) (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[31-37556] NEW REQUEST 2026 Purchase of New Camera Truck, software and Funding for Two Staff to operate it - Fund balance to Purchase Truck [Exp: 50,000; Rev: 148,237] This is a request to purchase a new camera truck and software to be able to provide storm drain camera service to our contract customers. The truck would initially be purchased with funds from our fund balance and then would be placed in the Fleet replacement funds in future years. This request is also to fund two of our unfunded positions to operate the truck and camera. Our contract cities will be paying for the cost of this service through an increase in Local Government Contract revenue. FUTURE YEARS ADJUSTMENT: -346,474 Balance Sheet Acquisition: \$450,000	-	(98,237)	(98,237) (Yes) 0.00 FTE
8	[31-37558] NEW REQUEST 2026 Increase in Equipment Rental Fees and Revenue from Sale of Equipment [Exp: 85,000; Rev: 105,000] This request is for an increase of \$85,000 in Equipment Rental for the rental of a Planer. We will be selling the Planer we own as it is very old and very expensive to repair. We will be able to rent a Planer for at least the next 12 years for the same amount of money it would cost to purchase a new one and we will save immensely on the maintenance over that time. We are hoping to get about \$105,000 in revenue from the sale of our old Planer. FUTURE YEARS ADJUSTMENT: 105,000	-	(20,000)	(20,000) (Yes)
9	[31-37557] NEW REQUEST 2026 Increase in Fleet Replacement Charges & Depreciation after transferring Heavy Equipment Funds back to PW Ops [Exp: 194,197; Rev: 194,197] This is to request an increase in our Fleet Replacement Fund charges of \$284,510 after we reduce our Heavy Equipment Fleet Replacement Fund charges \$277,246 to Fleet by moving those funds back to a designated fund in our Enterprise Fund along with an additional \$300,000 set aside. The net effect of this in our Operating Fund is an increase of \$7,264 in 2026. The Move of the Heavy Equipment Fund to our fund will also result in an increase in Depreciation of \$186,933. This will be funded by our Local Government Contracts, revenue line 723000 in the amount of \$194,197.	-	-	- (Yes)
10	[31-37614] NEW REQUEST 2026 Increase in Cost of Goods Sold Appropriation, Increase in Personnel Underexpend and Adjust Revenues [Exp: 841,277; Rev: 1,098,420] This request is to decrease line item 501005 Cost of Materials Sold by \$373,637 and to increase line 502000 Cost of Services Sold by \$1,321,566 and to increase line 601095 Personnel Under Expend by \$106,652. This will be funded by a revenue increase of \$1,098,420 from line 423000 Local Government Contracts.	-	(257,143)	(257,143) (Yes)
11	[31-37744] NEW REQUEST 2026 Increase in Local Government Revenue This request is for a \$1,324,578 increase in line 423000 Local Government Contracts, due to an increase in our contracts.	-	(1,324,578)	(1,324,578) (Yes)
12	[31-37745] REVENUE PROJECTION CHANGE 2026 Revenue Line Adjustments This is a request to decrease line 42710 rental income by \$2,000, decrease line 441005 Sale of Materials by \$15,000, and increase line 433100 Intrafund revenue by \$44,402.	-	(27,402)	(27,402) (Yes)
13	[31-37434] TECHNICAL DEBT SERVICE ADJUSTMENT 2026 - 2009AB LRB MBA & 2024A STR Bond Adjustment [Exp: -4,036; Rev: -3,282]	-	(754)	(754) (Yes)

0	250	[33-37813] REVENUE PROJECTION CHANGE	Property Tax MV Fee Projection Adjustments Flood Control Engineering As vetted by Revenue Committee on 9/12/2025	-	-	(116,451) (Yes)
0	250	[33-37951] REVENUE PROJECTION CHANGE	Interest - Time Deposits Projection Adjustments Flood Control Engineering Update interest revenue in key funds.	-	30,000	30,000 (Yes)
0	250	[33-37965] NEW REQUEST	Property Tax Increase for Countywide Funds Flood Control Engineering Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate. The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center. The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%	-	-	(2,332,398) (Yes)
1	110	[31-37242] NEW REQUEST	Salary Increase and Appropriation Unit Shift Emergency Services Adjust budget for salary and benefit increases. The funds will be covered as follows: Reduce Temporary Labor (\$5,329). This reduction will be used to offset the increase in salary and benefits. Transfer Funds from Operations to Personnel. There will be an appropriation Unit shift from Operations to Personnel. Training will be reduced by \$8,000 and the funds will be transferred to cover the increase to salary and benefits.	-	-	(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
2	250	[31-37169] NEW REQUEST	Right Sizing FCE Budget: Increase Interfund Revenue Flood Control Engineering This request adds revenue in the amount of \$57,000 to reimburse Flood Control Engineering for work being performed for other Divisions.	-	(57,000)	(57,000) (Yes)
3	250	[31-37250] NEW REQUEST	Right Sizing FCE Budget: Funding for Flood Control Operations Crew Spring Run-Off Incentive Plan Flood Control Engineering This request is to add funding to the Flood Control Engineering personnel budget to fund the Spring run-off incentive plan for the Flood Control Operations Crew. The FC Operations Crew performs essential functions in flood prevention by keeping debris removed along canals and streams.	-	15,400	15,400 (Yes)
4	250	[31-37115] NEW REQUEST	Right Sizing FCE Budget: FCE Salary and Benefit Budget Increase Flood Control Engineering This budget adjustment is to request additional funding for personnel expenses in the Flood Control Engineering budget. The increase in salaries is due to positions being filled at a higher salary than the base budget and/or employees advancing within their grade.	-	9,541	9,541 (Yes)
5	250	[31-37138] NEW REQUEST	Right Sizing FCE Budget: Pay Differential for Lead Workers Flood Control Engineering This request is to add \$20,000 to Flood Control Engineering's (FCE) personnel budget to cover expenses for lead worker differential pay. FCE has lead workers in the gauging, watershed, and stormwater programs. These employees have additional duties as outlined in SLCO HR Policy 5-100, Section E.6.	-	20,000	20,000 (Yes)
6	250	[31-37022] NEW REQUEST	FCE Request Due to PWE Split to MSD: Computer Replacement Budget Flood Control Engineering Flood Control Engineering's (FCE) existing computer budget does not cover the needs of replacing computers for staff. This budget adjustment is part of right sizing the FCE budget as a result of Public Works Engineering (PWE) transferring to the Greater Salt Lake Municipal Services District (GSLMSD). Used computers can no longer be shared between staff that performed tasks for both FCE and PWE.	-	10,000	10,000 (Yes)
7	250	[31-37013] NEW REQUEST	Right Sizing FCE Budget: Dump Truck Heavy Equipment Purchase Flood Control Engineering An additional dump truck is needed to facilitate on-going stream and canal maintenance like the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. Flood Control currently has two heavily utilized dump trucks and relies on Public Works Operations to make up the difference in needed equipment to get work done. Public Works Operations has continued to downsize over the years and now has only the amount of personnel and equipment needed to provide contracted services to their client municipalities and none to handle countywide flood control services. A third dump truck would allow Flood Control to effectively conduct countywide maintenance, by hauling dredged material, debris, and towing heavy equipment to and from project sites. The cost of a dump truck is approximately \$200,000. This budget adjustment proposes that \$100,000 be used from under expending the 2025 equipment budget (Account 667030). The remaining \$100,000 will be used from the 2026 base budget for equipment purchases (account 667030). FUTURE YEARS ADJUSTMENT: -75,000	-	100,000	100,000 (Yes)
8	250	[31-37014] NEW REQUEST	Right Sizing FCE Budget: Dump Truck Heavy Equipment Purchase Flood Control Engineering An additional dump truck is needed to facilitate on-going stream and canal maintenance like the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. Flood Control currently has two heavily utilized dump trucks and relies on Public Works Operations to make up the difference in needed equipment to get work done. Public Works Operations has continued to downsize over the years and now has only the amount of personnel and equipment needed to provide contracted services to their client municipalities and none to handle countywide flood control services. A fourth dump truck would allow Flood Control to effectively conduct countywide maintenance, by hauling dredged material, debris, and towing heavy equipment to and from project sites. The cost of a dump truck is approximately \$200,000. This budget adjustment proposes that \$200,000 be transferred from Fund 735 to fund 250 because Public Works Operations can no longer provide the services. The transfer from fund 735 is being covered by interest earnings on the fund. FUTURE YEARS ADJUSTMENT: -175,000	-	200,000	200,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
9	250	[31-37139] GRANT TRUE-UP	Right Sizing FCE Budget: Watershed Grant Flood Control Engineering [Exp: 15,000; Rev: -21,433] The Flood Control Engineering Watershed Team received a new grant from the State of Utah Division of Water Quality. This adjustment also includes a true-up for revenue and expenses for grants that were completed in 2025. FUTURE YEARS ADJUSTMENT: -36,433	-	36,433	36,433 (Yes)
10	250	[31-37017] NEW REQUEST	Right Sizing FCE Budget: Flood Control Operations Crew Overtime Increase Flood Control Engineering [Exp: 15,000; Rev: 15,000] This budget adjustment will cover the overtime and incentive pay expense that the Flood Control Operations crewmembers earn by snowplowing for Public Works Operations (PWO). PWO reimburses Flood Control for the expenses. This is a budget neutral budget adjustment.	-	-	- (Yes)
11	110	[31-37042] NEW REQUEST	PW_Increase Temporary Employee Budget (Adoption Donation) Animal Service General Fund [Exp: 28,000; Rev: 28,000] Increase temporary employee budget for the adoption program. It is funded by adoption donation. FUTURE YEARS ADJUSTMENT: [Exp: -28,000; Rev: -28,000]	-	-	- (Yes)
12	110	[31-37043] NEW REQUEST	PW_Increase Shelter Supplies (Adoption Donation) Animal Service General Fund [Exp: 5,000; Rev: 5,000] Increase shelter supplies budget to promote adoption. It is funded by adoption donation. FUTURE YEARS ADJUSTMENT: [Exp: -5,000; Rev: -5,000]	-	-	- (Yes)
13	110	[31-37045] NEW REQUEST	PW_Request to Utilize Spay and Neuter Donation Fund Animal Service General Fund [Exp: 34,000; Rev: 34,000] The Spay and Neuter Donation Fund will be used for any expense associated with the prevention of unwanted litters through spay and neuter services. Allowable uses include surgical procedures, medical supplies, professional service fees, public outreach, community education, and other resources that support accessible and effective spay/neuter programs. FUTURE YEARS ADJUSTMENT: [Exp: -34,000; Rev: -34,000]	-	-	- (Yes)
14	250	[31-37019] NEW REQUEST	Right Sizing FCE Budget: Annual Fleet Levy Increase Flood Control Engineering The Fleet levy will increase by \$66,896 for Flood Control Engineering (FCE) in 2026. The increase is due to several factors: 1) Vehicle costs for replacing vehicles in the existing FCE fleet have increased. 2) Vehicles transferred to FCE as a result of Public Works Engineering transferring to the Greater Salt Lake Municipal Services District (GSLMSD) were under funded and the future ongoing levy is set to bring the replacement account for those vehicles back in balance. 3) The Dump truck purchased in 2024 has been added to the replacement levy. 4) New requests to increase the replacement levy were not approved for the 2024 and 2025 budget years.	-	66,896	66,896 (Yes)
15	250	[31-37024] NEW REQUEST	FCE Inflationary Request: Maintenance of Vehicles Budget Increase Flood Control Engineering This request is to increase Flood Control Engineering's (FCE) maintenance of fleet vehicles and equipment budget by \$75,000 annually. The maintenance budget has been overspent in previous years due to labor and replacement parts inflation. The additional budget is also needed for maintenance on heavy equipment recently added to the FCE fleet.	-	75,000	75,000 (Yes)
16	250	[31-37025] NEW REQUEST	FCE Inflationary Request: Fuel Budget Increase Flood Control Engineering This request is to increase Flood Control Engineering's (FCE) fuel budget by \$25,000 annually. The fuel budget has been overspent in previous years due inflation and was covered by underspending other accounts in the operations appropriation unit. The additional fuel budget is also needed for heavy equipment recently added to the FCE fleet.	-	25,000	25,000 (Yes)
17	110	[31-36972] NEW REQUEST	PW_Fleet Vehicle Replacement Charge (General Fund Portion) Animal Service General Fund General Fund's portion of fleet vehicle replacement charge.	-	5,287	5,287 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
18	110	[31-36973] NEW REQUEST	PW_Labor & Service Increase (General Fund Portion) Animal Service General Fund General Fund's portion of labor & service increase: utilities, facilities, & supplies.	-	5,400	5,400 (Yes)
19	250	[31-37259] NEW REQUEST	FCE Request Due to PWE Split to MSD: Increase to Government Center Building Rent Flood Control Engineering This budget adjustment increases building rent by \$36,000 as part of right sizing the Flood Control Engineering budget due to Public Works Engineering transferring to the Greater Salt Lake Municipal Services District.	-	36,000	36,000 (Yes)
20	250	[31-37015] NEW REQUEST	Right Sizing FCE Budget: Mobile Discharge Flowmeter Salt Tracer Capital Equipment Purchase Flood Control Engineering Salt Lake County maintains a system of stream gauges, each with their own unique set of challenges for data collection and validation. A major validation hurdle that gauging staff still needs to overcome is measurement at turbulent sites including the gauges at Big Cottonwood Canyon Mouth and Little Cottonwood at Tanners Flat. Turbulent water presents a challenge as it is far too dangerous to perform a wading measurement and traditional measurement technology has limited ability to track discharge with air bubbles suspended in the water column, a common characteristic of turbulent water. A new technology is available to measure discharge in turbulent systems that relies on the conductivity of water and a salt water solution introduced upstream of the measurement site which acts as a conductivity tracer for the probes placed downstream. This technology will provide much needed data validation for important sites while dramatically improving the safety of county personnel as it is not adversely affected by entrained air in the water column. The United States Geological Survey (USGS) has tested the accuracy and precision of the method and has cleared it for use by field personnel. FUTURE YEARS ADJUSTMENT: -13,000	-	13,000	13,000 (Yes)
21	110	[31-37238] NEW REQUEST	Reduce EM Revenue from Fund Balance Emergency Services Reduce revenue received from Emergency Management. UFA EM maintains a fund balance on behalf of Salt Lake County. The fund balance at EM was larger than needed. In order to reduce the fund balance, UFA EM transferred \$150K/yr for 2 years to Salt Lake County. This transfer reduced the General Fund for Emergency Management. The agreement was to reduce the fund balance by \$150K for 2 years (2024 and 2025). Now that the 2 year agreement is up, Salt Lake County will no longer receive the revenue from UFA EM. This loss of revenue will increase the General Fund contribution to Emergency Management.	-	150,000	150,000 (Yes)
22	110	[31-37047] NEW REQUEST	PW_Mobile Unit Request Ending 12/31/2026 Animal Service General Fund [Exp: 456,187; Rev: 106,000] One-time request to continue the Mobile Unit program to provide free countywide sterilization surgery to the public. We continue to receive a tremendous interest in our services from all over the county. New appointments are filling up almost immediately after being posted. Use \$106,000 spay & neuter donation to reduce the total Mobile Unit request amount. Projected 2025 Mobile Unit under-spending is \$320,000. FUTURE YEARS ADJUSTMENT: 11,000	3.00	350,187	364,534 (Yes) 3.00 FTE
23	250	[31-37050] NEW REQUEST	FCE Inflationary Request: Heavy Equipment Rental Budget Flood Control Engineering Flood Control Engineering (FCE) is requesting an increase to the heavy equipment rental budget in the amount of \$30,000 for the FC Operations Crew. Rental prices have increased with the State Contract vendor. The heavy equipment is used for on-going stream and canal maintenance including mowing, clearing debris, dredging and cleaning detention ponds, canals, and drainage ditches.	-	50,000	50,000 (Yes)
24	250	[31-37051] NEW REQUEST	Right Sizing FCE Budget: Increase Dumping Fees Flood Control Engineering In the past Flood Control was able to dispose of and store dredged material free of charge at County owned Welby Pit and Granite Cottonwood Gravel Pit. These free disposal locations have gone away due to the development of a County regional park in the case of the Welby Pit and the closing and reclamation of the Cottonwood Gravel Pit. With the loss of these disposal locations, Flood Control is now disposing of dredged material at a private construction waste landfill or the County Landfill with a per ton dumping fee. This \$55,000 increase is needed to safely dispose of this dredged material.	-	55,000	55,000 (Yes)
25	110	[31-37722] NEW REQUEST	Wildland Fire Inflationary Increase Emergency Services Increase County portion of Wildland Fire contract for inflationary increases.	-	4,136	4,136 (Yes)

26	250	[31-37052] NEW REQUEST Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator Flood Control Engineering This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches.	2.00	186,473	189,357 (Yes) 2.00 FTE
27	250	[31-37054] NEW REQUEST Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator Flood Control Engineering This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. A truck is needed to transport new FTEs and equipment to work sites. An additional \$1,500 is added for small equipment needed for each truck. FUTURE YEARS ADJUSTMENT: -73,500	2.00	274,973	277,857 (Yes) 2.00 FTE
28	250	[31-37060] NEW REQUEST Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator Flood Control Engineering This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches.	2.00	186,473	189,357 (Yes) 2.00 FTE
29	250	[31-37061] NEW REQUEST Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator Flood Control Engineering This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. A truck is needed to transport new FTEs and equipment to work sites. An additional \$1,500 is added for small equipment needed for each truck.	2.00	274,973	- (No)
30	110	[31-37046] NEW REQUEST PW_Request Additional GF Operations & Depreciation Budget per Time Tracking Animal Service General Fund Request additional General Fund operations (\$48,221) and depreciation (\$1,529) funding per third year audit time tracking of employees.	-	49,750	49,750 (Yes)
31	110	[31-37012] NEW REQUEST PW_Request Adjusted FTE Allocations per Audit Time Tracking Animal Service General Fund Contract Fund: Decrease Contract Fund personnel budget per third year audit time tracking of employees. This request is tied to the GF request #4. General Fund: Increase General Fund personnel budget per third year audit time tracking of employees. This request is tied to the Contract Fund request #4.	1.67	182,317	187,987 (Yes) 1.67 FTE
32	110	[31-37279] NEW REQUEST PW_Request Adjusted FTE Allocations Position Transfer per Audit Time Tracking Animal Service General Fund This request is to transfer position 00002272 to organization 41000000 per audit time tracking. This request also includes a recipient transfer from organization 41010000. No change in total numbers of FTEs.	-	16,334	17,833 (Yes) 0.00 FTE
33	110	[32-37244] STRESS TEST REDUCTION EM Internal 2.5% Stress Test Emergency Services Reduce training for Emergency Management Internal 2.5% Stress Test Absorb Increase for Wildland Fire by reducing EM Internal Training Budget \$4,136	-	(8,186)	- (No)
34	110	[32-37246] STRESS TEST REDUCTION Reduce Wildland Fire 2.5% Stress Test Emergency Services Reduce Wildland Fire 2.5% Stress Test. Funds will be reduced from Internal EM training budget.	-	(1,286)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
35	110	[32-37406] STRESS TEST REDUCTION Requests	PW_Animal Services GF Stress Test Reduce New	(4.67)	(782,275)	-
		Animal Service General Fund				(No)
		The stress test reduces the 2026 Animal Services budget by the amount of the new requests \$676,275.				
36	110	[32-37482] STRESS TEST REDUCTION	PW_Animal Services GF 2.5% Stress Test	-	(41,949)	-
		Animal Service General Fund				(No)
		Taking a 2.5% stress test would reduce the budget by \$41,949. Reducing the Animal Services budget in these critical areas would be devastating to our operations, our no-kill mission, and the community we serve. A reduction to the microchip budget would prevent us from providing permanent identification for many animals throughout the entire county, making it harder to reunite lost pets with their families and increasing shelter overcrowding. Cutting the small equipment budget would limit our ability to provide leashes, collars, and enrichment supplies to animals and owners, which are essential for animal welfare, safety, and adoptability. Reducing funding for medication and medical supplies—including vaccines, disease prevention, and behavioral medications—would place animals at greater risk of illness, suffering, and even euthanasia, directly threatening our no-kill status. Finally, eliminating key subscriptions such as appointment scheduling software and design tools for outreach and marketing would disrupt community access to services and reduce our visibility, support, and donations. Together, these cuts would endanger animals, compromise public safety, and greatly reduce the essential services we provide to the community.				
37	250	[32-37142] STRESS TEST REDUCTION REQUESTS	FLOOD CONTROL STRESS TEST 5% REDUCE NEW	-	(1,577,685)	-
		Flood Control Engineering [Exp: -1,634,030; Rev: -56,345]				(No)
		This stress test reduces the 2025 Flood Control Engineering budget by the amount of the new requests, \$1,397,221.				
38	250	[32-37653] STRESS TEST REDUCTION REDUCTION	FLOOD CONTROL ENGINEERING STRESS TEST 2.5%	-	(172,749)	-
		Flood Control Engineering				(No)
		This budget adjustment represents the 2.5% stress test for Department 4600. Flood Control Engineering recommends applying the reduction to the Department 4610 Capital Project budget. However, implementing this cut would prevent the Division from completing planned capital improvement projects, further delaying progress on strengthening the Countywide Flood Control System and adding to an already substantial backlog of deferred maintenance projects.				
39	110	[32-37245] STRESS TEST REDUCTION	Reduce UFA EM for 2.5% Stress Test	-	(365,535)	-
		Emergency Services				(No)
		Reduce UFA EM for Stress Test.				
		150,000 Remove new request for the reduction of the revenue transfer from UFA EM to Salt Lake County (request ID 31-37238).				
		150,000 Remove request for UFA EM portion of maintenance and capital projects at the ECC (Request ID 31-37240).				
		65,535 Reduce UFA EM contract base budget by 2.5% for Stress Test				
40	110	[32-37247] STRESS TEST REDUCTION	Reduce Canyons for 2.5% Stress Test	-	(62,583)	-
		Emergency Services				(No)
		Reduce Canyons for 2.5% Stress Test				
41	110	[32-37723] STRESS TEST REDUCTION	EM Internal 5% Stress Test	-	(4,050)	-
		Emergency Services				(No)
		Reduce training for Emergency Management Internal 5% Stress Test				
42	110	[32-37725] STRESS TEST REDUCTION	Reduce Wildland Fire 5% Stress Test	-	(1,285)	-
		Emergency Services				(No)
		Reduce Wildland Fire 5% Stress Test. Funds will be reduced from Internal EM training budget.				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
43	110	[32-37016] STRESS TEST REDUCTION	PW_Animal Services GF 5% Stress Test Animal Service General Fund Additional 2.5% stress test reduces the budget by \$41,949. Reducing the Animal Services budget in these critical areas would be devastating to our operations, our no-kill mission, and the community we serve. Complete reduction of our meniscal clothing provision would eliminate identifiable uniforms for volunteers, creating a safety issue for all. Reducing the advertising budget would harm adoption outreach and critical education efforts, such as preventing pets from dying in hot cars or educating on the importance of microchips. A reduction in training funding would prevent us from helping animals with behavior or obedience needs, making them harder to place in permanent homes. Cuts to computer and office supplies would disrupt technology replacement cycles, leaving us unable to respond if critical equipment fails. Reductions to professional and rental fees would severely limit our events, leaving them without entertainment, supplies, or professional venues, and would also eliminate resources for specialized surgeries and animal care needs. Without transportation rental funding, we would be unable to move animals or supplies for large community events. Together, these cuts would endanger animals, compromise public safety, weaken community trust, and greatly reduce the essential services we provide.	-	(41,949)	- (No)

CORE MISSION

To promote and provide education, programs, and resources that support municipal shelters, pet owners, and the community in Salt Lake County and help guide lifesaving initiatives.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Animals Thrive at Salt Lake County Animal Services				
• Maintain no-kill status with above 90% live release rate for animals received in 2026. The current live release rate for July 2025 was 95%.	95%	90%	95%	90%
• The target for 2026 is 400 animals evaluated annually needing specialized medical, behavioral, and training resources. The current total in July 2025 is 174.	374	400	174	400
Maintain Visibility with the Public				
• Maintain visibility with the public (social media reach, website visits, earned media, events, and training) with 1,040,488 interactions as of July 2025. The goal for 2026 is 1,600,000 interactions.	2,316,200	1,500,000	1,040,488	1,600,000
Animal Services is a Good Fiduciary Agent of Funds Entrusted to Them				
• Fiscal team meets monthly to review, forecast, analyze, and monitor agency financial Key Performance Indicators (KPIs).	12	12	6	12

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-36972]	NEW REQUEST	PW_Fleet Vehicle Replacement Charge (General Fund Portion)	-	5,287	5,287
	General Fund's portion of fleet vehicle replacement charge.					(Yes)
2	[31-36973]	NEW REQUEST	PW_Labor & Service Increase (General Fund Portion)	-	5,400	5,400
	General Fund's portion of labor & service increase: utilities, facilities, & supplies.					(Yes)
3	[31-37046]	NEW REQUEST	PW_Request Additional GF Operations & Depreciation Budget per Time Tracking	-	49,750	49,750
	Request additional General Fund operations (\$48,221) and depreciation (\$1,529) funding per third year audit time tracking of employees.					(Yes)
4	[31-37012]	NEW REQUEST	PW_Request Adjusted FTE Allocations per Audit Time Tracking	1.67	182,317	187,987
	Contract Fund: Decrease Contract Fund personnel budget per third year audit time tracking of employees. This request is tied to the GF request #4.					(Yes)
	General Fund: Increase General Fund personnel budget per third year audit time tracking of employees. This request is tied to the Contract Fund request #4.					1.67 FTE
5	[31-37279]	NEW REQUEST	PW_Request Adjusted FTE Allocations Position Transfer per Audit Time Tracking	-	16,334	17,833
	This request is to transfer position 00002272 to organization 41000000 per audit time tracking. This request also includes a recipient transfer from organization 41010000. No change in total numbers of FTEs.					(Yes)
						0.00 FTE
6	[31-37042]	NEW REQUEST	PW_Increase Temporary Employee Budget (Adoption Donation)	-	-	-
	[Exp: 28,000; Rev: 28,000]					(Yes)
	Increase temporary employee budget for the adoption program. It is funded by adoption donation.					
	FUTURE YEARS ADJUSTMENT: [Exp: -28,000; Rev: -28,000]					
7	[31-37043]	NEW REQUEST	PW_Increase Shelter Supplies (Adoption Donation)	-	-	-
	[Exp: 5,000; Rev: 5,000]					(Yes)
	Increase shelter supplies budget to promote adoption. It is funded by adoption donation.					
	FUTURE YEARS ADJUSTMENT: [Exp: -5,000; Rev: -5,000]					
8	[31-37045]	NEW REQUEST	PW_Request to Utilize Spay and Neuter Donation Fund	-	-	-
	[Exp: 34,000; Rev: 34,000]					(Yes)
	The Spay and Neuter Donation Fund will be used for any expense associated with the prevention of unwanted litters through spay and neuter services. Allowable uses include surgical procedures, medical supplies, professional service fees, public outreach, community education, and other resources that support accessible and effective spay/neuter programs.					
	FUTURE YEARS ADJUSTMENT: [Exp: -34,000; Rev: -34,000]					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
9	[31-37047] NEW REQUEST PW_Mobile Unit Request Ending 12/31/2026 [Exp: 456,187; Rev: 106,000] One-time request to continue the Mobile Unit program to provide free countywide sterilization surgery to the public. We continue to receive a tremendous interest in our services from all over the county. New appointments are filling up almost immediately after being posted. Use \$106,000 spay & neuter donation to reduce the total Mobile Unit request amount. Projected 2025 Mobile Unit under-spending is \$320,000. FUTURE YEARS ADJUSTMENT: 11,000	3.00	350,187	364,534 (Yes) 3.00 FTE
10	[32-37406] STRESS TEST REDUCTION PW_Animal Services GF Stress Test Reduce New Requests The stress test reduces the 2026 Animal Services budget by the amount of the new requests \$676,275.	(4.67)	(782,275)	- (No)
11	[32-37482] STRESS TEST REDUCTION PW_Animal Services GF 2.5% Stress Test Taking a 2.5% stress test would reduce the budget by \$41,949. Reducing the Animal Services budget in these critical areas would be devastating to our operations, our no-kill mission, and the community we serve. A reduction to the microchip budget would prevent us from providing permanent identification for many animals throughout the entire county, making it harder to reunite lost pets with their families and increasing shelter overcrowding. Cutting the small equipment budget would limit our ability to provide leashes, collars, and enrichment supplies to animals and owners, which are essential for animal welfare, safety, and adoptability. Reducing funding for medication and medical supplies—including vaccines, disease prevention, and behavioral medications—would place animals at greater risk of illness, suffering, and even euthanasia, directly threatening our no-kill status. Finally, eliminating key subscriptions such as appointment scheduling software and design tools for outreach and marketing would disrupt community access to services and reduce our visibility, support, and donations. Together, these cuts would endanger animals, compromise public safety, and greatly reduce the essential services we provide to the community.	-	(41,949)	- (No)
12	[32-37016] STRESS TEST REDUCTION PW_Animal Services GF 5% Stress Test Additional 2.5% stress test reduces the budget by \$41,949. Reducing the Animal Services budget in these critical areas would be devastating to our operations, our no-kill mission, and the community we serve. Complete reduction of our meniscal clothing provision would eliminate identifiable uniforms for volunteers, creating a safety issue for all. Reducing the advertising budget would harm adoption outreach and critical education efforts, such as preventing pets from dying in hot cars or educating on the importance of microchips. A reduction in training funding would prevent us from helping animals with behavior or obedience needs, making them harder to place in permanent homes. Cuts to computer and office supplies would disrupt technology replacement cycles, leaving us unable to respond if critical equipment fails. Reductions to professional and rental fees would severely limit our events, leaving them without entertainment, supplies, or professional venues, and would also eliminate resources for specialized surgeries and animal care needs. Without transportation rental funding, we would be unable to move animals or supplies for large community events. Together, these cuts would endanger animals, compromise public safety, weaken community trust, and greatly reduce the essential services we provide.	-	(41,949)	- (No)

CORE MISSION

Salt Lake County Division of Emergency Management serves our citizens by directing and coordinating resources for disaster and emergencies through mitigation, prevention, preparation, response and recovery.

Emergency management is one of the functions that is required by state statute for counties to provide to their citizens. When Unified Fire Authority came into being in July 2004 part of the inter-local that formed UFA specified that the emergency management function within Salt Lake County would be the responsibility of UFA. As a result, UFA functions as an agent of Salt Lake County providing the emergency management function for the approximately 1.2 million citizens and visitors within the 23 cities and towns and unincorporated areas that comprise Salt Lake County. This service is provided within the framework of five "pillars" that constitute the core functions of emergency management. These five pillars are mitigation, prevention, preparation, response and recovery. Below is a sample of the services provided by the Emergency Management Division.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
EXTERNAL - Increase community and governmental readiness through training and exercise to promote cohesive response and recovery				
• Provide ICS training to internal and external partners, including Elected and Senior Officials	0	1	1	4
• Provide SLCo EM Public Information and Warning trainings	0	1	1	2
• Conduct quarterly SLCo EOC Emergency Support Function (ESF) training for ESF staff	0	4	2	4
EXTERNAL - Increase community preparedness through continuous public outreach, via emergency management engagement and strategic planning				
• Increase engagement on Salt Lake County EM website and Salt Lake County EM social media	-	20%	-	10%
• Increase Tier II hazardous chemical reporting submissions	-	10%	-	10%
• Complete identification and mapping of pre-determined staging locations and points of distribution throughout Salt Lake County	-	60%	-	80%
• Identify locations and use of Salt Lake County facilities for jurisdictional emergency planning	-	100%	50%	70%
• Sustain mass gathering pre-planning and site coordination	-	10%	5%	10%
• Maintain and update emergency preparedness and mitigation plans in partnership with local partners	-	100%	100%	100%
EXTERNAL - Reduce the impact or threat of foreign or domestic terrorist events in Salt Lake County				
• Engage law enforcement partners in threat-specific planning, training and exercises	0	2	0	4
• Increase county-wide participation in Suspicious Activity Reporting	-	15%	15%	20%
• Further the engagement and utilization of the Utah Critical Infrastructure Planning tool	-	15%	15%	20%
EXTERNAL - Better prepare communities and county government to stabilize and restore community lifelines to facilitate a return to near-normal or improved pre-disaster conditions				
• Fill 90% of resource requests within three hours during the initial response of an incident.	-	90%	90%	90%
• Develop mitigation projects in anticipation of the availability of grant funding	0	3	2	3
• Complete valley-wide evacuation zone identification and mapping.	-	30%	90%	100%
• Continue Crisis Track training and exercises with valley-wide emergency managers	0	1	0	2
INTERNAL - Salt Lake County Government has operational capacity and sustainability during any emergency or disruption to services				
• All County departments/agencies/divisions will have their Continuity of Operations Plan/Continuity of Government (COOP/COG) reviewed, assessed, and exercised, with recommendations on how to improve their plans on an annual basis	-	100%	100%	100%
• The Salt Lake County Policy Group is exercised on an annual basis	-	100%	100%	100%
INTERNAL - Emergent/non-emergent event notification needs are met for County leadership, emergency response teams (such as PSB), and facilities				
• Emergent notifications are sent out < 2 minutes of a notification request or need. Evaluated at end-of each quarter.	-	100%	100%	100%
• Non-emergent notifications are sent out within 10 minutes of a notification request or need. Evaluated at end-of each quarter.	-	100%	100%	100%
• County leadership has access to effective, reliable, and alternative communication platforms via satellite phone, WEPS, and GETS cards	-	100%	100%	100%
INTERNAL - County employees have a safe work environment, and the public has access to safe County facilities				
• A comprehensive and multi-layered approach to security operations across the Salt Lake County Government Footprint, in partnership with PSB and Facilities, is convened to action threat assessments, threat prevention programming, and trauma informed security/de-escalation, and New Campus design/construction	-	100%	100%	100%

1	[31-37242]	NEW REQUEST	Salary Increase and Appropriation Unit Shift Adjust budget for salary and benefit increases. The funds will be covered as follows: Reduce Temporary Labor (\$5,329). This reduction will be used to offset the increase in salary and benefits. Transfer Funds from Operations to Personnel. There will be an appropriation Unit shift from Operations to Personnel. Training will be reduced by \$8,000 and the funds will be transferred to cover the increase to salary and benefits.	-	-	(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
2	[31-37238] NEW REQUEST Reduce EM Revenue from Fund Balance Reduce revenue received from Emergency Management. UFA EM maintains a fund balance on behalf of Salt Lake County. The fund balance at EM was larger than needed. In order to reduce the fund balance, UFA EM transferred \$150K/yr for 2 years to Salt Lake County. This transfer reduced the General Fund for Emergency Management. The agreement was to reduce the fund balance by \$150K for 2 years (2024 and 2025). Now that the 2 year agreement is up, Salt Lake County will no longer receive the revenue from UFA EM. This loss of revenue will increase the General Fund contribution to Emergency Management.	-	150,000	150,000 (Yes)
4	[31-37722] NEW REQUEST Wildland Fire Inflationary Increase Increase County portion of Wildland Fire contract for inflationary increases.	-	4,136	4,136 (Yes)
5	[32-37244] STRESS TEST REDUCTION EM Internal 2.5% Stress Test Reduce training for Emergency Management Internal 2.5% Stress Test Absorb Increase for Wildland Fire by reducing EM Internal Training Budget \$4,136	-	(8,186)	- (No)
6	[32-37246] STRESS TEST REDUCTION Reduce Wildland Fire 2.5% Stress Test Reduce Wildland Fire 2.5% Stress Test. Funds will be reduced from Internal EM training budget.	-	(1,286)	- (No)

CORE MISSION

The mission of Salt Lake County Flood Control Engineering is to protect life, property, and watershed from damage or destruction from flood and storm waters by:

- Designing, building, and maintaining the county-wide flood control infrastructure.
- Working with local governments to address multi-jurisdictional drainage and flood control challenges in order to protect people, property, and the environment.
- Providing proactive ecosystem stewardship through the Water Quality Stewardship Plan (WaQSP) leading to increased public awareness and enhanced ecosystem health.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Flood Control Operations Section provides quick response to customer maintenance requests.				
• Maintain response time of 24 hours or 1 business day to all complaints received by Flood Control for stream maintenance at 100% of complaints as of the end of July 2025 to 100% of complaints by end of July 2026.	100%	100%	100%	100%
Flood Control Engineering minimizes its impact to the local project area environment.				
• Maintain percentage of projects where 2 trees or 2,000 sq-ft of vegetation are planted, or 1 pre-treatment measure is installed at 100% per \$100,000 capital spent as of the end of July 2025 to 100% per \$100,000 capital spent by end of July 2026.	100%	100%	100%	100%
Flood Control Engineering manages and utilizes personnel and processes effectively and efficiently to deliver projects.				
• 80% of funded Capital Projects are delivered on-time and in a cost-effective manner, in accordance with the triennial execution plans.	85%	80%	88%	80%
Flood Control Engineering leverages SLCo taxpayer dollars for its Flood Control and Watershed programs.				
• Maintain existing levels of outside funding and/or obtain 2 new outside funding sources each year.	4	2	5	2
Regional Operations is a good fiduciary agent of funds entrusted to them by tax payers and customers.				
• Department Director, Department Fiscal Administrator and Division Director will meet monthly to review agency financial Key Performance Indicators (KPIs)	12	12	7	12
Bring the Surplus Canal Levees into compliance with federal (USACE/FEMA) minimum requirements. [Transformational Initiatives]				
• Reduce the number of non-Salt Lake County owned property within the limits of the Surplus Canal right-of-way from 127 to 0 within the funding timeline. - 2024 Target: 67 - 2025 Target: 52 - 2026 Target: 52	104	52	70	52
• Reduce the overall number of unacceptable USACE violations on the levee system as documented by USACE inspections by 50 violations within the funding timeline. - 2024 Target: 26 - 2025 Target: 16 - 2026 Target: 16	23	16	21	16
• Prepare a comprehensive plan for obtaining FEMA accreditation and take tangible steps to correct deficiencies in order to meet FEMA minimum requirements. Indicator is percentage complete for tasks required to submitted package to FEMA. - 2024 Target: 100% Complete - 2025 Target: 100% Complete - 2026 Target: 100% Complete	75%	100%	78%	100%
Bring the Sewage Canal and its City Drain Tributary into good operating condition, with improved hydraulic capacity and channel stability. [Transformational Initiatives]				
• Prepare bid package and go to construction on mechanical pump replacements and channel stability improvement for the Sewage Canal and its City Drain Tributary. - 2025 Target: 100% Phase I recommended Projects Design Complete - 2026 Target: 100% Construction, Complete construction of Phase I City Drain Pump Station Improvement Project. - 2026 Target: 50% Design Bid Package Complete Phase II Projects, 50% Phase II recommended Projects Design Complete	55%	100%	100%	100%

	Update interest revenue in key funds.					(Yes)
1	[31-37169]	NEW REQUEST	Right Sizing FCE Budget: Increase Interfund Revenue	-	(57,000)	(57,000)
	This request adds revenue in the amount of \$57,000 to reimburse Flood Control Engineering for work being performed for other Divisions.					(Yes)
2	[31-37017]	NEW REQUEST	Right Sizing FCE Budget: Flood Control Operations Crew Overtime Increase	-	-	-
	[Exp: 15,000; Rev: 15,000] This budget adjustment will cover the overtime and incentive pay expense that the Flood Control Operations crewmembers earn by snowplowing for Public Works Operations (PWO). PWO reimburses Flood Control for the expenses.					(Yes)
	This is a budget neutral budget adjustment.					
3	[31-37139]	GRANT TRUE-UP	Right Sizing FCE Budget: Watershed Grant	-	36,433	36,433
	[Exp: 15,000; Rev: -21,433] The Flood Control Engineering Watershed Team received a new grant from the State of Utah Division of Water Quality. This adjustment also includes a true-up for revenue and expenses for grants that were completed in 2025.					(Yes)
	FUTURE YEARS ADJUSTMENT: -36,433					
4	[31-37250]	NEW REQUEST	Right Sizing FCE Budget: Funding for Flood Control Operations Crew Spring Run-Off Incentive Plan	-	15,400	15,400
	This request is to add funding to the Flood Control Engineering personnel budget to fund the Spring run-off incentive plan for the Flood Control Operations Crew. The FC Operations Crew performs essential functions in flood prevention by keeping debris removed along canals and streams.					(Yes)
5	[31-37259]	NEW REQUEST	FCE Request Due to PWE Split to MSD: Increase to Government Center Building Rent	-	36,000	36,000
	This budget adjustment increases building rent by \$36,000 as part of right sizing the Flood Control Engineering budget due to Public Works Engineering transferring to the Greater Salt Lake Municipal Services District.					(Yes)
6	[31-37013]	NEW REQUEST	Right Sizing FCE Budget: Dump Truck Heavy Equipment Purchase	-	100,000	100,000
	An additional dump truck is needed to facilitate on-going stream and canal maintenance like the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. Flood Control currently has two heavily utilized dump trucks and relies on Public Works Operations to make up the difference in needed equipment to get work done. Public Works Operations has continued to downsize over the years and now has only the amount of personnel and equipment needed to provide contracted services to their client municipalities and none to handle countywide flood control services. A third dump truck would allow Flood Control to effectively conduct countywide maintenance, by hauling dredged material, debris, and towing heavy equipment to and from project sites. The cost of a dump truck is approximately \$200,000.					(Yes)
	This budget adjustment proposes that \$100,000 be used from under expending the 2025 equipment budget (Account 667030). The remaining \$100,000 will be used from the 2026 base budget for equipment purchases (account 667030).					
	FUTURE YEARS ADJUSTMENT: -75,000					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[31-37014] NEW REQUEST	Right Sizing FCE Budget: Dump Truck Heavy Equipment Purchase An additional dump truck is needed to facilitate on-going stream and canal maintenance like the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. Flood Control currently has two heavily utilized dump trucks and relies on Public Works Operations to make up the difference in needed equipment to get work done. Public Works Operations has continued to downsize over the years and now has only the amount of personnel and equipment needed to provide contracted services to their client municipalities and none to handle countywide flood control services. A fourth dump truck would allow Flood Control to effectively conduct countywide maintenance, by hauling dredged material, debris, and towing heavy equipment to and from project sites. The cost of a dump truck is approximately \$200,000. This budget adjustment proposes that \$200,000 be transferred from Fund 735 to fund 250 because Public Works Operations can no longer provide the services. The transfer from fund 735 is being covered by interest earnings on the fund. FUTURE YEARS ADJUSTMENT: -175,000	-	200,000	200,000 (Yes)
8	[31-37015] NEW REQUEST	Right Sizing FCE Budget: Mobile Discharge Flowmeter Salt Tracer Capital Equipment Purchase Salt Lake County maintains a system of stream gauges, each with their own unique set of challenges for data collection and validation. A major validation hurdle that gauging staff still needs to overcome is measurement at turbulent sites including the gauges at Big Cottonwood Canyon Mouth and Little Cottonwood at Tanners Flat. Turbulent water presents a challenge as it is far too dangerous to perform a wading measurement and traditional measurement technology has limited ability to track discharge with air bubbles suspended in the water column, a common characteristic of turbulent water. A new technology is available to measure discharge in turbulent systems that relies on the conductivity of water and a salt water solution introduced upstream of the measurement site which acts as a conductivity tracer for the probes placed downstream. This technology will provide much needed data validation for important sites while dramatically improving the safety of county personnel as it is not adversely affected by entrained air in the water column. The United States Geological Survey (USGS) has tested the accuracy and precision of the method and has cleared it for use by field personnel. FUTURE YEARS ADJUSTMENT: -13,000	-	13,000	13,000 (Yes)
9	[31-37115] NEW REQUEST	Right Sizing FCE Budget: FCE Salary and Benefit Budget Increase This budget adjustment is to request additional funding for personnel expenses in the Flood Control Engineering budget. The increase in salaries is due to positions being filled at a higher salary than the base budget and/or employees advancing within their grade.	-	9,541	9,541 (Yes)
10	[31-37019] NEW REQUEST	Right Sizing FCE Budget: Annual Fleet Levy Increase The Fleet levy will increase by \$66,896 for Flood Control Engineering (FCE) in 2026. The increase is due to several factors: 1) Vehicle costs for replacing vehicles in the existing FCE fleet have increased. 2) Vehicles transferred to FCE as a result of Public Works Engineering transferring to the Greater Salt Lake Municipal Services District (GSLMSD) were under funded and the future ongoing levy is set to bring the replacement account for those vehicles back in balance. 3) The Dump truck purchased in 2024 has been added to the replacement levy. 4) New requests to increase the replacement levy were not approved for the 2024 and 2025 budget years.	-	66,896	66,896 (Yes)
11	[31-37138] NEW REQUEST	Right Sizing FCE Budget: Pay Differential for Lead Workers This request is to add \$20,000 to Flood Control Engineering's (FCE) personnel budget to cover expenses for lead worker differential pay. FCE has lead workers in the gauging, watershed, and stormwater programs. These employees have additional duties as outlined in SLCO HR Policy 5-100, Section E.6.	-	20,000	20,000 (Yes)
12	[31-37022] NEW REQUEST	FCE Request Due to PWE Split to MSD: Computer Replacement Budget Flood Control Engineering's (FCE) existing computer budget does not cover the needs of replacing computers for staff. This budget adjustment is part of right sizing the FCE budget as a result of Public Works Engineering (PWE) transferring to the Greater Salt Lake Municipal Services District (GSLMSD). Used computers can no longer be shared between staff that performed tasks for both FCE and PWE.	-	10,000	10,000 (Yes)
13	[31-37050] NEW REQUEST	FCE Inflationary Request: Heavy Equipment Rental Budget Flood Control Engineering (FCE) is requesting an increase to the heavy equipment rental budget in the amount of \$30,000 for the FC Operations Crew. Rental prices have increased with the State Contract vendor. The heavy equipment is used for on-going stream and canal maintenance including mowing, clearing debris, dredging and cleaning detention ponds, canals, and drainage ditches.	-	50,000	50,000 (Yes)
14	[31-37025] NEW REQUEST	FCE Inflationary Request: Fuel Budget Increase This request is to increase Flood Control Engineering's (FCE) fuel budget by \$25,000 annually. The fuel budget has been overspent in previous years due to inflation and was covered by underspending other accounts in the operations appropriation unit. The additional fuel budget is also needed for heavy equipment recently added to the FCE fleet.	-	25,000	25,000 (Yes)
15	[31-37024] NEW REQUEST	FCE Inflationary Request: Maintenance of Vehicles Budget Increase This request is to increase Flood Control Engineering's (FCE) maintenance of fleet vehicles and equipment budget by \$75,000 annually. The maintenance budget has been overspent in previous years due to labor and replacement parts inflation. The additional budget is also needed for maintenance on heavy equipment recently added to the FCE fleet.	-	75,000	75,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
16	[31-37051] NEW REQUEST	Right Sizing FCE Budget: Increase Dumping Fees		-	55,000	55,000 (Yes)
	In the past Flood Control was able to dispose of and store dredged material free of charge at County owned Welby Pit and Granite Cottonwood Gravel Pit. These free disposal locations have gone away due to the development of a County regional park in the case of the Welby Pit and the closing and reclamation of the Cottonwood Gravel Pit. With the loss of these disposal locations, Flood Control is now disposing of dredged material at a private construction waste landfill or the County Landfill with a per ton dumping fee. This \$55,000 increase is needed to safely dispose of this dredged material.					
17	[31-37052] NEW REQUEST	Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator		2.00	186,473	189,357 (Yes) 2.00 FTE
	This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches.					
18	[31-37054] NEW REQUEST	Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator		2.00	274,973	277,857 (Yes) 2.00 FTE
	This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. A truck is needed to transport new FTEs and equipment to work sites. An additional \$1,500 is added for small equipment needed for each truck.					
	FUTURE YEARS ADJUSTMENT: -73,500					
19	[31-37060] NEW REQUEST	Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator		2.00	186,473	189,357 (Yes) 2.00 FTE
	This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches.					
20	[31-37061] NEW REQUEST	Right Sizing FCE Budget: 2 New Full-Time Employees: District Worker, Heavy Equipment Operator		2.00	274,973	- (No)
	This is a request for two additional FTEs in Flood Control Engineering. This request for additional Flood Control Engineering Operations staff consists of 8 total FTEs in pairs of 2. Each pair includes 1 FTE District Worker and 1 FTE Heavy Equipment Operator. The additional staffing is needed to keep up with stream, canal, and storm drain maintenance countywide, particularly in the rapidly growing southwest and northwest quadrants. Stream and canal maintenance includes but is not limited to the clearing of debris, dredging and cleaning of detention ponds, canals, and drainage ditches. A truck is needed to transport new FTEs and equipment to work sites. An additional \$1,500 is added for small equipment needed for each truck.					
21	[32-37142] STRESS TEST REDUCTION	FLOOD CONTROL STRESS TEST 5% REDUCE NEW REQUESTS		-	(1,577,685)	- (No)
	[Exp: -1,634,030; Rev: -56,345] This stress test reduces the 2025 Flood Control Engineering budget by the amount of the new requests, \$1,397,221.					
22	[32-37653] STRESS TEST REDUCTION	FLOOD CONTROL ENGINEERING STRESS TEST 2.5% REDUCTION		-	(172,749)	- (No)
	This budget adjustment represents the 2.5% stress test for Department 4600. Flood Control Engineering recommends applying the reduction to the Department 4610 Capital Project budget. However, implementing this cut would prevent the Division from completing planned capital improvement projects, further delaying progress on strengthening the Countywide Flood Control System and adding to an already substantial backlog of deferred maintenance projects.					
23	[32-37143] STRESS TEST REDUCTION	FLOOD CONTROL ENGINEERING STRESS TEST 5% REDUCTION		-	(172,748)	- (No)
	This budget adjustment represents the 5% stress test for Department 4600. Flood Control Engineering recommends applying the reduction to the Department 4610 Capital Project budget. However, implementing this cut would prevent the Division from completing planned capital improvement projects, further delaying progress on strengthening the Countywide Flood Control System and adding to an already substantial backlog of deferred maintenance projects.					
	[33-37813] REVENUE PROJECTION CHANGE	Property Tax MV Fee Projection Adjustments		-	-	(116,451) (Yes)
	As vetted by Revenue Committee on 9/12/2025

[33-37965]	NEW REQUEST Property Tax Increase for Countywide Funds	-	-	(2,332,398)
Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate.				(Yes)
The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center.				
The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%

1	[47-36023] CAPITAL PROJECT SURPLUS CANAL DEFICIENCY REHAB	-	1,200,000	1,200,000
[New/Add/Reduction: 1,200,000; Rebudget: 444,510]				(Yes)
At present, the Surplus Canal Levees are not in compliance with USACE standards, and the levees are no longer certified by the USACE. The result of the decertification is that a large portion of the west side of Salt Lake City is in a preliminary AE Special Flood Hazard Area (SFHA) Flood Zone. If re-mapped by FEMA, structures in this area would be required to purchase flood insurance.				
In an effort to prevent the remapping of the Salt Lake City without leveed protection from the Surplus Canal, Salt Lake County Flood Control Engineering is working to bring the Surplus Levees back into USACE compliance. To do so, not only must we address the 374 unacceptable encroachment violations, we must also acquire the easements designated in 1960 by the USACE. There are 32 residential lots and 27 commercial/industrial lots in Salt Lake City with easement concerns related to the inspection report.

CORE MISSION

Salt Lake County Fleet Management will provide safe, economical, energy-efficient vehicles and equipment to the employees of Salt Lake County, enabling the employees to provide the best possible services to the citizens of Salt Lake County.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County Fleet is environmentally friendly				
• As our customers replace their current sedans and SUVs, Fleet will advise them to replace vehicles in these categories with electrified vehicles. Electrified vehicles include all electric, plug-in hybrids and hybrid sedans and SUVs.	100%	98%	90%	98%
• Fleet will continue to work with County agencies to reduce the amount of idling time of their vehicles.	31.6%	30%	31%	30%
Fleet shops are efficient and productive				
• Maintain technician productivity billable hours as measured by a ratio of billable hours to non-billable hours.	93.1%	93%	91%	93%
Regional Operations is a good fiduciary agent of funds entrusted to them by tax payers and customers.				
• Department Director, Department Fiscal Administrator and Division Director will meet monthly to review agency financial Key Performance Indicators (KPIs)	1	10	7	10

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
0	[31-37487] TECHNICAL DEBT SERVICE ADJUSTMENT	2026 - 2020B STRRB Bond Adjustment	-	446	446 (Yes)
	To adjust the 2026 debt service amounts for the 2020B STRRB bonds				
1	[31-37378] NEW REQUEST	Fleet Mgt Sign on & Retention Incentive	-	(302)	(302) (Yes)
	[Exp: 134,698; Rev: 135,000] This request is for an incentive to allow Fleet Management to offer a sign on bonus for new technicians, and provide a retention bonus for existing technicians. The incentive will be funded by a \$3 increase to the Fleet labor hourly rate. Fleet Mgt is very dependent on keeping qualified technicians to generate revenue and provide service for county vehicles. It has been a challenge attracting and retaining technicians and Fleet Mgt is hopeful the incentive will help retain our knowledgeable and skilled technicians.				
2	[31-37299] NEW REQUEST	Public Works Compound Master Plan	-	-	- (Yes)
	This request is to update Fleet Management's future building needs as part of the Public Works Compound Master Plan. The programming will include any re-designs needed for Fleet Mgt to incorporate a new Light Shop onto the existing Fleet building, as well as an addition for the Heavy Shop to move them out of an extremely old non earthquake proof cinder block building. Balance Sheet Acquisition: \$35,000				
3	[31-37295] NEW REQUEST	2026 Midvale Compound Preservation Plan	-	85,000	85,000 (Yes)
	This request is for Year 2 of the Pavement Preservation Project at the Public Works Compound. The first phase was mostly completed in 2025, with a small portion being moved to year 2. The project will be funded by several departments, with Fleet's share being \$85,000. The Year 2 project will focus on the pavement near the Trax light rail lines, Public Works and Wasatch Front Waste & Recycling parking areas, and the pavement area directly north of Fleet's Truck Shop garage doors. FUTURE YEARS ADJUSTMENT: -85,000				
4	[31-37376] NEW REQUEST	Revenue Changes for 2026	-	896,003	896,003 (Yes)
	This request is to adjust 2026 revenues for a \$3 per hour increase for Fleet Management's labor rate, and to true up revenues related to Cost of Goods Sold. Operating Revenue: 421345 Fleet External Fuel Services \$ (485,052) 421350 Fleet External Maintenance Svc \$ 64,800 431160 Interfund Revenue \$ (522,800) Levy: 421266 External Revenue - Fleet Levy \$ 85,496 431046 Interfund Revenue - Fleet Levy \$ (38,447)				
5	[31-37343] TECHNICAL ADJUSTMENT	Cost of Goods Sold True Up	-	(2,401,743)	(2,401,743) (Yes)
	This request is to true up Fleet's Cost of Goods Sold appropriation unit to anticipated expenses for 2026.				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
6	[31-37344] TECHNICAL ADJUSTMENT Depreciation True Up This request is to true up Depreciation expected for 2026. The 2025 increase was meant to right size anticipated depreciation resulting from Law Enforcement Bureau transitioning to Salt Lake County. The estimate obtained from research and working with Mayor's Finance was more than needed.	-	(700,000)	(700,000) (Yes)
7	[31-37345] NEW REQUEST Insurance Subrogation Payments This request is for anticipated insurance payments resulting from accidents to county vehicles caused by external drivers. \$80,000	-	-	- (Yes)
8	[31-37346] NEW REQUEST Balance Sheet Request to Purchase Vehicles & Equipment This request is for expected purchase of vehicles and equipment during 2026. Balance Sheet Acquisition: \$10,000,000	-	-	- (Yes)
	TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):	-	(2,120,596)	(2,120,596)
	TOTAL BASE BUDGET ADJUSTMENTS:	-	-	-
	TOTAL STRESS TEST REDUCTIONS:	-	-	-

CORE MISSION

Provide a safe and effective way for County residents to dispose of waste while maintaining environmental permits and compliance, financial stability, customer service, and safety.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Solid Waste Management maintains all the required permits and is in compliance with those permits.				
• All permits are up to date and active. All compliance issues identified are being reviewed and resolved.	8	8	8	8
Solid Waste Management operates on a cash positive basis.				
• Monthly financials shall reflect the ability to make the required year end addition to the cash reserve accounts (future operations, module construction and other potential liabilities). Percentage of required amount is tracked. Year-end goal is 100%	100%	100%	100%	100%
• Department Director, Department Fiscal Administrator and Division Director will meet monthly to review agency financial Key Performance Indicators (KPIs)	12	12	7	12
Solid Waste Management provides good customer service.				
• Respond to all (100%) customer issues within 2 working days.	100%	100%	100%	100%
Solid Waste Management maintains a safe place to work and do business.				
• Maintain zero safety violations.	0	0	0	0

1	[31-37433]	NEW REQUEST	SWM 2026 Proposed Rate Increases		-	(814,000)	(814,000)
The following price increases were approved by the Solid Waste Management Council on 08/06/2025 and by the Revenue Committee on 08/18/2025. Price increases are necessary since the proposed budgeted revenue in 2026 does not cover the required expenses and the required additional cash necessary to fund the cash accounts needed for future operation and liabilities.							(Yes)

CORE MISSION

The Office of Regional Development works in a coordinated manner to address issues of regional significance in Planning and Transportation, Housing, Economic Development and Environmental Sustainability. With these areas consolidated into a single service line, Salt Lake County is well-positioned to strategically drive regional solutions to current and future challenges in order to ensure a high quality of life for Salt Lake County residents.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
SLCo works collaboratively with state and local partners to create and execute regional development plans that align with SLCo policy priorities.				
• Number of municipalities receiving technical assistance for planning	23	23	23	23
SLCo influences local planning actions to align with national best practices and regional goals.				
• Number of different planning entities attending the annual Regional Solutions Event	29	30	0	30
• Total number of attendees at the annual Regional Solutions Event	126	200	0	150
All Salt Lake County Planning Commission and Mountainous Planning Commission positions are filled and members are representative of the communities they serve.				
• Number of members on Planning Commissions	16	22	17	20
SLCo and partners invest in a robust, multimodal transportation network to enhance residents' quality of life and visitors' experience.				
• Number of municipalities receiving SLCo corridor preservation funds	0	5	4	4
• Number of acres preserved through the SLCo corridor preservation funds	0	10	9.19	5
• Number of projects funded through local option sales and use tax revenue for transportation (4th Quarter).	11	8	7	4
SLCo invests in regional sustainability initiatives to improve air, water, energy, land, and waste management to improve residents' quality of life and visitors' experience.				
• Number of partners engaged	30	40	37	15
Operational decisions and investments for SLCo facilities and programs advance SLCo's environmental sustainability goals to improve air, water, energy, land, and waste management.				
• Number of joint sustainability outcomes and indicators with other departments and divisions.	0	5	0	5
• [New] Percent of agencies that are reflected in energy and emissions tracking	-	70%	-	80%
• [New] Percent of agencies reporting data for water use tracking	-	70%	-	80%
• [New] Number of environmental best practices, convenings, and working groups shared or held across agencies.	0	5	3	10
• [New] Number of assets/facilities that are accounted for in water data collection process.	0	0	0	25
ORD's programs and impact are widely known in Utah.				
• Number of impressions across social media platforms	272,354	250,000	454,130	250,000
• Number of earned media stories	137	125	166	150
ORD employees are active in process improvement efforts to deliver ORD programs more effectively and efficiently.				
• Percent of employees active in process improvement efforts	84%	90%	81%	90%
ORD supports learning and growth among employees by investing in employees' professional development.				
• Percent of employees enrolled in professional development training or experiential learning opportunities	95%	75%	77%	90%
ORD works with key stakeholders to ensure SLCo's canyon landscapes and ecosystems are healthy and resilient.				
• Number of canyon stewardship projects in which ORD is engaged.	7	10	2	7
[New] HCD-funded projects result in the preservation of multifamily affordable housing units in SLCo.				
• Number of multifamily units receiving rehabilitation services	0	96	33	96
• Number of months of rental subsidy provided to preserve affordable housing units	254	960	254	1,011
[New] HCD-funded projects result in the preservation of owner-occupied affordable single family housing units in SLCo.				
• Number of owner-occupied units receiving rehabilitation services	100	96	32	96
[New] HCD-funded projects result in new affordable housing units				
• Number of new units created and occupied by qualified households	0	120	0	120
[New] HCD-funded projects provide economic stability to low- to moderate-income households				
• [New] Number of low- to moderate-income families assisted with childcare through SLCo's annual HUD allocation	0	0	325	600

• [New] Number of low- to moderate-income people with new or improved access to infrastructure services funded through SLCo's annual HUD allocation	9,980	0	3,207	6,000
• [New] Number of low- to moderate-income people served by public facilities funded through SLCo's annual HUD allocation	9,380	0	7,280	6,000
[New] SLCo uses a reasonable amount of public funds to support economic development in the community				
• [New] The percentage of County property tax revenue that is diverted for participation in Tax Increment Financing (TIF) projects	-	-	7.1%	7.4%
• [New] Amount of annual mitigation payments from tax increment financing (TIF) projects in the prior tax year	0	0	2,963,586	3,289,580
• [New] Total number of all types of tax increment financing (TIF) project areas where SLCo diverts tax increment, reported for prior tax year	0	0	71	70
[New] SLCo enhances environmental health and economic opportunity with brownfields remediation funds				
• [New] Number of brownfields remediation loan agreements signed	0	0	2	1
• [New] Revolving Loan Funds (RLF) money disbursed for remediation projects	0	0	579,628	500,000
• [New] Year-end balance of program income for EPA Revolving Loan Funds (RLF)	0	0	1,197,829	825,452
[New] SLCo identifies environmental risks and informs strategic real estate decisions				
• [New] Number of brownfield parcels assessed with federal assessment grant funds	0	0	47	25
• [New] Total federal grant dollars expended on brownfield parcel assessments	0	0	137,000	200,000
[New] SLCo Economic Development is a trusted and active community partner				
• [New] Number of meetings with municipal and non-profit partners on Economic Development projects	0	0	22	50
[New] SLCo effectively advocates for community needs and informs emerging state legislation				
• [New] Number of state legislative bills analyzed by ORD and actively tracked	44	0	139	140
• [New] Number of state legislative bills in which ORD worked with bill sponsors and co-sponsors, other legislators, fiscal analysts, attorneys, intergovernmental relations managers, and/or other stakeholders to communicate SLCo's needs and priorities.	8	0	12	20
Influence Water Conservation in SLCo. [Transformational Initiatives]				
• WC Square feet of retrofit funded for waterwise landscaping	236,021	700,000	245,549	700,000
• WC Number of jurisdictions receiving grant funds	12	10	13	10
• WC Percentage decrease in water use	79%	-	79%	10%
SLCo residents have safe and energy efficient homes [Transformational Initiatives]				
• GHHI Housing units with energy efficiency improvement projects	35	41	57	89
• GHHI Reduction in annual utility consumption	26%	25%	25%	25%
• GHHI Housing units with abatement of harmful substances	13	50	45	45
• GHHI Percentage of households where all outreach material and translation services are made available in the language spoken in the household	100%	100%	100%	100%
SLCo helps unemployed and underemployed low-income SLCo residents get better jobs. [Transformational Initiatives]

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)							
Request ID and Description					FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
0	[31-37948]	REDUCTION AMOUNT	Cut the WFRC Transportation and Land Use Connection (TLC) Grants		-	-	(300,000)
	Cut the WFRC Transportation and Land Use Connection (TLC) Grants.						(Yes)
1	[31-37090]	GRANT TRUE-UP	ORD Revenue True Up		-	(3,808)	(3,808)
	[Exp: -792,912; Rev: -789,104] Revenue/Grant True Up: This adjustment aligns projected revenue and expenditures across all ORD divisions to reflect updated forecasts and actual program activity for 2026. The adjustment includes modifications to various grant programs to account for operational changes, and revised revenue projections based on current program performance and funding availability. These routine adjustments ensure our budget accurately reflects anticipated grant activity and program delivery capacity across the department's five divisions, with the net impact resulting in a small balance returning to the General Fund.						(Yes)
2	[31-37529]	GRANT TRUE-UP	Fund 110 - Reduction in EPA Revenue and Expense		-	-	-
	[Exp: -1,301,000; Rev: -1,301,000] Request reflects a decrease in loan volume for the EPA Assessment Grant and Revolving Loan Fund Grants in 2026. This reduction will result in corresponding decreases to both revenue and expenditures, with no net impact to General Fund.						(Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
3	[31-37144] GRANT TRUE-UP CLOSEOUT - ERAP 2 Grant funds and expenses [Exp: -4,263,512; Rev: -4,263,512] Closeout of the Emergency Rental Assistance Program grant as the program is ending and no further revenue and expense budgets are required. As part of this request there will be the ending of a TL employee funded by the grant.	(1.00)	-	(1,859) (Yes) (1.00) FTE
4	[31-37134] REVENUE PROJECTION CHANGE REDUCTION - RDA TL FTE Grade [Exp: -100,000; Rev: -100,000] Magna Main and Magna Arbor Park, the two remaining active RDA projects, were transferred to Magna City on July 1, 2024. This adjustment reduces the time-limited position associated with administration of these projects.	(1.00)	-	(2,422) (Yes) (1.00) FTE
5	[31-37672] TECHNICAL ADJUSTMENT VW Settlement This request is to recognize the un-assignment of restricted funds to support year two of the three years approved from the VW financial settlement money to support the time-limited Environmental coordinator. The coordinator directly supports the creation and management of a cross-departmental sustainability working group being established following a 2023 assessment of sustainability initiatives. This position convenes stakeholders, documents progress, advances initiatives and tracks performance against established goals and objectives. Goal of this position within ORD's Sustainability Division is to generate an action plan and provide strategies for long term county resiliency and environmental stability.	-	(106,746)	(106,746) (Yes)
6	[31-37572] NEW REQUEST Pre-Apprenticeship Program 2026 The Pre-app Program will be assigning its underspend in 2025 of \$471,300 to be used in Fiscal Year 2026. This budget reflects a net reduction from the prior year's original allocation due to lower-than-anticipated expenditures in 2025. By carrying forward these underspent funds into 2026, the program will maintain continuity of services while ensuring responsible stewardship of allocated resources. This packet also adjusts base budget back to only recognize the roll forward of funds making this overall neutral for 2026.	-	-	- (Yes)
7	[32-37757] STRESS TEST REDUCTION Stress Test 2.5% - WFRG Previously excluded from the base budget and adopted on a yearly basis, this should now be incorporated into the base budget in accordance with changes broached in the 2025 budget adoption. Annual contribution to Wasatch Front Regional Council (WFRG) for the Transportation and Land Connection (TLC) grant program. WFRG contributes substantially through in-kind staff time. The program's other financial contributing partners are UTA and UDOT. The program awards approximately \$1.6M annually in technical assistance grants to local governments to plan for growth and to mitigate the negative impacts of it. The program will likely remain critical to support cities as they implement new Moderate Income Housing Plans, Station Area Plans, and as they revise General Plans to include water conservation action steps mandated in state code.	-	(177,766)	- (No)
8	[32-37759] STRESS TEST REDUCTION Stress Test - WFRG Previously excluded from the base budget and adopted on a yearly basis, this should now be incorporated into the base budget in accordance with changes broached in the 2025 budget adoption. Annual contribution to Wasatch Front Regional Council (WFRG) for the Transportation and Land Connection (TLC) grant program. WFRG contributes substantially through in-kind staff time. The program's other financial contributing partners are UTA and UDOT. The program awards approximately \$1.6M annually in technical assistance grants to local governments to plan for growth and to mitigate the negative impacts of it. The program will likely remain critical to support cities as they implement new Moderate Income Housing Plans, Station Area Plans, and as they revise General Plans to include water conservation action steps mandated in state code.	-	(122,234)	- (No)
9	[32-37819] STRESS TEST REDUCTION Stress Test - Kem Garner Previously excluded from the base budget and adopted on a yearly basis, this should now be incorporated into the base budget in accordance with changes broached in the 2025 budget adoption. County identified as Partner in the Community, Legacy Level includes recognition in KGPI collateral; ex-officio plane on KGPT Advisory Board, Blog feature, VIP seating to KGPI events, advance notice of research/products relevant to SLCo, and enables the involvement of senior members of KGPI staff to collaborate with the county's budget team to prepare semi-annual economic forecasts.	-	(55,530)	- (No)

CORE MISSION

The Office of Regional Development works in a coordinated manner to address issues of regional significance in Planning and Transportation, Housing, Economic Development and Environmental Sustainability. With these areas consolidated into a single service line, Salt Lake County is well-positioned to strategically drive regional solutions to current and future challenges in order to ensure a high quality of life for Salt Lake County residents.

OUTCOMES AND INDICATORS

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)					Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37450]	GRANT TRUE-UP	Fund 125 True Up - 1027 HCD RLF		General Fund Neutral: This budget adjustment is a standard annual process we use to set up our budget to properly utilize program income collected from our federal CDBG (Community Development Block Grant) and HOME grant programs. The adjustment organizes existing fund balance in Fund 125 so we can spend the program income we've earned from these grants in accordance with strict federal compliance requirements and timeliness rules.	-	316,085	316,085 (Yes)
2	[31-37452]	GRANT TRUE-UP	Fund 320 True Up		General Fund Neutral: This budget adjustment organizes existing fund balance and prior year allocations from Bluffdale to execute our approved housing plan under Interlocal Agreement Resolution No. 6142. The adjustment aligns Fund 320 expenses with planned ADU initiatives using dedicated Bluffdale resources, funds the critical housing trust fund manager salary allocation needed to administer these programs FUTURE YEARS ADJUSTMENT: -2,400,000	-	2,389,934	2,389,934 (Yes)
3	[31-37573]	GRANT TRUE-UP	Fund 125 True Up - 1029 EPA RLF		[Exp: -1,250,000; Rev: -1,118,148] General Fund Neutral: Adjustment aligns projected revenue and expenditures for the EPA Revolving Loan Fund. Loan activity in 2026 is anticipated to be lower; however, program income is expected to increase as repayments from previously issued loans are realized. Due to the extensive requirements of the EPA program, identifying eligible projects often requires additional time, resulting in reduced expenditure needs in the near term. Loans issued during the current year are projected to generate increased program income in 2026.	-	(131,852)	(131,852) (Yes)

CORE MISSION

Mayor's Financial Administration promotes the financial health of Salt Lake County Government by maintaining accurate financial information and following internal and external regulations to safeguard assets. These actions help secure the highest possible credit rating for the County.

We strive to be dedicated strategic partners who champion shared initiatives, provide fiscal guidance, and demonstrate leadership to all county stakeholders. We communicate clearly with our customers, hold ourselves accountable, and serve employees, the community, and outside investors for the collective success of Salt Lake County.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County is in excellent financial health				
• Maintain the highest (AAA) bond rating for the County's general obligation debt from the major bond rating agencies.	100%	100%	100%	100%
• SLCo debt issued with interest cost lower than all comparable structured debt issuances. Measured in basis points better/(worse) than the lowest interest cost comparable in the same timeframe. (N/A for 2024 and 2025 - no debt issued to date).	0	1	0	1
Mayor's Financial Administration is a dedicated strategic partner				
• Average strategic partner rating on our customer service surveys.	8.3	9	8.22	9
• Increase the cumulative funding provided by private enterprises through new markets tax credit transactions or contributions to the Salt Lake County Foundation, to the benefit of participating County funds.	18,857,000	14,000,000	0	14,000,000
Mayor's Financial Administration provides relevant, accurate and timely financial information				
• Percentage variance (±) of sales tax projections to actuals.	1.1%	2.5%	2.4%	2.5%
• Maintain the annual GFOA Certificate of Achievement for excellence in financial reporting on the ACFR. (award lags ACFR publish date by 1 year).	100%	100%	100%	100%
Salt Lake County employees' access and understand the critical messages distributed by Internal Communications				
• Maintain a yearly engagement average of 55% on countywide EmpComms communication messages.	59%	55%	-	55%
• Percentage of employees signed up for InformaCast emergency messaging.	36.6%	40%	-	40%
Deliver a countywide Employee Appreciation Day event that employees can enjoy and feel appreciated.				
• Average employee day event satisfaction rating from employee survey.	4.11	4.11	0	4.11
• Maintain or increase attendance for Employee Appreciation Day.	1,350	1,350	0	1,350

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
0	[31-37950]	NEW REQUEST Director of Operational Excellence To work in connection with the CFO, the Budget team, and the CFO financial consulting contract to optimize the efficiency of countywide of agencies and organizations. FUTURE YEARS ADJUSTMENT: -2,200	-	-	250,438 (Yes) 1.00 FTE
1	[31-37925]	NEW REQUEST 1 FTE Payroll Administrator This request is for an FTE Payroll Administrator position. In recent years the total number of employees they are processing Payroll for has increased, from less than 9,000 in 2020 to 10,323 in 2024. Even before that increase this staff has consistently been stretched very thin. Since 2017 the Payroll staff has averaged almost \$23,000 of overtime per year. This has resulted in work/life balance issues for the staff, with them often working 50 hours or more on payroll processing weeks. Such weeks that include a holiday are particularly difficult, with the staff being forced to work very long hours, flex their schedules in very challenging ways, and bank their holiday time off. Currently they have a holiday bank balance of almost 100 hours. An additional FTE would help to alleviate these issues by spreading the workload out to more manageable levels. Note that although this is a new request, the Mayor Finance personnel base budget is reduced by over \$149k from the prior year due to savings from employee turnover, health insurance choices, etc. A reduction to the Mayor Finance overtime budget to partially offset the cost of this new position could also be considered.	0.75	81,273	101,110 (Yes) 1.00 FTE
1	[31-37937]	NEW REQUEST Budget Project Analyst FTE The budget team is challenged by workload. Even fully staffed the team is stretched, with 2 vacant FTE's as of early September. The central team is currently also managing five division budgets on top of normal central budgeting duties. Add to this the largest construction project the County has ever undertaken by a factor of 15 times. The team needs immediate assistance. This budget manger position would handle the project budgeting and accounting as well as other duties as assigned.	-	-	152,586 (Yes) 1.00 FTE
2	[31-37926]	NEW REQUEST CFO Consulting Funding for financial consulting services to strengthen our capacity in key areas that require specialized expertise and timely support. The scope and complexity of the County's financial operations continue to grow, and external consulting support has become essential for meeting our obligations and advancing strategic initiatives. Additional consulting resources will enable Mayor's Finance to: • Address specialized technical needs – such as complex accounting treatments, compensation and benefits, and compliance with evolving reporting standards. • Advance strategic initiatives – including long-term financial planning, budget development, community engagement, and efficiency of financial operations. • Mitigate risks – by ensuring independent review and expert validation of financial assumptions, projections, and controls. While internal staff remain the primary resource for ongoing operations, targeted use of consultants allows Mayor's Finance to access specialized skills on demand without long-term staffing commitments. The requested budget increase will ensure we can respond effectively to emerging needs, maintain compliance, and provide the high level of financial stewardship expected by policymakers and the public.	-	128,000	128,000 (Yes)
3	[32-37936]	STRESS TEST REDUCTION Budget Stress Test Scenario - Withdraw Request for CFO Consulting In the event of budget reductions, the new request for consulting funding would be withdrawn prior to any base budget reductions.	-	(128,000)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	[32-37935] STRESS TEST REDUCTION Payroll Administrator Budget Stress Test Scenario - Withdraw Request for .75 FTE In the event of budget reductions, the new .75 FTE request would be withdrawn prior to any base budget reductions.	-	(81,273)	- (No)
5	[32-37934] STRESS TEST REDUCTION Possibilities Budget Stress Test Scenario - Base Budget Reduction To meet the stress test, a reduction of 3 FTE and associated operating costs would be needed. Impact Statement: The loss of these FTE would impact multiple areas in Mayor's Finance and would result in a reduction in the staff's ability to meet critical accounting, payroll or other finance responsibilities outlined in statutes and policies, as well as impacting customer requests. Mayor's Finance staff is currently working at or above capacity. This is not recommended at this time.	-	(306,909)	- (No)

			Update interest revenue in key funds.			(Yes)
0	[33-37965]	NEW REQUEST	Property Tax Increase for Countywide Funds	-	-	(37,626,745)
			Salt Lake County intends to levy a tax rate that exceeds Salt Lake County's certified tax rate.			(Yes)
			The dollar amount of additional ad valorem tax revenue (property tax) that would be generated by the proposed increase in Salt Lake County's certified tax rate is \$48,900,000. The purpose of the proposed increase is to address inflationary pressures and rising operational costs associated with essential county services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center.			
			The approximate percentage increase in ad valorem tax revenue for Salt Lake County based on the proposed increase is 19.63%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	650	[31-37524] NEW REQUEST	Facilities Trade Rate Increase	-	(1,961,250)	(1,961,250)
		Facilities Services				(Yes)
		This increase to our revenue is from the trade rate increase we presented to the Revenue Committee.				
		• Last rate increase was in 2020 • Inflation 2020-2025 has totaled over 19% • Facilities Services has had losses of \$4M over the last 3 years. • Continued strong construction economy • Nationwide shortage of qualified trades people • Salary grade increases for all our trade staff to remain competitive in our hiring				
2	650	[31-37510] NEW REQUEST	Telecommunications Rate Increases	-	(353,088)	(353,088)
		Telecommunications				(Yes)
		The Salt Lake County (SLCo) enterprise phone system is a critical service, supporting citizen access to government resources and services, internal collaboration, business continuity, and public safety and emergency communications. Over the past nine years, the Information Technology (IT) Telecommunications team has successfully absorbed annual increases in personnel, licensing, and maintenance costs—maintaining this essential service without raising rates and without compromising reliability or support.				
		However, considering current fiscal realities, the historical quality and level of service provided cannot be sustained without a modest rate increase, which has remained unchanged for almost a decade.				
		SLCo IT proposes to increase the VOIP rate from \$22 to \$24 monthly per line and the labor rate from \$107 to \$110 per hour which will enable the Telecommunications team to:				
		• Keep pace with increasing personnel, licensing, and support costs • Maintain a high level of service and system reliability • Sustain features that support hybrid work and operational flexibility • Reinvest in infrastructure for long-term resilience and sustainability				
		This recommendation reflects our continued commitment to fiscal responsibility, innovation, and uninterrupted service delivery, both now and for the future.				
3	110	[31-37490] NEW REQUEST	Hardware & Software Maintenance Increases	-	1,162,446	1,162,446
		Information Technology	[Exp: 2,991,966; Rev: 1,829,520]			(Yes)
		Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. A significant portion of the requested increase is due to the asset recognition requirements in GASB 96 (SBITA) which are offset by OFS revenue. The net requested increase to expenses is \$1,162,446. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.				
		FUTURE YEARS ADJUSTMENT: [Exp: -1,829,520; Rev: -1,829,520]				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	650	[31-37505] NEW REQUEST Hardware & Software Maintenance Increases Telecommunications Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.	-	176,800	176,800 (Yes)
5	110	[31-37337] NEW REQUEST Critical Mainframe Tax Support Services Information Technology The County's mainframe-based Tax System is currently maintained by a small group of highly specialized analysts. This creates a substantial risk, as essential system knowledge is concentrated among just a few individuals whose departure could significantly impact operations. Given the County's continued reliance on the mainframe-based tax system for at least the next four years, sustained support from these experts is critical. In addition to staffing concerns, a failed or unsupported tax system carries broader operational, financial, and reputational risks—including revenue collection failures, delayed payments, data corruption, compliance violations, and potential loss of public trust. These risks could disrupt essential services, increase audit exposure, and reduce the County's ability to respond to taxpayer needs. To address these risks, we recommend leveraging Business Process Management (BPM) to utilize a 3rd party to support the County's mainframe-based Tax System. FUTURE YEARS ADJUSTMENT: -150,000	-	800,000	800,000 (Yes)
6	110	[31-37342] NEW REQUEST Disaster Recovery Increase Information Technology Salt Lake County's (SLCo) Information Technology (IT) Disaster Recovery (DR) capabilities are a critical safeguard against operational disruptions, cyber incidents, natural disasters, and system failures. However, the DR budget has remained flat for the past 13 years despite significant changes in technology, business operations, regulatory requirements, and risk exposure. Continuing without an appropriate budget increase threatens the reliability, relevance, and effectiveness of our recovery posture.	-	190,000	190,000 (Yes)
7	110	[31-37348] NEW REQUEST Tax Modernization Program Information Technology TI (Transformational Initiative) funding for this project is expiring at the end of 2025 and needs to be replaced for 2026. The TORUS modernization project aims to replace the County's aging mainframe-based Tax System with a more flexible, efficient platform that meets evolving business and regulatory needs. While development has been underway for several years, full implementation is expected to continue through 2028. The primary objective is to deliver a Minimum Viable Product (MVP) that enables the Tax Office to begin using the new system as quickly as possible, followed by ongoing enhancements. Significant progress has been made, with new features regularly released.	-	408,267	408,267 (Yes)
8	110	[31-37270] NEW REQUEST Real Estate Personnel Annualization Real Estate The personnel budget increase is due to the annualization of the Real Estate Director position, which was reclassified from a merit-based "Permanent and Provisional" role to an "Appointed" position. This strategic reclassification was necessary to address persistent hiring challenges and to provide the flexibility required to offer a competitive compensation package. The reclassification resulted in a significant cost increase, but it was essential to attract and retain a candidate with the specialized skills and experience required for this critical role. Without this adjustment, it became increasingly difficult to recruit a qualified professional capable of meeting the demands of the position. The Real Estate Office is responsible for managing multi-million dollar transactions on a regular basis. This work requires a high level of expertise in market analysis, complex negotiations, and the ability to oversee multiple high-profile projects simultaneously. The depth and scope of responsibility associated with this role justify the enhanced compensation, as it ensures the office is led by someone with the necessary qualifications to protect and advance the County's real estate interests.	-	55,245	55,245 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
9	110	[31-37124] NEW REQUEST FTE Request - Outreach/Digitization Archivist (Existing TL Position) Records Management & Archives The time-limited Real Estate Analyst/Archivist position has been critical to Salt Lake County's ongoing digitization and preservation efforts. Through a successful partnership between Regional Development and Records Management and Archives, this role has supported the digitization of large volumes of essential property and tax appraisal records—work that is currently 73% complete, with 227 boxes still pending. As the County prepares to relocate to the new Midvale campus, demand for digitization and records support is increasing. New partnerships are forming with agencies such as the Recorder's Office, Health Department, Sheriff's Office, and Library Services. This growing need highlights the importance of maintaining this position. We are requesting a full-time Outreach/Digitization Archivist to continue current projects and provide critical support for expanding digitization needs. Without this position, our capacity to serve county agencies, meet records access goals, and support the Midvale transition would be significantly reduced.	1.00	88,635	90,040 (Yes) 1.00 FTE
10	110	[31-37384] NEW REQUEST Buyer to Sr. Buyer Reclassification Request Contracts And Procurement Contracts & Procurement oversees complex procurement projects that require higher level skills. Over the last 13 years, we have given up a couple FTE's and now find that to continue to provide the level of service county agencies have come to expect, we need to recruit high skilled employees. Especially as we face the possibility of losing experienced staff in the future.	-	36,350	37,116 (Yes) 0.00 FTE
11	110	[31-37291] NEW REQUEST Real Estate Positions Reclassifications + Reorg Real Estate Real Estate is requesting to reclass it's existing positions to meet the office and our customers needs. Office Specialist GEN 012 to Real Estate Operations Manager GEN 017: The reclassification of this position is warranted due to the County's vision and priorities evolving from a "maintain and manage" real estate culture to one focused on growth and development. This position requires advanced technical expertise and a higher level of responsibility than is currently represented in the Real Estate management structure to advance those goals of growing the County's real estate portfolio. The position not only requires specialized knowledge of real estate laws, regulations, and valuation practices, but also involves oversight of multiple, complex real estate transactions simultaneously, including acquisitions, dispositions, and lease negotiations. These duties demand a higher degree of independent judgment, problem-solving, and strategic decision-making. This position will serve as a leadership role overseeing the day-to-day operations of the office, with the Real Estate staff reporting directly to it. Reclassifying the role to a Real Estate Operations Manager GEN 017 appropriately aligns the classification with the technical skills, professional knowledge, and scope of responsibility essential to successfully perform the position. Our intention is to promote our current Real Estate Asset Manager into this new management role. - \$78,277.03 Real Estate Asset Manager GEN 016 to Real Estate Specialist GEN 014: Once the Real Estate Asset Manager GEN 016 is vacant the intention is to reclassify it to a Real Estate Specialist GEN 014. As mentioned above, the needs of Office have evolved and require the specialized knowledge and technical expertise of a second Real Estate Specialist (GEN 014). This second Real Estate Specialist is needed to provide the necessary transactional support as our initiative and vision focuses on the growth and development of Salt Lake County's Real Estate portfolio. The position will be responsible for coordinating and managing real estate-related activities, including property research, transaction support, lease administration, and contract tracking, which require a solid understanding of real estate principles, terminology, and practices. These duties directly support the County's real estate portfolio and decision-making processes. Reclassifying the position to a Real Estate Specialist will ensure the role is properly aligned with the current needs and vision of the County. (\$39,665.03)	-	38,613	41,798 (Yes) 0.00 FTE
12	110	[31-37349] NEW REQUEST SharePoint Modernization Information Technology SharePoint (SP) is a vital enterprise platform for Salt Lake County (SLCo), centralizing content management, collaboration, and workflow automation across departments. Over the years, SP has digitized and streamlined numerous critical functions, and its role is expected to expand as more business processes adopt its capabilities. Currently, SLCo operates a hybrid SharePoint environment—combining cloud-based SharePoint Online (SPO) with a version of on-premises SharePoint. This setup requires a managed gateway to enable automation, data retrieval, and metadata synchronization between platforms. Maintaining and integrating these disparate environments has become increasingly complex, resource-intensive, and unsustainable. To address these challenges, SLCo Information Technology strongly recommends a full migration of County content to SharePoint Online, supplemented by alternative low-cost storage where appropriate. FUTURE YEARS ADJUSTMENT: -8,516	-	54,558	54,558 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
13	110	[31-37381] NEW REQUEST	Certificate Management System Information Technology Digital certificates are electronic credentials that authenticate the identity of and enable encryption between websites, devices, services, and users in online communications. They act as virtual passports, ensuring secure connections and data transfers across networks. These certificates, which include common types like SSL/TLS certificates for websites, are crucial for maintaining cybersecurity, protecting sensitive information, and establishing trust in digital interactions. A certificate management system is essential for our organization to: 1. Improve security: Prevent certificate expiration and potential security breaches. 2. Increase efficiency: Automate certificate lifecycle management, reducing manual work. 3. Ensure compliance: Meet regulatory requirements and industry standards. 4. Reduce costs: Avoid downtime and penalties associated with expired certificates. 5. Enhance visibility: Gain a centralized view of all certificates across the organization. Implementing this system will streamline operations, minimize risks, and provide a strong return on investment through reduced errors and improved resource allocation.	-	70,400	70,400 (Yes)
14	110	[31-37397] NEW REQUEST	MS-ISAC Membership Information Technology Federal Funding Cuts to this program necessitate charging for memberships going forward. The IT Division relies on the Multi-State Information Sharing and Analysis Center (MS-ISAC) program for timely and critical intelligence on cyber threats targeting state, local, tribal, and territorial (SLTT) governments, information on required prevention and remediation steps, education on cyber topics, and collaboration with other SLTT entities. Due to the unexpected federal funding cuts of its budget, MS-ISAC is rapidly pivoting to a paid membership model in an effort to continue providing services to SLTT agencies. The cost for a membership for an entity the size of Salt Lake County is \$10,000/year. These unique services are not available from any other source.	-	17,000	- (No)
15	110	[31-37422] NEW REQUEST	Cyber Security Engineer FTE Information Technology Our current cyber security team of seven analysts is operating significantly beyond sustainable capacity due to the convergence of multiple factors: an escalating threat environment, expanding internal security requirements, and growing external service obligations. The team is simultaneously managing our internal security posture while providing critical assessments and compliance services for other agencies. With cyber attacks increasing year-over-year, this dual internal-external workload has created unsustainable demands that compromise both service quality and team resilience. Adding another Cyber Security Engineer II to the IT Security Team will allow us to meet the challenge of providing cybersecurity services for all County agencies and other agencies on our network.	1.00	197,663	199,945 (Yes) 1.00 FTE
16	110	[31-37298] NEW REQUEST	Social Media Preservation Software Records Management & Archives Salt Lake County remains at ongoing risk of non-compliance with public records laws and potential loss of critical social media content due to deletion, hidden posts, internal error, or malicious activity. Without a real-time archiving solution, content can be permanently lost before it can be properly preserved or retrieved. To mitigate this risk, we previously implemented a cloud-based social media archiving service that captures and stores content in real time, ensuring compliance with GRAMA and other records retention requirements. This service has provided a reliable and legally defensible solution for preserving official county communications shared via social media platforms. We are now seeking funding to renew this service, either through a sole source procurement or competitive RFP, to maintain this essential compliance function. Without continued archiving, the County risks data loss, legal exposure, and gaps in public transparency.	-	14,000	14,000 (Yes)
17	110	[31-37398] NEW REQUEST	Quality Assurance FTE Information Technology Since 2021, the IT division has relied on a temporary, then time limited employee to support application development as the IT Quality Assurance Engineer. Even though this individual has primarily worked on the TORUS project they have also provided invaluable support to other IT groups, including the IT Web Team. The Quality Assurance position has implemented and matured the quality assurance process and demonstrated the value of a capable QA function by guiding development efforts and ensuring released products meet customer needs and expectations. The demand has increased for quality management and the continued development and growth of projects such as TORUS and ongoing web solutions would not have met the expected quality levels and delivery without this position. The workload continues to increase, and the number of new projects that need quality management has grown, to the point that the ability of one TL is being stretch to a limit of effectiveness, so an additional merit FTE is being requested. (The TL position ends in 2027, and the FTE would be needed on-going after that.)	1.00	197,663	199,945 (Yes) 1.00 FTE

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
18	110	[31-37424] NEW REQUEST Password Management System Information Technology Passwords are the primary line of defense for employees to protect County information and assets. While being a valuable tool in the fight against cyber-attacks they are also a vulnerability. Our current password management system is outdated and lacks essential features, prompting the need for a new solution that includes self-service password reset functionality, enhanced security through stronger password policies, identity verification for password resets, and compliance with data protection regulations and industry standards. Password resets are the second most common call the IT Service Desk receives every year, with a technologist required to spend approximately 5 minutes on each call. In the last year, this was approximately 198 hours spent resolving password concerns. Furthermore, when our partners experience password issues after normal business hours, their options for resolving the problem are limited. Finally, our current self-service password tool doesn't check password quality, and as a result, the IT Security Team must run repeated manual audits of passwords and assist employees who have chosen a poor password to update it. Besides being a security concern, it results in a waste of time for both the Security Team and the employees.	-	60,000	60,000 (Yes)
19	110	[31-37297] NEW REQUEST Service Contract: FlexView Microfilm Scanner Records Management & Archives NextScan FlexView microfilm scanner is a critical piece of equipment used by Salt Lake County Records Management and Archives to digitize and preserve historical and legally mandated records. This scanner allows us to efficiently convert microfilm into accessible digital formats, supporting ongoing efforts to modernize records access and meet long-term preservation goals. Due to the scanner's complexity and specialized components, a service contract is essential to ensure consistent performance, minimize downtime, and protect the County's investment. Without a service agreement, equipment failure could significantly delay digitization projects, disrupt access to records, and increase repair costs. A service contract provides timely technical support, routine maintenance, and necessary software/firmware updates—ensuring the scanner remains reliable and effective for high-volume use. Continued support is vital to maintaining productivity and meeting agency expectations for timely access to digital records.	-	3,870	3,870 (Yes)
20	110	[31-37426] NEW REQUEST Security Information Event Management Service Information Technology Salt Lake County (SLCo) Information Technology (IT) Division lacks a managed Security Information and Event Management system (SIEM). A SIEM is an industry standard used by IT Security Teams to collect and correlate logs from various sources, including workstations, servers, network equipment, firewalls, and authentication services. This type of tool is critical as it provides richer and more comprehensive intelligence information, which is not available when manually examining logs from each disparate system.	-	42,000	42,000 (Yes)
21	110	[31-37428] NEW REQUEST Security Compliance Analyst FTE Information Technology As other agencies have scaled back their roles in providing compliance oversight and advisory services, the IT department has increasingly been called upon to bridge these gaps—particularly in the areas of PCI, HIPAA, Data Privacy, and CJS Security Policy—despite lacking the dedicated resources to do so effectively. This proposed position would not assume ownership of the associated business systems but would serve as a subject matter resource, maintaining awareness of evolving regulatory requirements, advising agencies on their applicability within specific operational contexts, and coordinating the implementation of corresponding technology controls.	1.00	174,171	176,255 (Yes) 1.00 FTE
22	110	[31-37431] NEW REQUEST Migration of Privileged Access Management System to SaaS solution in the Cloud Information Technology Our organization needs to protect its most sensitive systems and data by carefully controlling access to administrative accounts. We currently use a security system that has been working well since 2017 to manage these high-level accounts, verify user identities, and track all activities. However, our current system requires significant time and resources to administer taking time from more critical Cyber tasks. Additionally, it is on-premise; if our main data center experiences a major outage, our current system could become unavailable when we need it most. The Solution: We propose moving our security management system to a cloud-based platform. This change would: • Reduce costs and workload: Eliminate the need to maintain and license our own servers and databases, freeing up our security team to focus on protecting the organization • Improve reliability: Ensure our security system stays operational even during major outages or disasters • Enhance remote access: Enable secure, streamlined access for external vendors and partners without compromising security This upgrade represents a strategic investment in both our security infrastructure and operational efficiency, allowing us to better protect our organization while reducing ongoing maintenance burdens.	-	128,475	128,475 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
23	110	[31-37438] NEW REQUEST	Business Analyst FTE Information Technology Salt Lake County IT is requesting the addition of a merit Business Analyst (BA) position to meet increasing demand for business analysis services across the organization. While the County currently relies on a team of Business Analysts—including a Time-Limited position in place through 2027—current staffing levels are not sufficient to keep pace with the needs of emerging initiatives such as PUMA (Premier Utah Mass Appraisal) with other counties and the broader support needs of other departments. The success of the TORUS project has demonstrated the value of dedicated analysis support, and expanding our capacity now will help sustain that success across multiple departments. Adding a merit BA position will improve project delivery, reduce risk, and ensure timely, informed decision-making for County programs.	1.00	174,171	- (No)
24	110	[31-37439] NEW REQUEST	Accessibility Compliance Tool Information Technology The Federal Government passed the Plain Writing Act in 2010, requiring federal agencies to evaluate and improve web content for readability by reducing the target reading grade level, typically to the 5th-6th grade level. The State of Utah is actively promoting this accessibility standard and has introduced rules and requirements across various areas that mandate plain writing standards. The SLCO web team has been working to enhance the accessibility of our public-facing websites. Currently, most of the content is written at a high school graduate level or higher. While many aspects of Americans with Disabilities Act (ADA) compliance are more apparent, plain language is a crucial component. ADA lawsuits are increasing, and local governments are often targets of these legal actions. SLCO lacks a tool to help web authors and other content creators evaluate and ensure that content is provided at an appropriate reading level. Implementing a solution that facilitates the consistent application of plain language standards will improve website readability and better serve the public.	-	23,000	23,000 (Yes)
25	110	[31-37442] NEW REQUEST	Web Experience Analyst FTE Information Technology The redesign of our website, encompassing nearly 80 subsites for various departments and divisions and totaling over 1,500 pages with approximately 6,000 sub-sections, has enhanced the user experience. However, maintaining consistent branding and content quality is challenging due to reliance on 100 web content authors from different divisions, many of whom do not specialize in web experience management. Authors revert to old site structures, which contradict web guidelines and standards. Although training is provided, infrequent site updates lead to inconsistent retention of this knowledge. To address these challenges and ensure brand consistency, we propose establishing a dedicated role: Web Experience Analyst. This individual will monitor our pages and sub-sections, promote alignment with branding guidelines, collaborate with authors, provide guidance, and serve as the initial contact for content-related inquiries, thus contributing to an accessible and cohesive experience for our constituents.	1.00	138,488	140,271 (Yes) 1.00 FTE
26	650	[31-37584] TECHNICAL ADJUSTMENT	Cisco Flex and Cisco Contact Center SBITAs Telecommunications Balance sheet budget needed to make annual contract payments on the Cisco Flex and Cisco Contact Center Express SBITA agreements. Balance Sheet Acquisition: \$264,498	-	-	- (Yes)
27	650	[31-37567] NEW REQUEST	Facilities Trade Rate Increase Government Center Operations Facilities will be increasing their trade rates and we have estimated the impact to Government Center and the Coliseum will be \$500,000. Due to the aging nature of the Government Center we feel it is important to maintain the same level of service. Also, if we start reducing the Coliseum budget before we have even moved in, we will be forced to defer the non-mandatory maintenance,	-	500,000	500,000 (Yes)
28	650	[31-37568] NEW REQUEST	Government Center Utility Increase Government Center Operations Per our energy manager, there will be increase of utility costs for Power and Gas. As such, we are requesting additional funds to keep this budget whole.	-	116,000	116,000 (Yes)
29	650	[31-37570] NEW REQUEST	Janitorial Increase Government Center Operations We are currently in the process of identifying a new janitorial contract. Based on the inflation of the last 5 years this amount is an estimate to cover the increase we will see under the new contract.	-	67,636	67,636 (Yes)
30	650	[31-37566] NEW REQUEST	Fleet Levy Increase Government Center Operations Increase needed to cover the additional cost of the Fleet Levy with increasing vehicle prices.	-	1,199	1,199 (Yes)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
61	110	[32-37610] STRESS TEST REDUCTION Cyber Security Engineer FTE Information Technology Our current cyber security team of seven analysts is operating significantly beyond sustainable capacity due to the convergence of multiple factors: an escalating threat environment, expanding internal security requirements, and growing external service obligations. The team is simultaneously managing our internal security posture while providing critical assessments and compliance services for other agencies. With cyber attacks increasing year-over-year, this dual internal-external workload has created unsustainable demands that compromise both service quality and team resilience. Adding another Cyber Security Engineer II to the IT Security Team will allow us to meet the challenge of providing cybersecurity services for all County agencies and other agencies on our network.	(1.00)	(197,663)	- (No)
62	110	[32-37612] STRESS TEST REDUCTION MS-ISAC Membership Information Technology Federal Funding Cuts to this program necessitate charging for memberships going forward. The IT Division relies on the Multi-State Information Sharing and Analysis Center (MS-ISAC) program for timely and critical intelligence on cyber threats targeting state, local, tribal, and territorial (SLTT) governments, information on required prevention and remediation steps, education on cyber topics, and collaboration with other SLTT entities. Due to the unexpected federal funding cuts of its budget, MS-ISAC is rapidly pivoting to a paid membership model in an effort to continue providing services to SLTT agencies. The cost for a membership for an entity the size of Salt Lake County is \$10,000/year. These unique services are not available from any other source.	-	(17,000)	- (No)
63	110	[32-37613] STRESS TEST REDUCTION Certificate Management System Information Technology Digital certificates are electronic credentials that authenticate the identity of and enable encryption between websites, devices, services, and users in online communications. They act as virtual passports, ensuring secure connections and data transfers across networks. These certificates, which include common types like SSL/TLS certificates for websites, are crucial for maintaining cybersecurity, protecting sensitive information, and establishing trust in digital interactions. A certificate management system is essential for our organization to: 1. Improve security: Prevent certificate expiration and potential security breaches. 2. Increase efficiency: Automate certificate lifecycle management, reducing manual work. 3. Ensure compliance: Meet regulatory requirements and industry standards. 4. Reduce costs: Avoid downtime and penalties associated with expired certificates. 5. Enhance visibility: Gain a centralized view of all certificates across the organization. Implementing this system will streamline operations, minimize risks, and provide a strong return on investment through reduced errors and improved resource allocation.	-	(70,400)	- (No)
64	110	[32-37695] STRESS TEST REDUCTION Real Estate Positions Reclassifications + Reorg Real Estate Real Estate is unable to self-fund the Positions Reclassification and Reorg request. Office Specialist GEN 012 to Real Estate Operations Manager GEN 017: The reclassification of this position is warranted due to the County's vision and priorities evolving from a "maintain and manage" real estate culture to one focused on growth and development. This position requires advanced technical expertise and a higher level of responsibility than is currently represented in the Real Estate management structure to advance those goals of growing the County's real estate portfolio. The position not only requires specialized knowledge of real estate laws, regulations, and valuation practices, but also involves oversight of multiple, complex real estate transactions simultaneously, including acquisitions, dispositions, and lease negotiations. These duties demand a higher degree of independent judgment, problem-solving, and strategic decision-making. This position will serve as a leadership role overseeing the day-to-day operations of the office, with the Real Estate staff reporting directly to it. Reclassifying the role to a Real Estate Operations Manager GEN 017 appropriately aligns the classification with the technical skills, professional knowledge, and scope of responsibility essential to successfully perform the position. Our intention is to promote our current Real Estate Asset Manager into this new management role. \$78,277.03 Real Estate Asset Manager GEN 016 to Real Estate Specialist GEN 014: Once the Real Estate Asset Manager GEN 016 is vacant the intention is to reclassify it to a Real Estate Specialist GEN 014. As mentioned above, the needs of Office have evolved and require the specialized knowledge and technical expertise of a second Real Estate Specialist (GEN 014). This second Real Estate Specialist is needed to provide the necessary transactional support as our initiative and vision focuses on the growth and development of Salt Lake County's Real Estate portfolio. The position will be responsible for coordinating and managing real estate-related activities, including property research, transaction support, lease administration, and contract tracking, which require a solid understanding of real estate principles, terminology, and practices. These duties directly support the County's real estate portfolio and decision-making processes. Reclassifying the position to a Real Estate Specialist will ensure the role is properly aligned with the current needs and vision of the County. (\$39,665.03)	-	(38,613)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
65	110	[32-37616] STRESS TEST REDUCTION SharePoint Modernization Information Technology SharePoint (SP) is a vital enterprise platform for Salt Lake County (SLCo), centralizing content management, collaboration, and workflow automation across departments. Over the years, SP has digitized and streamlined numerous critical functions, and its role is expected to expand as more business processes adopt its capabilities. Currently, SLCo operates a hybrid SharePoint environment—combining cloud-based SharePoint Online (SPO) with a version of on-premises SharePoint. This setup requires a managed gateway to enable automation, data retrieval, and metadata synchronization between platforms. Maintaining and integrating these disparate environments has become increasingly complex, resource-intensive, and unsustainable. To address these challenges, SLCo Information Technology strongly recommends a full migration of County content to SharePoint Online, supplemented by alternative low-cost storage where appropriate.	-	(54,558)	- (No)
66	110	[32-37456] STRESS TEST REDUCTION Buyer to Sr. Buyer Reclassification Contracts And Procurement Contracts & Procurement cannot fund the Reclassification from Buyer to Sr. Buyer. Contracts & Procurement oversees complex procurement projects that require higher level skills. Over the last 13 years, we have given up a couple FTE's and now find that to continue to provide the level of service county agencies have come to expect, we need to recruit high skilled employees. Especially as we face the possibility of losing experienced staff in the future.	-	(36,350)	- (No)
67	110	[32-37514] STRESS TEST REDUCTION FTE Request - Outreach/Digitization Archivist Records Management & Archives Records Management & Archives is unable to fund this request. To meet the stress test target, we'd need to withdraw this request. The time-limited Real Estate Analyst/Archivist position has been critical to Salt Lake County's ongoing digitization and preservation efforts. Through a successful partnership between Regional Development and Records Management and Archives, this role has supported the digitization of large volumes of essential property and tax appraisal records—work that is currently 73% complete, with 227 boxes still pending. As the County prepares to relocate to the new Midvale campus, demand for digitization and records support is increasing. New partnerships are forming with agencies such as the Recorder's Office, Health Department, Sheriff's Office, and Library Services. This growing need highlights the importance of maintaining this position. We are requesting a full-time Outreach/Digitization Archivist to continue current projects and provide critical support for expanding digitization needs. Without this position, our capacity to serve county agencies, meet records access goals, and support the Midvale transition would be significantly reduced.	(1.00)	(88,635)	- (No)
68	110	[32-37617] STRESS TEST REDUCTION Tax Modernization Program Information Technology TI (Transformational Initiative) funding for this project is expiring at the end of 2025 and needs to be replaced for 2026. The TORUS modernization project aims to replace the County's aging mainframe-based Tax System with a more flexible, efficient platform that meets evolving business and regulatory needs. While development has been underway for several years, full implementation is expected to continue through 2028. The primary objective is to deliver a Minimum Viable Product (MVP) that enables the Tax Office to begin using the new system as quickly as possible, followed by ongoing enhancements. Significant progress has been made, with new features regularly released.	-	(408,267)	- (No)
69	110	[32-37618] STRESS TEST REDUCTION Disaster Recovery Increase Information Technology Salt Lake County's (SLCo) Information Technology (IT) Disaster Recovery (DR) capabilities are a critical safeguard against operational disruptions, cyber incidents, natural disasters, and system failures. However, the DR budget has remained flat for the past 13 years despite significant changes in technology, business operations, regulatory requirements, and risk exposure. Continuing without an appropriate budget increase threatens the reliability, relevance, and effectiveness of our recovery posture.	-	(190,000)	- (No)
70	110	[32-37619] STRESS TEST REDUCTION Critical Mainframe Tax Support Services Information Technology The County's mainframe-based Tax System is currently maintained by a small group of highly specialized analysts. This creates a substantial risk, as essential system knowledge is concentrated among just a few individuals whose departure could significantly impact operations. Given the County's continued reliance on the mainframe-based tax system for at least the next four years, sustained support from these experts is critical. In addition to staffing concerns, a failed or unsupported tax system carries broader operational, financial, and reputational risks—including revenue collection failures, delayed payments, data corruption, compliance violations, and potential loss of public trust. These risks could disrupt essential services, increase audit exposure, and reduce the County's ability to respond to taxpayer needs. To address these risks, we recommend leveraging Business Process Management (BPM) to utilize a 3rd party to support the County's mainframe-based Tax System.	-	(800,000)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
71	650	[32-37629]	STRESS TEST REDUCTION Hardware & Software Maintenance Increases Telecommunications Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.	-	(176,800)	- (No)
72	110	[32-37620]	STRESS TEST REDUCTION Hardware & Software Maintenance Increases Information Technology [Exp: -2,991,966; Rev: -1,829,520] Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. A significant portion of the requested increase is due to the asset recognition requirements in GASB 96 (SBITA) which are offset by OFS revenue. The net requested increase to expenses is \$1,162,446. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.	-	(1,162,446)	- (No)
73	110	[32-37623]	STRESS TEST REDUCTION Reduce Technology Improvement Plan IT Improvement Plan Program The TIP (Technology Improvement Plan) was established to remediate an accumulated \$6 Million in technical debt and has been very successful in providing for the ongoing modernization of our IT infrastructure. This one-time reduction represents a delay in lifecycle refresh of critical systems and the commensurate accumulation of deferred maintenance (technical debt). We will be unable to replace network, server and storage equipment that is past due for replacement, which would be challenging to our equipment refresh cycle. This creates a deferred maintenance scenario and likelihood of increased hardware failures and increased security risk. Restoration of service due to equipment failures are likely cause impact to the business due to longer than normal times to obtain and replace equipment. Our limited inventory may not allow us to quickly replace failed equipment. Examples of critical systems impacted include: 1) Virtual Server Environment – Vendors have stopped making blades that work with our chassis. Planned to replace 1/3 per year over next 3 years (impacts approximately 200 servers per year), 2) On premise storage systems 3) 2026 network requests for equipment refresh were already cut by ~\$670K in order to maintain equipment refresh within the existing budget and not have to ask for more, considering our ongoing maintenance request was going to be high. Delaying refresh and maintenance significantly increases the risk of unpredictable outages and the time to recovery when those outages happen.	-	(854,433)	- (No)
74	110	[32-37624]	STRESS TEST REDUCTION Spear MC Contract Information Technology Eliminate contract forcing us go without the support Spear MC currently provides for PeopleSoft. This would eliminate our ability to maintain current versions of the software, provide resources for customer projects (e.g. ACA compliance), and respond to ad hoc customer requests.	-	(150,000)	- (No)
75	110	[32-37626]	STRESS TEST REDUCTION Delay in Hiring+Freeze Information Technology This will reduce our ability to respond to outages and modification requests from customers. Maintenance and development will take longer and customers will have to wait longer to see problems resolved.	-	(190,374)	- (No)
76	110	[32-37625]	STRESS TEST REDUCTION Mythics contract Information Technology Mythics - The County would have to move to third party PeopleSoft support eliminating updates to PeopleSoft. This would eliminate most security patches which could cause data security issues and take away the ability to add new features. It could also force the County to move off of PeopleSoft in about 5 years.	-	(200,000)	- (No)
77	650	[32-37670]	STRESS TEST REDUCTION Small Equipment and Communications Equipment Reductions Telecommunications This will eliminate replacement of UPS units. Alternative is to not use UPS's the risk is the phones will not operate during a power outage. This will also eliminate our ability to replace failed desk phones. In addition, this reduction will cut our life-cycle replacement of the voice gateways in half. The voice gateways allow for fax machines and analog phone devices to work on a VoIP system. These devices are now off support.	-	(96,557)	- (No)
78	650	[32-37749]	STRESS TEST REDUCTION Stress Test Facilities Services Charges Government Center Operations This request would reduce the amount of maintenance and repairs done at the Government Center and Coliseum. The Government Center is getting older and there are many maintenance projects that have been deferred. If we lost this budget we would have to continue to defer maintenance projects and focus on repairs. At the Coliseum we would not be able to preform the needed maintenance on this new building setting it up for massive deferred maintenance from the beginning.	-	(256,363)	- (No)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
91	110	[32-37408] STRESS TEST REDUCTION	Training & Education Contracts And Procurement In order to meet our 5% Stress Test we would need to significantly reduce our operations budget by eliminating all Education and Training. -\$8,591	-	(8,591)	- (No)
92	110	[32-37419] STRESS TEST REDUCTION	Computer Software Subscriptions Contracts And Procurement In order to meet our 5% Stress Test we would need to significantly reduce our operations budget by eliminating all Computer Software Subscriptions. -\$11,908.	-	(11,908)	- (No)
93	110	[32-37411] STRESS TEST REDUCTION	Computer Replacement Budget Contracts And Procurement In order to meet our 5% Stress Test we would need to significantly reduce our operations budget by eliminating buying any computers and Components. -\$19,000.	-	(9,000)	- (No)
94	110	[32-37546] STRESS TEST REDUCTION	Computer Replacement Records Management & Archives A complete elimination of the computer replacement budget for Records Management & Archives would severely hinder the division's ability to maintain secure, efficient, and compliant operations. Staff rely on functioning, up-to-date computers to manage digital records, access archival systems, and ensure timely responses to public records requests. Outdated hardware increases the risk of data loss, system failures, and security vulnerabilities—especially critical in a department responsible for preserving and protecting official records. Additionally, legacy systems may not support modern software required for digital preservation, metadata tagging, or electronic records management, directly impacting compliance with legal and regulatory standards.	-	(2,500)	- (No)
95	110	[32-37519] STRESS TEST REDUCTION	Contract Hauling Records Management & Archives Eliminating this essential service, responsible for destroying records that have reached their retention period, will lead to non-compliance with Utah's records retention laws. In 2025, we anticipate a substantial volume of records from the Election Clerk's office will require destruction once they reach their 18-month retention period. Without this service, the County risks violating state regulations, which could result in legal penalties, regulatory fines, and damage to our reputation. Proper records management is crucial for legal adherence and maintaining operational efficiency.	-	(3,420)	- (No)
96	110	[32-37545] STRESS TEST REDUCTION	Education and Training: Records Management & Archives Cutting the education and training budget for records management and archives would prevent staff from staying up to date with evolving industry standards and best practices. As technology and regulations in records management continue to advance, ongoing training is crucial for ensuring that staff can effectively implement new systems, tools, and procedures. Without proper education, the organization risks falling behind in maintaining best practices, which could impact the integrity, security, and accessibility of records. Investing in training ensures the team remains aligned with industry trends and capable of adapting to future changes.	-	(3,450)	- (No)
97	110	[32-37544] STRESS TEST REDUCTION	Preservation + Office Supplies: Records Management & Archives Preservation and office supplies are critical to the long-term care and protection of the County Archives' collections. These materials—such as acid-free folders, boxes, and protective enclosures—help prevent deterioration of fragile and historically significant records, many of which are irreplaceable and legally required to be retained. Cutting this budget line would put essential preservation work at risk, potentially leading to irreversible damage and much higher restoration costs in the future. Maintaining funding for these supplies is necessary to ensure we meet archival standards, protect our collections, and avoid compromising the integrity of the county's historical record.	-	(3,950)	- (No)
98	110	[32-37518] STRESS TEST REDUCTION	Temporary,Seasonal,Emergency Employees Records Management & Archives The temporary position plays a crucial role in our digitization and preservation program. Over the past 7 years, this role has been instrumental, contributing to over 90% of our digitization efforts and metadata application. By working closely with County IT, the individual has effectively utilized county servers and the Archives website to make records available online. This position not only facilitates the digital accessibility of our records but also ensures their physical preservation. Responsibilities include rehousing, assessing documents for damage, and creating digital copies to protect against potential disasters. The absence of this role would severely impact our ability to perform essential functions related to record preservation and accessibility.	-	(15,858)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
99	110	[32-37710]	STRESS TEST REDUCTION Computer Replacement and Software Subscription	-	(3,547)	-
		Real Estate The Real Estate Team relies on modern computers and essential software tools to manage the County's property portfolio efficiently, securely, and increasingly in digital form. As the team continues to digitize property records, access to platforms like Microsoft Office, Smartsheet, ARGUS, Adobe Sign, and Esri GIS becomes even more critical for financial modeling, project tracking, digital signatures, and spatial analysis. Combined with timely computer replacements, these tools ensure the team can deliver accurate, data-driven services while maintaining productivity, compliance, and operational continuity. These tools enable the team to manage leases, conduct valuations, analyze property data, and support strategic decision-making. In particular, Esri GIS is essential for visualizing property boundaries, land use, and infrastructure, supporting both internal planning and public transparency. Without continued investment in these tools and the hardware to support them, the team risks reduced productivity, slower project delivery, and increased operational and compliance risks.				(No)
100	110	[32-37708]	STRESS TEST REDUCTION Employee Training, Education & Travel	-	(9,000)	-
		Real Estate The Training and Education budget is essential to ensuring the Real Estate team remains current with evolving industry standards, legal requirements, and best practices in property management, valuation, leasing, and public asset stewardship. As the team manages a diverse portfolio of County-owned properties, ongoing professional development is critical to maintaining compliance, mitigating risk, and improving operational efficiency. Investing in staff development not only enhances individual expertise but also strengthens the team's ability to deliver high-quality, strategic real estate services that protect and maximize public assets. Without this investment, the County risks falling behind on regulatory compliance and industry trends, which could lead to costly errors or missed opportunities.				(No)
101	110	[32-37709]	STRESS TEST REDUCTION Professional Fees - Appraisal, Environmental Reviews	-	(10,000)	-
		Real Estate The Real Estate Team relies on the Professional Fees budget to secure specialized external services that are essential for responsible property management and decision-making. This includes appraisals, environmental site assessments, title reports, and other technical reviews required to support acquisitions, dispositions, leasing, and compliance with regulatory standards. As the County's real estate portfolio grows in complexity and volume, the need for timely, expert evaluations has increased. These services are often mandated by law or policy and are critical to mitigating financial and environmental risk, ensuring transparency, and protecting public assets. A professional fees budget is necessary to align with current and projected workload demands. Without adequate funding, the team may face delays in project timelines, reduced due diligence capacity, and increased exposure to legal and financial liabilities.				(No)
102	110	[32-37706]	STRESS TEST REDUCTION Temporary, Seasonal Salary	-	(16,148)	-
		Real Estate To meet the Stress Test target, the Real Estate Division is proposing a reduction to its temporary/intern program—a key resource that supports essential office functions, filing, and technology-related tasks. As a small division, this program plays a critical role in maintaining day-to-day operational efficiency and enabling full-time staff to focus on high-value, strategic work. Reducing this support will increase pressure on existing staff, potentially leading to workflow bottlenecks, delays in project execution, and decreased overall productivity. Given the operational impact, it is important to monitor this reduction closely and reassess if service levels begin to decline.				(No)
103	110	[32-37707]	STRESS TEST REDUCTION Grounds Maintenance	-	(20,000)	-
		Real Estate To meet the stress test requirements, the Real Estate division would need to significantly reduce its grounds maintenance budget. The grounds maintenance budget is critical for the upkeep of County-owned properties and plays a key role in ensuring public safety. A primary use of this funding is for weed control and grass mowing, which are essential for reducing fire hazards, especially during dry seasons, and maintaining clear, safe access to County facilities. Regular maintenance helps prevent overgrowth that can contribute to wildfires, obstruct visibility, or create trip hazards. It also supports compliance with local safety and environmental regulations. As the County manages a wide range of properties across diverse geographic areas, this budget ensures consistent, proactive care that protects both public assets and community well-being. Without adequate funding, the County risks increased fire danger, safety incidents, and higher long-term costs due to deferred maintenance.				(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
104	110 [32-37264] STRESS TEST REDUCTION 0.50 FTE Reduction Addressing Addressing would be unable to meet the 5% stress test amount without reducing the FTE allocation by 0.50. Addressing is a team of four; any reduction will have an impact on completing daily tasks timely. Our data is shared with numerous internal agencies, including the tax system, and is critical to the basic operations for VECC and utility businesses. Additionally, losing a partial FTE will have an impact on the work required to migrate from the mainframe, such as completing the search screens for the tax agencies and other addressing customers. The migration project has created additional work for the addressing team, as we have had to alter large amounts of data to populate the mainframe. When the mainframe is no longer used by the county agencies, we will need to standardize and alter the data again. Covering a small office is challenging, but losing a partial FTE will add more challenges, especially during holidays, vacations, and sick time usage.	(0.50)	(51,872)	- (No)

CORE MISSION

Salt Lake County Addressing is dedicated to working towards enhanced public safety, increased efficiency, and more effective government service by ensuring accurate addressing in Salt Lake County.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County Addressing provides timely and accurate address information for internal and external agencies to support and enhance their services, such as, property tax collection, public utility connection, and public safety.				
• Provide exceptional customer service to external Addressing customers. (5 point rating)	3.38	4.85	3.56	4.85
• Provide exceptional customer service to internal Addressing customers. (5 point rating)	4.75	5	4.78	5
• Update, review, and validate additional 60K addresses to ensure accurate data to our customers.	0	60,000	49,861	60,000

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)					
Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
39	[32-37264]	STRESS TEST REDUCTION 0.50 FTE Reduction	(0.50)	(51,872)	-
Addressing would be unable to meet the 5% stress test amount without reducing the FTE allocation by 0.50. Addressing is a team of four; any reduction will have an impact on completing daily tasks timely. Our data is shared with numerous internal agencies, including the tax system, and is critical to the basic operations for VECC and utility businesses. Additionally, losing a partial FTE will have an impact on the work required to migrate from the mainframe, such as completing the search screens for the tax agencies and other addressing customers. The migration project has created additional work for the addressing team, as we have had to alter large amounts of data to populate the mainframe. When the mainframe is no longer used by the county agencies, we will need to standardize and alter the data again. Covering a small office is challenging, but losing a partial FTE will add more challenges, especially during holidays, vacations, and sick time usage.					(No)

CORE MISSION

The mission of Salt Lake County Contracts and Procurement is to provide professional, efficient purchasing services and promote fair and open competition to attain the best value for the County.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
County Agencies and Suppliers are satisfied with all procurement services provided by Contracts and Procurement				
• Maintain customer service satisfaction that County agencies and vendors receive from Contracts and Procurement.	99%	95%	98.2%	95%
Contracts and Procurement processes are efficient, fair, lawful and transparent.				
• Maintain the number of procurements that need to be cancelled and re-solicited due to a protest or mistake in the procurement process.	0	0	0	0
The County evaluates and improves procurement processes continuously to gain efficiencies and better service.				
• Measure PCard Program satisfaction for efficiencies and process improvement opportunities that will enhance the experience for county agencies.	90%	90%	98.2%	90%
• Identify the quality of procurement trainings provided by measuring attendee understanding post-training.	98%	95%	98.5%	95%

CORE MISSION

Facilities Management provides oversight and leadership to ensure that Salt Lake County Facilities constructs and maintains environmentally-conscious and sustainable properties in support of County agencies and its citizens.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County facilities strive to increase energy efficiency by implementing new energy efficient projects and providing energy consumption reporting to our customers.				
• Reduce overall County-wide electricity consumption compared to 2025 by 500,000 Kilowatt hours.	1,233,543	-1,000,000	790,500	-500,000
• Purchase TS Natural gas at a price 25% below Enbridge natural gas each month.	2.3%	25%	12.4%	25%
• Create and distribute monthly reports for departments and division with electricity and natural gas consumption and billing data.	6	11	8	11
• [Discontinue] Energy Audits - Number of Facilities with energy audits performed. This will identify a list of energy saving measures & the associated implementation costs/savings for each measure. Enabling SLCo to direct funds to the most cost effective projects.	0	72	0	0
• [New] Recommissioning - Number of Facilities with recommissioning performed. This will identify a list of energy saving measures & the associated implementation costs/savings for each measure. Enabling SLCo to direct funds to the most cost effective projects.	0	0	0	6

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37687]	NEW REQUEST	Move HVAC Controls Specialist to Facilities Management	1.00	107,292	109,617 (Yes) 1.00 FTE
Energy Management has been installing additional controls on HVAC systems throughout the county for the past few years. In addition we have 60+ facilities that have existing controls that are not being monitored. The Controls Specialist can verify sequence of operations and further interpret the information and help us plan the way forward to keep maximizing our energy usage and increase the life of our HVAC equipment. Funding this from Facilities Management will mean that we do not have to charge agencies for this effort, and it will be more broadly utilized.						
8	[31-37688]	NEW REQUEST	Fully Fund Division Director in Facilities Management	0.20	42,116	43,816 (Yes) 0.20 FTE
We would like to request the Division Director's full compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.						
9	[31-37689]	NEW REQUEST	Move Associate Director to Facilities Management	1.00	181,914	187,173 (Yes) 1.00 FTE
We would like to request the Associate Director's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.						
10	[31-37690]	NEW REQUEST	Move Fiscal Manager to Facilities Management	1.00	173,581	179,774 (Yes) 1.00 FTE
We would like to request the Fiscal Manager's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.						
11	[32-37748]	STRESS TEST REDUCTION	Move Fiscal Manager to Facilities Management	(1.00)	(173,581)	- (No)
We would like to request the Fiscal Manager's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund. If this transfer does not happen we will continue to have to charge our customers enough money to cover the cost of this position.						
12	[32-37750]	STRESS TEST REDUCTION	Move Associate Director to Facilities Management	(1.00)	(181,914)	- (No)
We would like to request the Associate Director's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund. If this transfer does not happen we will continue to have to charge our customers enough money to cover the cost of this position.						
15	[32-37751]	STRESS TEST REDUCTION	Fully Fund Division Director in Facilities Management	(0.20)	(42,115)	- (No)
We would like to request the Division Director's compensation be fully funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund. If this transfer does not happen we will continue to have to charge our customers enough money to cover the cost of this position.						
16	[32-37752]	STRESS TEST REDUCTION	Move HVAC Controls Specialist to Facilities Management	(1.00)	(107,292)	- (No)
If we continue to fund this position from Facilities Services, the workload of this position will be limited to the agencies that are willing to pay for the work. With this structure we may be missing the work that will result in the most cost savings for the County.						
17	[32-37755]	STRESS TEST REDUCTION	Warranty Work Cost Reduction	-	(37,884)	- (No)
This reduction would reduce the amount of warranty work Facilities can offer their customers. In Facilities we have been working at improving our customer service and we feel that giving some level of guaranty to our work is important to building and maintaining those relationships. This will also reduce the budget for us to use contractor help on things like building best practices and standards.

0 [47-36075] CAPITAL PROJECT OVERHEAD_ENERGY - Overhead for Energy Mgmt proj This project ID is specifically for the overhead for the Project Energy_Mgmt.	-	40,757	40,757 (Yes)
1 [47-35994] CAPITAL PROJECT ENERGY_MGMT - Energy Management Projects [New/Add/Reduction: 500,000; Rebudget: 2,136,040] SLCO Energy Management Projects Re-budget with Additional to Activity ENERGY_SYS_PRFM Additional of \$500,000 Re-Budget HVAC_UP budget of \$1,152,844 this amount includes prior year's cancelled encumbrances to ENERGY_SYS_PRFM. Re-Budget Energy Audit budget of \$ 983,195 to ENERGY_SYS_PRFM. This amount includes prior year's cancelled encumbrances. Funding for energy saving related studies & for implementing energy saving opportunities identified in energy audits, recommissioning, re-tuning, &/or related study across County facilities. Prioritizing highest ROI & savings projects. Examples of high ROI projects are recommissioning the building control systems, updating control logic to current high efficiency standards, & fixing existing broken HVAC equipment/components.	-	500,000	500,000 (Yes)
[47-37918] CAPITAL PROJECT MIDVALE_CAMPUS Midvale Campus Programing & Design Re-Budget This funding was approved as part of our 2025 operating costs. The budget will not be spent this year and is part of the broader capital project. Therefore we are transferring to a capital project for the Midvale Campus. In 2024 Salt Lake County purchased the Overstock Coliseum building which includes an annex building, greenhouse, parking structure and surrounding site amenities. This building will be used to support a significant portion of the County's services and will provide office space for various Divisions and County government. There are some changes to the building required to meet the needs of the County. The Architect will provide the County with programing and design for the necessary changes and will administer the construction and warranty period for those changes. The building changes will reflect, in part, how the County intends to do business going forward with hybrid working environments, hoteling, open office concepts, etc.	-	-	- (Yes)

CORE MISSION

Salt Lake County Facilities constructs and maintains environmentally-conscious and sustainable properties in support of County agencies and its citizens.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
In partnership with our customers', crew members, fellow-tradesmen and the community for which we work, we complete exceptional work in a timely manner. Through respectful attitudes, words and actions, we foster an environment of positivity, honesty, fairness and equality wherein each individual feels safe, valued and respected.				
• Improve customer satisfaction for all our trades/services.	81.5	4.5	3.91	4.5
• Maintain engagement with major facilities services customers through annual check-ins.	6	19	12	15
Salt Lake County is a safe place to work				
• Maintain the percentage of Facilities Services employees receiving the proper safety training and have the proper safety equipment/personal protective equipment for their duties.	100%	100%	98%	100%
• Shop Safety Trainings once a month during shop meetings.	0	84	47	84
Align Facilities Management across the County to ensure best practices.				
• Create a robust Capital development process to provide decision makers all capital information in one location including total cost of ownership for new building construction.	-	100%	16%	100%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37524]	NEW REQUEST	Facilities Trade Rate Increase	-	(1,961,250)	(1,961,250)
This increase to our revenue is from the trade rate increase we presented to the Revenue Committee.						(Yes)
- Last rate increase was in 2020 - Inflation 2020-2025 has totaled over 19% - Facilities Services has had loses of \$4M over the last 3 years. - Continued strong construction economy - Nationwide shortage of qualified trades people - Salary grade increases for all our trade staff to remain competitive in our hiring						
2	[31-37563]	NEW REQUEST	Amortization Increase	-	15,000	15,000
We have been using FAMIS 360 for 3 years now and have been really happy with this product. This year we are bringing other agencies into FAMIS 360 so we can get better data for facilities operations and maintenance. The FAMIS contract has annual price escalations built in and we are needing this additional amount to pay for the license in 2026.						(Yes)
3	[31-37561]	NEW REQUEST	Fleet Levy Increase	-	10,364	10,364
Increase needed to cover the additional cost of the Fleet Levy with increasing vehicle prices.						(Yes)
4	[31-37560]	NEW REQUEST	Vehicle Maintenance 10% Increase	-	7,257	7,257
Increase needed to cover the additional cost of vehicle maintenance.						(Yes)
5	[31-37564]	NEW REQUEST	New Locksmith Machine and depreciation	-	2,000	2,000
Request for a new locksmith machine that will replace 4 existing machines that are all 10+ years old, worn and out of calibration. This new cutting machine would increase accuracy, efficiency and speed with less errors and frustrations. We do have card access in our buildings but it will not relace the need for keys into smaller areas, i.e. office, closets, etc. In addition to purchasing the machine we will need an increase to depreciation for this asset.						(Yes)
Balance Sheet Acquisition: \$10,000						
6	[31-37562]	NEW REQUEST	VoIP Increase	-	1,350	1,350
Increase needed to cover the additional cost of Telecom Rate.						(Yes)
7	[31-37680]	NEW REQUEST	Move HVAC Controls to Facilities Management	(1.00)	(107,292)	(111,647)
Energy Management has been installing additional controls on HVAC systems throughout the county for the past few years. In addition we have 60+ facilities that have existing controls that are not being monitored. The Controls Specialist can verify sequence of operations and further interpret the information and help us plan the way forward to keep maximizing our energy usage and increase the life of our HVAC equipment. Funding this from Facilities Management will mean that we do not have to charge agencies for this effort, and it will be more broadly utilized.						(Yes) (1.00) FTE
8	[31-37688]	NEW REQUEST	Fully Fund Division Director in Facilities Management	(0.20)	(42,115)	(43,816)
We would like to request the Division Director's full compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.						(Yes) (0.20) FTE

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
9	[31-37691] NEW REQUEST Move Associate Director to Facilities Management We would like to request the Associate Director's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.	(1.00)	(181,914)	(187,173) (Yes) (1.00) FTE
10	[31-37692] NEW REQUEST Move Fiscal Manager to Facilities Management We would like to request the Fiscal Manager's compensation be funded from Facilities Management. We feel this will help ensure our management is able to focus on policy, procedure and direction for Salt Lake County facilities as a whole. We also learned that the State of Utah only has their maintenance program employees in an internal service fund.	(1.00)	(173,581)	(179,774) (Yes) (1.00) FTE

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
Request ID and Description				FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
1	[31-37567]	NEW REQUEST	Facilities Trade Rate Increase	-	500,000	500,000
	Facilities will be increasing their trade rates and we have estimated the impact to Government Center and the Coliseum will be \$500,000. Due to the aging nature of the Government Center we feel it is important to maintain the same level of service. Also, if we start reducing the Coliseum budget before we have even moved in, we will be forced to defer the non-mandatory maintenance,					(Yes)
2	[31-37568]	NEW REQUEST	Government Center Utility Increase	-	116,000	116,000
	Per our energy manager, there will be increase of utility costs for Power and Gas. As such, we are requesting additional funds to keep this budget whole.					(Yes)
3	[31-37570]	NEW REQUEST	Janitorial Increase	-	67,636	67,636
	We are currently in the process of identifying a new janitorial contract. Based on the inflation of the last 5 years this amount is an estimate to cover the increase we will see under the new contract.					(Yes)
4	[31-37569]	NEW REQUEST	Wasatch Front Waste Increase	-	2,000	2,000
	Increase needed to cover the additional cost of Wasatch Front Waste Increase.					(Yes)
5	[31-37566]	NEW REQUEST	Fleet Levy Increase	-	1,199	1,199
	Increase needed to cover the additional cost of the Fleet Levy with increasing vehicle prices.					(Yes)
6	[31-37565]	NEW REQUEST	Vehicle Maintenance 10% Increase	-	800	800
	Increase needed to cover the additional cost of vehicle maintenance.					(Yes)
7	[32-37701]	STRESS TEST REDUCTION	Stress Test Facilities Trade Rate Increase	-	(500,000)	-
	This request would reduce the amount of maintenance and repairs done at the Government Center. The buildings are getting older and there are many maintenance projects that have been deferred. If we lost this budget we would have to continue to defer maintenance projects and focus on repairs.					(No)
8	[32-37702]	STRESS TEST REDUCTION	Stress Test Government Center Utility Increase	-	(116,000)	-
	There have been increases to the cost of both power and water, without this budget we would be forced to cover these higher costs from our already lean operations budget					(No)
9	[32-37704]	STRESS TEST REDUCTION	Janitorial Increase	-	(67,636)	-
	There has been increase of cost of Janitorial, without this budget we would be forced to cover these higher costs from our already lean operations budget.					(No)
10	[32-37703]	STRESS TEST REDUCTION	Wasatch Front Waste Increase	-	(2,000)	-
	There has been increase of cost of Wasatch Front Waste, without this budget we would be forced to cover these higher costs from our already lean operations budget.					(No)
11	[32-37700]	STRESS TEST REDUCTION	Stress Test Fleet Levy Increase	-	(1,199)	-
	There has been increase of the Fleet Levy with increasing vehicle prices, without this budget we would be forced to cover these higher costs from our already lean operations budget.					(No)
12	[32-37698]	STRESS TEST REDUCTION	Stress Test Vehicle Maintenance 10% Increase	-	(800)	-
	There has been increase of cost of vehicle maintenance, without this budget we would be forced to cover these higher costs from our already lean operations budget.					(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
14	[32-37749] STRESS TEST REDUCTION Stress Test Facilities Services Charges This request would reduce the amount of maintenance and repairs done at the Government Center and Coliseum. The Government Center is getting older and there are many maintenance projects that have been deferred. If we lost this budget we would have to continue to defer maintenance projects and focus on repairs. At the Coliseum we would not be able to preform the needed maintenance on this new building setting it up for massive deferred maintenance from the beginning.	-	(256,363)	- (No)

CORE MISSION

Our mission is to better the lives of Salt Lake County government and residents through technology.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
IT is a customer focused organization.				
• IT will enable business transformation at the new building by completing technology needs assessment, existing infrastructure review, policy and implementation plan.	-	-	-	100%
• Maintain customer satisfaction level.	96.88%	95%	98.82%	95%
IT Uses Taxpayer Funds Wisely & Protects The County's Technology Investments				
• Salt Lake County IT has a goal to keep the IT budget as a percentage of the total County budget within .5% of the mean for comparable Counties.	1.9%	2.31%	1.99%	2.36%
IT provides a secure computing environment.				
• Cyber Security Effectiveness.	-	-	-	-
Electronic Signature Increased Usage [Transformational Initiatives]				
• Maintain or increase the usage of electronic signatures related to the same month in the previous year. [discontinued indicator]	28,435	21,500	25,874	0
Mainframe Migration [Transformational Initiatives]				
• Replace Addressing System - Develop a new Addressing System that is not dependent on MF architecture. [discontinued indicator]	70%	100%	77%	-
Tax System Modernization [Transformational Initiatives]				
• The progress of this project is measured in two week sprints. Each sprint is made up of a number of tasks to be completed. We commit to deliver 90% of the tasks identified for each sprint by the end of the sprint. [discontinued indicator]	90%	90%	89%	-
Mainframe Upgrade [Transformational Initiatives]				
• Upgrade the mainframe operating system and application software to current versions. [discontinued indicator]	65%	100%	90%	-

3	[31-37490]	NEW REQUEST	Hardware & Software Maintenance Increases [Exp: 2,991,966; Rev: 1,829,520] Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. A significant portion of the requested increase is due to the asset recognition requirements in GASB 96 (SBITA) which are offset by OFS revenue. The net requested increase to expenses is \$1,162,446. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical. FUTURE YEARS ADJUSTMENT: [Exp: -1,829,520; Rev: -1,829,520]	-	1,162,446	1,162,446 (Yes)
6	[31-37337]	NEW REQUEST	Critical Mainframe Tax Support Services The County's mainframe-based Tax System is currently maintained by a small group of highly specialized analysts. This creates a substantial risk, as essential system knowledge is concentrated among just a few individuals whose departure could significantly impact operations. Given the County's continued reliance on the mainframe-based tax system for at least the next four years, sustained support from these experts is critical. In addition to staffing concerns, a failed or unsupported tax system carries broader operational, financial, and reputational risks—including revenue collection failures, delayed payments, data corruption, compliance violations, and potential loss of public trust. These risks could disrupt essential services, increase audit exposure, and reduce the County's ability to respond to taxpayer needs. To address these risks, we recommend leveraging Business Process Management (BPM) to utilize a 3rd party to support the County's mainframe-based Tax System. FUTURE YEARS ADJUSTMENT: -150,000	-	800,000	800,000 (Yes)
7	[31-37342]	NEW REQUEST	Disaster Recovery Increase Salt Lake County's (SLCo) Information Technology (IT) Disaster Recovery (DR) capabilities are a critical safeguard against operational disruptions, cyber incidents, natural disasters, and system failures. However, the DR budget has remained flat for the past 13 years despite significant changes in technology, business operations, regulatory requirements, and risk exposure. Continuing without an appropriate budget increase threatens the reliability, relevance, and effectiveness of our recovery posture.	-	190,000	190,000 (Yes)
8	[31-37348]	NEW REQUEST	Tax Modernization Program TI (Transformational Initiative) funding for this project is expiring at the end of 2025 and needs to be replaced for 2026. The TORUS modernization project aims to replace the County's aging mainframe-based Tax System with a more flexible, efficient platform that meets evolving business and regulatory needs. While development has been underway for several years, full implementation is expected to continue through 2028. The primary objective is to deliver a Minimum Viable Product (MVP) that enables the Tax Office to begin using the new system as quickly as possible, followed by ongoing enhancements. Significant progress has been made, with new features regularly released.	-	408,267	408,267 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
9	[31-37349] NEW REQUEST SharePoint Modernization SharePoint (SP) is a vital enterprise platform for Salt Lake County (SLCo), centralizing content management, collaboration, and workflow automation across departments. Over the years, SP has digitized and streamlined numerous critical functions, and its role is expected to expand as more business processes adopt its capabilities. Currently, SLCo operates a hybrid SharePoint environment—combining cloud-based SharePoint Online (SPO) with a version of on-premises SharePoint. This setup requires a managed gateway to enable automation, data retrieval, and metadata synchronization between platforms. Maintaining and integrating these disparate environments has become increasingly complex, resource-intensive, and unsustainable. To address these challenges, SLCo Information Technology strongly recommends a full migration of County content to SharePoint Online, supplemented by alternative low-cost storage where appropriate. FUTURE YEARS ADJUSTMENT: -8,516	-	54,558	54,558 (Yes)
10	[31-37381] NEW REQUEST Certificate Management System Digital certificates are electronic credentials that authenticate the identity of and enable encryption between websites, devices, services, and users in online communications. They act as virtual passports, ensuring secure connections and data transfers across networks. These certificates, which include common types like SSL/TLS certificates for websites, are crucial for maintaining cybersecurity, protecting sensitive information, and establishing trust in digital interactions. A certificate management system is essential for our organization to: 1. Improve security: Prevent certificate expiration and potential security breaches. 2. Increase efficiency: Automate certificate lifecycle management, reducing manual work. 3. Ensure compliance: Meet regulatory requirements and industry standards. 4. Reduce costs: Avoid downtime and penalties associated with expired certificates. 5. Enhance visibility: Gain a centralized view of all certificates across the organization. Implementing this system will streamline operations, minimize risks, and provide a strong return on investment through reduced errors and improved resource allocation.	-	70,400	70,400 (Yes)
11	[31-37397] NEW REQUEST MS-ISAC Membership Federal Funding Cuts to this program necessitate charging for memberships going forward. The IT Division relies on the Multi-State Information Sharing and Analysis Center (MS-ISAC) program for timely and critical intelligence on cyber threats targeting state, local, tribal, and territorial (SLTT) governments, information on required prevention and remediation steps, education on cyber topics, and collaboration with other SLTT entities. Due to the unexpected federal funding cuts of its budget, MS-ISAC is rapidly pivoting to a paid membership model in an effort to continue providing services to SLTT agencies. The cost for a membership for an entity the size of Salt Lake County is \$10,000/year. These unique services are not available from any other source.	-	17,000	- (No)
12	[31-37398] NEW REQUEST Quality Assurance FTE Since 2021, the IT division has relied on a temporary, then time limited employee to support application development as the IT Quality Assurance Engineer. Even though this individual has primarily worked on the TORUS project they have also provided invaluable support to other IT groups, including the IT Web Team. The Quality Assurance position has implemented and matured the quality assurance process and demonstrated the value of a capable QA function by guiding development efforts and ensuring released products meet customer needs and expectations. The demand has increased for quality management and the continued development and growth of projects such as TORUS and ongoing web solutions would not have met the expected quality levels and delivery without this position. The workload continues to increase, and the number of new projects that need quality management has grown, to the point that the ability of one TL is being stretch to a limit of effectiveness, so an additional merit FTE is being requested. (The TL position ends in 2027, and the FTE would be needed on-going after that.)	1.00	197,663	199,945 (Yes) 1.00 FTE
13	[31-37422] NEW REQUEST Cyber Security Engineer FTE Our current cyber security team of seven analysts is operating significantly beyond sustainable capacity due to the convergence of multiple factors: an escalating threat environment, expanding internal security requirements, and growing external service obligations. The team is simultaneously managing our internal security posture while providing critical assessments and compliance services for other agencies. With cyber attacks increasing year-over-year, this dual internal-external workload has created unsustainable demands that compromise both service quality and team resilience. Adding another Cyber Security Engineer II to the IT Security Team will allow us to meet the challenge of providing cybersecurity services for all County agencies and other agencies on our network.	1.00	197,663	199,945 (Yes) 1.00 FTE
14	[31-37424] NEW REQUEST Password Management System Passwords are the primary line of defense for employees to protect County information and assets. While being a valuable tool in the fight against cyber-attacks they are also a vulnerability. Our current password management system is outdated and lacks essential features, prompting the need for a new solution that includes self-service password reset functionality, enhanced security through stronger password policies, identity verification for password resets, and compliance with data protection regulations and industry standards. Password resets are the second most common call the IT Service Desk receives every year, with a technologist required to spend approximately 5 minutes on each call. In the last year, this was approximately 198 hours spent resolving password concerns. Furthermore, when our partners experience password issues after normal business hours, their options for resolving the problem are limited. Finally, our current self-service password tool doesn't check password quality, and as a result, the IT Security Team must run repeated manual audits of passwords and assist employees who have chosen a poor password to update it. Besides being a security concern, it results in a waste of time for both the Security Team and the employees.	-	60,000	60,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
15	[31-37426] NEW REQUEST Security Information Event Management Service Salt Lake County (SLCo) Information Technology (IT) Division lacks a managed Security Information and Event Management system (SIEM). A SIEM is an industry standard used by IT Security Teams to collect and correlate logs from various sources, including workstations, servers, network equipment, firewalls, and authentication services. This type of tool is critical as it provides richer and more comprehensive intelligence information, which is not available when manually examining logs from each disparate system.	-	42,000	42,000 (Yes)
16	[31-37428] NEW REQUEST Security Compliance Analyst FTE As other agencies have scaled back their roles in providing compliance oversight and advisory services, the IT department has increasingly been called upon to bridge these gaps—particularly in the areas of PCI, HIPAA, Data Privacy, and CJIS Security Policy—despite lacking the dedicated resources to do so effectively. This proposed position would not assume ownership of the associated business systems but would serve as a subject matter resource, maintaining awareness of evolving regulatory requirements, advising agencies on their applicability within specific operational contexts, and coordinating the implementation of corresponding technology controls.	1.00	174,171	176,255 (Yes) 1.00 FTE
17	[31-37431] NEW REQUEST Migration of Privileged Access Management System to SaaS solution in the Cloud Our organization needs to protect its most sensitive systems and data by carefully controlling access to administrative accounts. We currently use a security system that has been working well since 2017 to manage these high-level accounts, verify user identities, and track all activities. However, our current system requires significant time and resources to administer taking time from more critical Cyber tasks. Additionally, it is on-premise; if our main data center experiences a major outage, our current system could become unavailable when we need it most. The Solution: We propose moving our security management system to a cloud-based platform. This change would: • Reduce costs and workload: Eliminate the need to maintain and license our own servers and databases, freeing up our security team to focus on protecting the organization • Improve reliability: Ensure our security system stays operational even during major outages or disasters • Enhance remote access: Enable secure, streamlined access for external vendors and partners without compromising security This upgrade represents a strategic investment in both our security infrastructure and operational efficiency, allowing us to better protect our organization while reducing ongoing maintenance burdens.	-	128,475	128,475 (Yes)
18	[31-37438] NEW REQUEST Business Analyst FTE Salt Lake County IT is requesting the addition of a merit Business Analyst (BA) position to meet increasing demand for business analysis services across the organization. While the County currently relies on a team of Business Analysts—including a Time-Limited position in place through 2027—current staffing levels are not sufficient to keep pace with the needs of emerging initiatives such as PUMA (Premier Utah Mass Appraisal) with other counties and the broader support needs of other departments. The success of the TORUS project has demonstrated the value of dedicated analysis support, and expanding our capacity now will help sustain that success across multiple departments. Adding a merit BA position will improve project delivery, reduce risk, and ensure timely, informed decision-making for County programs.	1.00	174,171	- (No)
19	[31-37439] NEW REQUEST Accessibility Compliance Tool The Federal Government passed the Plain Writing Act in 2010, requiring federal agencies to evaluate and improve web content for readability by reducing the target reading grade level, typically to the 5th-6th grade level. The State of Utah is actively promoting this accessibility standard and has introduced rules and requirements across various areas that mandate plain writing standards. The SLCO web team has been working to enhance the accessibility of our public-facing websites. Currently, most of the content is written at a high school graduate level or higher. While many aspects of Americans with Disabilities Act (ADA) compliance are more apparent, plain language is a crucial component. ADA lawsuits are increasing, and local governments are often targets of these legal actions. SLCO lacks a tool to help web authors and other content creators evaluate and ensure that content is provided at an appropriate reading level. Implementing a solution that facilitates the consistent application of plain language standards will improve website readability and better serve the public.	-	23,000	23,000 (Yes)
20	[31-37442] NEW REQUEST Web Experience Analyst FTE The redesign of our website, encompassing nearly 80 subsites for various departments and divisions and totaling over 1,500 pages with approximately 6,000 sub-sections, has enhanced the user experience. However, maintaining consistent branding and content quality is challenging due to reliance on 100 web content authors from different divisions, many of whom do not specialize in web experience management. Authors revert to old site structures, which contradict web guidelines and standards. Although training is provided, infrequent site updates lead to inconsistent retention of this knowledge. To address these challenges and ensure brand consistency, we propose establishing a dedicated role: Web Experience Analyst. This individual will monitor our pages and sub-sections, promote alignment with branding guidelines, collaborate with authors, provide guidance, and serve as the initial contact for content-related inquiries, thus contributing to an accessible and cohesive experience for our constituents.	1.00	138,488	140,271 (Yes) 1.00 FTE
21	[32-37603] STRESS TEST REDUCTION Web Experience Analyst FTE The redesign of our website, encompassing nearly 80 subsites for various departments and divisions and totaling over 1,500 pages with approximately 6,000 sub-sections, has enhanced the user experience. However, maintaining consistent branding and content quality is challenging due to reliance on 100 web content authors from different divisions, many of whom do not specialize in web experience management. Authors revert to old site structures, which contradict web guidelines and standards. Although training is provided, infrequent site updates lead to inconsistent retention of this knowledge. 31	[32-37613] STRESS TEST REDUCTION Certificate Management System Digital certificates are electronic credentials that authenticate the identity of and enable encryption between websites, devices, services, and users in online communications. They act as virtual passports, ensuring secure connections and data transfers across networks. These certificates, which include common types like SSL/TLS certificates for websites, are crucial for maintaining cybersecurity, protecting sensitive information, and establishing trust in digital interactions. A certificate management system is essential for our organization to: 1. Improve security: Prevent certificate expiration and potential security breaches. 2. Increase efficiency: Automate certificate lifecycle management, reducing manual work. 3. Ensure compliance: Meet regulatory requirements and industry standards. 4. Reduce costs: Avoid downtime and penalties associated with expired certificates. 5. Enhance visibility: Gain a centralized view of all certificates across the organization. Implementing this system will streamline operations, minimize risks, and provide a strong return on investment through reduced errors and improved resource allocation.	-	(70,400)	- (No)
32	[32-37616] STRESS TEST REDUCTION SharePoint Modernization SharePoint (SP) is a vital enterprise platform for Salt Lake County (SLCo), centralizing content management, collaboration, and workflow automation across departments. Over the years, SP has digitized and streamlined numerous critical functions, and its role is expected to expand as more business processes adopt its capabilities. Currently, SLCo operates a hybrid SharePoint environment—combining cloud-based SharePoint Online (SPO) with a version of on-premises SharePoint. This setup requires a managed gateway to enable automation, data retrieval, and metadata synchronization between platforms. Maintaining and integrating these disparate environments has become increasingly complex, resource-intensive, and unsustainable. To address these challenges, SLCo Information Technology strongly recommends a full migration of County content to SharePoint Online, supplemented by alternative low-cost storage where appropriate.	-	(54,558)	- (No)
33	[32-37617] STRESS TEST REDUCTION Tax Modernization Program TI (Transformational Initiative) funding for this project is expiring at the end of 2025 and needs to be replaced for 2026. The TORUS modernization project aims to replace the County's aging mainframe-based Tax System with a more flexible, efficient platform that meets evolving business and regulatory needs. While development has been underway for several years, full implementation is expected to continue through 2028. The primary objective is to deliver a Minimum Viable Product (MVP) that enables the Tax Office to begin using the new system as quickly as possible, followed by ongoing enhancements. Significant progress has been made, with new features regularly released.	-	(408,267)	- (No)
33	[32-37623] STRESS TEST REDUCTION Reduce Technology Improvement Plan The TIP (Technology Improvement Plan) was established to remediate an accumulated \$6 Million in technical debt and has been very successful in providing for the ongoing modernization of our IT infrastructure. This one-time reduction represents a delay in lifecycle refresh of critical systems and the commensurate accumulation of deferred maintenance (technical debt). We will be unable to replace network, server and storage equipment that is past due for replacement, which would be challenging to our equipment refresh cycle. This creates a deferred maintenance scenario and likelihood of increased hardware failures and increased security risk. Restoration of service due to equipment failures are likely cause impact to the business due to longer than normal times to obtain and replace equipment. Our limited inventory may not allow us to quickly replace failed equipment. Examples of critical systems impacted include: 1) Virtual Server Environment – Vendors have stopped making blades that work with our chassis. Planned to replace 1/3 per year over next 3 years (impacts approximately 200 servers per year), 2) On premise storage systems 3) 2026 network requests for equipment refresh were already cut by ~\$670K in order to maintain equipment refresh within the existing budget and not have to ask for more, considering our ongoing maintenance request was going to be high. Delaying refresh and maintenance significantly increases the risk of unpredictable outages and the time to recovery when those outages happen.	-	(854,433)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
34	[32-37618] STRESS TEST REDUCTION Disaster Recovery Increase Salt Lake County's (SLCo) Information Technology (IT) Disaster Recovery (DR) capabilities are a critical safeguard against operational disruptions, cyber incidents, natural disasters, and system failures. However, the DR budget has remained flat for the past 13 years despite significant changes in technology, business operations, regulatory requirements, and risk exposure. Continuing without an appropriate budget increase threatens the reliability, relevance, and effectiveness of our recovery posture.	-	(190,000)	- (No)
35	[32-37619] STRESS TEST REDUCTION Critical Mainframe Tax Support Services The County's mainframe-based Tax System is currently maintained by a small group of highly specialized analysts. This creates a substantial risk, as essential system knowledge is concentrated among just a few individuals whose departure could significantly impact operations. Given the County's continued reliance on the mainframe-based tax system for at least the next four years, sustained support from these experts is critical. In addition to staffing concerns, a failed or unsupported tax system carries broader operational, financial, and reputational risks—including revenue collection failures, delayed payments, data corruption, compliance violations, and potential loss of public trust. These risks could disrupt essential services, increase audit exposure, and reduce the County's ability to respond to taxpayer needs. To address these risks, we recommend leveraging Business Process Management (BPM) to utilize a 3rd party to support the County's mainframe-based Tax System.	-	(800,000)	- (No)
36	[32-37620] STRESS TEST REDUCTION Hardware & Software Maintenance Increases [Exp: -2,991,966; Rev: -1,829,520] Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. A significant portion of the requested increase is due to the asset recognition requirements in GASB 96 (SBITA) which are offset by OFS revenue. The net requested increase to expenses is \$1,162,446. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.	-	(1,162,446)	- (No)
38	[32-37624] STRESS TEST REDUCTION Spear MC Contract Eliminate contract forcing us go without the support Spear MC currently provides for PeopleSoft. This would eliminate our ability to maintain current versions of the software, provide resources for customer projects (e.g. ACA compliance), and respond to ad hoc customer requests.	-	(150,000)	- (No)
39	[32-37625] STRESS TEST REDUCTION Mythics contract Mythics - The County would have to move to third party PeopleSoft support eliminating updates to PeopleSoft. This would eliminate most security patches which could cause data security issues and take away the ability to add new features. It could also force the County to move off of PeopleSoft in about 5 years.	-	(200,000)	- (No)
40	[32-37626] STRESS TEST REDUCTION Delay in Hiring+Freeze This will reduce our ability to respond to outages and modification requests from customers. Maintenance and development will take longer and customers will have to wait longer to see problems resolved.	-	(190,374)	- (No)

CORE MISSION

Salt Lake County Real Estate Program's mission is to ensure county's short-term and long-term real estate needs are met through optimal use of all county properties and maximize the value of each of these public assets.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County's Real Estate team efficiently and proactively meets customer and pubic real estate needs.				
• Real Estates provides exceptional customer services to its internal and external customers.	-	90%	78%	90%
• Digitizing the County property records to preserve property research information. Measuring in cubic feet of space per box. (Cubic feet = 1ft x1ft x1ft. = ft³)	0	30	17	30
Optimized County real estate assets to maximize their value.				
• Salt Lake County real estate assets are assessed and rated for optimal use.	-	75%	75%	85%
• Develop Salt Lake County Real Estate governance through a Land Advisory Committee to evaluate and provide recommendations on County real estate matters across agencies. [NEW]	-	-	-	100%

2	[31-37291]	NEW REQUEST	Real Estate Positions Reclassifications + Reorg	-	38,613	41,798 (Yes) 0.00 FTE
Real Estate is requesting to reclass it's existing positions to meet the office and our customers needs. Office Specialist GEN 012 to Real Estate Operations Manager GEN 017: The reclassification of this position is warranted due to the County's vision and priorities evolving from a "maintain and manage" real estate culture to one focused on growth and development. This position requires advanced technical expertise and a higher level of responsibility than is currently represented in the Real Estate management structure to advance those goals of growing the County's real estate portfolio. The position not only requires specialized knowledge of real estate laws, regulations, and valuation practices, but also involves oversight of multiple, complex real estate transactions simultaneously, including acquisitions, dispositions, and lease negotiations. These duties demand a higher degree of independent judgment, problem-solving, and strategic decision-making. This position will serve as a leadership role overseeing the day-to-day operations of the office, with the Real Estate staff reporting directly to it. Reclassifying the role to a Real Estate Operations Manager GEN 017 appropriately aligns the classification with the technical skills, professional knowledge, and scope of responsibility essential to successfully perform the position. Our intention is to promote our current Real Estate Asset Manager into this new management role. - \$78,277.03 Real Estate Asset Manager GEN 016 to Real Estate Specialist GEN 014: Once the Real Estate Asset Manager GEN 016 is vacant the intention is to reclassify it to a Real Estate Specialist GEN 014. As mentioned above, the needs of Office have evolved and require the specialized knowledge and technical expertise of a second Real Estate Specialist (GEN 014). This second Real Estate Specialist is needed to provide the necessary transactional support as our initiative and vision focuses on the growth and development of Salt Lake County's Real Estate portfolio. The position will be responsible for coordinating and managing real estate-related activities, including property research, transaction support, lease administration, and contract tracking, which require a solid understanding of real estate principles, terminology, and practices. These duties directly support the County's real estate portfolio and decision-making processes. Reclassifying the position to a Real Estate Specialist will ensure the role is properly aligned with the current needs and vision of the County. (\$39,665.03)						
8	[31-37270]	NEW REQUEST	Real Estate Personnel Annualization	-	55,245	55,245 (Yes)
The personnel budget increase is due to the annualization of the Real Estate Director position, which was reclassified from a merit-based "Permanent and Provisional" role to an "Appointed" position. This strategic reclassification was necessary to address persistent hiring challenges and to provide the flexibility required to offer a competitive compensation package. The reclassification resulted in a significant cost increase, but it was essential to attract and retain a candidate with the specialized skills and experience required for this critical role. Without this adjustment, it became increasingly difficult to recruit a qualified professional capable of meeting the demands of the position. The Real Estate Office is responsible for managing multi-million dollar transactions on a regular basis. This work requires a high level of expertise in market analysis, complex negotiations, and the ability to oversee multiple high-profile projects simultaneously. The depth and scope of responsibility associated with this role justify the enhanced compensation, as it ensures the office is led by someone with the necessary qualifications to protect and advance the County's real estate interests.						
47	[32-37706]	STRESS TEST REDUCTION	Temporary, Seasonal Salary	-	(16,148)	- (No)
To meet the Stress Test target, the Real Estate Division is proposing a reduction to its temporary/intern program—a key resource that supports essential office functions, filing, and technology-related tasks. As a small division, this program plays a critical role in maintaining day-to-day operational efficiency and enabling full-time staff to focus on high-value, strategic work. Reducing this support will increase pressure on existing staff, potentially leading to workflow bottlenecks, delays in project execution, and decreased overall productivity. Given the operational impact, it is important to monitor this reduction closely and reassess if service levels begin to decline.						

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
48	[32-37707] STRESS TEST REDUCTION Grounds Maintenance To meet the stress test requirements, the Real Estate division would need to significantly reduce its grounds maintenance budget. The grounds maintenance budget is critical for the upkeep of County-owned properties and plays a key role in ensuring public safety. A primary use of this funding is for weed control and grass mowing, which are essential for reducing fire hazards, especially during dry seasons, and maintaining clear, safe access to County facilities. Regular maintenance helps prevent overgrowth that can contribute to wildfires, obstruct visibility, or create trip hazards. It also supports compliance with local safety and environmental regulations. As the County manages a wide range of properties across diverse geographic areas, this budget ensures consistent, proactive care that protects both public assets and community well-being. Without adequate funding, the County risks increased fire danger, safety incidents, and higher long-term costs due to deferred maintenance.	-	(20,000)	(No)
49	[32-37709] STRESS TEST REDUCTION Professional Fees - Appraisal, Environmental Reviews The Real Estate Team relies on the Professional Fees budget to secure specialized external services that are essential for responsible property management and decision-making. This includes appraisals, environmental site assessments, title reports, and other technical reviews required to support acquisitions, dispositions, leasing, and compliance with regulatory standards. As the County's real estate portfolio grows in complexity and volume, the need for timely, expert evaluations has increased. These services are often mandated by law or policy and are critical to mitigating financial and environmental risk, ensuring transparency, and protecting public assets. A professional fees budget is necessary to align with current and projected workload demands. Without adequate funding, the team may face delays in project timelines, reduced due diligence capacity, and increased exposure to legal and financial liabilities.	-	(10,000)	(No)
50	[32-37708] STRESS TEST REDUCTION Employee Training, Education & Travel The Training and Education budget is essential to ensuring the Real Estate team remains current with evolving industry standards, legal requirements, and best practices in property management, valuation, leasing, and public asset stewardship. As the team manages a diverse portfolio of County-owned properties, ongoing professional development is critical to maintaining compliance, mitigating risk, and improving operational efficiency. Investing in staff development not only enhances individual expertise but also strengthens the team's ability to deliver high-quality, strategic real estate services that protect and maximize public assets. Without this investment, the County risks falling behind on regulatory compliance and industry trends, which could lead to costly errors or missed opportunities.	-	(9,000)	(No)
51	[32-37710] STRESS TEST REDUCTION Computer Replacement and Software Subscription The Real Estate Team relies on modern computers and essential software tools to manage the County's property portfolio efficiently, securely, and increasingly in digital form. As the team continues to digitize property records, access to platforms like Microsoft Office, Smartsheet, ARGUS, Adobe Sign, and Esri GIS becomes even more critical for financial modeling, project tracking, digital signatures, and spatial analysis. Combined with timely computer replacements, these tools ensure the team can deliver accurate, data-driven services while maintaining productivity, compliance, and operational continuity. These tools enable the team to manage leases, conduct valuations, analyze property data, and support strategic decision-making. In particular, Esri GIS is essential for visualizing property boundaries, land use, and infrastructure, supporting both internal planning and public transparency. Without continued investment in these tools and the hardware to support them, the team risks reduced productivity, slower project delivery, and increased operational and compliance risks.	-	(3,547)	(No)
53	[32-37695] STRESS TEST REDUCTION Real Estate Positions Reclassifications + Reorg Real Estate is unable to self-fund the Positions Reclassification and Reorg request. Office Specialist GEN 012 to Real Estate Operations Manager GEN 017: The reclassification of this position is warranted due to the County's vision and priorities evolving from a "maintain and manage" real estate culture to one focused on growth and development. This position requires advanced technical expertise and a higher level of responsibility than is currently represented in the Real Estate management structure to advance those goals of growing the County's real estate portfolio. The position not only requires specialized knowledge of real estate laws, regulations, and valuation practices, but also involves oversight of multiple, complex real estate transactions simultaneously, including acquisitions, dispositions, and lease negotiations. These duties demand a higher degree of independent judgment, problem-solving, and strategic decision-making. This position will serve as a leadership role overseeing the day-to-day operations of the office, with the Real Estate staff reporting directly to it. Reclassifying the role to a Real Estate Operations Manager GEN 017 appropriately aligns the classification with the technical skills, professional knowledge, and scope of responsibility essential to successfully perform the position. Our intention is to promote our current Real Estate Asset Manager into this new management role. \$78,277.03 Real Estate Asset Manager GEN 016 to Real Estate Specialist GEN 014: Once the Real Estate Asset Manager GEN 016 is vacant the intention is to reclassify it to a Real Estate Specialist GEN 014. As mentioned above, the needs of Office have evolved and require the specialized knowledge and technical expertise of a second Real Estate Specialist (GEN 014). This second Real Estate Specialist is needed to provide the necessary transactional support as our initiative and vision focuses on the growth and development of Salt Lake County's Real Estate portfolio. The position will be responsible for coordinating and managing real estate-related activities, including property research, transaction support, lease administration, and contract tracking, which require a solid understanding of real estate principles, terminology, and practices. These duties directly support the County's real estate portfolio and decision-making processes. Reclassifying the position to a Real Estate Specialist will ensure the role is properly aligned with the current needs and vision of the County. (\$39,665.03)	-	(38,613)	(No)

CORE MISSION

The mission of Records Management & Archives is to manage County records for current and future use.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Maximize transparency and public access to Salt Lake County Records.				
• Ensure record management policy awareness and compliance by agency records coordinators . [COMPLETED]	0	150	127	0
• Increase online accessibility to county records	0	60,000	55,498	60,000
• Digitizing the County property records to preserve property research information.	0	30	17	30
• Evaluate and index County records from the State Archives for identification and accessibility	0	20	5	40
• Add metadata and Index GIS building permits generated by Hansen System for accessibility.	0	5,000	167	500
• Increase records management and data privacy compliance by ensuring agencies retention schedules are current. [NEW]	0	0	0	10

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
2	[31-37298]	NEW REQUEST Social Media Preservation Software	-	14,000	14,000 (Yes)
	Salt Lake County remains at ongoing risk of non-compliance with public records laws and potential loss of critical social media content due to deletion, hidden posts, internal error, or malicious activity. Without a real-time archiving solution, content can be permanently lost before it can be properly preserved or retrieved. To mitigate this risk, we previously implemented a cloud-based social media archiving service that captures and stores content in real time, ensuring compliance with GRAMA and other records retention requirements. This service has provided a reliable and legally defensible solution for preserving official county communications shared via social media platforms. We are now seeking funding to renew this service, either through a sole source procurement or competitive RFP, to maintain this essential compliance function. Without continued archiving, the County risks data loss, legal exposure, and gaps in public transparency.				
3	[31-37297]	NEW REQUEST Service Contract: FlexView Microfilm Scanner	-	3,870	3,870 (Yes)
	NextScan FlexView microfilm scanner is a critical piece of equipment used by Salt Lake County Records Management and Archives to digitize and preserve historical and legally mandated records. This scanner allows us to efficiently convert microfilm into accessible digital formats, supporting ongoing efforts to modernize records access and meet long-term preservation goals. Due to the scanner's complexity and specialized components, a service contract is essential to ensure consistent performance, minimize downtime, and protect the County's investment. Without a service agreement, equipment failure could significantly delay digitization projects, disrupt access to records, and increase repair costs. A service contract provides timely technical support, routine maintenance, and necessary software/firmware updates—ensuring the scanner remains reliable and effective for high-volume use. Continued support is vital to maintaining productivity and meeting agency expectations for timely access to digital records.				
9	[31-37124]	NEW REQUEST FTE Request - Outreach/Digitization Archivist (Existing TL Position)	1.00	88,635	90,040 (Yes) 1.00 FTE
	The time-limited Real Estate Analyst/Archivist position has been critical to Salt Lake County's ongoing digitization and preservation efforts. Through a successful partnership between Regional Development and Records Management and Archives, this role has supported the digitization of large volumes of essential property and tax appraisal records—work that is currently 73% complete, with 227 boxes still pending. As the County prepares to relocate to the new Midvale campus, demand for digitization and records support is increasing. New partnerships are forming with agencies such as the Recorder's Office, Health Department, Sheriff's Office, and Library Services. This growing need highlights the importance of maintaining this position. We are requesting a full-time Outreach/Digitization Archivist to continue current projects and provide critical support for expanding digitization needs. Without this position, our capacity to serve county agencies, meet records access goals, and support the Midvale transition would be significantly reduced.				
48	[32-37515]	STRESS TEST REDUCTION Service Contract: FlexView Microfilm Scanner	-	(3,870)	- (No)
	Records Management & Archives is unable to self-fund this request. NextScan FlexView microfilm scanner is a critical piece of equipment used by Salt Lake County Records Management and Archives to digitize and preserve historical and legally mandated records. This scanner allows us to efficiently convert microfilm into accessible digital formats, supporting ongoing efforts to modernize records access and meet long-term preservation goals. Due to the scanner's complexity and specialized components, a service contract is essential to ensure consistent performance, minimize downtime, and protect the County's investment. Without a service agreement, equipment failure could significantly delay digitization projects, disrupt access to records, and increase repair costs. A service contract provides timely technical support, routine maintenance, and necessary software/firmware updates—ensuring the scanner remains reliable and effective for high-volume use. Continued support is vital to maintaining productivity and meeting agency expectations for timely access to digital records.				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
49	[32-37516] STRESS TEST REDUCTION Social Media Preservation Software Records Management & Archives is unable to self-fund this request. Salt Lake County remains at ongoing risk of non-compliance with public records laws and potential loss of critical social media content due to deletion, hidden posts, internal error, or malicious activity. Without a real-time archiving solution, content can be permanently lost before it can be properly preserved or retrieved. To mitigate this risk, we previously implemented a cloud-based social media archiving service that captures and stores content in real time, ensuring compliance with GRAMA and other records retention requirements. This service has provided a reliable and legally defensible solution for preserving official county communications shared via social media platforms. We are now seeking funding to renew this service, either through a sole source procurement or competitive RFP, to maintain this essential compliance function. Without continued archiving, the County risks data loss, legal exposure, and gaps in public transparency.	-	(14,000)	(No)
50	[32-37518] STRESS TEST REDUCTION Temporary,Seasonal,Emergency Employees The temporary position plays a crucial role in our digitization and preservation program. Over the past 7 years, this role has been instrumental, contributing to over 90% of our digitization efforts and metadata application. By working closely with County IT, the individual has effectively utilized county servers and the Archives website to make records available online. This position not only facilitates the digital accessibility of our records but also ensures their physical preservation. Responsibilities include rehousing, assessing documents for damage, and creating digital copies to protect against potential disasters. The absence of this role would severely impact our ability to perform essential functions related to record preservation and accessibility.	-	(15,858)	(No)
51	[32-37546] STRESS TEST REDUCTION Computer Replacement A complete elimination of the computer replacement budget for Records Management & Archives would severely hinder the division's ability to maintain secure, efficient, and compliant operations. Staff rely on functioning, up-to-date computers to manage digital records, access archival systems, and ensure timely responses to public records requests. Outdated hardware increases the risk of data loss, system failures, and security vulnerabilities—especially critical in a department responsible for preserving and protecting official records. Additionally, legacy systems may not support modern software required for digital preservation, metadata tagging, or electronic records management, directly impacting compliance with legal and regulatory standards.	-	(2,500)	(No)
52	[32-37545] STRESS TEST REDUCTION Education and Training: Cutting the education and training budget for records management and archives would prevent staff from staying up to date with evolving industry standards and best practices. As technology and regulations in records management continue to advance, ongoing training is crucial for ensuring that staff can effectively implement new systems, tools, and procedures. Without proper education, the organization risks falling behind in maintaining best practices, which could impact the integrity, security, and accessibility of records. Investing in training ensures the team remains aligned with industry trends and capable of adapting to future changes.	-	(3,450)	(No)
53	[32-37544] STRESS TEST REDUCTION Preservation + Office Supplies: Preservation and office supplies are critical to the long-term care and protection of the County Archives' collections. These materials—such as acid-free folders, boxes, and protective enclosures—help prevent deterioration of fragile and historically significant records, many of which are irreplaceable and legally required to be retained. Cutting this budget line would put essential preservation work at risk, potentially leading to irreversible damage and much higher restoration costs in the future. Maintaining funding for these supplies is necessary to ensure we meet archival standards, protect our collections, and avoid compromising the integrity of the county's historical record.	-	(3,950)	(No)
54	[32-37519] STRESS TEST REDUCTION Contract Hauling Eliminating this essential service, responsible for destroying records that have reached their retention period, will lead to non-compliance with Utah's records retention laws. In 2025, we anticipate a substantial volume of records from the Election Clerk's office will require destruction once they reach their 18-month retention period. Without this service, the County risks violating state regulations, which could result in legal penalties, regulatory fines, and damage to our reputation. Proper records management is crucial for legal adherence and maintaining operational efficiency.	-	(3,420)	(No)
56	[32-37514] STRESS TEST REDUCTION FTE Request - Outreach/Digitization Archivist Records Management & Archives is unable to fund this request. To meet the stress test target, we'd need to withdraw this request. The time-limited Real Estate Analyst/Archivist position has been critical to Salt Lake County's ongoing digitization and preservation efforts. Through a successful partnership between Regional Development and Records Management and Archives, this role has supported the digitization of large volumes of essential property and tax appraisal records—work that is currently 73% complete, with 227 boxes still pending. As the County prepares to relocate to the new Midvale campus, demand for digitization and records support is increasing. New partnerships are forming with agencies such as the Recorder's Office, Health Department, Sheriff's Office, and Library Services. This growing need highlights the importance of maintaining this position. We are requesting a full-time Outreach/Digitization Archivist to continue current projects and provide critical support for expanding digitization needs. Without this position, our capacity to serve county agencies, meet records access goals, and support the Midvale transition would be significantly reduced.	(1.00)	(88,635)	(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
0	[31-37584]	TECHNICAL ADJUSTMENT	Cisco Flex and Cisco Contact Center SBITAs	-	-	-
	Balance sheet budget needed to make annual contract payments on the Cisco Flex and Cisco Contact Center Express SBITA agreements.					(Yes)
	Balance Sheet Acquisition: \$264,498					
1	[31-37510]	NEW REQUEST	Telecommunications Rate Increases	-	(353,088)	(353,088)
	The Salt Lake County (SLCo) enterprise phone system is a critical service, supporting citizen access to government resources and services, internal collaboration, business continuity, and public safety and emergency communications. Over the past nine years, the Information Technology (IT) Telecommunications team has successfully absorbed annual increases in personnel, licensing, and maintenance costs—maintaining this essential service without raising rates and without compromising reliability or support. However, considering current fiscal realities, the historical quality and level of service provided cannot be sustained without a modest rate increase, which has remained unchanged for almost a decade. SLCo IT proposes to increase the VOIP rate from \$22 to \$24 monthly per line and the labor rate from \$107 to \$110 per hour which will enable the Telecommunications team to: • Keep pace with increasing personnel, licensing, and support costs • Maintain a high level of service and system reliability • Sustain features that support hybrid work and operational flexibility • Reinvest in infrastructure for long-term resilience and sustainability This recommendation reflects our continued commitment to fiscal responsibility, innovation, and uninterrupted service delivery, both now and for the future.					(Yes)
3	[32-37670]	STRESS TEST REDUCTION	Small Equipment and Communications Equipment Reductions	-	(96,557)	-
	This will eliminate replacement of UPS units. Alternative is to not use UPS's the risk is the phones will not operate during a power outage. This will also eliminate our ability to replace failed desk phones. In addition, this reduction will cut our life-cycle replacement of the voice gateways in half. The voice gateways allow for fax machines and analog phone devices to work on a VoIP system. These devices are now off support.					(No)
4	[31-37505]	NEW REQUEST	Hardware & Software Maintenance Increases	-	176,800	176,800
	Software maintenance and support is vital for County IT to keep applications and systems up and running. Without the support and maintenance, the County would eventually be faced with a major system failure that would impact the ability of the County to fulfill its statutory requirements. In the past the cost of this maintenance and support has increased 3%-5% per year, but recently increases of higher percentages have become standard. IT has traditionally been able to control these costs through contract management and elimination of systems and services where practical.					(Yes)
5	[32-37629]	STRESS TEST REDUCTION	Hardware & Software Maintenance Increases	-	(176,800)	-

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37057]	NEW REQUEST	Equity & Benefit Adjustments	-	824	824 (Yes)
Requesting equity adjustment for HR positions that are below other HR or county-wide positions. Also a change to an employees current benefit selection. Most of the costs are being offset by retirement benefits changes.						
2	[31-37055]	NEW REQUEST	Job Description Software	-	28,000	28,000 (Yes)
HR needs to modernize the way they manage job descriptions (JDs), currently, over 700 merit job descriptions are maintained manually, a process that is both time-intensive and prone to human error. The existing system lacks version control, search functionality, and audit trails. This creates operational risks, including the use of outdated or incorrect job descriptions, loss of historical records, and difficulty ensuring consistency and accuracy across classifications.						
3	[31-37056]	NEW REQUEST	4 Time Limited Positions for Leadership Academy	4.00	469,000	365,703 (Yes) 3.00 FTE
The EPIC pilot survey data showed that the EPIC performance management system requires skills that not all leaders are proficient in yet. The Leadership Academy will initially focus on the skills needed to conduct clear, fair and effective performance evaluations in preparation for the launch of the pay-for-performance program. Training all leaders in the County requires a team of people adept at developing and facilitating training. HR is in need of 4 learning & development facilitators with experience in performance management to carry out the Leadership Academy in partnership with our "one" current trainer; without these resources the team will be unable to train the County leadership. The time limited contract will be from 01/01/2026-12/31/2026.						
4	[32-37058]	STRESS TEST REDUCTION	Temporary Employees	-	(28,000)	- (No)
Reduction could eliminate ability to hire extra support to rollout large projects						
2.5% stress test: Reduce by \$28,000.00						
5	[32-37068]	STRESS TEST REDUCTION	Vehicle Rental Charges	-	(500)	- (No)
Reduction would eliminate the option of rental vehicle to attend conferences outside the Wasatch front.						
2.5% stress test: Reduce by \$500.00						
6	[32-37071]	STRESS TEST REDUCTION	Communication Equip-Non capital	-	(2,000)	- (No)
Reduction eliminates ability to purchase or repair comms equipment.						
2.5% stress test: Reduce by \$2,000.00						
7	[32-37059]	STRESS TEST REDUCTION	Physical Materials - Books	-	(940)	- (No)
Reduction would eliminate HR Book Bunch program allowing employees countywide to interact across agencies outside of normal work processes.						
2.5% stress test: Reduce by \$940.00						
8	[32-37066]	STRESS TEST REDUCTION	Small Equipment (Non-Computer)	-	(1,000)	- (No)
Reduction would hamper ability to purchase or repair small machinery needed for office production.						
2.5% stress test: Reduce by \$1,000.00						

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
9	[32-37067] STRESS TEST REDUCTION Mileage Allowance Reduction would create inability to reimburse employees traveling from GC to agencies or other offsite business meetings. 2.5% stress test: Reduce by \$675.00	-	(675)	- (No)
10	[32-37069] STRESS TEST REDUCTION Travel & Transportation - Employees Reduction would eliminate ability to attend annual SHRM conference for certification credits (CEUs), networking and training opportunities; also attendance at any other conferences outside Utah. 2.5% stress test: Reduce by \$11,000.00	-	(11,000)	- (No)
11	[32-37070] STRESS TEST REDUCTION Facilities Management Charges Reduction would hamper ability to maintain, clean and repair suite. 2.5% stress test: Reduce by \$3,000.00	-	(3,000)	- (No)
12	[32-37072] STRESS TEST REDUCTION Printing Charges Reduction primarily affects communication materials for benefits open enrollment; also training program materials. 2.5% stress test: Reduce by \$11,000.00	-	(11,000)	- (No)
13	[32-37073] STRESS TEST REDUCTION Training Provided by Personnel Reduction would eliminate training and development opportunities for employees countywide. 2.5% stress test: Reduce by \$45,000.00	-	(45,000)	- (No)
14	[32-37074] STRESS TEST REDUCTION Development Advertising Reduction affects ability to attend career fairs and community outreach as well as general advertising for SLCo recruitment. Would affect agency ability to hire due to smaller candidate pools. 2.5% stress test: Reduce by \$42,000.00	-	(42,000)	- (No)
15	[32-37075] STRESS TEST REDUCTION Office Supplies Reduction limits ability to provide necessary tools and supplies for day-to-day work. 2.5% stress test: Reduce by \$10,000.00	-	(10,000)	- (No)
16	[32-37076] STRESS TEST REDUCTION Consultants Fees Reduction would impact our ability to use external experts for benefits analysis and compensation studies. 2.5% stress test: Reduce by \$33,000.00	-	(33,000)	- (No)
17	[32-37077] STRESS TEST REDUCTION Postage Reduction would limit ability to communicate via mail to employees and retirees during benefits open enrollment. 2.5% stress test: Reduce by \$4,000.00	-	(4,000)	- (No)
18	[32-37078] STRESS TEST REDUCTION Career Service Council Reduction would impede ability to have CSC review merit employee grievances. 2.5% stress test: Reduce by \$10,000.00	-	(10,000)	- (No)
19	[32-37079] STRESS TEST REDUCTION Other Professional Fees Reduction would affect charges for HR employee fingerprinting and shredding of sensitive data, incurring risk to HR and the County. 2.5% stress test: Reduce by \$11,000.00	-	(11,000)	- (No)
20	[32-37080] STRESS TEST REDUCTION Subscriptions & Memberships Reduction would limit professional memberships in organizations that provide support, resources, and training in our field. Also affects purchased salary surveys used for market pricing of jobs. 2.5% stress test: Reduce by \$37,805.00	-	(37,805)	- (No)
21	[32-37081] STRESS TEST REDUCTION Education & Training Serv/Supp Reduction would eliminate ongoing training and development of HR staff, and ability to earn CEU's for HR certifications. 2.5% stress test: Reduce by \$15,038.00	-	(19,996)	- (No)
22	[32-37082] STRESS TEST REDUCTION Computer Software >\$5,000 Reduction would eliminate some software programs used by Learning & Development to develop training documents, videos, job aids, etc. 2.5% stress test: Do not reduce	-	(3,000)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
23	[32-37083] STRESS TEST REDUCTION Maintenance - Office Equipment Reduction would prohibit us from maintaining copiers, printers, and other office equipment used in our day-to-day work. 2.5% stress test: Do not reduce	-	(5,000)	- (No)
24	[32-37084] STRESS TEST REDUCTION Computers & Components <\$5,000 Reduction would create inability to replace aging laptops, monitors and docking stations required to do our daily work. 2.5% stress test: Do no reduce	-	(16,000)	- (No)
25	[32-37085] STRESS TEST REDUCTION Computer Software Subscription Reduction would eliminate software necessary to complete our work such as Smartsheet and other tools used by the learning and development team. 2.5% stress test: Do no reduce	-	(2,500)	- (No)
26	[32-37168] STRESS TEST REDUCTION 4 TL Positions for Leadership Academy Reduction in the TL positions would prohibit the Learning & Development team from executing the Leadership Academy proposed by Mayor Wilson. 2.5% stress test: Reduce by 1 position (\$117,250.00)	(4.00)	(469,000)	- (No)

CORE MISSION

The mission of the Salt Lake County Assessor's Office is to consistently provide the public with the fair market value of real and personal property in compliance with the laws and statutes of the State of Utah and standards of assessment.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Assessor's Office values all residential and commercial properties within the County annually.				
• Maintain the percent of parcels valued each year due to new construction and land development, and update the market value of all existing parcels in a dynamic real estate market from 100% of taxable properties as of the start of June each year to 100% of taxable parcels by the end of May of the following year.	60%	100%	8%	100%
The Assessor's Office assesses all the taxable Personal Property within the County.				
• Maintain and value the percent of current and new personal property accounts with a collection rate of 98% by the end of December.	100.4%	100%	86%	100%
The Assessor's Office provides support to the Board of Equalization hearings at the County and State level.				
• Reduce the time spent supporting the Board of Equalization, yet simultaneously, including a site visit to each parcel appealed. The goal is to complete 80% of the Board of Equalization by the end of each year. The appeal process starts at 0 percent in August and 80-100 percent by December. Still, it could be extended to April of the following year depending on when the office receives the appeal from the Auditors Office.	97%	100%	-	100%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID and Description				
		FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
1	[32-37446] STRESS TEST REDUCTION Stress Test Cuts - Overtime & Temp Budgets Stress Test Cuts of Overtime and Temp Budgets. The overtime cut would impact our ability to meet our statutory requirements during closing of the rolls which is our busiest season and overtime is often necessary in order to meet the deadline. Cutting the temporary employee budget would also impact our ability to meet deadlines during both closing of the rolls and the Board of Equalization. Additionally, we use a temp at our front counter to assist taxpayers in person and over the phone throughout the year, and cutting this funding adds additional workload back on our merit staff.	-	(34,100)	- (No)
2	[32-37476] STRESS TEST REDUCTION Stress Test Cuts - Operations Stress Test Cuts to our Operations budget will result in our staff not having equipment, training, and resources needed to perform their jobs in a safe, efficient, and effective manner as well as limit our ability to meet our statutory requirements. Service to our customers will also be negatively impacted.	-	(65,167)	- (No)
3	[32-37436] STRESS TEST REDUCTION Stress Test Cuts - Personnel 5% Stress Test - Personnel Reductions. In an effort to be good team players, we have been intentionally leaving positions open to help cover costs the costs of equity adjustments, grade advancements, and other salary related increases rather than requesting additional funding. The majority of our budget is in Personnel. In order to meet the stress test cuts, we had to identify seven positions in our Personnel budget. Not being able to fill these positions would have a critical impact on our operations as well as the remaining staff left to pick up the additional work loads and would be impossible to meet our statutory obligations and deadlines. In addition, we also had to identify cuts in overtime and our temporary budget to meet the stress test. All of these cuts would paralyze us and have a critical impact on our ability to do our work. NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)						
Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37091]	NEW REQUEST	Request Expiring TL Position as Merit Position	1.00	86,408	89,897
	In 2023, the Council approved two time-limited positions funded by ARPA. In the 2025 budget, one of these positions was converted to merit, while the other was extended as time-limited to 12/31/25. We are requesting that the expiring time-limited position, currently filled by an incumbent, be converted to a merit position. Converting this position will preserve critical audit capacity and ensure the continuity and stability needed to meet our statutory obligations.					(Yes) 1.00 FTE
2	[32-37262]	STRESS TEST REDUCTION	5% Stress Test - 7601	(0.50)	(44,062)	-
	Approximately 85% of our operations budget is committed to essential expenses, including rent, telephone expenses, and the statutory mailings of the Notice of Valuation and Decision Letters. As a result, achieving the required 5% reduction under the stress test would ultimately necessitate eliminating staff positions.					(No)
3	[32-37260]	STRESS TEST REDUCTION	5% Stress Test - 7600	(1.00)	(172,973)	-
	Our operations budget is already very limited and operates at maximum efficiency. Consequently, meeting the required 5% reduction under the stress test would inevitably require the elimination of staff positions.					(No)

Fund		Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
2		Election Clerk The 2026 Election Decision Package Request is on par with previous requests. In 2024, our Elections request was \$4.3 million, compared to the 2026 request of \$4.1 million. While there is one less election (presidential primary) to administrate, we do expect certain costs to increase. In the 2025 legislative session, 68 election-related bills were proposed and about 13 unfunded election laws were passed. The largest impact on our budget will be caused by three major bills: HB 300, HB 263 and SB 164. This will be acutely felt in the following areas: Temporary Workers and Overtime: HB 300 requires last four digits of a SSN or State ID handwritten on all ballots. Our office must manually verify the information on each ballot. Some neighboring counties implemented this change in 2025 and found this step added 20 seconds of manual processing time per ballot. Based on historical turnout levels, we expect this newly required step to add about 3,100 hours to our ballot processing time. Rental Equipment (Laptops): The additional temporary staff must be equipped with computers. Due to both HB 300 and SB 164, we will need to rent significantly more laptops than we have in previous elections. We discovered in 2024 that leasing this equipment is the most economical way to equip temporary staff. Contracted Labor: In 2024, we were very successful in terms of recruiting poll workers and temporary workers internally, because there is more public attention on getting involved with elections in a Presidential year. While next year is expected to be fairly high-turnout, we do not generally see focused community efforts to recruit poll workers in a midterm year. Therefore, to ensure we can meet our staffing needs, we need the ability to utilize temp agencies. Contracted labor is generally more expensive than internal hiring practices, as temp agencies charge us for overhead. Professional Fees (Sheriff): HB 300 also changed the by-mail ballot deadline from postmarked to ballot-in-hand on Election Night. As such, we anticipate increased use of ballot drop boxes and thus more pick-ups required to collect ballots. For maximum safety and security, we partner with the Sheriff's office to have their deputies perform the drop box pick-ups, throughout the Election and on Election Day. Not only do we anticipate more pick-ups, but we also generally see an increase in the Sheriffs' hourly rate that is charged to us year over year, as county compensation increases. Printing and Postage: Starting in 2026, HB 300 requires new envelope layouts and additional voter information inserts. We have also seen postage rates increase significantly, year over year, since 2020. Ensuring complete accuracy, integrity and transparency of elections is our top priority and we are always working to fine tune procedures and find efficiencies where possible. In 2026, our goal is to successfully implement the many upcoming legislative changes that we've outlined above, and maintain our status as an election administration leader in the state and the nation. FUTURE YEARS ADJUSTMENT: -4,000,000			(Yes)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
5	110	[31-37172]	NEW REQUEST Accountant FTE request	1.00	129,130	130,838 (Yes) 1.00 FTE
		Election Clerk The Clerk's office currently has an Administrative & Fiscal Manager with no other fiscal staff. The lack of fiscal staffing creates a risk, both in terms of workload and in our ability to maintain an appropriate segregation of duties, which is best practice for fiscal accountability. The addition of an Accountant will allow the Clerk's Office to achieve efficiencies in daily fiscal operations, implement internal audit practices, strengthen internal controls and increase oversight of taxpayer dollars as well as continue work on improvements recommended by the County Auditor following the 2024 review of the 2021 Municipal Election. Alongside election-specific duties, the Fiscal Manager is responsible for all high-level financial planning, forecasting and analysis, and budgeting in addition to daily accounting and purchasing functions, contract processing, and audit preparation. They also work with the Lt. Governor's office to ensure that SLCo receives our appropriate share of funds from the state and the federal government that are disbursed to us for use by county elections officials. With the passage of dozens of new election-related bills each year, our fiscal operations have become increasingly complex. The Fiscal Manager is required to review and analyze high volumes of legislation, while also ensuring accurate billing and contracting with municipalities and service districts. Not only will the addition of an Accountant provide more appropriate segregation of duties and thorough fiscal oversight, but it will also allow us more success in the necessary management of both high-level fiscal analysis and decision making, without sacrificing the thorough processing of purchasing, accounting, expense-tracking and other day-to-day fiscal operations. Election administration is high-profile and requires transparency, accountability, and operational accuracy. This position will allow us to meet these standards, reduce risk, and ensure that our fiscal processes can sustain the demands of an increasingly complex and sensitive elections environment. FUTURE YEARS ADJUSTMENT: -4,000				
6	110	[31-37277]	NEW REQUEST Senior Elections Manager	1.00	138,134	139,912 (Yes) 1.00 FTE
		Election Clerk As Salt Lake County's population grows, so too does the number of registered voters and the complexity of election administration, and supplementing our management team with a Senior Elections Manager is a necessary step towards meeting these demands. Additionally, compliance with frequent (unfunded) legislative changes—such as the substantial modifications implemented by HB300 and SB164 in the 2025 legislative session—requires increasingly detailed and labor-intensive procedures, advanced reconciliation reporting, and expanded voter education campaigns. Election administration is a fine-tuned machine, and even small statutory changes can require going back to the drawing board and testing and re-testing proposed procedural updates, to avoid unintended downstream effects. Our current elections management structure is not sufficient to keep pace with these many new, administratively complex requirements, while maintaining accurate, efficient, and secure elections. Adding a Senior Elections Manager would provide additional leadership capacity to manage procedural updates and testing, ballot processing workflow and mandatory daily election reconciliation. They would also provide much needed capacity to supervise a growing number of temporary election staff needed to conform to the labor-intensive new laws and oversee specialized functions such as communications and data analysis. The position will also strengthen our election security posture by coordinating with CISA and EL-ISAC and ensure proper records management in line with evolving legal requirements regarding election transparency, election returns (SB 263), sensitive voter information, and state privacy laws. This role is critical to sustaining our ability to administer elections that are accurate, efficient, secure, and transparent. By relieving some of the burden currently carried by our Elections Division Administrator, the Senior Elections Manager will help ensure compliance, efficiency, and resilience in an increasingly high-profile and resource-intensive area. FUTURE YEARS ADJUSTMENT: -4,000				
7	110	[31-37274]	NEW REQUEST In Person Voting Elections Coordinator FTE	1.00	98,098	99,545 (Yes) 1.00 FTE
		Election Clerk 1 In-Person Voting Coordinator: Would provide necessary additional support for poll worker recruitment, training, and help desk services. With the multi-year rollout of legislative changes to automatic vote by mail in Utah, we anticipate needing additional support to our in-person voting team so we can continue to provide robust accessibility to all eligible Salt Lake County voters. This position will also manage election equipment deployment and return, which has grown more complex in even-year elections and under recent federal executive orders. Background: Recent legislative changes, particularly HB300 and SB164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines. The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity. FUTURE YEARS ADJUSTMENT: -4,000				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
8	110	[31-37273]	NEW REQUEST Vote by Mail Elections Coordinator FTE	2.00	196,199	199,092
		Election Clerk				(Yes) 2.00 FTE
		2 Vote-by-Mail (VBM) Coordinators: Would provide necessary additional capacity to oversee manual ballot verification and supervision of temporary staff processing mail ballots, ensuring canvass deadlines can still be met while implementing labor-intensive statutory changes to ballot processing. They will also manage expanded training requirements for temporary workers in complex and security-sensitive procedures.				
		Background: Recent legislative changes, particularly HB 300 and SB 164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines.				
		The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity.				
		FUTURE YEARS ADJUSTMENT: -8,000				
9	110	[31-37272]	NEW REQUEST Voter Services Elections Coordinator FTE	2.00	196,199	199,092
		Election Clerk				(Yes) 2.00 FTE
		2 Voter Services Coordinators: Would provide necessary additional capacity to manage voter registration integrity, including new legal requirements implemented by HB 300, including manual verification of the last four digits of a Voter's ID on every ballot, regular review of large-household registrations, validation through jury duty lists. They will also handle the implementation of new signature audit requirements per SB 164.				
		Background: Recent legislative changes, particularly HB 300 and SB 164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines.				
		The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity.				
		FUTURE YEARS ADJUSTMENT: -8,000				
10	110	[31-37329]	NEW REQUEST Facilities rate increases - Elections	-	13,000	13,000
		Election Clerk				(Yes)
		Request to offset the increase in Facilities' rates.				
		The Clerk's Office relies on Facilities to assist in maintaining statutorily required critical systems.				
11	110	[32-37366]	STRESS TEST REDUCTION Elections Stress Test 5%	(7.00)	(985,005)	-
		Election Clerk				(No)
		After backing out new requests, the balance to meet the stress test is \$214,245. We have submitted challenging stress test operational cuts of \$50,000, leaving the remaining stress test balance of \$164,245.				
		The amount of \$164,245 would be very difficult to meet via additional operational cuts. Given that rent of \$391,214, contractual obligations of \$302,894, and printing of \$120,500 reduce the operations budget to \$304,166.				
		Funds to meet the stress test would have to come from the personnel appropriation unit in the form of a reduction in force. Such a reduction would critically impact our ability to meet our statutory responsibilities.				
13	110	[32-37293]	STRESS TEST REDUCTION Clerk Stress Test 5%	-	(74,030)	-
		Clerk				(No)
		The Clerk's Office, fortunately, remains fully staffed with long term employees.				
		The amount of \$74,030 would be very difficult to meet as the operations budget after rent \$98,200, contractual obligations \$12,300, and postage \$28,514 is only \$88,321, so it would have to come from the personnel appropriation unit in the form of a reduction in force. Such a reduction would greatly impact our ability to meet our statutory responsibilities and customer demands.

CORE MISSION

To conduct Salt Lake County Elections in a fair, transparent, accurate, and efficient manner; to educate and encourage voter participation and to maintain accurate election records.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Increase Cure Letter Responses				
• Increase the number of cure letter responses from by-mail voters allowing us to process and tabulate their ballot.	43%	50%	30%	50%
De-escalation Training				
• New merit staff to go through de-escalation training [New 2024] Existing merit staff to go through periodic refresher de-escalation training. (New 2025)	100%	100%	100%	100%
Improve Voter Registration process time				
• Increase the number of weeks that end with no outstanding voter registrations remaining in the queue to be processed [New 2025]	-	80%	90%	80%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)					
	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37269]	NEW REQUEST 2026 Mid-term Elections	-	4,163,800	4,000,000 (Yes)
The 2026 Election Decision Package Request is on par with previous requests. In 2024, our Elections request was \$4.3 million, compared to the 2026 request of \$4.1 million. While there is one less election (presidential primary) to administrate, we do expect certain costs to increase. In the 2025 legislative session, 68 election-related bills were proposed and about 13 unfunded election laws were passed. The largest impact on our budget will be caused by three major bills: HB 300, HB 263 and SB 164. This will be acutely felt in the following areas: Temporary Workers and Overtime: HB 300 requires last four digits of a SSN or State ID handwritten on all ballots. Our office must manually verify the information on each ballot. Some neighboring counties implemented this change in 2025 and found this step added 20 seconds of manual processing time per ballot. Based on historical turnout levels, we expect this newly required step to add about 3,100 hours to our ballot processing time. Rental Equipment (Laptops): The additional temporary staff must be equipped with computers. Due to both HB 300 and SB 164, we will need to rent significantly more laptops than we have in previous elections. We discovered in 2024 that leasing this equipment is the most economical way to equip temporary staff. Contracted Labor: In 2024, we were very successful in terms of recruiting poll workers and temporary workers internally, because there is more public attention on getting involved with elections in a Presidential year. While next year is expected to be fairly high-turnout, we do not generally see focused community efforts to recruit poll workers in a midterm year. Therefore, to ensure we can meet our staffing needs, we need the ability to utilize temp agencies. Contracted labor is generally more expensive than internal hiring practices, as temp agencies charge us for overhead. Professional Fees (Sheriff): HB 300 also changed the by-mail ballot deadline from postmarked to ballot-in-hand on Election Night. As such, we anticipate increased use of ballot drop boxes and thus more pick-ups required to collect ballots. For maximum safety and security, we partner with the Sheriff's office to have their deputies perform the drop box pick-ups, throughout the Election and on Election Day. Not only do we anticipate more pick-ups, but we also generally see an increase in the Sheriffs' hourly rate that is charged to us year over year, as county compensation increases. Printing and Postage: Starting in 2026, HB 300 requires new envelope layouts and additional voter information inserts. We have also seen postage rates increase significantly, year over year, since 2020. Ensuring complete accuracy, integrity and transparency of elections is our top priority and we are always working to fine tune procedures and find efficiencies where possible. In 2026, our goal is to successfully implement the many upcoming legislative changes that we've outlined above, and maintain our status as an election administration leader in the state and the nation. FUTURE YEARS ADJUSTMENT: -4,000,000					
2	[31-37389]	NEW REQUEST 2026 Filing Fees Revenue	-	(16,000)	(16,000) (Yes)
Anticipated additional one-time revenue from candidate filing fees. FUTURE YEARS ADJUSTMENT: 16,000					
3	[31-37468]	NEW REQUEST Election Equipment Replacement FY2026	-	135,909	135,909 (Yes)
Election Equipment Replacement from state funds FY2026					

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	[31-37172] NEW REQUEST Accountant FTE request The Clerk's office currently has an Administrative & Fiscal Manager with no other fiscal staff. The lack of fiscal staffing creates a risk, both in terms of workload and in our ability to maintain an appropriate segregation of duties, which is best practice for fiscal accountability. The addition of an Accountant will allow the Clerk's Office to achieve efficiencies in daily fiscal operations, implement internal audit practices, strengthen internal controls and increase oversight of taxpayer dollars as well as continue work on improvements recommended by the County Auditor following the 2024 review of the 2021 Municipal Election. Alongside election-specific duties, the Fiscal Manager is responsible for all high-level financial planning, forecasting and analysis, and budgeting in addition to daily accounting and purchasing functions, contract processing, and audit preparation. They also work with the Lt. Governor's office to ensure that SLCo receives our appropriate share of funds from the state and the federal government that are disbursed to us for use by county elections officials. With the passage of dozens of new election-related bills each year, our fiscal operations have become increasingly complex. The Fiscal Manager is required to review and analyze high volumes of legislation, while also ensuring accurate billing and contracting with municipalities and service districts. Not only will the addition of an Accountant provide more appropriate segregation of duties and thorough fiscal oversight, but it will also allow us more success in the necessary management of both high-level fiscal analysis and decision making, without sacrificing the thorough processing of purchasing, accounting, expense-tracking and other day-to-day fiscal operations. Election administration is high-profile and requires transparency, accountability, and operational accuracy. This position will allow us to meet these standards, reduce risk, and ensure that our fiscal processes can sustain the demands of an increasingly complex and sensitive elections environment. FUTURE YEARS ADJUSTMENT: -4,000	1.00	129,130	130,838 (Yes) 1.00 FTE
5	[31-37277] NEW REQUEST Senior Elections Manager As Salt Lake County's population grows, so too does the number of registered voters and the complexity of election administration, and supplementing our management team with a Senior Elections Manager is a necessary step towards meeting these demands. Additionally, compliance with frequent (unfunded) legislative changes—such as the substantial modifications implemented by HB300 and SB164 in the 2025 legislative session—requires increasingly detailed and labor-intensive procedures, advanced reconciliation reporting, and expanded voter education campaigns. Election administration is a fine-tuned machine, and even small statutory changes can require going back to the drawing board and testing and re-testing proposed procedural updates, to avoid unintended downstream effects. Our current elections management structure is not sufficient to keep pace with these many new, administratively complex requirements, while maintaining accurate, efficient, and secure elections. Adding a Senior Elections Manager would provide additional leadership capacity to manage procedural updates and testing, ballot processing workflow and mandatory daily election reconciliation. They would also provide much needed capacity to supervise a growing number of temporary election staff needed to conform to the labor-intensive new laws and oversee specialized functions such as communications and data analysis. The position will also strengthen our election security posture by coordinating with CISA and EL-ISAC and ensure proper records management in line with evolving legal requirements regarding election transparency, election returns (SB 263), sensitive voter information, and state privacy laws. This role is critical to sustaining our ability to administer elections that are accurate, efficient, secure, and transparent. By relieving some of the burden currently carried by our Elections Division Administrator, the Senior Elections Manager will help ensure compliance, efficiency, and resilience in an increasingly high-profile and resource-intensive area. FUTURE YEARS ADJUSTMENT: -4,000	1.00	138,134	139,912 (Yes) 1.00 FTE
6	[31-37274] NEW REQUEST In Person Voting Elections Coordinator FTE 1 In-Person Voting Coordinator: Would provide necessary additional support for poll worker recruitment, training, and help desk services. With the multi-year rollout of legislative changes to automatic vote by mail in Utah, we anticipate needing additional support to our in-person voting team so we can continue to provide robust accessibility to all eligible Salt Lake County voters. This position will also manage election equipment deployment and return, which has grown more complex in even-year elections and under recent federal executive orders. Background: Recent legislative changes, particularly HB300 and SB164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines. The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity. FUTURE YEARS ADJUSTMENT: -4,000	1.00	98,098	99,545 (Yes) 1.00 FTE

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[31-37273] NEW REQUEST Vote by Mail Elections Coordinator FTE 2 Vote-by-Mail (VBM) Coordinators: Would provide necessary additional capacity to oversee manual ballot verification and supervision of temporary staff processing mail ballots, ensuring canvass deadlines can still be met while implementing labor-intensive statutory changes to ballot processing. They will also manage expanded training requirements for temporary workers in complex and security-sensitive procedures. Background: Recent legislative changes, particularly HB 300 and SB 164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines. The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity. FUTURE YEARS ADJUSTMENT: -8,000	2.00	196,199	199,092 (Yes) 2.00 FTE
8	[31-37272] NEW REQUEST Voter Services Elections Coordinator FTE 2 Voter Services Coordinators: Would provide necessary additional capacity to manage voter registration integrity, including new legal requirements implemented by HB 300, including manual verification of the last four digits of a Voter's ID on every ballot, regular review of large-household registrations, validation through jury duty lists. They will also handle the implementation of new signature audit requirements per SB 164. Background: Recent legislative changes, particularly HB 300 and SB 164, have significantly increased the amount of manual verification and auditing required for voter registration, processing signature packets (for candidates, referenda or initiatives), and ballot processing. These requirements will substantially extend the labor and time needed to process voter data and ballots, while meeting statutory deadlines. Without additional staff capacity, it will not be possible to complete these processes accurately, comply with all new statutory requirements, and meet our statutory deadlines. The many new changes will require substantial additional manual processing, substantially increasing the number of temporary staff we will need to carry out these functions. It is critical that we have sufficient full-time staff to onboard, train and manage these workers. Additional Election Coordinators will provide oversight to ensure all processes are performed securely and consistently. The appropriate supervision of temporary election workers (including thorough vetting and training) is a requirement for ensuring election security and integrity. FUTURE YEARS ADJUSTMENT: -8,000	2.00	196,199	199,092 (Yes) 2.00 FTE
9	[31-37329] NEW REQUEST Facilities rate increases - Elections Request to offset the increase in Facilities' rates. The Clerk's Office relies on Facilities to assist in maintaining statutorily required critical systems.	-	13,000	13,000 (Yes)
10	[32-37366] STRESS TEST REDUCTION Elections Stress Test 5% After backing out new requests, the balance to meet the stress test is \$214,245. We have submitted challenging stress test operational cuts of \$50,000, leaving the remaining stress test balance of \$164,245. The amount of \$164,245 would be very difficult to meet via additional operational cuts. Given that rent of \$391,214, contractual obligations of \$302,894, and printing of \$120,500 reduce the operations budget to \$304,166. Funds to meet the stress test would have to come from the personnel appropriation unit in the form of a reduction in force. Such a reduction would critically impact our ability to meet our statutory responsibilities.	(7.00)	(985,005)	- (No)
	[31-37677] NEW REQUEST State revenue for equipment State allotment for equipment	-	(135,909)	(135,909) (Yes)

CORE MISSION

Through accountable stewardship, collaboration with stakeholders, and innovative solutions, the Salt Lake County Council is committed to providing effective governance, promoting transparency, and delivering essential services that enhance the quality of life within our county. Together we build a strong foundation for today's residents as well as for future generations.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Salt Lake County Council upholds a rigorous and transparent fiscal strategy to ensure long-term financial sustainability.				
• Maintain the AAA rating from major bond rating agencies for the County's general obligation debt.	100%	100%	50%	100%
• Consider and adopt County budgets in accordance with state law and county ordinances.	100%	100%	50%	100%
• Review and approve the County's certified property tax rates.	100%	100%	100%	100%
The Salt Lake County Council partners with County organizations to ensure the delivery of efficient governmental services, with a strong focus on enhancing public safety, advancing human services, expanding affordable housing, enriching cultural and recreational amenities, and fostering thoughtful growth for residents.				
• Conduct regular council meetings to legislate, oversee county government, and actively engage with residents.	100%	100%	50%	100%

CORE MISSION

To serve the people of Salt Lake County by promoting justice and upholding the rule of law in a fair and equitable manner.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
County Prefile Intervention Program				
• *This is the number offenders who have been enrolled in a diversion program.	1,040	1,000	340	750
Criminal Justice Diversion Program is a way to reduce recidivism by providing treatment for those offenders arrested for crimes typically associated with drug use. This program also keeps low-risk offenders out of the court system, thus saving taxpayers money. People who were arrested for crimes such as theft, home and car burglary, or fraudulent use of credit cards - crimes typically associated with drug use - or minors in possession of drugs or alcohol, have the option to go through the County's diversion program if they are determined to be eligible. Formal criminal charges are not filed by prosecutors, and upon successful completion of the program, the case will be dismissed. The more offenders that can be diverted out of the court system and into a diversion program, the more chance for less repeat offenders. This will save taxpayer dollars as well as reduce recidivism.				
• *Percentage increase of referrals to CPIP for screening.	19%	10%	39%	10%
Successful implementation of Mayor's and Council's direction regarding compensation.				
• Increase the percentage of employees successfully placed at the appropriate salary as determined by Mayor and Council compensation direction. Consistent with county audit of compensation, it was determined that we have fundamental deficits in areas of pay equity and compression. This has a direct impact on fair market earning capacity of our employees and directly impacts morale, productivity and recruitment. This indicator will be measured by comparing the percentage of employees who are equitably compensated using midpoint as market salary. The percentage of employees at mid-point is 31%, a 5% decrease from last year. A majority of our employees are still not at market, which leaves our organization at risk of losing more employees as they seek higher paying positions. Adequate funding to meet this need is the factor that most affects this indicator. The constant fluctuations in the employment market will continue to affect our ability to both retain existing employees and recruit new ones.	44%	100%	37%	100%
Camp HOPE and Pathways program enrollment, participation, and outreach				
• Percentage of parents of children who are victims of crime that we interact with in our office who are informed about Camp HOPE America - Utah (Camp HOPE) and the Pathways programs. Child victims experience trauma that can have a long-lasting impact on their well-being, including after a criminal case is over. Informing all parents and caregivers about the Camp HOPE and Pathways program ensures that all child victims have an opportunity to participate in life-changing services that support their recovery.	100%	100%	100%	100%
• Percentage of children who attend Camp HOPE that come back and continue participation in Pathways. Recovering from trauma is a process and not an event. Ongoing participation in the Pathways program is important so children can continue to build on the HOPE and resiliency they developed during the intensive week-long session of camp. The Pathways program provides mentorship and ongoing peer support from other participants which helps children not feel so different. Children feel safe while being introduced to new experiences and paths they can pursue later in life.	68%	70%	78%	75%
• Increase overall attendance in the Pathways program activities. The Pathways program is also important because it allows child victims to enroll and participate in the program throughout the year without attending camp first. They can become oriented to the principles of camp and receive the benefits of enriching activities, mentorship and peer support while they look forward to camp the following summer. It also allows us to serve children who may not be able to attend camp because of scheduling, family circumstances, or who aren't ready to attend an extended over-night camp away from home. These ongoing activities allow us to meet the diverse needs of child victims.	9.3%	10%	15%	10%
• Increase level of hope and resiliency by 50% in children by who have been impacted by violence.	65%	50%	56%	50%

1	[31-37472] TECHNICAL DEBT SERVICE ADJUSTMENT 2026 - 2024A STR, 2017AB STR & 2020B STRRB Bond Adjustment To adjust the 2026 debt service amounts for the 2024A STR, 2017AB STR & 2020B STRRB bond projects	-	8,795	8,795 (Yes)
2	[31-37317] NEW REQUEST Court Coverage Attorneys The organizational structure for prosecutors within the District Attorney's Office currently consists of four attorneys assigned to each criminal courtroom calendar in Salt Lake County. Each of the 16 criminal calendars is assigned a prosecutor from the specialty teams to include a homicide/gang prosecutor, a special victims prosecutor, and a domestic violence prosecutor. Each courtroom is also assigned a major crimes/general felonies (MCU) prosecutor. Given the complexity of the cases assigned to the specialty teams, they would ideally be assigned a caseload made up only of their specialty cases. The volume of MCU cases assigned to each courtroom, however, precludes that strict division from occurring and requires the specialty prosecutors to also address a certain percentage of their courtroom's MCU cases. This additional burden on these prosecutors takes time away from their specialty cases, many of which involve victim-sensitive matters and deserve additional attention. The MCU caseloads average around 500, which is more than one prosecutor can effectively manage. An additional attorney for each courtroom would ease the burden on the four currently assigned to the caseloads and allow for effective and attentive prosecution of every type of case. The addition of staff resources may also help reduce turnover since staff with high caseloads tend to experience burn-out or prosecutor exhaustion, which refers to the chronic physical, emotional and mental depletion experienced by prosecutors due to factors like high caseloads, prolonged work hours, dealing with trauma, and the stressful nature of the criminal justice system. In 2024, Attorneys in the Justice Division lost 653 hours of use or lose vacation due to the inability to take the vacation they earned due to high caseloads and responsibilities. We need to be able to provide all employees with the ability to take their earned leave and not feel like they can't because there is not enough staff. We are requesting 16 attorneys- one for each courtroom. FUTURE YEARS ADJUSTMENT: -35,745	16.00	3,037,588	3,072,756 (Yes) 16.00 FTE
3	[31-37304] NEW REQUEST Rover Team The District Attorney's Office often experiences shortages in personnel due to paid leave, including parental leave. During these times it is imperative that the vacant roles be filled so that our cases, and the crime victims involved in them, continue to receive the attention they deserve, and cases do not have to be continued. In order to ensure that those temporary vacancies are filled with individuals who have adequate time and attention to dedicate to a caseload we are requesting six Prosecuting Attorneys (to cover vacancies that may occur in any one of the ~90 assigned prosecutor roles that current exist), one Legal Secretary (to cover the existing ~20 roles), and one Paralegal (to cover the existing ~30 roles). For context, in 2024, we had 20,397 hours of leave time for Attorneys, 6,595 hours of leave time for Legal Secretaries and 9,214 hours of leave time for Paralegals. This included all types of leave such as parental, FMLA, sick and vacation. The requested FTEs will also assist in caseload coverage when a judge has an unusual number of cases assigned and when the office is handling highly complex cases that require additional support. Furthermore, this team will allow us to perform two more critical functions: temporarily assisting courtrooms where the workload is disproportionately heavy due to any one or more myriad factors and also supplement the office's gang-related cases that do not currently have a specialized team to assist our enforcement action. We are requesting 6 Attorneys, 1 Paralegal, and 1 Legal Secretary.	8.00	1,348,380	- (No)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	[31-37292] NEW REQUEST SVSD Victim Support Staff The Survivor and Victim Services Program (SVSD) is structured to align with the District Attorney's courtroom team model. Due to limited staffing, we are unable to assign dedicated SVSD teams to each courtroom. Currently, one Social Worker and one Case Manager are assigned to support two courtrooms. Social Workers primarily handle homicide and special victims' cases, while Case Managers oversee domestic violence and major crimes cases. In 2024, our team of nine social workers and seven case managers managed 5,342 cases. At any given point in time, caseloads ranged from 120 to 170 cases per staff member. Each case may involve multiple victims, and the duration of these cases can span from several months to several years, depending on the nature and complexity of the charges. All the Case Manager positions are time-limited with five of the seven Case Manager positions funded through federal sources such as VOCA and VAWA and are subject to reductions with each grant cycle. The remaining two Case Manager positions are funded by the County with funding only guaranteed through the end of 2025. We analyzed cases by the lead charge and case type. There are an estimated 4,689 cases where victims are currently unserved and lack appropriate resources and intervention from the SVSD. Due to the shortage of staff to provide services we are only able to serve 53% of cases. To address this gap and ensure equitable services across all courtrooms, we are requesting 18 additional full-time positions: seven Social Workers, nine Case Managers, and two Victim Services Managers. This would allow us to assign a dedicated Case Manager and Social Worker team to each courtroom and provide services to the currently unserved 4,689 cases. Even with this increase, the anticipated average caseload per staff member would remain high, approximately 289 cases per year. The additional staff will allow us to increase the number of victims served, better inform victims about the criminal justice process and the status of their case, increase understanding by victims of their rights and increase victim confidence in the criminal justice system. This investment will significantly strengthen our ability to provide consistent, trauma-informed support to victims of crime throughout the prosecution process. FUTURE YEARS ADJUSTMENT: -13,404	18.00	2,209,546	647,352 (Yes) 6.00 FTE
5	[31-37318] NEW REQUEST Time-Limited to Merit Previously ARPA The District Attorney was allocated 22 time-limited FTEs as part of the American Rescue Plan Act (ARPA). These positions were utilized to help manage the backlog of court cases created by the circumstances surrounding the covid-19 pandemic. Of the 22 FTE's originally allocated, 4 remain, are now being requested as merit FTEs. While the majority of the backlog has been eliminated, the influx of cases continues unabated, requiring us to convert the remaining 4 FTEs to merit allocations. Following is a description outlining the need for each of these positions: The Legal Secretary TL FTE is currently assigned to our Specialty Court team and is responsible for providing assistance to 3 attorneys with a combined active caseload of nearly 600 cases. We have only one other Legal Secretary assigned to our Specialty Court team and they do not have the ability to absorb this caseload if this position were to be eliminated. There are also 2 half time TL Paralegal FTEs. One is assigned to our Screening Division and is highly skilled in the screening of Special Victims cases, due to our investment in their training and mentoring. It would be difficult to lose this resource that has been cultivated to help us screen the increasing number of these types of complicated cases. The other half time TL Paralegal FTE is assigned to maintain our statute table in eProsecutor. Because of the disorganized nature of the State Code, we are unable to mass import changes to our statute table, critical to our ability to select correct statutes for the filing of charges with the court. This process is very time intensive and is constant throughout the year. In 2022, at the urging of our office, the Legislature embarked on a years long project to recodify the State Code, in order to make the format compatible with technologically advanced systems. Unfortunately, this project has stalled, and it is unknown if the Legislature will continue to allocate the necessary resources to complete this project. We have no other available resource to fill this critical function if this request is denied.	3.00	320,531	325,866 (Yes) 3.00 FTE
6	[31-37440] NEW REQUEST CPIP Legal Secretary The County Pre-file Intervention Program (CPIP) has proven to be an incredibly efficient and effective way of addressing non-violent low-level cases. The diversion of these cases away from the courtroom and into the CPIP program has shown almost zero recidivism among participants, and very high rates of completion of terms such as good behavior and full payment of restitution. As the program grows, so does the need for resources. One additional staff member is requested to assist in the screening and monitoring of these cases so that we may send more cases to the program and focus court resources on repeat or violent offenders. The DA Office requested a CPIP Case Manager in the 2024 fall budget cycle that was denied. Due to needing someone to oversee the program, we reclassified an internal position to a CPIP Manager. However, that position was a Legal Secretary that we are still in need of within the program to perform the duties previously noted. This request is to replace the Legal Secretary that was reclassified as CPIP Manager. If our request to convert our remaining TL positions to merit positions is granted, this request would not be necessary. Additionally, CPIP is part of our treatment courts team, which is responsible for not only CPIP but for the five drug courts, two mental health courts, and one veterans court. The CPIP team was built without any additional resources being added to the treatment courts team, and is critical to staff, review, and screen all of these programs. Ideally, we would like to divert 10% of our screenings to the CPIP program, which would consist of approximately 1800 cases per year. FUTURE YEARS ADJUSTMENT: -2,234	1.00	95,931	97,356 (Yes) 1.00 FTE
7	[31-37306] NEW REQUEST Habitual Offender Team We are requesting 5 Attorneys, 1 Paralegal, 1 Legal Secretary and 1 Case Manager to form a Habitual Offender Team. This team would not be assigned to a specific courtroom but would instead be assigned to the 250 most frequent offenders. By assigning 50 defendants to each attorney, the caseload would be manageable providing the ability to connect these defendants with available resources to decrease recidivism risk and improve the quality of life for the defendants, their victims and the community. This would be the primary objective of the team. If connection to resources efforts fail, the secondary goal would be incapacitation. Each Prosecutor on the team would only pick up a new defendant when a currently assigned defendant either does not pick up any new cases for 12 months or is sentenced to prison. If the top 250 offenders are responsible for an example of 10 cases each, this would account for 2,500 of our pending cases in any given year. The defendant focused approach would curb recidivism among our most frequent offenders while also easing the caseload for the entire office. This would allow us to target and focus on the most deliberate and high risk offenders interacting with the criminal justice system.	8.00	1,265,286	- (No)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
8	[31-37314] NEW REQUEST Juvenile Team We are requesting an additional Attorney to be assigned to our juvenile division so that the supervising Attorney in juvenile can provide greater oversight, management, and accessibility to their team, as well as enabling them to be available to take on related juvenile projects and policy reforms. There are currently 8 juvenile courts in Salt Lake County and our office is staffing those courts with 7 attorneys and 1 supervising attorney. This does not include juvenile drug and mental health courts. Juvenile calendars are uniquely different than adult calendars and must be staffed by an attorney for an entire setting – making it difficult for them to bounce from court to court. We have tried in the past to have one of the 7 attorneys split assignments for the 8th courtroom but that has led to scheduling challenges and case management inconsistency. As a result, we have our supervising attorney take on an entire calendar in addition to being the point person for highly complex juvenile cases such as juvenile murder, juvenile sexual assault, etc. This also divides their attention away from their management responsibilities which include staffing offers (often on sex related offenses), as well as providing genuine feedback in the new EPIC evaluation model. Further, our office has several juvenile related justice projects where supervisor availability and involvement are critical for success. Finally, the area of juvenile law has undergone notable legislative changes in the past few years, and it is important for the supervisor to be engaged in policy discussions surrounding those reforms so that they can be effectively addressed and implemented by our attorneys. By having the juvenile supervisor dedicated to an entire court calendar, their effectiveness in these other critical areas is diminished. The addition of one attorney would provide significant relief and yield a qualitative improvement in the overall team's efficacy. FUTURE YEARS ADJUSTMENT: -2,234	1.00	189,849	192,047 (Yes) 1.00 FTE
9	[31-37313] NEW REQUEST Screening Team The Screening Division is requesting an additional full-time Paralegal to assist with Major Crime Unit (MCU) screening. Screening has experienced a noticeable increase in the number of cases submitted to the District Attorney's Office over the last 5 years: 2020: 17,263 2021: 16,113 2022: 16,712 2023: 18,162 2024: 18,324 2025: 19,424 (Estimated year-end total based on current averages. (11,331 through Aug.1). Jail (in custody) cases are routinely prioritized and require paralegals to screen these cases as they come in when they have a Pre-file Release (PFR) date, meaning we have 72 hours within which to receive and gather relevant information, and then screen and file a case before a defendant is released. Depending on the number of jail cases that come in on any given day, it disrupts the paralegal's workflow and pushes the rest of their assigned cases lower in the queue. The data shows that we are receiving a significantly higher percentage of jail cases now than we have in the past. From 2020-2024, on average, 25% of the cases received by the Screening Division were jail cases. In 2025, it is 32%. If averages hold, Screening is expected to receive 2,285 more jail cases in 2025 than we did in 2023. Screening Paralegals strive to keep their logs within three weeks of receipt, which roughly translates to 30 cases in each paralegals queue to balance workload. Currently, 5 out of the 9 paralegals have queues with more than 30 cases, three of which are excessively high. Screening has taken steps to try and work within our current staffing levels to find efficiency and increase work production including recurring reminders about the need to stay on top of work, suspending remote work options to provide more direct supervision, and utilizing Performance Improvement Plans. At times, staff resources have also been shifted intermittently on a temporary basis from other teams to try to alleviate backlog. The addition of a Paralegal to the Screening team would allow us to reduce workload to a more manageable level and avoid the disruption to other teams that reassignment of staff to Screening on a temporary basis cause. FUTURE YEARS ADJUSTMENT: -2,234	1.00	112,362	113,915 (Yes) 1.00 FTE
10	[31-37312] NEW REQUEST HB354 Data Specialist Passed in 2025, HB 354 requires all county prosecuting offices in the State of Utah to track all offenses screened, filed, and adjudicated, as well as the per capita cost for each, and to compile those statistics into a written report that must be filed with the Utah Commission on Criminal and Juvenile Justice, annually by May 1. This will be a time and labor intensive endeavor and will require the addition of one FTE to ensure full compliance. This process will include the collection of data throughout the year as well as auditing the data and reviewing with DA staff to ensure accuracy. Considering that screening alone is in excess of 19,000 cases annually, many with multiple charges, this is a full-time responsibility. We currently do not have sufficient staffing resources to comply with the data gathering and analysis that is needed to comply with this House Bill. We are requesting a full-time Data Specialist to carry out these required tasks. FUTURE YEARS ADJUSTMENT: -2,234	1.00	80,710	82,002 (Yes) 1.00 FTE
11	[31-37321] NEW REQUEST Legal Investigator PSP Salary The District Attorney's Office is requesting funding to support salary/benefit increases that will be required if the request from the Sheriff's Office is approved. The Sheriff's Office is requesting a 2.5% market increase for all sworn employees and a 1% longevity payout for those at the top of the range. For the District Attorney's Office Legal Investigators who are a part of the Public Safety Pay Plan this means they would all move up 2.5% in their salary and would receive the additional 1% longevity at the end of 2026 just like the Sheriff's employees as they are all at the top step in their grade. This equates to \$87,769.41 in salary and benefits. The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, this decision package is not necessary.	-	87,769	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
12	[31-37294]	NEW REQUEST	Children's Justice Center Support Staff	1.00	97,048	98,473 (Yes) 1.00 FTE
			We are requesting one full-time Secretary position to support the two Children's Justice Center locations. The position would split their time at each location weekly and would provide support to help with scheduling appointments, partner agency follow-up, victim follow-up, data entry, supply coordination and managing the front desk. Currently staff rotate performing these tasks but it's less effective and takes away from their time spent in direct service to victims. We currently don't have enough staff to perform their assigned tasks related to direct victim services and manage these other important tasks especially when there are multiple forensic interview appointments with the 12 FTEs that the CJC currently has. The CJC served 1,599 primary victims and 1,689 secondary victims in 2024. FUTURE YEARS ADJUSTMENT: -2,234			
13	[31-37290]	NEW REQUEST	Camp Hope	-	90,000	90,000 (Yes)
			In 2018, we entered into an agreement with Alliance for Hope to provide an evidence based camping and mentoring program focused on kids impacted by violence, sexual assault and abuse. The District Attorney's Office had also been awarded a VOCA grant to provide seed funding for camp for one week with 60 campers as well as an ongoing program during the year for these same survivors of abuse called Pathways. In 2022 the VOCA funding was cut by the Federal Government for all programs. However, the Council supported Camp Hope and Pathways that year by providing \$90,000 in one-time funding in the 2023 budget provided to the District Attorney's Office. We requested ongoing funds for Camp Hope/Pathways for 2024 and 2025 in the fall budget request but were denied. We were able to provide camp in 2024 due to our ability to use ARPA funding to purchase that year's scheduled computer replacements and shift funds to pay for camp. In 2025 we were able to provide camp for 74 children, due to reduced fees from the YMCA camp location by selecting a holiday weekend and by utilizing very limited restricted funds. We need ongoing secure funding to support this important program that provides services for children who have been impacted by violence, sexual assault and abuse. We are currently serving more than 300 children through our pathways program. This request is for \$90,000 for the year 2026 and in ongoing funds each year to keep Camp Hope running at its current level so that we can continue to serve those most vulnerable victims of crime and abuse- children.			
14	[31-37310]	NEW REQUEST	Crime Analyst	1.00	119,830	- (No)
			The District Attorneys Office currently has two full time Crime Analysts- this request if for an additional full time Crime Analyst. Criminal Analysts provide critical investigative and legal support to the Special Investigations Unit (SI). Their duties include screening and preparing cases for the District Attorney's Office, drafting legal pleadings, managing discovery, and preparing trial exhibits. They analyze phone and vehicle location data, testify as expert witnesses, and create courtroom presentations for complex cases. Analysts prepare subpoenas, utilize intelligence networks to locate individuals, train law enforcement on intelligence systems, and serve as administrators for those systems. Workload Trends and Staffing Levels The SI Unit's workload has grown substantially since 2021, yet analyst staffing has not kept pace. *2021: With 2 Analysts, SI received 647 cases (COVID-limited data). Analysts managed 331 cases—64% of the total caseload. Each Analyst averaged 165 cases in six months. *2022: SI added a time-limited analyst position, increasing staffing to 3 Analysts. That year, SI received 1,466 cases. Analysts managed 837 cases—54% of the total caseload. Each Analyst averaged 279 cases annually. *2023: With 3 Analysts, SI received 1,699 cases. Analysts managed 1,089 cases—43% of the total caseload. Each Analyst averaged 363 cases annually. *2024: With the expiration of a time-limited, grant-funded analyst position, staffing was reduced back to 2 Analysts. That year, SI received 1,831 cases, with Analysts handling 923 cases—50% of the total caseload. Each Analyst averaged 462 cases annually, representing a 66% increase in workload per Analyst compared to 2022. *2025 (through 3rd quarter): With 2 Analysts, SI has received 1,362 cases, with Analysts handling 764 cases—56% of the total caseload. Each Analyst is currently handling 382 cases. *2025 projected full year: If trends continue, Analysts are expected to handle approximately 1,016 cases, averaging 508 cases per Analyst, surpassing the 2024 workload and highlighting the ongoing growth in demand. The data shows a clear upward trend in both SI caseloads and the complexity of work handled by Criminal Analysts. From 2022 to 2025, the per-analyst workload has risen from 279 to a projected 508 cases annually, while staffing remains constrained due to the loss of a grant-funded, time-limited position. This demonstrates a critical and growing need for permanent analyst support. Without a permanent additional position, SI will continue to face unsustainable caseloads, delays in case preparation, diminished investigative capacity, and increased strain on the District Attorney's Office. Establishing a permanent Criminal Analyst position is essential to stabilize staffing levels, maintain efficiency, ensure timely case preparation, and support the successful prosecution of complex investigations.			
15	[31-37302]	NEW REQUEST	Asset Property Coordinator	1.00	100,831	- (No)
			The District Attorney's Office currently has over 3,000 controlled assets, including over 200 cell phones, and 80 capital assets, that must be tracked, audited, assigned, and replaced. These assets must also be inventoried annually as required by policy 1125. This requires each employee to verify the accuracy of the assets that are assigned to them- the DA Office has over 330 employees including merit employees, temporary employees, interns, and City Prosecutor Office employees. These tasks are currently being split between two current DA employees: the DA Information Systems Manager and the Dept. Admin Assistant. Efficiency and accuracy in tracking these assets could be realized if a single employee oversaw this area. Due to the work from home requirements implemented during COVID and the continuation of the work from home flexibility, the DA Office saw their inventory of controlled assets double in size as the necessity of laptops, monitors, docking stations, webcams, etc., increased to provide our employees with the tools needed to perform their essential tasks. The controlled asset inventory purchase value easily exceeds \$1.5 million dollars. To effectively manage these County assets, the DA Office requires one full-time Asset Property Coordinator.			

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
16	[31-37296] NEW REQUEST Reinstatement FTEs from 2024 reduction The District Attorney's Office had an FTE reduction in 2024 as part of the COVID cuts. There are no on-going or one-time operational costs for this request because only personnel funds were permanently reduced along with the FTE allocations for 2024. We are requesting that the Paralegal position that was cut be reinstated. The amount for this request was determined by taking the salary amount in 2023 for the Paralegal position and adding the compensation additions for 2024 (4%) and 2025 (1.5% and 2.5%). If the position had remained in the District Attorney's Office, it would have been filled, and the employee would have received the increase. We are requesting this FTE be reallocated to the DA Office.	1.00	106,969	- (No)
17	[31-37289] NEW REQUEST Case Manager TL- Reapprove [Exp: 78,633; Rev: 78,634] This Case Manager position was previously funded by ARPA funds and then by one-time County funds. This funding ends 12/31/25. However, we are able to fund this position through 12/31/26 using VOCA funds that will be unspent in 2025. This request is to keep position #00002472 through 12/31/26. The budget system does not show the time-limited position expiration as a reduction in the future year adjustment column of this report, but the base budget for the position will be reduced at the time of the 2027 budget. FUTURE YEARS ADJUSTMENT: 92,076	1.00	(1)	3,608 (Yes) 1.00 FTE
18	[31-37266] NEW REQUEST DA Revenue Request The District Attorney's Office requests to right-size several revenue accounts and receive additional general funds for a revenue reduction. This request has been reviewed by the Revenue Committee. Asset Forfeiture: A decrease in asset forfeiture revenue does not equate to a decrease in expense or the amount of work that asset forfeiture cases filed by the DAO entail. When the DAO files a petition that results in funds being forfeited to the "State", that does not mean the DAO will, in turn, receive a portion of the monies forfeited. The amount, if any, of asset forfeiture monies paid to the DAO in any given year is determined by the State of Utah, by way of CCJJ. The new budget amount of \$134,000 is in line with the 5-year average and will right-size the anticipated revenue for 2026. Attorney Fees: These are revenues paid to the DAO by the State of Utah based on fees collected from incarcerated offenders. These revenues are unknown and difficult to budget. The new budget amount of \$150,000 is in line with the 5-year average and will right-size the anticipated revenue for 2026. Bail Forfeitures: This was a new revenue source for us starting in 2022. These revenues are unknown and difficult to budget. The new budget of \$20,000 is in line with the 4-year average and will right-size the anticipated revenue for 2026. UPD: The Unified Police Department has determined that they will no longer utilize County Risk Management for risk services as of 7/1/25. While the Risk Division will no longer be processing UPD's Notice of Claim or workers compensation, this will not appreciably reduce the DAO's overall Risk function or time commitment to County Risk services. Stated differently, it is not a one-for-one proposition. o Asset Forfeiture -reduce by \$282,935- Five-year average for asset forfeiture receipts is \$134,516. Right sizing this revenue source to \$134,000. o Attorney Fees -reduce by \$100,000- Five-year average for attorney fee receipts is \$150,248. Right sizing this revenue source. o Bail Forfeitures -reduce by \$10,000- Four-year average for bail forfeiture receipts is \$20,023. Right sizing this revenue source. Four-year average because we started receiving this revenue in 2021. o UPD - reduce \$162,590-UPD is no longer using County Risk Management services as of 7/1/25.	-	555,525	555,525 (Yes)
19	[31-37301] NEW REQUEST Utility Cost Increases The District Attorney's Office has absorbed inflationary cost increases into its base budget for several years including two increases to janitorial services that totaled \$32,836 for all three buildings. We are unable to absorb further increases. An analysis was done for the last 5 years of utility costs to include electricity, gas and water. The annual cost of these utilities has increased by \$76,583 since 2021. * 2021 Natural Gas \$42,105 Electric \$137,856 Water \$42,457 *2025 Projected Natural Gas \$63,000 Electric \$191,000 Water \$45,000	-	76,583	76,583 (Yes)
20	[31-37451] NEW REQUEST Security Camera Server Over the last several years, the District Attorney's Office has added additional outdoor security cameras around our buildings to provide video access to areas where we have encountered issues that previously did not have cameras. The cameras currently record video that is then stored on a server for 90 days. This increase in cameras has exhausted our video storage capabilities on the server we currently have. While we did have some discussion with both Facilities Management and Information Services, we were unable to arrive at a more cost-effective solution. It has been recommended by County IS that we continue to use a stand-alone system and purchase a new server as it aligns with best practice for secure video surveillance. This request is for \$27,000 to purchase a new 128TB hard drive server.	-	27,000	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed
21	[31-37300] NEW REQUEST Facilities Increase This request is for an estimated increase of \$35,651 from Facilities Maintenance for work done by their staff for our three buildings This increase amount was communicated to all County agencies for the fall 2026 budget cycle. We are asking for the increased costs passed down to us by Facilities. We can no longer continue to absorb increases in basic building maintenance costs and are requesting additional funding.	-	35,651	- (No)
22	[31-37320] NEW REQUEST EV Charging Station WJ We currently have one EV charging station at the West Jordan building that accommodates two vehicles. It is not in the secure employee parking area but out in the public parking area. It is often used by visitors and Library employees as well as DA employees. This one station is not enough to accommodate visitors, Library employees and DA Office employees. We are in need of these funds to meet the current demand for EV charging at the West Jordan Office and add one EV station that will accommodate an additional two vehicles.	-	35,000	- (No)
23	[31-37267] GRANT TRUE-UP Grant True-Up This adjustment is to true up grant and contract revenue for 2026. * Reduction in VAWA grant revenue -\$4,311.00 *Increase in VOCA grant revenue for CJC to cover a position previously funded by the State \$40,561.00 *Reduction to the OVW grant revenue. This is to right-size this revenue -\$29,100.00 *Reduce miscellaneous revenue -\$27,115.00 *Increase to Friends of CJC funding \$10,000 *Increase SLC revenue under the ILA per the fee schedule \$8,932.00 *Increase intergovernmental revenue for collected from area task forces related top PenLink \$13,553.00 *Reduce MSD revenue for Justice Court services -\$22,694.00 *Increase witness travel reimbursement from the State \$10,000 *Reduce revenue received through the CETF program with DOJ -\$402.00 *Increase restitution revenue \$576.00	-	-	- (Yes)
24	[32-37571] STRESS TEST REDUCTION DA Stress Test [Exp: -11,903,358; Rev: 476,891] This is the requested stress test reduction. The District Attorney's Office 5% Stress Test amount is \$12,380,249. \$9,992,388 is made up of new requests. Once new requests are backed out, the remaining stress test amount is \$2,387,861. The operating budget for 2026 is \$3,932,190. The Stress test amount would equal 61% of our entire operating budget. The expenses associated with the upkeep of two DA buildings and an existing CJC building include janitorial services, grounds maintenance, building maintenance, etc. and utilities. In addition, there are cost of doing business expenses such as telephone, rent of space at the Government Center, vehicle levy and related expenses (fuel, maintenance), postage, office supplies, computers, and contractually obligated expenses that cannot be used to reduce the operating budget, or we could not maintain operations. Therefore, the only way our office could implement a 5% cut to our budget would be through a reduction in force (RIF). We cannot meet our statutory obligations if we reduce the number of attorneys. We currently have 119 filled non-attorney FTEs with an average salary/benefit of \$96,800. The requested cut would require us to lay off 25 people. Our ability to fulfill this office's statutory requirements would be greatly impacted. Also keep in mind this number would most likely be higher considering the County bumping rights related to RIF actions and that the higher paid employees would not necessarily be the ones to lose their jobs and lower classifications of employees would end up cut in a RIF.	(62.00)	(12,380,249)	- (No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID and Description	FTE Request	Requested Net \$ (Total Exp- Total Rev)	Mayor Proposed	
1 [32-37498] STRESS TEST REDUCTION DA Tax Admin Stress Test This stress test would require a reduction of \$38,867. This is a very small operations budget of \$274,817. The total stress test amount of \$38,867 equals 14% of the operating budget where it would need to come from. This could impact our ability to hire expert witnesses and obtain other types of litigation services were we to have additional large tax cases in addition to those our office is already working on.	-	(38,867)	-	(No)

CORE MISSION

The Salt Lake County Justice Court’s mission is to provide the highest level of judicial service to the citizens of the county and the other levels of the Courts at the lowest cost and in the most efficient manner.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County Justice Court is committed to improving the quality of life in our communities. The Court ensures that all cases are prosecuted in a fair and timely manner.				
• Traffic cases filed.	3,251	3,500	2,050	5,131
• Traffic cases disposed.	3,508	3,850	2,255	5,553
• Criminal misdemeanors/infractions filed.	730	800	455	1,100
• Criminal misdemeanors/infractions disposed.	1,172	1,350	727	1,600
• Small claims filed.	677	670	372	715
• Small claims settled/dismissed.	677	750	395	780
Salt Lake County Justice Court is dedicated to promoting a high-performing workforce. The Court ensures employees receive applicable training both from County and State to successfully perform necessary duties and for their professional development.				
• Employees are required to attend the 2-day certification training in March and complete 27+ online courses per year.	100%	100%	60%	100%
Salt Lake County Justice Court strives to maintain its fiscal responsibility and basic core Justice Court services.				
• The Court is funded by the Greater Salt Lake Municipal Services District (MSD) budget without regard to the revenue generated by court fines. Court fines and the bail schedule are established by State law. The Court will make every effort to collect the revenue due and handle payments according to County and State policies & procedures. The Utah Office of State Treasurer has assisted the Court (at no cost to the County) in collecting at least \$70,000 of unpaid fines/fees over the years.	106,772.9	78,000	53,540	85,000
• The Court has worked hard to reduce costs, improve communication and work productivity including better scheduling of interpreters and integrating online resources in our website. The number of inbound and outbound calls will reduce year over year.	18,307	18,000	11,348	18,000

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37435]	NEW REQUEST	2 Time Limited Positions in support of So Jordan JC cases	2.00	95,176	99,278
	2 Time Limited Positions in support of So Jordan Justice Court cases.					(Yes) 2.00 FTE
2	[31-37742]	NEW REQUEST	Increase interpreter costs	-	14,000	14,000
	The request accounts for higher interpreter costs associated with the added caseload from South Jordan cases, beginning in July.					(Yes)
	FUTURE YEARS ADJUSTMENT: -7,000					
3	[31-37801]	NEW REQUEST	Salary increase for Elected Official	-	19,864	-
	This request reflects an additional 8.8% increase to the Judge's salary and taxes in order to align it with the level established under Section 78A-7-206 of the Utah Code, taking into account her expanded caseload following the closure of the South Jordan Court, as well as her tenure and experience. The adjustment also recognizes her nearly three decades of dedicated service and contributions to the community.					(No)
	Mayor: a compensation increase was included in the Mayor Proposed Budget that aligns with the increase proposed for other employees.					
4	[31-37743]	NEW REQUEST	Contract decrease from MSD and truing up other revenue to actuals	-	41,743	41,743
	Starting in July, the MSD contract will decrease due to cost-sharing from South Jordan case filings. For other revenues, the Justice Court will adjust the budget to reflect the actuals					(Yes)
	FUTURE YEARS ADJUSTMENT: -41,743

CORE MISSION

The mission of the Salt Lake County Recorder's Office is to record and protect the public's right to hold and own real property by maintaining comprehensive, accurate and searchable records of all property transactions, and ensuring a permanent chain of title. We strive to provide great customer service to all.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Salt Lake County Recorder's Office provides excellent customer service.				
• It is the aim of the Recorder's Office to provide excellent service. This survey will ask customers to rate customer service questions on a scale of 1-5 for their satisfaction - 5 being the highest. Our goal is to maintain at least a 4-star average throughout the year.	4.39	4	4.87	4
The Salt Lake County Recorder's Office identifies and acts on opportunities to improve access to their records.				
• In effort to improve accessibility of our records, we will partner with County Archives to digitize a portion of our records that have not been. Our goal is to make steady progress on this project.	100%	100%	100%	-
The Salt Lake County Recorder engages with the community regarding their Property Watch service.				
• It is the aim of the Recorder's office to regularly engage with the community in regards to our Property Watch service. Our goal is 12 outreach efforts in a calendar year.	17	12	14	12

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
1	[31-37873]	NEW REQUEST	Request to Reorganize Positions in Organization 88000000	4.00	238,582	279,329
This is a request to reorganize and transfer 9 positions from org 88000000 to org 88510000 and receive 13 positions from organization 88510000 to org 88000000. The net change is an increase of 4 positions in the general fund and 4 fewer positions in the tax admin fund. This side of the overall request (form ids 37873 & 37874) represents the costs associated with organization 88000000. The budget impact of the overall re-organization is to shift \$238,582 from the tax admin to the general fund. The statutory and operational justification for this request follows and is also included in the justification of form id 37874. Justification for 2026 Budget Change – Recorder’s Office Personnel Funding In May 2025, changes to HR Policy 5-100 prompted a review of our personnel funding structure. Historically, Recorder’s Office positions were split between the Tax Administration Fund and the General Fund without a consistent rationale—often as a budgeting convenience. To align with the updated policy and support operational clarity, we have restructured funding so that each work group is funded entirely from a single source. This change ensures compliance with policy, improves budget transparency, and provides a more logical and sustainable personnel funding model. We also believe this new structure better supports the intent of state statute regarding appropriate use of the Tax Administration Fund, ensuring that only functions primarily or directly related to tax administration are funded from that source. It is worth noting that the HR policy change did not fully account for the operational impact on agencies with multiple funding sources. Our restructuring is a proactive response to that gap, aiming to preserve compliance while maintaining functional efficiency. There are no new FTE requests associated with this change.					(Yes) 4.00 FTE	
2	[31-37933]	NEW REQUEST	Request to Eliminate Personnel Under-expend	-	45,539	45,539
This is a request to eliminate the personnel under-expend balance in the General Fund organization 88000000 - Recorder. The 2026 personnel budget for this organization currently exceeds its approved base or starting budget by \$74,489. However, the Tax Fund organization 88510000 - Recorder Tax Administration currently has a budget that is well below its approved base budget by \$179,111. When both Recorder organizations’ budgets are considered as a whole, the Recorder is currently budgeted below its base budget by \$104,622. When organizations, and elected offices’ combined organization budgets are below base, they may use this underage to reduce or eliminate personnel under-expend account balances.					(Yes)	
3	[31-37414]	NEW REQUEST	Increase Data Services revenue projection	-	(100,000)	(100,000)
The Recorder’s Office is projecting increases in Data Services revenue for 2026 of \$100,000 minimum.					(Yes)	
4	[32-37876]	STRESS TEST REDUCTION	STESS - Eliminate 88000000 Reorganization	-	(238,582)	-
					(No)	
5	[32-37875]	STRESS TEST REDUCTION	STRESS - Reverse Personnel Variance	-	(120,028)	-
					(No)	
6	[32-37462]	STRESS TEST REDUCTION	Recorder stress test	-	(162,714)	-
Two Land Record Specialists. Losing these two FTE would negatively impact our ability to meet our statutory obligations and would create unacceptable wait times in document processing. These two factors would negatively impact the real estate industry in Salt Lake County, including title companies, homebuilders and developers, the legal community and, finally, the taxpayers.					(No)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID and Description				
			FTE Request	Requested Net \$ (Total Exp- Total Rev)
1	[31-37874] NEW REQUEST Request to Reorganize Positions in Organization 88510000		(4.00)	(238,582)
	If this request is approved, all but the elimination of the personnel under expend in form id 37871 should be eliminated.			(Yes) (4.00) FTE
	This is a request to reorganize and transfer 13 positions from org 88510000 to org 88000000 and receive 9 positions from organization 88000000. The net change is a decrease of 4 positions in the tax admin fund and an increase of 4 positions in the general fund. This side of the overall request (form ids 37874 & 37873) represents the costs associated with organization 88510000.			
	The budget impact of the overall re-organization is to shift \$238,582 from the tax admin to the general fund. The statutory and operational justification for this request follows.			
	Justification for 2026 Budget Change – Recorder’s Office Personnel Funding In May 2025, changes to HR Policy 5-100 prompted a review of our personnel funding structure. Historically, Recorder’s Office positions were split between the Tax Administration Fund and the General Fund without a consistent rationale—often as a budgeting convenience. To align with the updated policy and support operational clarity, we have restructured funding so that each work group is funded entirely from a single source. This change ensures compliance with policy, improves budget transparency, and provides a more logical and sustainable personnel funding model. We also believe this new structure better supports the intent of state statute regarding appropriate use of the Tax Administration Fund, ensuring that only functions primarily or directly related to tax administration are funded from that source. It is worth noting that the HR policy change did not fully account for the operational impact on agencies with multiple funding sources. Our restructuring is a proactive response to that gap, aiming to preserve compliance while maintaining functional efficiency. There are no new FTE requests associated with this change.			
2	[32-37877] STRESS TEST REDUCTION STRESS - Eliminate 88510000 Reorganization		-	238,582
				(No)
3	[32-37463] STRESS TEST REDUCTION Recorder stress test		-	(185,231)
	Equal to one Plat Dept FTE and one IT Dept FTE. Losing these FTE would negatively impact our ability to complete the records digitization project, as well as delay construction and home building in Salt Lake County. Additionally, the loss of an IT FTE would impede if not eliminate our ability to offer Data Services to the community.			(No)

1		SHERIFF CW INVEST/SUPPORT SVCS A third Toyota Highlander is requested to support the mission of the Sheriff's Office Law Enforcement Bureau (LEB) and its developing Threat Management Unit (TMU). As requested, TMU will support in a comprehensive and collaborative threat assessment and prevention program, including executive protection. The request for the third Highlander is an addition to the two existing Highlanders that will be moving from Public Safety Bureau to Law Enforcement Bureau, replacing a Toyota Camry. The additional vehicle allows for executive protection deputies in the LEB to have equipment in all vehicles (that would not be able to fit in the Camry). The initial funding request will decrease after purchase, providing for sustainment and maintenance in years following. FUTURE YEARS ADJUSTMENT: -53,500			(Yes)
	110	[31-37681] NEW REQUEST SHF_Jail Sworn Compensation County Jail The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Corrections Bureau, the recommendation from County HR was a 1-grade increase for all deputy positions (Grade 18 to a Grade 19), and a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$969,033 Structure/Market- \$1,099,358 Merit/Longevity- \$621,311 (Future Year Request (\$426,489) Overall Benefit Increase- \$1,030,158 Total 2026 Request- \$3,719,860 The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. FUTURE YEARS ADJUSTMENT: 426,489	-	3,719,860	- (Yes)
2	110	[31-37652] NEW REQUEST SHF_PSB Sworn Compensation SHERIFF COURT SVCS & SECURITY The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Public Safety Bureau, the recommendation from County HR was a 2-grade increase for all deputy positions (Grade 14 to a Grade 16), and a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$454,304 Structure/Market- \$251,783 Merit/Longevity- \$156,128 (Future Year Request (\$83,405) Overall Benefit Increase- \$314,960 Total 2026 Request- \$1,177,175 The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. FUTURE YEARS ADJUSTMENT: 83,405	-	1,177,175	- (Yes)
	110	[31-37678] NEW REQUEST SHF_LEB Sworn Compensation SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Law Enforcement Bureau, the recommendation from County HR was a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$10,393 (due to transfers of Deputy I & II positions from budget consolidation requests) Structure/Market- \$228,565 Merit/Longevity- \$115,604 (Future Year Request \$26,713) Overall Benefit Increase- \$136,393 Total 2026 Request- \$490,955 The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description		FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	110	[31-37559] NEW REQUEST SHF_Jail HB312 ADC/Oxbow Program Expansion New FTEs (22)		22.00	2,564,627	1,932,174
		County Jail				(Yes) 16.00 FTE
		The Sheriff's Office (SO) is requesting 22 new FTE positions, 12 Judicial Processing Specialists, 5 Jail Nurses, and 5 Mental Health Therapists. With the implementation of HB312 and the reopening of all housing units at the Oxbow Jail and the Adult Detention Center (ADC) there has been a sharp increase in jail processing and patient/nurse encounters.				
		For the Jail Processing Division, the increase is in the volume of inmate clerical workload, especially in the areas of booking, releasing, court coordination, and inmate classification. Since HB312 implementation processing has seen 167 more bookings per month, 20 more agency pickups per day, 27 more assessments per day, increased time per assessment (15 mins. more) and 15 more time served commitments per day. The 12 new Judicial Processing Clerks would minimize the risk of delays in processing that could impact court appearances and release timeliness. It would also decrease errors in legal documentation and inmate records from overburdened staff.				
		For the Health Services Division, the increase is regarding the number of patient/nurse encounters and is around a 20% increase. With the addition of 5 Jail Nurses and 5 Mental Health Therapists the SO will be able to have nurses and mental health therapist staffed 24/7 at Oxbow and ADC, which will allow properly trained staff to deal with a specific crisis at any moment.				
		The funding source is requested to be from the new sales tax option for public safety.				
5	110	[31-37509] NEW REQUEST SHF_LEB School Security Lieutenant New FTE		1.00	254,495	257,013
		SHERIFF CW INVEST/SUPPORT SVCS				(Yes) 1.00 FTE
		The Sheriff's Office (SO) is requesting a new Lieutenant FTE to support school security initiatives as required by State House Bills 40 & 84. Salt Lake County encompasses approximately 350 public and charter schools. In accordance with state requirements, each of these schools must have armed guardian coverage from bell to bell, which necessitates the placement of at least two guardians per school. This results in a potential need for more than 700 trained guardians across the county. Each guardian must attend and complete a 28-hour training including firearm training at the gun range. This new FTE would, in coordination with the County School Security Chief, assist in managing agency coordination, leading training logistics, attending interagency meetings, and supporting other related duties.				
		FUTURE YEARS ADJUSTMENT: -36,500				
6	110	[31-37599] NEW REQUEST SHF_HB378 Mental Health Program Manager New FTE		1.00	215,530	217,489
		SHERIFF CW INVEST/SUPPORT SVCS				(Yes) 1.00 FTE
		The Sheriff's Office (SO) is requesting a new Mental Health Program Manager FTE for the Employee Mental Health Wellness and Resiliency Program. In requesting this position, the SO will meet the requirements of HB378 found in Section 53-21-102 Mental Health Requirements. The position will perform regular periodic screenings for all employees within the SO; conduct assessments and ensure availability to mental health services for personnel directly involved in a critical incident within 48 hours of the incident; and ensure continuing access to the mental health program for: spouses and children of first responders; first responders who have retired or separated from the agency; and spouses of first responders who have retired or separated from the agency.				
		Further, the SO's plan for the program manager will be progressive and will not only serve the members of the SO but will also provide much needed training for culturally competent therapists, social workers, and counselors for first responders.				
7	110	[31-37538] NEW REQUEST SHF_LEB Victim Advocate Vehicle		-	40,000	40,000
		SHERIFF CW INVEST/SUPPORT SVCS				(Yes)
		The Sheriff's Office is requesting a new fleet vehicle for the Victim Advocate position.				
		The advocate serves in an on-call capacity, responding to incidents as needed—day or night, including weekends and holidays. Historically, this position has been assigned to a dedicated vehicle to ensure a timely and efficient response to victims in the field. However, with the transition from UPD to the SO, a vehicle budget was overlooked.				
		FUTURE YEARS ADJUSTMENT: -30,000				
8	110	[31-37525] NEW REQUEST SHF_LEB Gang Unit Sergeant New FTE		1.00	248,071	250,634
		SHERIFF CW INVEST/SUPPORT SVCS				(Yes) 1.00 FTE
		The Sheriff's Office (SO) is requesting new Sergeant FTE for the Metro Gang Unit. The Metro Gang Unit is a multi-jurisdictional task force housed within the SO. The unit includes one Lieutenant, one Sergeant, and four detectives. In addition to these positions, the task force includes numerous full-time and part-time detectives from various local, state, and federal partner agencies. At present, a single Sergeant is responsible for supervising 12 full-time detectives and approximately 20 part-time detectives. This span of control is exceptionally broad and poses significant challenges to effective supervision, particularly given the scale and complexity of the unit's daily operations. The nature of the investigations and enforcement efforts routinely undertaken by the Metro Gang Unit demand close oversight, coordination, and support—needs that cannot be fully met under the current staffing structure.				
		The funding source is requested to be from the new sales tax option for public safety.				
		FUTURE YEARS ADJUSTMENT: -36,500				

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
9	110	[31-37532] NEW REQUEST SHF_LEB Drone Unit SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting establishment of a SO drone unit in the budget. The SO currently utilizes drone operators who serve in this capacity as a secondary assignment in addition to their primary duties. As drone technology continues to evolve, its role in modern law enforcement is rapidly expanding, offering critical advantages. Drones have proven invaluable in supporting patrol operations, enhancing situational awareness, and improving response times. Additionally, they are essential tools in Search and Rescue missions, significantly increasing the efficiency and safety of rescue and recovery operations in complex or hazardous environments. To ensure the continued success and growth of this program, this request will cover the following key areas: - Pilot Licensing Subscriptions: Annual FAA certifications or renewals for all drone operators. - Training: Ongoing education and skills development to ensure safe, effective drone operation in various field scenarios. - Accessory Purchase & Replacement: Replacement of worn or damaged parts and acquisition of necessary accessories (e.g., batteries, propellers, controllers). - Drone Equipment: Procurement of new drones and replacement of units that are damaged or obsolete. - Overtime: Compensation for drone operators responding to incidents outside of their regular duty hours.	-	59,000	59,000 (Yes)
10	110	[31-37496] NEW REQUEST SHF_Jail Prisoner Meal Delivery Carts County Jail The Sheriff's Office (SO) is requesting a one-time \$500K to replace 30 prisoner meal carts that move meals for prisoners from the kitchen to housing units. The current carts are up to eighteen years old and have reached their end of life. The new carts will be stainless steel, either insulated or heated, rack based, lockable and easily cleaned/sanitized. This will also allow the kitchen to remain in compliance with Health Department requirements for meal delivery. FUTURE YEARS ADJUSTMENT: -500,000	-	500,000	500,000 (Yes)
11	110	[31-37539] NEW REQUEST SHF_LEB Choose Gang Free Advocates New FTEs (4) SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting 4 new choose gang free case manager FTEs for 2026 and will have an additional request for 2 FTEs in 2027, for a total of 6 FTEs. Currently, the 6-time limited Choose Gang Free Case Managers play a critical role in gang prevention and intervention efforts, working directly with high-risk youth in juvenile facilities and within the Granite and Canyons School Districts. The funding from the school districts has grown unstable and is subject to regular review. Recently, legislative changes have impacted funding for Canyons, and this will be the final school year of funding (ends 6/30/26). This request will enable the program to continue and expand into a County-wide resource, accessible to all schools within Salt Lake County while maintaining the current time limited positions to support Canyons and Granite school districts until funding is exhausted. This request will further enhance our ability to support Juvenile Justice and Youth Services (JJYS) and increase outreach in juvenile detention and treatment facilities. This funding would solidify our commitment to early intervention, reduce youth gang involvement, and ensure consistent, high-quality services across the region. The funding source is requested to be from the new sales tax option for public safety.	4.00	438,920	445,068 (Yes) 4.00 FTE
12	110	[31-37530] NEW REQUEST SHF_LEB Threat Assessment Deputy New FTE SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting a new Deputy FTE to directly handle threat assessments and investigations for threats against County facilities, employees, and/or elected officials. . These assessments can range from routine evaluations requiring no further action to complex investigations that escalate to the state or federal level, often involving multiple law enforcement partners. Currently, these responsibilities are managed by a team of personnel who handle threat assessments as a secondary duty in addition to their primary assignments. This structure limits the consistency and depth of response, especially when dealing with high-risk or resource-intensive cases. The volume and complexity of threat assessments received over the past year clearly demonstrate the need for a dedicated position. These incidents can demand significant time and coordination, making it increasingly difficult to manage them effectively without full-time attention. This dedicated role is essential to ensure timely, thorough, and effective handling of all threat-related incidents that impact the County and its personnel. The funding source is requested to be from the new sales tax option for public safety. FUTURE YEARS ADJUSTMENT: -36,500	1.00	225,767	228,040 (Yes) 1.00 FTE
15	110	[31-37534] NEW REQUEST SHF_LEB Genealogist Contract SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting funds to contract with a genealogist. Genealogists employ a combination of traditional genealogical methods and advanced DNA analysis to help identify unknown individuals. This investment enhances public safety, demonstrates a proactive approach to violent crime, and reinforces community trust in our agency's commitment to innovation and accountability. The State contracts and pays for a genealogist that the SO has access to but the contract is limited in scope, restricts the number of cases that can be pursued, and funding may end at any time.	-	46,000	46,000 (Yes)

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Fund	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
16	110	[31-36935] NEW REQUEST SHF_Jail Culinary Program County Jail [Exp: 61,692; Rev: 61,692] The Sheriff's Office (SO) is establishing a new vocational training program to provide justice involved individuals with hands-on experience in a "cafe" setting. The "Fresh Start Cafe" will be operated by program participants under the supervision of trained staff, offering hot and iced coffee beverages, dirty sodas & a small variety of baked goods to an internal customer base. This initial one-time request is for the budget to purchase the machinery & equipment for the new jail program and will be funded by the prisoner service fund (committee voted in favor of using the fund). The funds from this one-time request will be used to purchase both a cube and nugget ice machine, an espresso/cappuccino machine, two electric convection ovens, a soft serve machine and a coffee brewer as well as other small equipment items such as measuring spoons & cups, baking sheets and work tables. Pricing will be set on a cost-plus strategy with a modest markup to ensure program sustainability. Initially, hot and cold coffee beverages will range from \$1.00-\$4.00, while dirty sodas will be priced from \$1.50-\$3.00 and bakery items will run \$1.00-\$2.50. Product pricing will be re-evaluated after the first quarter of operations and will be adjusted accordingly. This request is budget neutral. FUTURE YEARS ADJUSTMENT: [Exp: -61,692; Rev: -61,692]	-	-	(Yes)
17	110	[31-37501] NEW REQUEST SHF_PSB Captain New FTE SHERIFF COURT SVCS & SECURITY The Sheriff's Office (SO) is requesting a 2nd Captain FTE for the public safety bureau. This 2nd Captain would handle client management of our 12 contracts, including our largest client, the 3rd District Court. The addition of this FTE would free up the two lieutenants to focus on the operations of their division, the supervision of the sergeants and personnel issues at the line staff level. Further, the additional Captain FTE would take the span of control from 1 to 145 to 1 to 72.5 which is more in line with other agencies in the valley such as Sandy City which has 3 Captains with a ratio of 1 Captain to 52.3 employees. As noted the client management on the facility side is time intensive due to the number of clients/sites (16) we serve, and their geographical locations spread throughout the valley. This FTE would also provide additional focus and time needed for division specific policy creation, updates, education, and enforcement, as well as management of a 17.5-million-dollar budget. With 145 members and an average of 25% attrition each year, the Bureau requires a heavy management responsibility to lead these members effectively and efficiently.	1.00	288,134	(No)
18	110	[31-37469] NEW REQUEST SHF_Jail US Marshal Contract Revenue True Up County Jail The Sheriff's Office (SO) has successfully negotiated an increase for the US Marshal's contract increasing the rate from \$74.10 to \$136.69 per day. The contract allows for up to 75 Jail beds to be used by the Marshal's to house prisoners in their custody. Due to current and pending impacts of HB312 to jail bed management, the revenue increase is conservative and will be reassessed in 2026 & 2027.	-	(1,000,000)	(1,000,000) (Yes)
19	110	[31-37592] NEW REQUEST SHF_LEB Radio Shop FTE Abolishment SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting to abolish a radio shop technician (position #11205) that was used to support the reclass of the radio shop manager (position #11204) in early 2025.	(1.00)	(119,882)	(121,550) (Yes) (1.00) FTE
20	110	[31-37236] POLICY SIGNIFICANT BASE ADJUSTMENT SHF_Range Budget Consolidation SHERIFF CW INVEST/SUPPORT SVCS The Sheriff's Office (SO) is requesting to consolidate the Range budgets from 3 sub-departments, including personnel, into a single sub-department (9130000500). Moving from the Jail and Public Safety (9120000500 & 9125000500) to a single sub-department will simplify the fiscal and operational needs of the SO Range. This request is budget neutral.	2.00	431,825	446,065 (Yes) 2.00 FTE

		If the need to decrease the Corrections Bureau's budget 5%, it would have significant operational effects. To meet the decrease, the Bureau would be required to shut down one of three of the funded pods at the Oxbow Jail. The primary cost savings is related to the holding vacant sworn personnel positions (28 FTEs). The loss of one pod at Oxbow (184 beds) would decrease the jail's operational capacity from 2,423 to 2,239 (and rated capacity from 2,639 to 2,455). The Oxbow Jail is where the majority of programming occurs. Cutting related services at Oxbow would have direct effects on the prisoners currently housed at Oxbow and collateral impacts on our contracted service providers and volunteer groups.

		SHERIFF COURT SVCS & SECURITY				(No)
		If the Public Safety Bureau's budget were to decrease by 5%, it would adversely affect operations, specifically Executive Protection and Arts and Culture security. To offset the decrease, the Bureau would end the executive protection unit and stop security services to Arts and Culture locations.				
53	110	[32-37668]	STRESS TEST REDUCTION SHF_LEB Stress Test	-	(1,217,506)	-
		SHERIFF CW INVEST/SUPPORT SVCS				(No)
		If the Law Enforcement Bureau's budget were to decrease by 5%, it would adversely affect operations; specifically, the Investigations department, including the drug diversion program and the special investigation program, Law Enforcement administration, and Technical Services. To offset the decrease, the Bureau would hold 5 detective positions and 2 civilian positions vacant, including operating for those positions. The Bureau would also hold operations in the form of computers and components. The impact of this would be an increase in workload to other positions which could cause delays in reports, recovering high-risk individuals for the courts, a decrease in case closures, and a decrease in morale throughout the Bureau. Also, with a hold on operating with computers and components, the Bureau will have to delay replacement schedules which could cause software issues and other impacts on the operations of the Bureau.

CORE MISSION

"Serving the Community from the Inside Out"

The mission of the Salt Lake County Jail is to protect the public through the booking and detention of individuals who pose a danger to society, provide humane care to those incarcerated, and facilitate programs which will assist them in avoiding future criminal activity.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County Jail provides safe living quarters for prisoners and work environment for our employees.				
• Reduction in the number of rule violation incidents in Jail Housing Units.	67.5%	75%	75%	75%
Salt Lake County Jail employees receive appropriate training to effectively perform job functions, develop professionally, and maintain professional certifications.				
• Maintain the percentage of employees who reach the mandatory 40 hours of annual training required by POST and Sheriff's Office and Jails Policy and Procedures.	100%	100%	100%	100%
Salt Lake County Jail provides constitutional and humane health services to the people in our custody.				
• Continue to improve the quality of healthcare provided in the Salt Lake County Jail by using best practices, fidelity to national correctional healthcare standards, case law, and Jail Health Services policies. Improvement will be indicated in 2026 by our medical team each receiving 12 hours of medically specific training.	77%	100%	77%	100%

Request ID and Description					FTE Request	Requested Net \$ (Total Exp- Total Rev)
0	[31-37681]	NEW REQUEST	SHF_Jail Sworn Compensation		-	3,719,860
The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Corrections Bureau, the recommendation from County HR was a 1-grade increase for all deputy positions (Grade 18 to a Grade 19), and a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$969,033 Structure/Market- \$1,099,358 Merit/Longevity- \$621,311 (Future Year Request (\$426,489) Overall Benefit Increase- \$1,030,158 Total 2026 Request- \$3,719,860						(Yes)
The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. FUTURE YEARS ADJUSTMENT: 426,489

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
4	[31-37559]	NEW REQUEST SHF_Jail HB312 ADC/Oxbow Program Expansion New FTEs (22)		22.00	2,564,627	1,932,174 (Yes) 16.00 FTE
	The Sheriff's Office (SO) is requesting 22 new FTE positions, 12 Judicial Processing Specialists, 5 Jail Nurses, and 5 Mental Health Therapists. With the implementation of HB312 and the reopening of all housing units at the Oxbow Jail and the Adult Detention Center (ADC) there has been a sharp increase in jail processing and patient/nurse encounters. For the Jail Processing Division, the increase is in the volume of inmate clerical workload, especially in the areas of booking, releasing, court coordination, and inmate classification. Since HB312 implementation processing has seen 167 more bookings per month, 20 more agency pickups per day, 27 more assessments per day, increased time per assessment (15 mins. more) and 15 more time served commitments per day. The 12 new Judicial Processing Clerks would minimize the risk of delays in processing that could impact court appearances and release timeliness. It would also decrease errors in legal documentation and inmate records from overburdened staff. For the Health Services Division, the increase is regarding the number of patient/nurse encounters and is around a 20% increase. With the addition of 5 Jail Nurses and 5 Mental Health Therapists the SO will be able to have nurses and mental health therapist staffed 24/7 at Oxbow and ADC, which will allow properly trained staff to deal with a specific crisis at any moment. The funding source is requested to be from the new sales tax option for public safety.					
12	[31-37237]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_Range Budget Consolidation		(1.00)	(240,047)	(244,945) (Yes) (1.00) FTE
	The Sheriff's Office (SO) is requesting to consolidate the Range budgets from 3 sub-departments, including personnel, into a single sub-department (9130000500). Moving from the Jail and Public Safety (9120000500 & 9125000500) to a single sub-department will simplify the fiscal and operational needs of the SO Range. This request is budget neutral.					
15	[31-37400]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_IT Budget Consolidation		(4.00)	(1,678,175)	(1,699,118) (Yes) (4.00) FTE
	The Sheriff's Office (SO) is requesting to consolidate IT related budgets including personnel from all 3 Bureau's into the Radio/IT program inside of LEB Technical Support. This will allow command and management to standardize equipment and manage hardware and software needs more efficiently. This request is budget neutral.					
18	[31-37586]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_Fiscal/HR Budget Consolidation		(11.00)	(1,244,910)	(1,283,075) (Yes) (11.00) FTE
	The Sheriff's Office (SO) is requesting to consolidate fiscal and HR personnel budgets from the Jail into SO Administration. This will allow command to more effectively manage the budget and will help in identifying administrative costs for the SO. This request is budget neutral.					
23	[31-37469]	NEW REQUEST SHF_Jail US Marshal Contract Revenue True Up		-	(1,000,000)	(1,000,000) (Yes)
	The Sheriff's Office (SO) has successfully negotiated an increase for the US Marshal's contract increasing the rate from \$74.10 to \$136.69 per day. The contract allows for up to 75 Jail beds to be used by the Marshal's to house prisoners in their custody. Due to current and pending impacts of HB312 to jail bed management, the revenue increase is conservative and will be reassessed in 2026 & 2027.					
26	[31-37496]	NEW REQUEST SHF_Jail Prisoner Meal Delivery Carts		-	500,000	500,000 (Yes)
	The Sheriff's Office (SO) is requesting a one-time \$500K to replace 30 prisoner meal carts that move meals for prisoners from the kitchen to housing units. The current carts are up to eighteen years old and have reached their end of life. The new carts will be stainless steel, either insulated or heated, rack based, lockable and easily cleaned/sanitized. This will also allow the kitchen to remain in compliance with Health Department requirements for meal delivery. FUTURE YEARS ADJUSTMENT: -500,000					
29	[31-37628]	TECHNICAL ADJUSTMENT SHF_Shooting Team		-	(2,000)	(2,000) (Yes)
	The Sheriff's Office (SO) is re-establishing the competitive shooting team due to the transition of law enforcement back from UPD. All SO Bureau's will compete on the team which budget and expenses will be tracked with a new program code. This request is to establish a budget for the new program code and is budget neutral.					
32	[31-36933]	TECHNICAL ADJUSTMENT SHF_Jail Security True Up		-	-	- (Yes)
	The Sheriff's Office (SO) is requesting a true up of the jail security budgets to better reflect operational needs as well as correct intrafund revenue (received from Criminal Justice) that was inputted in error to the incorrect program code. This request is budget neutral.					
33	[31-36934]	GRANT TRUE-UP SHF_Jail Mental Health Grant True Up		-	-	- (Yes)
	[Exp: -59,986; Rev: -59,986] The Sheriff's Office (SO) previously received a Law Enforcement Mental Health Grant that ended on 6/30/25 with no option to renew. This request is to eliminate the program from the 2026 budget. This request is budget neutral.					

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
34	[31-36935] NEW REQUEST SHF_Jail Culinary Program [Exp: 61,692; Rev: 61,692] The Sheriff's Office (SO) is establishing a new vocational training program to provide justice involved individuals with hands-on experience in a "cafe" setting. The "Fresh Start Cafe" will be operated by program participants under the supervision of trained staff, offering hot and iced coffee beverages, dirty sodas & a small variety of baked goods to an internal customer base. This initial one-time request is for the budget to purchase the machinery & equipment for the new jail program and will be funded by the prisoner service fund (committee voted in favor of using the fund). The funds from this one-time request will be used to purchase both a cube and nugget ice machine, an espresso/cappuccino machine, two electric convection ovens, a soft serve machine and a coffee brewer as well as other small equipment items such as measuring spoons & cups, baking sheets and work tables. Pricing will be set on a cost-plus strategy with a modest markup to ensure program sustainability. Initially, hot and cold coffee beverages will range from \$1.00-\$4.00, while dirty sodas will be priced from \$1.50-\$3.00 and bakery items will run \$1.00-\$2.50. Product pricing will be re-evaluated after the first quarter of operations and will be adjusted accordingly. This request is budget neutral. FUTURE YEARS ADJUSTMENT: [Exp: -61,692; Rev: -61,692]	-	-	(Yes)
35	[31-37621] REDUCTION AMOUNT SHF_UPD Transition True Up [Exp: -10,000; Rev: -10,000] The Sheriff's Office (SO) has been clearing prior UPD revenue budgets since the transition that took place on 7/1/24. This request is for printing services that was previously done by the Jail print shop. This request is budget neutral.	-	-	(Yes)
36	[32-37633] STRESS TEST REDUCTION SHF_Stress Test_Jail HB312 ADC/Oxbow Program Expansion New FTEs (22) Reversal of new request	(22.00)	(2,564,624)	(No)
37	[32-37632] STRESS TEST REDUCTION SHF_Stress Test_Jail Prisoner Meal Delivery Carts Reversal of new request	-	(500,000)	(No)
48	[32-37651] STRESS TEST REDUCTION SHF_Jail Stress Test If the need to decrease the Corrections Bureau's budget 5%, it would have significant operational effects. To meet the decrease, the Bureau would be required to shut down one of three of the funded pods at the Oxbow Jail. The primary cost savings is related to the holding vacant sworn personnel positions (28 FTEs). The loss of one pod at Oxbow (184 beds) would decrease the jail's operational capacity from 2,423 to 2,239 (and rated capacity from 2,639 to 2,455). The Oxbow Jail is where the majority of programming occurs. Cutting related services at Oxbow would have direct effects on the prisoners currently housed at Oxbow and collateral impacts on our contracted service providers and volunteer groups.	-	(5,295,813)	(No)
TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):		22.00	5,782,487	1,430,174
TOTAL BASE BUDGET ADJUSTMENTS:		(16.00)	(3,163,132)	-
TOTAL STRESS TEST REDUCTIONS:		(22.00)	(12,080,297)	-

CORE MISSION

The Public Safety Bureau meets the diverse challenges of effective crime prevention. We transition between law enforcement authority, prisoner management, government security, and public service as the assignments and situations demand. We are proud to complete our duties with integrity, discipline and dedication.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County Buildings and clients are safe and free from crime.				
• Increase deputy patrol presence at County Facilities by 5% by the end of 2025.	1,031%	5%	10%	5%
Provide outstanding service of court papers to the citizens of Salt Lake County.				
• Increase the number of papers served in 2024 by 10% in 2026.	8,461	8,500	5,140	8,500
Increase Bureau's ability to meet the diverse law enforcement challenges by enhancing deputies skills and knowledge.				
• Enhance training hours in critical areas such as CIT, implicit bias, less than lethal use of force options, emotional intelligence, de-escalation skills, and crowd/riot control.	30	30	37.5	30

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
2	[31-37652]	NEW REQUEST	SHF_PSB Sworn Compensation	-	1,177,175	-
The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Public Safety Bureau, the recommendation from County HR was a 2-grade increase for all deputy positions (Grade 14 to a Grade 16), and a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$454,304 Structure/Market- \$251,783 Merit/Longevity- \$156,128 (Future Year Request (\$83,405) Overall Benefit Increase- \$314,960 Total 2026 Request- \$1,177,175 The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. FUTURE YEARS ADJUSTMENT: 83,405					(Yes)	
8	[31-37501]	NEW REQUEST	SHF_PSB Captain New FTE	1.00	288,134	-
The Sheriff's Office (SO) is requesting a 2nd Captain FTE for the public safety bureau. This 2nd Captain would handle client management of our 12 contracts, including our largest client, the 3rd District Court. The addition of this FTE would free up the two lieutenants to focus on the operations of their division, the supervision of the sergeants and personnel issues at the line staff level. Further, the additional Captain FTE would take the span of control from 1 to 145 to 1 to 72.5 which is more in line with other agencies in the valley such as Sandy City which has 3 Captains with a ratio of 1 Captain to 52.3 employees. As noted the client management on the facility side is time intensive due to the number of clients/sites (16) we serve, and their geographical locations spread throughout the valley. This FTE would also provide additional focus and time needed for division specific policy creation, updates, education, and enforcement, as well as management of a 17.5-million-dollar budget. With 145 members and an average of 25% attrition each year, the Bureau requires a heavy management responsibility to lead these members effectively and efficiently.					(No)	
13	[31-37347]	POLICY SIGNIFICANT BASE ADJUSTMENT	SHF_Range Budget Consolidation	(1.00)	(191,778)	(201,120)
The Sheriff's Office (SO) is requesting to consolidate the Range budgets from 3 sub-departments, including personnel, into a single sub-department (9130000500). Moving from the Jail and Public Safety (9120000500 & 9125000500) to a single sub-department will simplify the fiscal and operational needs of the SO Range. This request is budget neutral.					(Yes) (1.00) FTE	
16	[31-37401]	POLICY SIGNIFICANT BASE ADJUSTMENT	SHF_IT Budget Consolidation	-	(151,815)	(151,815)
The Sheriff's Office (SO) is requesting to consolidate IT related budgets including personnel from all 3 Bureau's into the Radio/IT program inside of LEB Technical Support. This will allow command and management to standardize equipment and manage hardware and software needs more efficiently. This request is budget neutral.					(Yes)	
25	[31-37470]	REDUCTION AMOUNT	SHF_Taylorsville Justice Court	(2.00)	-	(16,578)
[Exp: -282,544; Rev: -282,544] The Sheriff's Office (SO) previously had a contract with the city of Taylorsville to fund 2 deputies to serve as a bailiff and security. Taylorsville has decided to end the service contract. This request will eliminate the revenue and expenditures as well as abolish 2 vacant FTEs from the 2026 budget. This request is budget neutral.					(Yes) (2.00) FTE	
38	[32-37666]	STRESS TEST REDUCTION	SHF_Stress Test PSB Captain New FTE	(1.00)	(288,134)	-

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

Request ID and Description				FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
3	[31-37678]	NEW REQUEST	SHF_LEB Sworn Compensation	-	490,955	-
The Sheriff's Office (SO) worked with the County HR Compensation team to analyze and compare compensation for sworn positions in agencies throughout the valley as well as peer counties. With the Law Enforcement Bureau, the recommendation from County HR was a 2.5 % structure/market increase. In addition, a merit increase of 2.75% for those eligible or 1% longevity for those that are at the top of the grade is also requested. Budget Impacts- Grade Change- \$10,393 (due to transfers of Deputy I & II positions from budget consolidation requests) Structure/Market- \$228,565 Merit/Longevity- \$115,604 (Future Year Request \$26,713) Overall Benefit Increase- \$136,393 Total 2026 Request- \$490,955 The Mayor is proposing a 1.25% structure increase to maintain consistency with the adjustment proposed for other employee categories. All other components of this request have been incorporated into the Mayor's proposed budget along with other employee compensation adjustments. Accordingly, the sole remaining purpose of this decision package is to provide for the future-year adjustment necessary to annualize step increases within the 2027 base budget. FUTURE YEARS ADJUSTMENT: 26,713					(Yes)	
5	[31-37509]	NEW REQUEST	SHF_LEB School Security Lieutenant New FTE	1.00	254,495	257,013
The Sheriff's Office (SO) is requesting a new Lieutenant FTE to support school security initiatives as required by State House Bills 40 & 84. Salt Lake County encompasses approximately 350 public and charter schools. In accordance with state requirements, each of these schools must have armed guardian coverage from bell to bell, which necessitates the placement of at least two guardians per school. This results in a potential need for more than 700 trained guardians across the county. Each guardian must attend and complete a 28-hour training including firearm training at the gun range. This new FTE would, in coordination with the County School Security Chief, assist in managing agency coordination, leading training logistics, attending interagency meetings, and supporting other related duties. FUTURE YEARS ADJUSTMENT: -36,500					(Yes) 1.00 FTE	
6	[31-37525]	NEW REQUEST	SHF_LEB Gang Unit Sergeant New FTE	1.00	248,071	250,634
The Sheriff's Office (SO) is requesting new Sergeant FTE for the Metro Gang Unit. The Metro Gang Unit is a multi-jurisdictional task force housed within the SO. The unit includes one Lieutenant, one Sergeant, and four detectives. In addition to these positions, the task force includes numerous full-time and part-time detectives from various local, state, and federal partner agencies. At present, a single Sergeant is responsible for supervising 12 full-time detectives and approximately 20 part-time detectives. This span of control is exceptionally broad and poses significant challenges to effective supervision, particularly given the scale and complexity of the unit's daily operations. The nature of the investigations and enforcement efforts routinely undertaken by the Metro Gang Unit demand close oversight, coordination, and support—needs that cannot be fully met under the current staffing structure. The funding source is requested to be from the new sales tax option for public safety. FUTURE YEARS ADJUSTMENT: -36,500					(Yes) 1.00 FTE	

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description			FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
7	[31-37539]	NEW REQUEST SHF_LEB Choose Gang Free Advocates New FTEs (4)		4.00	438,920	445,068 (Yes) 4.00 FTE
The Sheriff's Office (SO) is requesting 4 new choose gang free case manager FTEs for 2026 and will have an additional request for 2 FTEs in 2027, for a total of 6 FTEs. Currently, the 6-time limited Choose Gang Free Case Managers play a critical role in gang prevention and intervention efforts, working directly with high-risk youth in juvenile facilities and within the Granite and Canyons School Districts. The funding from the school districts has grown unstable and is subject to regular review. Recently, legislative changes have impacted funding for Canyons, and this will be the final school year of funding (ends 6/30/26). This request will enable the program to continue and expand into a County-wide resource, accessible to all schools within Salt Lake County while maintaining the current time limited positions to support Canyons and Granite school districts until funding is exhausted. This request will further enhance our ability to support Juvenile Justice and Youth Services (JJYS) and increase outreach in juvenile detention and treatment facilities. This funding would solidify our commitment to early intervention, reduce youth gang involvement, and ensure consistent, high-quality services across the region. The funding source is requested to be from the new sales tax option for public safety.						
9	[31-37530]	NEW REQUEST SHF_LEB Threat Assessment Deputy New FTE		1.00	225,767	228,040 (Yes) 1.00 FTE
The Sheriff's Office (SO) is requesting a new Deputy FTE to directly handle threat assessments and investigations for threats against County facilities, employees, and/or elected officials. . These assessments can range from routine evaluations requiring no further action to complex investigations that escalate to the state or federal level, often involving multiple law enforcement partners. Currently, these responsibilities are managed by a team of personnel who handle threat assessments as a secondary duty in addition to their primary assignments. This structure limits the consistency and depth of response, especially when dealing with high-risk or resource-intensive cases. The volume and complexity of threat assessments received over the past year clearly demonstrate the need for a dedicated position. These incidents can demand significant time and coordination, making it increasingly difficult to manage them effectively without full-time attention. This dedicated role is essential to ensure timely, thorough, and effective handling of all threat-related incidents that impact the County and its personnel. The funding source is requested to be from the new sales tax option for public safety. FUTURE YEARS ADJUSTMENT: -36,500						
10	[31-37599]	NEW REQUEST SHF_HB378 Mental Health Program Manager New FTE		1.00	215,530	217,489 (Yes) 1.00 FTE
The Sheriff's Office (SO) is requesting a new Mental Health Program Manager FTE for the Employee Mental Health Wellness and Resiliency Program. In requesting this position, the SO will meet the requirements of HB378 found in Section 53-21-102 Mental Health Requirements. The position will perform regular periodic screenings for all employees within the SO; conduct assessments and ensure availability to mental health services for personnel directly involved in a critical incident within 48 hours of the incident; and ensure continuing access to the mental health program for: spouses and children of first responders; first responders who have retired or separated from the agency; and spouses of first responders who have retired or separated from the agency. Further, the SO's plan for the program manager will be progressive and will not only serve the members of the SO but will also provide much needed training for culturally competent therapists, social workers, and counselors for first responders.						
11	[31-37236]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_Range Budget Consolidation		2.00	431,825	446,065 (Yes) 2.00 FTE
The Sheriff's Office (SO) is requesting to consolidate the Range budgets from 3 sub-departments, including personnel, into a single sub-department (9130000500). Moving from the Jail and Public Safety (9120000500 & 9125000500) to a single sub-department will simplify the fiscal and operational needs of the SO Range. This request is budget neutral.						
14	[31-37399]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_IT Budget Consolidation		4.00	1,829,990	1,850,933 (Yes) 4.00 FTE
The Sheriff's Office (SO) is requesting to consolidate IT related budgets including personnel from all 3 Bureau's into the Radio/IT program inside of LEB Technical Support. This will allow command and management to standardize equipment and manage hardware and software needs more efficiently. This request is budget neutral.						
17	[31-37583]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_Fiscal/HR Budget Consolidation		11.00	1,244,910	1,283,075 (Yes) 11.00 FTE
The Sheriff's Office (SO) is requesting to consolidate fiscal and HR personnel budgets from the Jail into SO Administration. This will allow command to more effectively manage the budget and will help in identifying administrative costs for the SO. This request is budget neutral.						
19	[31-37591]	POLICY SIGNIFICANT BASE ADJUSTMENT SHF_LEB Budget True Up		-	-	- (Yes)
The Sheriff's Office (SO) is requesting a true-up of the Law Enforcement Bureau (LEB) budget. When LEB was initially set up, single program codes were used, which don't allow for effective program budget management, tracking, or efficient billing. This request establishes several new program codes to better align outside revenue-funded programs with their respective revenue budgets. The interfund portion is from the Human Services Opioid Settlement. This request is budget neutral.						

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)

	Request ID and Description	FTE Request	Requested Net \$ (Total Exp-Total Rev)	Mayor Proposed
20	[31-37532] NEW REQUEST SHF_LEB Drone Unit The Sheriff's Office (SO) is requesting establishment of a SO drone unit in the budget. The SO currently utilizes drone operators who serve in this capacity as a secondary assignment in addition to their primary duties. As drone technology continues to evolve, its role in modern law enforcement is rapidly expanding, offering critical advantages. Drones have proven invaluable in supporting patrol operations, enhancing situational awareness, and improving response times. Additionally, they are essential tools in Search and Rescue missions, significantly increasing the efficiency and safety of rescue and recovery operations in complex or hazardous environments. To ensure the continued success and growth of this program, this request will cover the following key areas: - Pilot Licensing Subscriptions: Annual FAA certifications or renewals for all drone operators. - Training: Ongoing education and skills development to ensure safe, effective drone operation in various field scenarios. - Accessory Purchase & Replacement: Replacement of worn or damaged parts and acquisition of necessary accessories (e.g., batteries, propellers, controllers). - Drone Equipment: Procurement of new drones and replacement of units that are damaged or obsolete. - Overtime: Compensation for drone operators responding to incidents outside of their regular duty hours.	-	59,000	59,000 (Yes)
21	[31-37534] NEW REQUEST SHF_LEB Genealogist Contract The Sheriff's Office (SO) is requesting funds to contract with a genealogist. Genealogists employ a combination of traditional genealogical methods and advanced DNA analysis to help identify unknown individuals. This investment enhances public safety, demonstrates a proactive approach to violent crime, and reinforces community trust in our agency's commitment to innovation and accountability. The State contracts and pays for a genealogist that the SO has access to but the contract is limited in scope, restricts the number of cases that can be pursued, and funding may end at any time.	-	46,000	46,000 (Yes)
22	[31-37538] NEW REQUEST SHF_LEB Victim Advocate Vehicle The Sheriff's Office is requesting a new fleet vehicle for the Victim Advocate position. The advocate serves in an on-call capacity, responding to incidents as needed—day or night, including weekends and holidays. Historically, this position has been assigned to a dedicated vehicle to ensure a timely and efficient response to victims in the field. However, with the transition from UPD to the SO, a vehicle budget was overlooked. FUTURE YEARS ADJUSTMENT: -30,000	-	40,000	40,000 (Yes)
27	[31-37427] REDUCTION AMOUNT SHF_UPD Transition True Up [Exp: -92,548; Rev: -92,548] The Sheriff's Office (SO) has been clearing prior UPD revenue budgets since the transition that took place on 7/1/24. This is the final revenue contract to be trued up in SO Administration. This request is budget neutral.	-	-	- (Yes)
28	[31-37627] TECHNICAL ADJUSTMENT SHF_Shooting Team The Sheriff's Office (SO) is re-establishing the competitive shooting team due to the transition of law enforcement back from UPD. All SO Bureau's will compete on the team which budget and expenses will be tracked with a new program code. This request is to establish a budget for the new program code and is budget neutral.	-	2,000	2,000 (Yes)
30	[31-37592] NEW REQUEST SHF_LEB Radio Shop FTE Abolishment The Sheriff's Office (SO) is requesting to abolish a radio shop technician (position #11205) that was used to support the reclass of the radio shop manager (position #11204) in early 2025.	(1.00)	(119,882)	(121,550) (Yes) (1.00) FTE
31	[31-37308] GRANT TRUE-UP SHF_LEB Gang Grant True Up [Exp: 4,500; Rev: 4,500] The Sheriff's Office (SO) is requesting a true-up of the State Asset Forfeiture Grant (SAFG) and State Task Force Grant (STFG) to new program codes to ensure better management, tracking, and efficiency. Also, the SO received additional funding for the 2025-2026 STFG and a decrease in funding for the SAFG which true-up is reflected. This request is budget neutral.	-	-	- (Yes)
39	[32-37668] STRESS TEST REDUCTION SHF_LEB Stress Test If the Law Enforcement Bureau's budget were to decrease by 5%, it would adversely affect operations; specifically, the Investigations department, including the drug diversion program and the special investigation program, Law Enforcement administration, and Technical Services. To offset the decrease, the Bureau would hold 5 detective positions and 2 civilian positions vacant, including operating for those positions. The Bureau would also hold operations in the form of computers and components. The impact of this would be an increase in workload to other positions which could cause delays in reports, recovering high-risk individuals for the courts, a decrease in case closures, and a decrease in morale throughout the Bureau. Also, with a hold on operating with computers and components, the Bureau will have to delay replacement schedules which could cause software issues and other impacts on the operations of the Bureau.	-	(1,217,506)	- (No)

	A third Toyota Highlander is requested to support the mission of the Sheriff's Office Law Enforcement Bureau (LEB) and its developing Threat Management Unit (TMU). As requested, TMU will support in a comprehensive and collaborative threat assessment and prevention program, including executive protection. The request for the third Highlander is an addition to the two existing Highlanders that will be moving from Public Safety Bureau to Law Enforcement Bureau, replacing a Toyota Camry. The additional vehicle allows for executive protection deputies in the LEB to have equipment in all vehicles (that would not be able to fit in the Camry). The initial funding request will decrease after purchase, providing for sustainment and maintenance in years following.				(Yes)

CORE MISSION

The mission of the Salt Lake County Surveyor's Office is to serve and enhance the community by providing professional surveying and mapping services with outstanding and quality customer service. This mission includes services to safeguard the quiet enjoyment of property, elevate the provision of County services and protect and preserve the Public Land Survey System which is the foundation of the County's property tax system.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
The Surveyor's Office maintains and protects the Countywide Public Land Surveying System (PLSS).				
• Measure the number of monuments added to the Public Land Survey System (PLSS).	646	450	643	500
• Measure the number of monuments maintained within the existing PLSS.	1,247	2,500	620	1,250
• Measure the number of record of survey plats filed/recorded.	812	950	559	900
The Surveyor's Office collaborates and partners with state, local and federal agencies.				
• Increase the number of Work Orders completed through collaboration and partnership with County agencies and local government.	619	750	361	500
• Increase the number of Work Order Requests for Unmanned Aerial System (UAS).	14	25	4	20
• Measure the number of work requests received from the MSD for services provided by Salt Lake County Surveyor's Office.	59	90	43	60
• Measure the number of direct work requests received from the cities and contract entities (non-MSD) for services provided by Salt Lake County Surveyor's Office.	258	175	86	150
• Measure the expenditures for the development and delivery of new aerial imagery.	1,209.75	350	62.5	100
The Surveyor's Office assesses, observes, maintains, and protects the Countywide Public Land Survey System (PLSS) monuments. [Transformational Initiatives]				
• Increase the number of observations, assessments and restorations of the Public Land Survey System (PLSS) to support the integrity of the County's infrastructure, tax system and the funding of County services.	978	800	814	0

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID and Description				
			FTE Request	Requested Net \$ (Total Exp- Total Rev)
1	[31-37315] NEW REQUEST Revenue True Up/Changes		-	(12,790)
	Revenue projections for 2026 updating based on historical revenue trends from previous years and internal agency requests. Internal billing rates will be increased \$5/hr to adjust for inflation.			(Yes)
2	[31-37327] NEW REQUEST Operating budget increases		-	3,723
	Request for increase to existing budget based on increases imposed by other internal agencies.			(Yes)
3	[32-37581] STRESS TEST REDUCTION Fall 2026 Stress Test Operations		-	(46,125)
	The 5% stress test should be approached holistically, combining both the General and Tax organizations as they operationally overlap one another. For the exercise, we used a lump sum amount for operations and personnel, which would need to be trued-up to the account level if the stress test cuts proceed to the Mayor's proposed stage or beyond.			(No)
4	[32-37582] STRESS TEST REDUCTION Fall 2026 Stress Test Personnel		(0.75)	(85,698)
	The 5% stress test should be approached holistically, combining both the General and Tax organizations as they operationally overlap one another. In the spirit of Mayor's Finance request to reduce each organization by 5%, a reduction of one Field Tech FTE, temps and intergovernmental liaison is required. This reduction is not realistic from an operation standpoint and negatively impact our statutory responsibilities.			(No)
TOTAL NEW REQUESTS (EXCLUDING BASE ADJUSTMENTS):			-	(9,067)
TOTAL BASE BUDGET ADJUSTMENTS:			-	-
TOTAL STRESS TEST REDUCTIONS:			(0.75)	(131,823)

CORE MISSION

The mission of the Salt Lake County Treasurer's office is to efficiently and effectively fulfill the statutory duties of the office. The Tax Collection Division bills and collects the annual property tax assessment. The Accounting Division distributes collected property taxes to the various entities within the county. The Tax Relief Division administers the ten different tax relief programs. The Investment division professionally and prudently manages and invests funds waiting to be distributed to outside entities as well as those that will remain in the county funds.

OUTCOMES AND INDICATORS

	2024 Actuals	2025 Target	2025 YTD July Actual	2026 Target
Salt Lake County taxing entities receive the taxes that are due.				
• Maintain the total percentage of tax dollars collected during the current tax collection period at 98%.	97.65%	98%	97.5%	98%
Eligible Salt Lake County residents receive tax relief.				
• Increase the total number of tax relief applications approved and reported to the State Tax Commission, from 13,821 applications as of the end of February 2025 to over 14,000 applications by end of February 2026.	13,239	13,500	13,821	14,000
Non PTIF performance				
• Beat the average yield from comparable government entities on a quarterly basis. (Salt Lake County yield minus comparable government entities yield is greater than zero.)	(0.5%)	0.45%	(0.23%)	0.3%

NEW REQUESTS & STRESS TEST REDUCTIONS (prioritized with the most preferred at the top)				
Request ID and Description				
			FTE Request	Requested Net \$ (Total Exp- Total Rev)
0	[31-37500] NEW REQUEST Postage and Contracted Printing Increase		-	25,500
	Postage rates have increased 9% since the first half of 2025 in addition to an increase in printing costs. After adjusting our budget expenditures, we've found that a \$25,500 increase is needed to meet our statutory obligation of mailing out tax notices.			(Yes)
0	[32-37589] STRESS TEST REDUCTION Tax Relief Reduction		-	(227,352)
	If we had to cut costs by 5%, and because we are statutorily obligated to provide certain services, we could reduce our tax relief department, as it is not required by law to provide that service to the taxpayer by the Treasurer's Office. However, by eliminating this department from the Treasurer, it would need to be housed in another area of the County.			(No)
0	[32-37590] STRESS TEST REDUCTION Temporary Employee Reduction		-	(149,420)
	To reach the 5% in cost reduction, we could eliminate the use of temporary workers within our office. However, this reduction would severely impact the treasurer's office to serve the constituents in a timely manner during our busiest time. This would likely decrease the tax collection rate and could have an impact of higher taxes in the future.			(No)
0	[32-37593] STRESS TEST REDUCTION Computers and Components Reduction		-	(18,085)
	To help reach the 5% reduction, we could eliminate upgrades to our hardware. The impact could put the Treasurer's Office at risk due to outdated equipment. IS has recommended maintaining a replacement rotation to keep hardware current.			(No)
0	[31-37795] REVENUE PROJECTION CHANGE CTAA Revenue		-	(51,000)
	2026 revenue projection adjustment			(Yes)

Mayor Jenny Wilson

Salt Lake County 2026 Proposed Budget

Presented by Darrin Casper, CFO

2026 Budget Goals

- Stay fiscally conservative
- Re-establish structural balance in tax funds
- Budget general fund and other funds at or above minimum reserve
- Illuminate facilities issues and costs

2026 Budget Direction

- New requests must be justified with outcomes meaningful to county residents
- All information technology initiatives must be reviewed by TAB
- All revenue adjustments \$100K+ must be vetted by revenue committee
- Incorporate new debt service into budget

Facilities Legislative Intent

- Fiscal segregation in progress – key to understanding cost
 - Segregating embedded costs county-wide into facility specific cost codes
 - Neutral budget adjustment anticipated in council stage
- Training all organizations on FAMIS 360
 - Collect data on all county facilities
 - Monitor work orders
- County facilities project committee – to review standards, policies and drive toward leg intent
- Communication – SharePoint site, keep all folks on same page

Committees and Boards

- Board of Health
- TRCC Advisory Board
- Technology Advisory Board
- Capital Projects Prioritization Committee
- Revenue Committee
- And Others

Economic Highlights 2026

- Salt Lake County employment is strong, but beginning to cool
- Utah one of ten states projected to experience economic growth – Tailwinds:
 - Unemployment strong at 3.4% in Salt Lake County
 - Downward presumption on Fed Funds rate
- Recognize both “uncertainty and resilience” - Headwinds include:
 - Tariffs – from 2% to 4% to 15% next year
 - Migration – contracting labor force

Structural Analysis

2026 New Growth Summary

Key Funds—Compared to 2025 Adjusted Budget

Fund (\$M)	NEW GROWTH IN TAXES	New Sales Tax (6 mo)	TOTAL CHANGE

Truth In Taxation Process

- On or before Oct 1 notify Auditor and Tax Commission:
 - Date, time and place of public hearing
 - Scheduled 12/09/2025 - 6:00PM
 - Salt Lake County Government Center, 2001 S State St, Rm N1-110 Council Chambers
 - Salt Lake City, UT 84190
 - Notice sent by council staff on 9/24/2025
- 14 days or more before election (agenda and statement)
 - Intent to levy rate exceeding the certified tax rate
 - Amount and purpose
 - Approximate % increase

Statement of Tax Rate Increase

Amount of Increase

Percent Increase

- County-wide rate increase: 0.000249 (from 0.001270 to 0.001519)
- Percent increase: 19.63%
- Total dollar increase: \$48,900,000
- Impact on average home/business with value of \$638,000:
 - Per year: \$87.37/\$158.86
 - Per month: \$7.28/\$13.24

Purpose of Tax Increase Statement

The purpose of this increase is to address inflationary pressures and rising operational costs associated with essential County services, including tax administration, information technology, data security, and general government operations. The additional revenue will also support investments in public safety to meet increased caseloads and growing demands on the county jail, the District Attorney's Office, and programs that provide alternatives to incarceration. Furthermore, the County must fund several new state-mandated programs that are currently unfunded. Finally, a portion of the increase will be allocated to debt service on bonds issued for the new government center campus, as well as a small share of the debt service related to the renovation of the Salt Palace Convention Center.

Truth In Taxation Process

- 7 or more days before election
 - Notice mailed to each property owner in county (postcard)
 - Notice details specified in statute
 - Information technology files sent to printer on 10/17/2025
- Advertising requirements 14 days prior to public hearing
 - Details posted on county website
 - Utah Legals
 - Utah Public Notice website
 - Public location within the county that is reasonably likely to be seen by residents of the county

Truth In Taxation Process

- Hold public hearing on 12/9/2025 at 6:00PM in Council Chambers
- A calendar year taxing entity may not adopt a final budget that budgets an amount of additional ad valorem tax revenue that exceeds the largest amount of additional ad valorem tax revenue **stated at a public meeting** 59-2-919 (9)(b)

Distribution of \$48.9M

- Debt Service
 - \$8.7M for new government campus
 - \$3.0M for anticipated Salt Palace debt obligation
- Restore Structural Balance (restore borrowed tax rates/inflation)
 - Planetarium \$0.6M
 - Flood Control \$2.3M
 - Capital Improvements \$2.9M
 - Heath \$5.4M
 - Tax Admin \$5.9M
 - OPEB \$2.5M
 - General \$1.4M
- Program Expansion Needs
 - Criminal Justice \$4.5M (excludes other dedicated funding sources to criminal justice)
 - Criminal Justice Surplus \$9.0M (planned phased programming for 2027)
 - Information Tech. \$3.9M

Ending Unassigned Fund Balance

Budget Highlights

Proposed 2026 Budget

Compensation & Benefits Package

Grade/structure/other pay increases effective 1/1/2026

- Non-Sworn Employees
 - 1.25% structure and pay increase
 - 2.0% pay increase, or 1.0% longevity payout for those at the top of the range
- Sworn Employees (Sheriff & District Attorney)
 - Grade Increase for Deputy Grades 18-19, 2 Grade Increase for Deputy Grades 14-16
 - 1.25% structure and pay increase
 - 2.75% pay (step) increase on anniversary date, or 1.0% longevity payout for those at the top of the range

Compensation & Benefits Costs

in millions \$

Non-Sworn Structure and Pay Increase	\$9.7
Sworn Structure and Pay Increase	2.3
Sworn Market Based Grade Changes	2.0
Indigent Legal/USU Pay Parity	0.9
Health Insurance Increase 3.5%	<u>2.4</u>
Total	\$17.3

Health Insurance

- 3.5% Health insurance increase
 - Increase impacts employees' monthly costs in the PPO plans
 - All departmental organizations with health insurance line items
 - May draw down excess fund balance of the health account in ESR
- Deductibles and out of pocket max remain the same
- High-Deductible plans are financially superior for employees
 - Currently approximately only 80% of employees are enrolled in the high-deductible plans

Prior Year True-ups

- OPEB charges return to normal in 2026
 - \$2.5M one-time reduction in 2025
- Fleet Levy back to normal in 2026
 - \$8.8M one-time reduction in 2025 to adjust cap rate to 70%
